**BOOKS
IN PRINT
1984-1985**

This edition of BOOKS IN PRINT was
prepared by the R. R. Bowker Company's Data Services
Division in collaboration with the
Publication Systems Department.

Peter Simon, Vice President, Data Services Division
Ernest Lee, Manager, Books in Print Database.
Brian Leonard and Brian Phair, Project Coordinators.
Rebecca Olmo, Senior Editorial Coordinator.
Jacqueline Artis, Editorial Coordinator of Quality Control
Basmattie Gravesande, John Thompson, Editorial Coordinators
Kathy Berger, Paul Deland, Domonique Fernandez, Jozef Figa,
Yvonne Holness, FayeCassandra King, Malcolm MacDermott,
Karen Mayer, Angella Morgan, Hyacinth Myers,
Beverly Palacio, Joan Russell, Albert Simmonds
Frances Walsh and Sonja Wright, Assistant Editors.

Publisher Directories:
Brenda Sutton, Senior Product Manager.
Anne Wilson, Project Manager.
Kelly McNeill, Assistant Editor.

Michael Gold and Philip Pan,
Systems Department.

DATABASES and PUBLICATIONS of the Department of Bibliography

BIPS DATABASE

Books in Print 1984-1985 was produced from the BIPS Database of the R. R. Bowker Company. This database is used to produce a complete, complementary line of bibliographic publications that give booksellers, librarians, publishers, and all other book, on-line, and microfiche users access to the latest bibliographic and ordering information. Following is a description of this database and its publications.

The bibliographic database was begun in 1948 primarily as a listing of titles included in Bowker's *Publishers' Trade List Annual (PTLA)*. The computerization of this database during the late nineteen-sixties using the Bibliographic Information Publication System (BIPS) made it possible for Bowker to expand the amount of information included in the bibliographic entries and to increase the number of essential tools of the trade we produced.

During the early nineteen-seventies the database was greatly expanded to include information from additional publishers whose titles were not included in *PTLA*. Since that time, the database has been composed of and compiled from information received on an on-going basis directly from publishers. Prior to each publication from the database, publishers review and correct their entries, providing current price, availability, and ordering information and update their list with recently published and forthcoming titles.

The database includes scholarly, popular, adult, juvenile, reprint, and all other types of books covering all subjects provided they are published or exclusively distributed in the United States and are available to the trade or to the general public for single or multiple copy purchase. All editions and bindings are included: hardcover, paperbound, library binding, perfect binding, boards, spiral binding, text editions, teachers' editions, and workbooks.

Bibles as such are excluded, although commentaries, histories, and versions other than the standard English are extensively covered. Free books, books priced at less than 25 cents, unbound materials, pamphlets, periodicals, serials, government publications, puzzles, calendars, maps, microforms, audio-visual materials, and most books available only to members of a particular organization, subscription-only titles or those sold only to schools are omitted. Spanish language books published outside of the United States are not included, but are covered in *Libros En Venta*.

Bibliographic entries contain the following information when available: author, co-author, editor, coeditor, translator, co-translator, title, original title, number of volumes, volume number, edition, whether or not reprinted, Library of Congress number, subject information, series informa-

tion, language if other than English, whether or not illustrated, page numbers, grade range, date of publication, type of binding if other than cloth over boards, price, ISBN, imprint, publisher, and distributor, if other than the publisher.

In addition to the various publications described below, the full BIPS database is available for use through online services and microfiche. In these media, two years of out-of-print information are included as well.

Other databases of the Data Services Division include: Textbook Database, Publishers' Authority Database, Associations' Publications Database, Law Books Database, the American Book Publishing Record Database, Bowker's Serials Bibliography Database, and Bowker's Microcomputer Software Database.

Data Services Division's other publications include: *American Book Publishing Record*, *American Book Publishing Record Cumulative, 1876-1949*, *American Book Publishing Record Cumulative, 1950-1977*, *Art Books, 1950-1979*, *Associations' Publications in Print*, *Health Science Books, 1876-1982*, *Irregular Serials and Annuals*, *Law Books, 1876-1981*, *Performing Arts Books 1876-1981*, *Pure and Applied Science Books, 1876-1982*, *Ulrich's International Periodicals Directory*, *Weekly Record*, and *World Museum Publications*.

