AND TO L.A.L.

ACKNOWLEDGMENTS

I owe much to Charles C. Fries, founder of the English Language Institute, whose insights into language and language teaching and learning have stimulated my work along lines that have yielded valuable knowledge. *Teaching and Learning English as a Foreign Language* and *The Structure of English* by Fries would be particularly useful reading in connection with the discussions and experience presented here.

I also acknowledge with gratitude my introduction to the field of measurement by H. T. Manüel, whose work on the *Inter-American Tests* attracted me to research on testing. The interest shown by my colleagues at the English Language Institute and in other departments of the University of Michigan and elsewhere was helpful in the long undertaking of developing new tests and writing the book.

The final writing of the material was made possible by a sabbatical leave from the University of Michigan supplemented by a travel grant from the Horace H. Rackham School of Graduate Studies. To them, and more specifically to the administration and colleagues who processed the applications and shared the work involved, my humble tribute and gratitude.

Mr. Bonifacio P. Sibayan of the Philippines made the invaluable contribution of reading the typescript critically in detail and discussing with the author every point that did not seem clearly presented or fully thought through. Many improvements resulted from Mr. Sibayan's constructive criticisms.

PREFACE

This book is a comprehensive introduction to the construction and use of foreign language tests. It incorporates modern linguistic knowledge into language testing as one of its chief contributions. The development of modern linguistics during the past thirty-five years permits the analysis of the problems that students have in learning a foreign language with an accuracy and precision that can result in vastly improved testing instruments and programs.

The theory of language testing evolved from the experience that led to this book is discussed in Part I. Specific techniques for testing the "elements of language," namely pronunciation, intonation, stress, grammatical structure, and vocabulary, appear in Part II. Part III presents the testing of auditory comprehension, reading, writing, speaking, and translation, which are labeled "integrated language skills." Part IV, "Beyond Language," discusses possible ways of testing cross-cultural understanding and other higher values. The last part deals with the refining and use of language tests. This part includes norms, validity, reliability, item analysis, equivalent forms, designing experiments, and diagnostic, achievement, and aptitude testing.

The material is primarily intended for teachers of foreign languages and of English as a foreign language. Test makers will be interested in its linguistic content and point of view. Prospective language teachers will gain valuable insights from its perusal, and scholars interested in research and experiments on teaching and learning language will want to read it. Linguists who are not acquainted with modern testing can use the book as an introduction to the field as it concerns foreign languages. The author hopes that teachers and graduate students will be encouraged to conduct language learning experiments and to report them in the professional journals so that increasingly we may speak on the basis of knowledge rather than from opinion and

PREFACE

hypotheses alone, valuable as these are at proper stages in the development of man's thought.

The style has been kept as non-technical and as simple as possible because of the variety of backgrounds of the intended readers. Linguistic terminology is not always familiar to the average teacher and test maker; and testing terminology is not often familiar to language teachers and linguists. The chapters will vary in difficulty, but they can be read with understanding by the average reader for whom it is intended.

We are indebted to the following for permission to quote copyright material:

Professor J. B. Carroll for material from *Construction and Validation of a Test Battery for Predicting Success in Spoken Language Courses* by J. B. Carroll, S. M. Sapon and S. E. Richards (Report No. 1, 1954—The Harvard Language Aptitude Project); Ginn and Company, Boston, for material from *An Investigation of Second-Language Teaching* by F. B. Agard and H. B. Dunkel; and Mr. Leo Rosten for material from *The Education of Hyman Kaplan* by Leonard Q. Ross, published by Constable and Co. Ltd. and Harcourt, Brace and World Inc., copyright 1937.

