## Prologue

In general, people take life for granted most of the times, until life becomes rough and tough or is threatened by anything. In a ravaged and poor society, there is a daily struggle for a living. The poor people do not have the leisure or mood to worry about any worldly matters. They can only worry about how to feed themselves from hand to mouth each day. These people definitely have no time to care about many other things in life. The poverty that traps these poor people in a vicious circle gives them no chance even to ponder over the causes of their poverty or over how to escape from the trap. This problem can become chronic in a country that emerged recently from the shackles of invasion and occupation for any part of the last 500 years. The economic exploitation under the occupation regime had depleted most of such country's resources and treasures that were created by their ancestors. The struggle to survive in such a ravaged and victimized society becomes an everyday battle against the elements and fellow human beings. They must compete for the limited resources and opportunity that were left behind by the expelled evil race junta of invaders and occupiers.

On the other hands, people from the victorious affluent countries can have lots of spare times. They would then use the spare times for the pursuit of their ideals and hobbies. The richer the society, the greater will be the number of people with the luxury of leisure to pursue research, study, development, trouble shooting and recreation. People in such a society would not take for granted anything around them, including their living conditions, heritage, history, other nations internal issues and all worldly affairs. They can afford to specialize in any and every field. The cumulative effect will be that the poor countries would sink deeper into ignorance and poverty while the rich but ex-invader and exploiting countries would become more progressive, knowledgeable, busy body, troublesome, developed and richer.

The modern World is thus divided along such a simple benchmark created by the 500 years of carnage and plunder around the world by an evil race. Thus resulted in the existence of 'the haves' and the 'have-nots'. The world carnage on humanity started on October 12, 1492 - that fateful day that changed irreversibly the fortune of one race at the deadly expense of all the other races throughout the World. Some of the races had already perished under this unprecedented carnage. For the last 500 years, humanity had suffered the greatest agony, the bloodiest genocide, physical abuse and loss in life, land and wealth to such an extent that never happened before in the history of

humanity. Perhaps for many more miserable years to come, humanity will still suffer from the fallout of this most brutal carnage against all the other races. The tragedy already lasted for five centuries. How long will the repercussion and ramification of this tragic catastrophe continue to haunt the exploited world? This would depend entirely on how much the exploited but liberated people of Africa, the Arab nations and Asia (collectively we called them the AAA World), will continue to take their tragic past, their present situation and their future for granted.

Even among the people of the AAA World, there are small pockets of affluent people in these societies who can provide the leadership to get the entire population out of their poverty trap. Firstly, it requires the affluent people in the AAA World to take an interest in their people and their country well being. If these affluent people only barricade themselves in their pockets of rich enclaves which are usually surrounded by slums and a sea of poverty stricken fellow country men, then the poor will remain stuck in chronic despair. If the rich continue to bury themselves with indulgences of life, then there is no chance that the poor will get out of their poverty trap. Also if the government, politician and system in these countries are clean, efficient, nationalistic, progressive and people power based, then there is salvation for the exploited people from the devastation caused by the last 500 years carnage. The affluent in the AAA World should ponder for just a moment over the fact that their prosperity will never last long if a sea of poor countrymen surrounds them. The political power brokers and beholders should remember that power corrupts and absolute power will corrupt them absolutely. If they abuse their political power for personal enrichment or for an ego trip towards inevitable national disaster, then they and their people will get whatever the Marcos and the Kim Song ILL regimes have created for the respective countries. If these fact can sink into the rich people mind-set or those in the political helm, then that society will have some hope for a general effort to help each other and the entire nation to get out of their vicious poverty trap. This trap was created by an evil race's plunder of the entire world for the last five centuries.