DESCRIPTION OF PUBLICATIONS

Books In Print

An annual publication listing all in-print and forthcoming titles from more than 16,300 publishers.

Indexes: *Author/Title/New Publishers & Distributors/Key to Publishers' & Distributors' Abbreviations/Directory of U.S. Publishers & Distributors.*

Subject Guide to Books In Print

A companion volume to *Books In Print*, this annual lists all in-print and forthcoming titles except fiction, literature, poetry, and drama by one author, under approximately 62,000 Library of Congress (LC) subject headings.

Indexes: *Subject/Key to Publishers' & Distributors' Abbreviations*

Publishers, Distributors and Wholesalers of the United States

The main index of this publication contains the full name with editorial and ordering addresses for some 50,000 publishers currently listed in Bowker's Publisher Authority Database and active in the United

States. In addition, an ISBN index supplies the ISBN prefixes, a Key to Publishers' Abbreviations Index supplies the publishers' abbreviations from *Books In Print*, and a Wholesalers Index supplies the full name and addresses for United States Wholesalers. This directory is a useful companion tool to users of *Books In Print* as it increases the number of people who can use it simultaneously, and to librarians, booksellers, and others who need a comprehensive and up-to-date directory of U.S. publishing companies.

Indexes: *Publisher Name/BIP Abbreviation/ISBN Prefix/Wholesalers*

Books In Print Supplement

An annual publication which updates *Books In Print* by listing all entries which have changes or additions to price, date of publication, ISBN, LC card number, or availability. Expands *Books In Print* by listing backlist titles new to the database and titles published since January or forthcoming through July. Expands *Subject Guide To Books In Print* by listing all new and forthcoming titles under LC subject headings.

Indexes: *Author/Title/Subject/Key to Publishers' & Distributors' Abbreviations*

Books Out of Print

A companion publication to *Books in Print* listing titles declared out of print or out of stock indefinitely by publishers since 1980.

Indexes: *Title/Author/Key to Publishers' & Distributors' Abbreviations*

Books In Series In the United States

A publication listing in-print and out-of-print titles in popular, scholarly, and professional series.

Indexes: *Series Heading/Series/Author/Title/Subject Index to Series/Directory of Publishers' & Distributors'*

Forthcoming Books

A bi-monthly cumulative publication listing forthcoming titles and titles published since July. Beginning with the November 1977 issue, an asterisk indicates titles new to the data base since the last issue. Beginning with the May 1981 issue, a separate index was added of publishers new to the database since the last issue.

Indexes: *Author/Title/New Publishers & Distributors/Key to Publishers' & Distributors' Abbreviations*

Subject Guide To Forthcoming Books

A bi-monthly companion to *Forthcoming Books* covering the coming five-month season. Each issue overlaps and updates its predecessor. Adult and juvenile titles are listed under LC subject headings, as well as under additional headings created for literature, drama, and poetry by one author and for children's literature. In addition to their listing in the subject section, all titles for the juvenile market are listed by author in a separate section. Beginning

with the July 1977 issue an asterisk indicates titles new to the data base since the last issue. Beginning with the May 1981 issue, a separate index was added of publishers new to the data base since the last issue.

Indexes: *Subject/Juvenile Books/New Publishers & Distributors/Key to Publishers' & Distributors' Abbreviations*

Paperbound Books In Print

A semi-annual* publication listing all in-print and forthcoming paper trade and paper text editions. Entries are listed under approximately 470 subject headings.

Indexes: *Author/Title/Subject/Key to Publishers' & Distributors' Abbreviations*

*semi-annual beginning 1978.

Children's Books In Print

An annual publication listing all books written for children or on the subject of children's literature. Grade or reading levels, where available, are indicated.

Indexes: *Author/Title/Illustrator/Key to Publishers' & Distributors' Abbreviations*

Subject Guide To Children's Books In Print

A companion to *Children's Books In Print* this annual lists fiction and non-fiction titles under appropriate Sears or LC subject headings.

Indexes: *Subject/Key to Publishers' & Distributors' Abbreviations*

Scientific And Technical Books And Serials In Print*

An annual subject selection of entries on science and technology and a selection of the same subject areas from the Bowker Serials Bibliography Data Base.