June, 1959

ROBERT LADO

Part I

GENERAL INTRODUCTION AND THEORY OF FOREIGN LANGUAGE TESTING

	<i>page</i>
1. LANGUAGE	
1. INTERNATIONAL COMMUNICATION AND THE STUDY OF LANGUAGES	1
2. LANGUAGE AS A SYSTEM OF COMMUNICATION	2
3. THE MOST COMPLEX OF MAN'S TOOLS	4
4. LANGUAGE, CULTURE, AND THE INDIVIDUAL	5
5. THE STRUCTURE OF LANGUAGE	6
6. EACH LANGUAGE IS A STRUCTURALLY DIFFERENT SYSTEM	8
1. Unity in the variety of the languages of the world	
2. The differences are not merely a matter of words or variations of form	
3. Each language is a structurally different system of communication	
7. SELECTED REFERENCES	10
2. LANGUAGE LEARNING	
1. LEARNING THE NATIVE LANGUAGE	11
2. LEARNING A FOREIGN LANGUAGE	13
1. Habit	
2. Transfer	
3. A FEW EMPIRICAL OBSERVATIONS AND THEIR POSSIBLE SIGNIFICANCE	14
1-7. Specific observations	
8. General observation	
9. Corollary	
4. HOW WE LEARN A FOREIGN LANGUAGE	17
1. Elements	
2. Order of learning	
3. Age	
5. SELECTED REFERENCES	19
3. LANGUAGE TESTING	
1. RELATION OF LANGUAGE TESTING TO LANGUAGE LEARNING	20

CONTENTS

	<i>page</i>
2. TESTING THE NATIVE LANGUAGE	20
1. Problems	
2. Dialect differences	
3. Faulty logic	
4. Lack of vocabulary	
5. Writing	
6. Style	
3. THEORY OF FOREIGN LANGUAGE TESTING	22
1. Theory	
4. VARIABLES AND STRATEGY OF LANGUAGE TESTING	
1. VARIABLES	25
1. The elements	
2. The skills	
2. STRATEGY IN FOREIGN LANGUAGE TESTING	26
1. Situation versus language	
2. Skills versus elements of language	
3. Group testing versus individual testing	
4. Objective versus subjective tests	
5. CRITICAL EVALUATION OF TESTS	
1. CRITERIA FOR THE EVALUATION OF LANGUAGE TESTS	30
1. Validity	
2. Reliability	
3. Scorability	
4. Economy	
5. Administrability	
2. CRITICISM OF SOME GENERALLY USED TECHNIQUES	32
1. Translation	
2. Essay	
3. Dictation	
4. Objective tests	
5. Auditory comprehension tests	
3. BIBLIOGRAPHICAL NOTES	37

Part II

TESTING THE ELEMENTS OF LANGUAGE

6. PRONUNCIATION: THE SOUND SEGMENTS	
1. PHONEMICS AND PRONUNCIATION TESTS	39
1. Role of pronunciation	
2. Testing of pronunciation	
3. Phonemic point of view	
4. Production versus recognition	
5. Informal classroom tests versus formal tests of pronunciation	
6. Age	

CONTENTS

	<i>page</i>
2. PRONUNCIATION PROBLEMS: WHAT TO TEST	42
1. Stage 1	
2. Stage 2	
3. Stage 3	
4. Recognition	
5. Production	
7. TESTING RECOGNITION OF THE SOUND SEGMENTS	
1. RECOGNITION TECHNIQUES	46
1. Group testing	
2. Individual testing	
2. SOUND TO GRAPHIC SYMBOL	48
<i>Perception technique 7.1: Sound to digits</i>	
<i>Perception technique 7.2: Sound to letters</i>	
<i>Perception technique 7.3: Dictation</i>	
<i>Perception technique 7.4: Sound to phonemic symbols</i>	
3. SOUND TO SOUND	52
<i>Perception technique 7.5: Minimal pairs</i>	
<i>Perception technique 7.6: Triplets</i>	
<i>Perception technique 7.7: Quadruplets</i>	
<i>Perception technique 7.8: Comparing sounds to a model</i>	
4. TESTING THE RECOGNITION OF SOUNDS THROUGH MEANING	56
<i>Perception technique 7.9: Sound to pictures</i>	
A word and two pictures	
A sentence and two pictures	
Three choices	
Composite pictures	
5. PREPARING AND USING INFORMAL CLASSROOM TESTS OF RECOGNITION	60
1. List of problems	
2. Finding words and phrases that contain the problems	
3. Preparation of items	
4. Types of answers and answer sheets for informal tests	
5. Giving the test	
6. Scoring informal tests	
6. FORMAL TESTS OF RECOGNITION	71
1. Listing the problems and choosing the words	
2. Preparing the items	
3. Editing of form X-1	
4. Instructions to the examiner	
5. Instructions to the student	
6. Using native speakers and non-native speakers in the validation of a test	
Native speakers	
Non-native speakers	