When the AAA World people can stop blaming their past and present situations on fate, then they are beginning to take control of their own life and destiny. Nothing in this human world of material wealth or poverty is made in "heaven" or caused by fate. It is created and caused for, of and by human beings. This kind of fatalistic mind-set belongs to ancient history when humanity was engulfed in the dark ages, witch burning and barbarism. The evil race was such people who were so deeply immersed in their dark ages until the sixteenth century. By seeking out for the truth and fact and accept them as the real enlightenment of the human soul, the AAA World people will then be able to reconcile their present misery with the historical error

committed by their ancestors. Although the truth always hurts the human soul, the pain is greater when the human being try to bury the truth in the deep and dark abyss of their sub-conscience.

The daily struggle for survival is no excuse for avoiding the truth about our human blunders in the past and even in the present. The lack of time is different from the lack of will power to face up with the truth. The plain truth is the fact that most human beings in the AAA World are too apathetic to care or worry about anything beyond securing and sustaining their daily needs and handling their daily hiccups. They failed to realize that it is exactly this apathy, this avoidance of the basic truth that has created their present misery and the prevailing opportunity for the evil race to enforce its international “white” slavery on the AAA world. On the other hand, the evil race had awoken in the 15th century to the fact that life could not be taken for granted. The search for the truth and material possession by hook or by crook and exploiting the truth and the facts of life by the evil race were their only way to get their tribe out of the Dark Ages’ misery and curse. Ironically, it was around the same time, when the evil race’s age of renaissance and enlightenment dawn upon them, that the AAA World’s, especially the North Asian, age of darkness began to set on the AAA World.

Since 1945, after fifty-three years of liberation from the invasion, occupation and economic exploitation by the evil race, the AAA World has arrived at a crossroad. The crossroad is pointing towards either a sustained era of freedom and prosperity or towards a sinking quicksand pit. That quicksand pit was dug out by the evil race for the purpose of pinning down the AAA World societies for the last 500 years, since October 12, 1492. That was the fateful day when the pirate called C. C. set sail on a ‘do or die’ piracy blitzkrieg against the Paradise World. That started the carnage that had exterminated a paradise, which had existed since antiquity. The ramification on the entire humanity was so profound that many societies were either extinct or are still culturally uprooted.

The time has come for the AAA World people to reconcile themselves with their ancestor’s tragic blunder with the evil race regime. In the shadow of the haunting “white” pirate ghost and the prevailing international “white” slavery, the AAA World’s trauma and paranoia with the evil race seem to be still terrorizing their people. Hence, many people in the AAA World chose to forget the haunting nightmares. Instead, they are succumbing obediently like zombie to the evil race junta world domination and propaganda slogan like: ‘let bygones be bygones’ or ‘forgive and forgets’ or ‘live and let’s live’. With their massive ill-gotten wealth and all the stolen continents and islands, the evil race regimes are praying hard that their defensive propaganda will work on

their victims and suckers. By keeping the AAA World societies on hold, the evil race junta hopes it will protect and save themselves from the AAA World people's backlash or vengeance. For the survival of the AAA World, someone must expose the plain truth behind the evil race's five centuries of carnage and present design against humanity. By exposing the evil race junta hypocrisy and menace, it is hope that the AAA World can deny the evil race a second chance to carnage and terrorize the entire AAA World again, this time perhaps to its extinction.

The road out of their dark chasm for the AAA World people cannot be along that well-beaten path in the conventional way. Beaten paths are for beaten people. Beaten path is so predictable and so well subverted or blocked by the evil race (ER) regime huge international propaganda, domination and subversive machinery. That ER's world control machinery works through their mass media, international organizations, decrees, criminal instigation agents and system. There is also no need to use shock therapy to shake the AAA World people out of their self-denial of the truth. The evil race menace has regressed in the last fifty-three years, perhaps just to regroup and consolidate after their bloody defeat by the heroic Japanese Liberation Army. They were also exhausted by two essentially ER world wars of 1914-1918 and 1939 - 1945. These two wars destroyed and stopped some of the evil race ill-gotten wealth flowing from the plundered world into the evil peninsular. With the help of modern electronic and telecommunication, the isolation of the AAA World people from one another and from the rest of the world was also broken.