Indexes: *Book Section: Subject/Author/Title/Key to Publishers' & Distributors' Abbreviations*
Serial Section: Subject/Title

*beginning with the 1978 edition. Prior editions (1972, 1973, 1974) were titled *Scientific And Technical Books In Print* and did not include serial publications.

Computer Books and Serials in Print

A subject selection of entries on all aspects of computers. In addition to the Books in Print and Serials Bibliography Databases, Bowker's separate databases of legal titles, dictionaries, association publications and government information were thoroughly examined for inclusion of eligible entries. A Subject Area Directory provides access by broad areas to the LC subject headings used in the book.

Indexes: *Book Section: Subject/Author/Title/Key to Publishers' & Distributors' Abbreviations*
Subject Area Directory
Serials Section: Subject/Title

Medical Books And Serials In Print*

An annual subject selection of entries on medicine, psychiatry, dentistry, nursing, and allied areas of the health field *and* a selection of the same subject areas from the Bowker Serials Bibliography Database.

Indexes: *Book Section: Subject/Author/
Title/Key to Publishers' &
Distributors' Abbreviations*
Serial Section: Subject/Title

*beginning with the 1978 edition. Prior editions (1972–1977) were titled *Bowker's Medical Books In Print* and did not include serial publications.

Business and Economics Books And Serials In Print*

A subject selection of entries in the areas of economics, industry, finance, management, industrial psychology, vocational guidance, and other business-related topics *and* a selection of the same subject areas from the Bowker Serials Bibliography Database.

Indexes: *Book Section: Subject/Author/
Title/Key to Publishers' &
Distributors' Abbreviations*
Serial Section: Subject/Title

*beginning with the 1981 edition. The 1973 and 1974 editions were titled *Business Books In Print* and did not include serial publications. The 1977 edition and its 1978 supplement were titled *Business Books and Serials in Print*.

Religious Books And Serials In Print

A subject selection of all entries on the world's religions and on allied religious and moral topics *and* a selection of the same subject areas from the Bowker Serials Bibliography Database. A Subject Area Directory provides access by broad areas to the subjects included. A Sacred Works Index provides a listing of the sacred books of the world's religions available in the U.S.

Indexes: *Book Section: Subject/Author/
Title/Key to Publishers' &
Distributors' Abbreviations*
*Subject Area Directory/
Sacred Works Index*
Serial Section: Subject/Title

Large Type Books In Print

An annual* publication listing all books which are produced in 14 point or larger type and intended for the visually handicapped. This volume is printed in 18 point type.

Indexes: *Subject/Textbook/Title/Author/
Key to Publishers' & Distributors'
Abbreviations*

*Annual beginning with 1982 edition. Previous editions were issued in 1970, 1976, 1978, and 1980.

OTHER DATABASES

BOWKER'S MICROCOMPUTER SOFTWARE DATABASE

This database contains information on thousands of microcomputer software packages, with detailed information on

each one. Related databases contain information on hardware, peripheral hardware, manufacturers, software producers and distributors, user groups, and many other types of microcomputing-oriented organizations.

PUBLICATIONS:

Bowker's Complete Sourcebook of Personal Computing (annual), **Bowker's Microcomputer Software in Print** (annual), **Parent-/Teacher's Microcomputing Sourcebook for Children**, **Legal Microcomputing Sourcebook**, **Health Care Microcomputing Sourcebook**, and **Microcomputer Market Place**.

TEXTBOOK DATABASE

The Textbook Database was separated from the BIPS Database and expanded beyond the BIPS scope in 1973. Included are book and non-book materials for kindergarten through the first year of college as well as pedagogical material available and related to the educational world but not marketed to nor always available to the trade. The database includes all editions and bindings (hardcover, paperbound, boards, spiral binding, reprints) as well as kits, maps, audio-visual materials and other teaching aids. Bibliographic entries contain the same elements as on the BIPS Database.

PUBLICATIONS:

El-Hi Textbooks In Print

An annual publication listing in-print and forthcoming titles.

