After some discussion as to whether it is preferable
to purchase the ships at such extreme price for a public
improvement, and taking into consideration that they

£500 for the ship of Lok 281, and if he accepts, to

water recently supplied to the public, and recommending
that it should be brought to the notice of the

The Chairman mentions that Dr Henderson Capl. 16th Gun, and Mr Murray met him informally last week to consider whether they would not constitute themselves into a Sanitary Board in order to keep the Council informed about the sanitary condition of the Settlement. It was then arranged that their meetings should have a meeting every fortnight at which Mr Cameron the Sanitary Inspector should also be present, upon any matter affecting the health of the Settlement should be discussed, that regular Minutes should be kept, and entered in a

He gets \$1,000 ^{per annum} for looking after the cemetery, and charges extra for supplying shrubs &c. It is then agreed that Mme Scott, Siebe & Jausu are to inspect the cemetery and report upon the state in which it is kept.

✓ Finance - Public Trial, Referring to the correspondence with Messrs. Jardine Matheson & Co & Mr. G. R. Marshall about the removal of the alley way between Cadzawra Lots 297 & 298 to the Peking road, the Government mutations that the Report informed Mr. Blagrove that he thinks the alley way was originally a part of Lot 297 but that it has been used by the public as a road for a great number of years, and cannot now be closed. Water Supply Letter from the Water Works Co is read stating that the unwholesome appearance of the water to which the Health Officer has directed the attention of the Council is caused by the presence of very minute particles of mica which although removable by an ordinary domestic filter, are not so by the methods of filtration adopted by Water Works Companies.

27

Decided, to send a copy of this letter to the Health Officer, and to ask him if he considers the explanation satisfactory.

Re Another letter from the Health Officer is read submitting for the inspection of the Council five samples of water taken from different sources and his report on them.

Decided, to publish this letter along with the Minutes of last meeting.

Volunteers Paid Adjutant, Letter from the Officers of the Corps is read expressing their regret at the resignation of Major Holliday owing to his being unable to spare the time required for the duties of Commandant, and suggesting that a paid official should be appointed, to act as Adjutant, and perform all the clerical and detail work connected with the Corps.

use its branches, which would relieve the Commanding Officer of many laborious duties which he has to perform at present. Unless this is done they think that there will be the greatest difficulty in filling the Vacancy, caused by the resignation of Major Holliday, as it seems to them unreasonable to expect anyone with business of his own to sacrifice sufficient time for the proper performance of the duties that devolve on the Commanding Officer.

A discussion thus takes place about the proposed appointment in the course of which doubts are expressed whether the rate payers would sanction the additional expenditure on the Volunteer, which it would entail amounting to £3 or £4000 per annum, and it is suggested that Major Morrison if asked might be willing to undertake the duties of Commanding Officer; finally, it is agreed that as the Council Firm of Officers is nearly over, the matter must be left to the incoming Council, or that it should stand over to the rate payers' Meeting when a resolution concerning the suggested appointment can be brought forward by some friend of the officer of the Corps.

25 It is thus decided to write to their effect to Mr. Cuspidor Clark Esq.

✓ Clinical Reports, The reports for 1892 from the Commanding Officer of the Volunteer Corps, the Captain Superintendent of Police, the Sanitary Inspector, and the Public Gardens Committee, are submitted.

26 Tombstone for the late Mr. Howes, Letter from Mr. J. A. Howes is submitted enclosing sketch of the tombstone got out from home by the late Mr. Howes for his deceased wife, and Memo of what the family would wish inscribed on the stone which the Council propose to erect to his memory. The Sheriff having mentioned that the Tombstone got out from home is made of polished Aberdeen granite and cost £57, it is decided to instruct Mr. Buggins to enquire about getting one from Elie. As to the inscription, it will be sufficient to put on it that the Tombstone is erected by the Council as a mark of their esteem, and respect, for the late Mr. Howes, with his age &c.
