Here are some things students often do.

No-garbage (垃圾) lunches. How many lunch bags do you throw away after lunch? Environment clubs ask students to bring their lunches in bags that can be used again. Every week they will choose the classes that make the least garbage and report them to the whole school.

No-car day. On a no-car day, nobody comes to school in a car including (包括) the students and the teachers. Cars give pollution to us, so remember: Walk, jump, bike, or run! Use your legs! It's lots of fun!

Turn off the water! Do you know that some toilets (厕所) can waste twenty to forty cubic meters (立方米) of water an hour? In a year, that would fill in a small river. In the environment clubs, students mend (修理) those broken toilets.

阅读短文, 并按要求完成71~75题。

How can you study efficiently (有效地)?

Never try to work when you are very hungry. If you want to do your homework right after school, you may want to eat something before getting to work. Always do your homework before you get too tired. Don't wait until very late in the evening, or your homework will seem much harder than it really is. If you have more than an hour's work, you should give yourself a break (休息) after an hour. On the other hand, you should work at least half an hour a time without stopping.

Don't put it off (推迟) until the last minute. If you put off doing your homework, you will have it on your mind, and you won't enjoy your free time so much. If you put it off until the end of the week or until night

before a test, you will have too much homework to do. A little each night will take the fear (恐惧) out of tests and keep you on top of it.

Once (一旦) you have a dream, what do you do with it? Do you ever try to make your dream come true? Andrew Matthews, an Australian writer, tells us that realizing (实现) your dream is life's biggest challenge (挑战). You may think you're not very good at some school subjects, or that it's impossible for you to become a writer. Those kinds of ideas stop you from realizing your dream.

In fact, everyone can realize his dream. The first thing you must do is to remember what your dream is. Don't let it leave your heart. Keeping telling yourself what you want every day and then your dream will come true faster. You should know that a big dream is, in fact, made up of many small dreams.

You must also never give up your dream. There will be difficulties on the road to your dream. But the biggest difficulty comes from yourself. You need to decide what is the most important. Studying instead of

watching TV will help you to get better exam results, while saving five *yuan* instead of buying an ice cream means you can buy a new book.

As you get closer to your dream, it may change a little. This is good as you have the chance to learn something more useful and find new hobbies.

Healthy eating doesn't just mean what you eat, but how you eat. Here is some advice on healthy eating. Eat with others. It can help you see others' healthy eating habits. If you usually eat with your parents or friends, you will find that the food you eat is more delicious.

Listen to your body. Ask yourself if you are really hungry. Have a glass of water to see if you are thirsty — sometimes you are just thirsty, you need no food. Stop eating before you feel full.

Eat breakfast. Breakfast is the most important meal of the day. After you don't eat for the past ten hours, your body needs food to get you going (运转). You will be smarter after eating breakfast.

Eat healthy snacks like fruit, yogurt or cheese. We all need snacks sometimes. In fact, it's a good idea to eat two healthy snacks between your meals. This doesn't mean that you can eat a bag of chips instead of a meal.

Don't eat dinner late. With our busy life, we always put off (推迟) eating dinner until the last minute. Try to eat dinner at least 3 hours before you go to bed. This will give your body a chance to digest (消化) most of the

Happiness is for everyone. You don't need to care about those who have beautiful houses with large gardens and swimming pools or those who have nice cars and lots of money and so on. Why? Because those who have big house may often feel lonely (寂寞的) and those who have cars may want to walk on the country roads at their free time.

In fact, happiness is always around you if you put your heart into it. When you are in trouble at school, your friends will help you; when you study hard at your lessons, your parents are always taking good care of your life and your health; when you get success, your friends will say congratulations (祝贺) to you; when you do something good to others, you will feel happy, too. All these are your happiness. If you notice (注意) them, you can see that happiness is always around you.

Happiness is not the same as money. It is a feeling of your heart. When you are poor, you can also say you are very happy, because you have something else that can't be bought with money. When you meet with difficulties, you can say loudly you are very happy, though you have bad luck. As the saying goes, life is like a

revolving (旋转) door. When it closes, it also opens. If you take every chance you get, you can be a happy and lucky person.

Do you wonder what an American high school is really like? This article describes a typical (典型的) high school and its students in America.

A typical American high school has several large buildings and enough space for about 1,500 students. Every student has a locker (柜). When students first arrive at school, they go straight to their lockers to put away or get their textbooks and to hang up their outdoor clothes. As American textbooks are expensive, students would rather loan (租借) than buy them. Students must pay back if they lost any of them.

Each day, students take six or seven classes. They must take science, math, English and social studies. They can choose art, homemaking, fashion design and other classes. In some schools, students are required (被要求) to take one or more of the following special classes: health education, physical education or foreign language studies. Students move to different classrooms for each subject. This is because each teacher has their own classroom. There is a five-minute break between classes, to give the students the time to hurry to their next classes.

The regular school day usually ends early in the afternoon. After school, more than half of the students join in after-school activities. These activities include sports — especially soccer, basketball and baseball or clubs,

such as yearbook, speech, photograph or student government.

Men always wonder about the earth they live on and about the sky above them.