Indexes: *Subject/ Title/ Author/ Series/
Key to Publishers'
& Distributors' Abbreviations*

PUBLISHERS' AUTHORITY DATABASE

PUBLICATIONS:

Key to Publishers' and Distributors' Abbreviations

Provides the abbreviation, full name, ordering address, and ISBN prefix for all publishers and distributors whose bibliographic entries appear in the publication being indexed.

Directory of United States' Publishers, Distributors and Wholesalers

A listing of full name, editorial address, telephone number, and ISBN prefix for all active U.S. publishers, distributors and wholesalers currently on record in the files of the Department of Bibliography.

BOWKER SERIALS BIBLIOGRAPHY DATABASE

This Database contains up-to-date information on 124,450 serial titles published by 63,000 serial publishers and corporate authors around the world. Maintained by the Bowker Serials Bibliography Department.

PUBLICATIONS:

Ulrich's International Periodicals Directory (annual); **Irregular Serials and Annuals** (annual); **Ulrich's Quarterly**, a supplement to **Ulrich's and Irregular Serials**; **Sources of Serials**, an international directory of serial publishers and corporate authors and their titles by country.

ISBN INTERNATIONAL STANDARD BOOK NUMBER

The 1984-1985 BOOKS IN PRINT is the sixth edition where each title or edition of a title is listed with an ISBN. All publishers were notified and requested to submit a valid ISBN for their titles.

During the past decade, the majority of the publishers complied with the requirements of the standard and implemented the ISBN. At present, approximately 97% of all new titles and all new editions are submitted for listing with a valid ISBN.

To fulfill the responsibility of accomplishing total book numbering, the ISBN Agency allocated the ISBN prefixes 0-317, 0-318, 0-685 and 0-686 to number the titles in the BOOKS IN PRINT database without an ISBN. Titles not having an ISBN at the closing date of this publication were assigned an ISBN with one of these prefixes by the International Standard Book Numbering Agency.

Titles numbered within the prefixes 0-317, 0-318, 0-685 and 0-686 are:

- Publishers who did not assign ISBN to their titles.
- Distributors with titles published and imported from countries not in the ISBN system, or not receiving the ISBN from the originating publisher.
- Errors from transposition and transcription which occurred in transmitting the ISBN to the BOOKS IN PRINT database.

All the ISBN listed in BOOKS IN PRINT are validated by using the check digit control, and only valid ISBN are listed in the BIP database.

All publishers participating in the ISBN system having titles numbered within the prefixes 0-317, 0-318, 0-685 and 0-686 will receive a computer printout, requesting them to submit the correct ISBN.

Publishers not participating in the ISBN system may request from the ISBN Agency the assignment of an ISBN Publisher Prefix, and start numbering their titles.

By having an ISBN for each title and edition of a title, order fulfillment and inventory control systems will be able to operate more efficiently and economically. The ISBN Agency will produce and publish an ISBN Index on microfiche. Users encountering an ISBN in the range of 0-317, 0-318, 0-685 and 0-686 who are unable to identify the title in their file, will be able to refer to the ISBN microfiche Index. Each ISBN in the Index will have the information on title, author and publisher, or a cross reference to another ISBN. When publishing rights are sold and the title is published under the new imprint with a separate ISBN, the ISBN Index will carry a cross reference from the previous ISBN to the new one.

The Book Industry System Advisory Committee (BISAC) developed a standard format for data transmission, and many companies are already accepting orders transmitted on magnetic tape using the ISBN. Another standard format by BISAC for title updating is under development.

The ISBN Agency and the Data Services Division of the Bowker Company wish to express their appreciation to all publishers who collaborated in making the ISBN system the standard of the publishing industry.

For additional information related to the ISBN total numbering, please refer to Emery Koltay, Director of the ISBN/SAN Agency.

How to Use BOOKS IN PRINT 1984-1985

This 37th annual edition of *Books In Print* was produced from records stored on magnetic tape, edited by computer programs, and set in type by computer-controlled photocomposition. This edition, in six volumes, lists approximately 648,912 titles available from 16,005 United States publishers. Volumes 1, 2 and 3 are an alphabetically-arranged author index. Volumes 4, 5 and 6 are an alphabetically-arranged title index. Also included at the end of Volume 6 are three publisher indexes: a listing of all new publishers with titles listed for the first time in *Books In Print* 1984-1985; a listing of the active publishers in *Books In Print* arranged in the order of the abbreviation of publishers' or distributors' names used in each entry; and an alphabetical index of active United States publishers. All of these indexes include the International Standard Book Number prefix of the publishers participating in this system.