CONTENTS

	<i>page</i>
8. TESTING PRODUCTION OF THE SOUND SEGMENTS	
1. INTRODUCTION AND GENERAL CONSIDERATIONS	78
1. Recognition usually runs ahead of production	
2. Production of the sound segments for communication	
3. Vagueness of the testing of pronunciation in production tests	
4. Informal unsystematic listening is ineffective	
5. Need to test production problems specifically	
2. TECHNIQUES TO TEST PRODUCTION OF THE SOUND SEGMENTS	81
1. Stimuli for production of the problems	
<i>Pronunciation technique 8.1:</i> Verbal stimuli	
<i>Pronunciation technique 8.2:</i> Picture stimuli	
<i>Pronunciation technique 8.3:</i> Reading matter as the stimulus	
<i>Pronunciation technique 8.4:</i> Translation	
<i>Pronunciation technique 8.5:</i> Completion items	
Form and conditions of the oral response	
2. Scoring the production test	
3. Group tests versus individual tests of production	
3. INFORMAL TESTS OF PRODUCTION	87
1. List of production problems	
2. Choosing words and phrases that contain the problems	
3. Writing the test	
4. Giving the production test to the members of a class	
5. Scoring the test	
4. FORMAL TESTS OF PRODUCTION	92
1. Instructions	
2. Experimental administration to native speakers	
3. Experimental administration to a representative sample of students	
4. Administration of the production test; norms; etc.	
5. PARTIAL PRODUCTION TECHNIQUES	95
1. Objective, paper-and-pencil techniques that approximate the testing of production	
2. Validity of partial production techniques	
3. Techniques	
<i>Pronunciation technique 8.6:</i> Full spelling technique	
<i>Pronunciation technique 8.7:</i> Omitted letters technique	
<i>Pronunciation technique 8.8:</i> Picture context	
<i>Pronunciation technique 8.9:</i> Multiple choice with omission of key letters	
<i>Pronunciation technique 8.10:</i> Rhymes	

CONTENTS

	<i>page</i>
4. General comments	
5. Preparing the partial production test	
9. THE TESTING OF "STRESS"	
1. IMPORTANCE OF STRESS FOR COMMUNICATION	105
1. Identification of words	
2. Contextual prominence	
3. Rhythm	
4. Influence of stress and rhythm on segmental phonemes and morphemes	
2. STRESS PROBLEMS IN LEARNING A FOREIGN LANGUAGE	109
1. Criteria for selecting words, phrases and utterances to illustrate the stress problems to be tested	
3. TESTING STRESS	111
<i>Stress technique 9.1: Perception of the syllable receiving a particular stress</i>	
<i>Stress technique 9.2: Production</i>	
<i>Stress technique 9.3: Partial production</i>	
4. PREPARING A TEST OF STRESS	115
5. BIBLIOGRAPHICAL NOTES	116
10. THE TESTING OF INTONATION	
1. INTONATION	117
1. Intonation borders	
2. Form, meaning, distribution	
3. Dialect differences	
2. INTONATION PROBLEMS	121
1. Knowing the intonation of a language	
2. The learning problems	
3. List of problems: production and recognition	
3. TECHNIQUES FOR THE TESTING OF INTONATION	123
1. Problems of indeterminacy and variation	
2. Perception techniques	
A. Comparison of intonation with intonation	
<i>Intonation technique 10.1: Minimal intonation pairs</i>	
<i>Intonation technique 10.2: Triplets</i>	
B. Identification of an intonation through some written representation	
(a) Multiple choice techniques	
<i>Intonation technique 10.3: Intonation represented by lines</i>	
<i>Intonation technique 10.4: Intonation represented by letters</i>	
<i>Intonation technique 10.5: Intonation represented by numbers</i>	
(b) <i>Intonation technique 10.6: Dictation</i>	