Hence the evil race junta would not have the same advantage as before the birth of telecommunication. Before telecommunication was invented and used, one country after another in the AAA World fell like dominos without the next victim ever knowing fast enough to prepare for its self-defense against the advance of the evil race curse. The modern exchange and transmission of information are made at such an electrifying speed that any invasion or genocide of one race by another will become world news within hours. It is at this same electrifying speed, that the mind-set of the AAA World societies must be adjusted to meet the truth of their ancestor's past mistakes and tragedy. The present self-deception by escaping from the painful truth must stop. Sub-conscientiously perhaps, the AAA World is denying and rejecting the traumatic past due to the endless and merciless pressure from the evil race regime's mass media and defensive propaganda machinery.

For whatever reason or excuse, the AAA World societies are mishandling their paradoxical ambivalence over their dreadful experience with the 500 years Curse. The time has come to deal with the truth and the present quandary. The mind-set of the AAA World people must be finely re-tuned to receive the

special messages in the ensuing pages that will unfold before them. The messages and purposes underlying these unfolding chapters will come onto any properly tuned mindset loud and clear. The AAA World population's long term survival is at risk under the exalted obsessions of the evil race regime for world dominance and ultimate world conquest. Unless concerted effort by every society in the AAA World is taken now to remedy the past and present mistakes and to deal with the evil race curse, the AAA World will become the next victim of another Paradise lost. This is not an alarmist tactic or a doomsday myth, but a clear projection of the last five centuries track record of the evil race curse and the present world order created and controlled by the evil race regime. The 'writings are on the walls', as the saying goes. It is the choice for the AAA World people whether to take these 'writings' for granted as in the past since 1492, or to deal with the danger seriously and bravely for their own long term survival.

Only the truth, nothing but the naked truth will be exposed in the following pages. A lot of vested interests within the AAA World and especially in the evil race world will be exposed, even offended or hurt by the painful truth. Perhaps, the evil race's secret agents, criminal instigation assassins and covert killer squad will jump immediately into action to do their damage control dirty job by brutal and ruthless assassination. It does not worry me. We can trap these assassins and wipe them out in the AAA World. It should not worry any sensible human soul in the AAA World. It is for the long term survival of the AAA World people, that make up about 75% of the world total population of about 6.0 billions, that the truth must be uncovered as the truth. The 4.5 billions AAA World people are living on only about 40% of the earth land surface now, when compared to almost 90% before October 12, 1492. No smoke screen or defensive propaganda by the evil race regime can hide this truth from the AAA World's awakening populace any longer. Any AAA World people or nations that unwittingly find these following pages offensive, must undergo an instant shrink check for any self incriminating guilt of conniving with the ER or for having become an irredeemable pseudo ER. Undeniably, there will be greater pain in meeting with the truth now. It will hurt many people, even after the lapse of fifty-three long years of self-denial by those who survived the evil race carnage. The truth will also hurt those baby boomers caught in the transitional days of the collapse of the evil race "empires". The naked truth can become unbelievable to the brainwashed younger generation of ER suckers. However, the 'getting over' with the painful confrontation against the ghost of the past 500 years is worth the pain for the survival of the future generations of the AAA World societies. In the wake of it, we may have a truly liberated and exorcised AAA World of 4.5 billions people consisting of all the other races.

It is in this spirit that the following lines will be presented for the interest of only the AAA World people. It is not meant for the evil race regime to share in this AAA World enlightenment and soul-searching exercise. The evil race regime had long ago self-atoned their ancestors unprecedented crimes and sins against humanity by invoking the blessing and providence of their Human Icon God. The ER modern day barbarians are beyond redemption, because they are playing the "living god" and international terrorist at the same time. That is why the evil race descendants are arrogantly displaying and flaunting their possession and current enjoyment of their criminally inherited ill gotten wealth and their occupation of the stolen continents and other islands around the world. For the AAA World people, their exorcism from the evil race curse can only be completed when that curse is pushed back into the pre-1492 evil race peninsular.