ALPHABETICAL ARRANGEMENT OF AUTHOR AND TITLE INDEXES

Within each index entries are filed alphabetically by word, with following exceptions:

Initial articles of titles in English, French, German, Italian and Spanish are deleted from the title index.

M', *Mc* and *Mac* are filed as if they were *Mac* and are interfiled with other names beginning with *Mac*; for example, Macan, MacAnally, Macardle, McAree, McArthur, Macarthur, M'Aulay, Macaulay, McAuley. Within a specific name grouping *Mc* and *Mac* are interfiled according to the given name of the author; for example, Macdonald, Agnes; McDonald, Alexander; MacDonald, Anne L.; McDonald, Austin F.; MacDonald, Betty. Compound names are listed under the first part of the name, and cross-references appear under the last part of the name.

Entries beginning with initial letters (whether authors' given names, or titles) are filed first, e.g., Smith, H.C., names before Smith, Harold A.; BEAMA Directory comes before Baal, Babylon.

Numerals, including year dates, are written out in most cases and are filed alphabetically.

Seven Years in Tibet
Seventeen
Seventeen famous operas
Seventeen-Fifteen to the present
Seventeen party book
Seventeen reader
Seventeen century

U.S., UN, Dr., Mr., and St. are filed as though they were spelled out.

SPECIAL NOTE ON HOW TO FIND AN AUTHOR'S COMPLETE LISTING

In sorting author listings by computer it is not possible to group the entire listing for an author together unless a standard spelling and format for each name is used. The information in *Books In Print* comes directly from publishers or from their catalogs. Where publishers do not submit an author's name in consistent form, his listings in the author index may be divided into several groups.

Variant forms of an author's first and middle names may not be adjacent in the filing sequence, as in: Aiken, Conrad and Aiken, Conrad P. or Jung, C. G. or Jung, Carl G. For most surnames, variant forms of entry will fall close together, but for the most common surnames (Smith, Brown, etc.) it is suggested you check specifically for all variant forms of first and middle names.

Foreign names which may or may not be given with a prefix will not be adjacent in the filing sequence, such as Balzac and de Balzac and Goethe or von Goethe. German names with umlauts may appear in two alphabets because of the varying treatment of the umlauted vowel; Müller, F. Max or Mueller, F. Max. Acronyms for names of corporate authors may appear in two or more groups of listings if one form is presented with no space between initials—UNESCO, and another with spaces, UNESCO.

You will find cross-references to the variant forms of an author's name wherever we anticipated that his listings might not be filed together. To the extent practicable, we hope in future editions to reduce the number of variant forms of author's names in *Books In Print*.

INFORMATION INCLUDED IN AUTHOR AND TITLE ENTRIES

Entries include the following bibliographic information, when available: author, co-author, editor, co-editor, translator, co-translator, title, number of volumes, edition, Library of Congress number, series information, page numbers, language if other than English, whether or not illustrated, grade range, year of publication, type of binding if other than cloth over boards, price. International Standard Book Number, publisher's order number, imprint and publisher. When an entry includes the prices for both the hardcover and paperback editions, the publication date within the entry refers to the hardcover binding; however, when the paperback binding is the only one included in the entry, the publication date is the paperback publication date. (Information on the International Standard Book Numbering System developing in the

United States and other English-speaking countries is available from R.R. Bowker Co.)

GENERAL EDITORIAL POLICIES

In order to insure that the essential information in these listings is uniform, complete, and easy to find, the following editorial policies have been maintained:

When two authors or editors are responsible for a book, full bibliographic information is included in the author entry for the author or editor named first, and a cross-reference directs the user from the second author or editor to the primary entry; e.g., Wilson, Robert E., jt. auth. See Fensch, E. A. If more than two authors or editors are responsible for a certain publication, only the name of the first is given followed by *et al.*

Titles of single volumes as part of a set are given if the volumes are sold singly. Some series are also listed in the Title Index.

The Bible, the Book of Common Prayer, catechisms, hymnals and books of this type cannot always be recorded with full description. Since incomplete information is misleading, the user of this book is directed to the appropriate publisher's trade lists.