CONTENTS

	<i>page</i>
C. Comprehension techniques	
<i>Intonation technique 10.7</i> : Through direct meaning of the intonation	
<i>Intonation technique 10.8</i> : Through total meaning that hinges on an intonation contrast	
3. The use of recordings to test intonation	
4. Production techniques	
Conversational stimuli	
Picture stimuli with accompanying instructions	
Retelling something just read	
Reading aloud as an intonation test	
5. Scoring the production test of intonation	
6. Group tests of intonation on a production level	
7. Partial production techniques	
Writing the intonation with letters or numbers	
Comparing intonation with intonation	
4. PREPARING AN INTONATION TEST	139
5. BIBLIOGRAPHICAL NOTES	139
II. TESTING CONTROL OF THE GRAMMATICAL STRUCTURE OF A FOREIGN LANGUAGE	
1. INTRODUCTORY	141
2. WHAT IS GRAMMATICAL STRUCTURE?	142
1. Definition of grammatical structure	
2. Grammatical patterns	
3. Levels of grammatical structure	
4. Grammatical categories	
5. Grammar as set of habits	
3. STRUCTURE PROBLEMS AS DETERMINED BY THE NATIVE LANGUAGE	146
1. Transfer	
2. Testing control of the problems is testing control of the language	
3. Comparison of the structures of the native and the foreign languages	
4. Production versus recognition	
4. RECOGNITION TECHNIQUES TO TEST GRAMMATICAL STRUCTURE	150
1. General recognition technique	
2. Controlling the context	
3. Speed of presentation	
4. Length of test utterances	
<i>Structure technique 11.1</i> : Action response	
<i>Structure technique 11.2</i> : Pictures	
5. Observation of speech in real language situations is impractical and inaccurate	

CONTENTS

	<i>page</i>
<i>Structure technique 11.3</i> : Choices in the goal language	
<i>Structure technique 11.4</i> : Choices in the background language	
<i>Structure technique 11.5</i> : Translation into the background language	
<i>Structure technique 11.6</i> : Grammatical usage	
6. Comparing structure with structure is unproductive	
5. BIBLIOGRAPHICAL NOTES	163
12. TESTING PRODUCTION OF THE GRAMMATICAL STRUCTURE OF A FOREIGN LANGUAGE	
1. COMPLEXITY OF THE PROBLEM	164
2. PRODUCTION TECHNIQUES	165
1. The problem of objective scoring of production tests	
2. Effective stimuli to elicit the key responses	
3. Actions as stimuli	
4. The physical environment as stimulus	
5. Language stimuli	
<i>Structure technique 12.7</i> : The goal language as stimulus	
a. Questions	
b. Requests	
c. Conversion of one pattern to another	
d. Substitution	
e. Completion	
<i>Structure technique 12.8</i> : Pictures with language instructions or context	
6. Problem of misread items	
<i>Structure technique 12.9</i> : Translation	
7. Legitimate use of translation	
3. PAPER-AND-PENCIL TECHNIQUES TO TEST PRODUCTION PARTIALLY	177
<i>Structure technique 12.10</i> : Objective type production items	
a. More than one blank in the lead	
b. Rearranging parts of a scrambled sentence	
c. Incomplete alternatives	
4. SUMMARY OF STEPS IN THE PREPARATION OF STRUCTURE TESTS	180
13. TESTING VOCABULARY	
1. INTRODUCTION	181
2. WHAT IS VOCABULARY?	182
1. Lexical versus grammatical units	
1. Lexical	

CONTENTS

	<i>page</i>
2. Lexical units versus words	
3. Features of meaning and their relation to context	
3. HOW MANY WORDS?	183
1. Production vocabulary versus recognition vocabulary	
4. SAMPLING A VOCABULARY	185
5. VOCABULARY PROBLEMS	186
1. Recognition problems versus production problems	
6. RECOGNITION TECHNIQUES	188
<i>Vocabulary technique 13.1: Multiple-choice</i>	
a. Choices in the foreign language	
b. Pictures	
c. Choices in the native language of the student	
7. WRITING RECOGNITION ITEMS	191
1. General suggestions	
2. Specific suggestions for the writing of lexical items	
3. Items that test live words	
8. TECHNIQUES TO TEST PRODUCTION OF LEXICAL UNITS	197
<i>Vocabulary technique 13.2: Production</i>	
(1) Foreign language context	
(2) Picture context	
(3) Translation context	
9. OBJECTIVE, PARTIAL PRODUCTION TECHNIQUES	200
<i>Vocabulary technique 13.3: Objective, partial production</i>	
10. WRITING OBJECTIVE, PARTIAL PRODUCTION ITEMS	201
11. BIBLIOGRAPHICAL NOTES	203