When early men looked at the night sky, they asked themselves a lot of questions. They looked at the moon, and wondered what this strange bright object (物体) in the sky was. They did not understand (明白) why it changed its shape from night to night. They looked at the stars and planets. They also wondered why some of them changed their positions (位置), while others did not.

They also thought about the shape of the earth. Most early people believed the earth was flat (平的).

In different parts of the world, there were different ideas about the universe (宇宙). The ancient Greeks were the first people to study the universe more scientifically. In the sixth century BC, Pythagoras (毕达哥拉斯) put forward the idea that the world was round. However, he could not explain why people at the bottom of the world did not fall off.

In the sixteenth and seventeenth centuries, scientists found the answers to some important questions. With the help of Galileo's telescope (望远镜), people could see the sky more clearly, and find the positions of the stars and planets. Finally in 1665, Newton explained to the world what gravity (重力) was. And people at last understood why they did not fall off the earth.

Every year thousands of young people in England finish school and then take a year off before they start to work or go to university. Some young people go to other countries and work as volunteers (志愿者). Volunteers give their time to help people. For example, they work in schools or hospitals, or they do something helpful for the environment.

Pauline Jones, 18, lives in Cardiff, Wales. Next year she will go to university to study Chinese, but now she's living in Belize. Pauline says, "I'm working with other people here to save the coral (珊瑚) reefs (暗礁) in the sea near Belize. The reefs here are beautiful, but if the sea water is very polluted, the coral will die. I'm helping to do research (研究) on the coral and the fish that live around the reefs. All over the world, coral reefs are dying. We need to do something to solve the problem before it's too late."

"I'm staying with a family here and I help do some housework. I don't get any money, but that's OK. I love my work here, and I'm learning a lot about the people of Belize — and myself! When I finish my work, I want

to stay here for another three months. I want to travel around Belize and Central America."

Early to bed and early to rise makes a man healthy, wealthy and wise. This is an old English saying. It means that we should go to bed early at night and get up early in the morning. If we do, we shall be healthy. We shall also be rich and smart.

Is this true? Perhaps it is. The body must have enough sleep. Children of your age need ten hours' sleep

every night. If you go to bed late, you can't have enough sleep. Then you can't think carefully and your homework will be wrong. You will not be wise and you may not become wealthy!

Some people go to bed late at night and get up late in the morning. This is not good for them. We should sleep at night when it is dark. The dark helps us sleep well. When the daylight comes, we should get up. This is the time for exercise. If the body is not used, it will become weak. Exercise keeps it strong.

Exercise helps the blood (血液) to move around inside the body. Blood takes nutrition (营养) to all parts of our bodies. The brains (大脑) in our heads also need blood. We think with our brains. If we keep our bodies healthy, and take exercise, we can think better!

Our bodies also need air to breathe (呼吸). Without air we will die. Get up early in the morning and we can have lots of clean, fresh air. That will keep us healthy and happy.

- ()61. The old English saying tells us _____.
A. how to make more money B. when we should get up
C. it is important to go to bed and get up early D. to stay up late

- ()65. Which of the following is not right?

C. Dark is good for sleeping. D. People will die without air.

阅读短文, 并按要求完成 71~75 题。

It is not easy for people to sail (航海) around the world in quite small boats. Sometimes the weather gets bad. Accidents (事故) can happen easily and quickly.

One family once had an accident. A big fish swam under their boat and bit (咬) holes (洞) on it. Sea water came in and the boat soon went down. Luckily, these people had another small boat — a lifeboat, so they all got into the lifeboat. They lived in the boat for many days. They ate and slept, and always hoped. At last people in a ship saved them.

How do people live in a very small lifeboat for a long time? They must be strong in every way. They must have a hope, and they must have a strong desire (愿望) to live. People cannot drink seawater. If they drink a lot of sea- water, they will quickly die. They must catch rainwater and drink it. They must also catch fish and birds for food. Lifeboats do not often carry cookers. So people cannot cook their food in the lifeboats. They must eat

raw (生的) food. Raw fish and birds are not very nice, but they are their only food. If they don't eat them, they will die.

The haze season (霾的季节) is back. How much do you know about haze? Let me tell you something about haze and how to defense (抵御) it.

Haze can also be called “smog”. The word “smog” is from the words “smoke” and “fog”. It is a kind of air pollution mostly because of cars and factories.

Smog will do great harm (伤害) to your health. It can make you cough and have skin and eye problems. It seems that we can do nothing to stop it, but only wait until the wind blows all the smog away. However, there are some easy ways to stop it from hurting you. Here are some of them.

- Don't do exercise in the open.
Exercising in the open makes you breathe deeply (深呼吸), and you will take in the particles (颗粒物) deep into your lungs.
- Stay indoors and keep the air clean.
If you can, just stay in your room and keep the doors and windows closed. Remember to air your room twice a day, you can open the window at noon or at night for half an hour.
- Wear a mask (面具).
Paper and cotton masks can not help you in the haze weather. Some special masks, such as N95 masks, can keep you from breathing in the particles in the air.
- Change your diet.
Scientists find that vitamin A, C and E can greatly help protect your eyes, nose and lungs. So eat more green vegetables and fresh fruit every day. What's more, do not eat food with too much fat.