Every effort is made by most publishers to submit their material with consideration for its accuracy throughout the life of this edition of *Books In Print*. Most publishers anticipate price changes, list forthcoming books even if publication dates and prices are not set, and for the most part try not to list books that may shortly become unavailable. In spite of these efforts, a certain amount of unanticipated change in price will occur and a certain number of titles in this edition will become unavailable before the new edition of *Books In Print* is published. The *Books In Print Supplement 1984-1985* to be published in April 1985 will reflect any changes which have occurred in the interim. All prices are subject to change without notice.

Most prices are list prices. Lack of uniformity in publishers' data prohibits indicating trade discounts. A lower case "a" follows some of the trade edition prices and indicates that a specially priced library edition is available; "t" indicates a tentative price; "g" a guaranteed binding on a juvenile title; and "x" a short discount—20%, or less. Short discount (20% or less) information is generally supplied by publishers to Bowker for each publication. However, all publishers do not uniformly supply this information and Bowker can only make its best efforts to transmit this information when it is provided. PLB indicates a publishers' library binding. YA indicates that a title may be used for young adults.

An "i" following the price indicates an invoice price. Specific policies for such titles should be obtained from the individual publishers.

Publishers' and distributors' names, in most instances, are abbreviated. A key to these abbreviations will be found in the *Key to Publishers' & Distributors' Abbreviations* at the end of Volume 6. Entries in this "Key" are arranged alphabetically by the abbreviations used in the bibliographic entries. The full name, ISBN prefix, editorial address, telephone number, ordering address (if different from editorial address), and imprints follow the abbreviation. SAN (Standard Address Number) is a unique identification code for each address of

each organization in or served by the book industry.

For example:

Bowker, (Bowker, R. R., Co., 0-8352), A Xerox Information Co., 205 East Forty-second Street, New York, N.Y. 10017 Tel 212-916-1600 (SAN 214-1191); Order to P.O. Box 1807, Ann Arbor, MI 48106 (SAN 214-1205)

If an entry contains a "Pub by" note after the price, the title should be ordered from the company whose abbreviation appears at the end of the entry. For example, an entry for a book published by Melbourne U Pr., but distributed by International Scholarly Book Services, Inc., will convey this information in the form "Pub. by Melbourne U Pr." after the price with "Intl Schol Bk Serv." at the end of the entry.

Firms included in the *Key to Publishers' & Distributors' Abbreviations* listed with box number addresses only were solicited for complete street addresses to supplement the box numbers. This effort did increase the occurrence of street address and telephone numbers in this edition. In addition, a review of the editorial and ordering addresses included in the "Key" will provide a complete address profile of the firm.

Publishers and Distributors of the U.S.: This alphabetical index of publishers, following the "Key" at the end of Volume 6, is an index of all active United States publishers and distributors with titles represented in the Author and Title indexes.

The R. R. Bowker Company has used its best efforts in collecting and preparing material for inclusion in *Books In Print 1984-1985* but does not assume, and hereby disclaims any liability to any party for any loss or damage caused by errors or omissions in *Books In Print 1984-1985* whether such errors or omissions result from negligence, accident or any other cause.

TYPES OF PUBLICATIONS NOT FULLY REPRESENTED IN *Books In Print*

This edition of *Books In Print* indexes the listings of some 16,005 publishers—a total of 648,912 titles. Certain classes of publications are, however not represented in *Books In Print*. These include government publications, some professional law book publications, subscription reference sets and book club editions.

Books In Print 1984-1985 is not limited to information in the *Publishers' Trade List Annual*. Current information was obtained from all publishers in the BIPS Data Base. These publishers include regular contributors to Bowker's Advance Book Information system and less active publishers who responded to our request for *Books In Print 1984-1985* information. Publishers were asked to correct and update computer listings of the *Books In Print 1984-1985* master file. If this was not possible we obtained the latest edition of the publisher's trade order list. Every effort by correspondence, telephone and personal contact with publishers was made to get up-to-date, complete information on the in-print titles published and distributed in the United States for inclusion in *Books In Print 1984-1985*.