Part III

TESTING THE INTEGRATED SKILLS

14. AUDITORY COMPREHENSION	
1. THE INTEGRATED SKILLS	204
2. AUDITORY COMPREHENSION	205
1. What is auditory comprehension?	
2. Auditory comprehension problems	
3. Separate tests for each native language background	
4. Tests for several language backgrounds or separate norms for each	
3. TESTING AUDITORY COMPREHENSION	207
1. Initial steps in writing the test	
2. The general technique to test auditory comprehension	
3. True-false items	

CONTENTS

	<i>page</i>
4. Multiple-choice items	
5. Sample leads for auditory comprehension items	
6. Types of alternatives	
1. Picture items	
2. Items with choices in the goal language	
3. Items with alternatives in the native language	
7. Cautions for the preparation of good comprehension items	
1. Context	
2. Length of the lead material	
3. Content	
4. Problem dominance	
5. Limitations of pictures	
6. Choices in the goal language	
7. Choices in the native language of the student	
8. Special arrangement of the items to yield diagnostic information	
 4. PROCESSING OF EXPERIMENTAL FORMS OF THE TEST	 222
 15. READING COMPREHENSION IN A FOREIGN LANGUAGE	
1. WHAT IS READING A FOREIGN LANGUAGE?	223
1. Definition	
2. Reading comprehension versus auditory comprehension	
Language problems	
Problems of graphic representation	
3. Problems of non-readers	
4. When has a student "learned" to read a foreign language?	
5. Reading the native language versus reading a foreign language	
6. Individual meaning and the educated person	
2. LISTING THE READING COMPREHENSION PROBLEMS	231
3. TESTING READING COMPREHENSION	232
1. General technique	
2. Pre-reading technique	
3. Reading techniques for beginners	
4. Reading techniques for intermediate and advanced students	
 16. SPEAKING A FOREIGN LANGUAGE	
1. WHO KNOWS HOW TO SPEAK A FOREIGN LANGUAGE?	239
1. Need to clarify the issues	
2. WHAT IS SPEAKING A FOREIGN LANGUAGE?	240
1. Approach through situations outside of language	
2. Approach through the elements of language	

CONTENTS

	<i>page</i>
3. LISTING THE ORAL PRODUCTION PROBLEMS	242
4. HOW TO TEST SPEAKING ABILITY	242
1. General technique	
2. Specific stimuli to elicit the key utterances	
3. Oral production test designs	
4. Improving the objectivity of scoring	
5. Group testing of oral production	
6. Objective, partial production techniques	
17. WRITING A FOREIGN LANGUAGE	
1. WHAT IS WRITING A FOREIGN LANGUAGE?	248
1. Writing a foreign language versus creative writing	
2. A working definition	
2. HOW TO TEST WRITING A FOREIGN LANGUAGE	249
1. General technique	
2. The written composition as a testing instrument	
3. Approach through the elements of writing	
4. Completion technique	
Punctuation	
Spelling	
Grammatical structure	
Vocabulary	
5. Limitations of the completion techniques	
6. Objective, partial production techniques	
3. TEST DESIGN	255
4. IMPROVING THE OBJECTIVITY OF SCORING COMPOSITION TESTS	256
5. EVALUATING CONTENT AND STYLE	256
1. Content	
2. Style	
18. THE TESTING OF TRANSLATION	
1. TRANSLATION AS A TEST OF TRANSLATION	261
2. WHAT IS A GOOD TRANSLATION?	261
1. Types of translation as an activity	
2. Dimensions of goodness of fit of a translation	
3. Dimensions of goodness as to quantity	
4. Problems of linguistic and cultural change	
3. TESTING TRANSLATION	264
1. General technique	
2. Testing translation in different directions	
3. Translation test design