These criteria of inclusion were followed: Books must be available to the trade; this excludes books available only to numbers of a particular organization, subscription-only titles, or those sold only to schools. Books must be available for

single copy purchase. No attempt was made to include things other than books, such as periodicals, puzzles, calendars, microforms, or audio-visual materials (unless accompanied by a text). Free material and material available only in quantities are also omitted.

Imported books must have a sole U.S. distributor. Distributors of Spanish language books published outside the U.S. have informed us that sole rights to these titles are not available. These books, therefore, are not listed in *Books In Print* but are fully covered in *Libros En Venta* and supplements to *Libros En Venta*. Some U.S. distributors of these books are listed in a special section of the *Key to Publishers' & Distributors' Abbreviations* in this year's edition. Distributors of books imported from Germany often do not have sole rights to these titles. These books listed in *Books In Print 1984-1985* as available from one distributor may also be available from other distributors of German books. For distributors of German titles, refer to the American Book Trade Directory, 29th edition, also published by R. R. Bowker Company.

OTHER BIBLIOGRAPHIC PUBLICATIONS TO SUPPLEMENT *Books In Print*

Although *Books In Print* looks ahead, it cannot, of course, contain information that was unknown to the publishers when they submitted data in July. In April 1985 a *Books In Print Supplement* will be published, giving price changes, titles which have gone out-of-print and new books published or announced in the 6 months following the publication of *Books In Print*. This volume, arranged by author, title and subject, is priced tentatively at \$92.50.

A tool for keeping up with new titles is *Forthcoming Books*, a separate bimonthly publication which provides author-title indexes to all books due to appear in the coming 5 month period. In addition, it cumulates all books that have appeared since July 1984, serving to keep your *Books In Print* up-to-date the year through. Yearly subscriptions are available at \$90.00 U.S.A., single copies for \$18.00 U.S.A.

Subject Guide to Forthcoming Books, companion to *Forthcoming Books*, is a separate bimonthly publication, giving by subject, all books due to appear in the coming 5 month period, providing new title information to supplement the annual *Subject Guide to Books in Print*. Yearly subscriptions

are available at \$60.00 U.S.A., single copies for \$12.00 U.S.A. The combination rate for yearly subscriptions to both *Forthcoming Books* and its *Subject Guide* is \$130.00 U.S.A.

Paperbound Books in Print includes all published and forthcoming paper trade and paper text editions published or exclusively distributed in the U.S. Beginning in 1978 a service of two complete volumes published in the Spring and Fall replaces the old service of one base volume and two supplements. The complete service includes both the Spring and Fall volumes. Optional selection of either the Spring or Fall volume separately is also available. The Spring volume will be published in April 1985 and the Fall in October 1985. This service is priced at \$145.00 a year or \$82.50 a volume.

A complete description of other publications from the BIPS Data Base is included in preceding pages.

Publishers Weekly (\$78.00 a year U.S.A.) and especially its forecasts, is another way of keeping up with later information about new books. The special announcement issues (Fall, Spring) are available separately at \$4.95 ea. U.S.A.

All forecasts are, of course, necessarily incomplete, and to some extent inaccurate or unfulfilled. A record of the new books as actually published is therefore also available both in an author arrangement in the *Weekly Record* (\$70.00 a year U.S.A.) and in a Dewey subject classification in the monthly *American Book Publishing Record* (\$60.00 a year U.S.A.). The latter provides an author-title index. Both provide full cataloging information.

El-Hi Textbooks in Print, priced at \$60.00, is somewhat more comprehensive than *Books In Print* when it comes to textbooks for elementary and secondary schools. *Bowker's Law Books and Serials in Print*, a new annual Bowker publication started in 1982, provides comprehensive coverage of law books, including many titles not found in *Books in Print*. *Bowker's Law Books and Serials in Print Update*, a monthly updating service to this annual, was published starting in 1983.

Out-of-print books may be sought through the columns of the *AB Bookman's Weekly*, Box AB, Clifton, New Jersey 07015.

Books Out-Of-Print listing over 180,000 titles declared out-of-print or out-of-stock indefinitely from 1980 through 1984 is available from R. R. Bowker.

Facsimiles of out-of-print books may also be obtained from University Microfilms Intl., 300 N. Zeeb Road, Ann Arbor, Michigan 48106.