The task ahead for the AAA World societies may have just began, if their mind-set can focus on the truth herein and digest them 'religiously' as a first step out of their dark imploding tunnel. The journey into the renaissance of the AAA World societies is in the hands of their people. The choice for them is either to persistently take the past and present events for granted and blame fate for everything, or to live up to the truth and take charge of their own destiny. This simple choice holds the key to the AAA World people's survival.

This dissertation is an outcome of exercising my birthrights and the freedom of expression so enshrined by even the evil race in its constitution, international decrees and propaganda. It is also my birthrights to try to undo the past 500 years evil curse onto the other races around the world, definitely without fear, let, offense or compromise. It is an insult to my humble intelligence to live on silently with the ER past and current bullshits. My ex-campus classmates and country men may have taken great pride and pleasure in apple polishing the ER butts for or cowardly keeping silent over the evil race menace. As a "nanchze Han" or Han Ren with manly principles, I must break this AAA World silence. My people from Asia have suffered enough from the evil race carnage. May the AAA World 4.5 billions people remember that you are born once. You can only live, also once, in this world. So, never ever trust or fear the 1.5 billion ER people again. Do not take your life for granted anymore. The Aztecs, the Incas, the Mayas, the Cherokee Indians, and all the other natives in the three stolen continents took life for granted in their idyllic paradise. They trusted and feared the ER invaders and occupiers. Their extermination by the ER guns and diseases was the deadly reward.

# Chapter One

## The New Perspective

In order to appreciate and understand the context and content of the following pages, the mind-set of the readers must readjust its perspective. This re-adjustment of your focus on the past and prevailing world events is not easy, especially when done against the strong current of the evil race created, controlled and operated world order. This is also not a trip down history memory lane. We can skip that sort of exercise. This is a serious scrutiny at how certain events in the past 500 years have changed the life of 90% of the world population that used to happily occupy 85% of the land surface. Today these races have become 75% of the world total population and are living on only 40% of the planet earth land surface. The 500-Year Curse carnage by the evil race had created this tragedy.

The context in the following pages is not going to be like those as brewed by the evil race (ER) in their history textbooks. Neither are we going to repeat the ER “white washed” historical account of their forefather crime against humanity in the last 500 years. We shall see history from the eye of the liberated AAA World nations. We shall break away from the psychological malaise and quagmire, which the naked aggressors had successfully inculcated over the last five centuries of terrorism into the mind-set of the AAA World people. We must be able to understand the AAA World present conditions and the world situation in its natural and unscrewed up context. We must discard and outlaw the ER propagated, screwed up and fabricated context and content.

Let us scrutinize the entire world from the victims' perspective that is void of the ER influence, distortions or coercion. If transparent reality and solid fact cannot shake the AAA World people out of their pro-ER mind-set, perhaps the growing misery and poverty of the people of Africa, the Arab nations and Asia, or the AAA World, can wake them up. When we contrast their plight to the growing economic, military and technological power of the ER, the AAA World should sober up. The AAA World current poverty was the creation of the 500 years of plunders, carnage, invasion, occupation, enslavement and economic exploitation by the ER solely by using the killing power of the stolen guns. The ER current prosperity is built on the ill gotten wealth and stolen lands. The ill gotten wealth then bankrolled the ER development and economic success from the seventeenth, through to the twentieth centuries. The looted wealth and technology liberated the ER from their Dark Ages of acute poverty and ignorance. The stolen gun powder and guns, navigation compass, paper making, and printing press from ancient China powered the ER renaissance,

which in turn powered the ER global invasion and enslavement and their emergence from the Dark Ages. Since 1492, the ER prosperity and survival have been thriving on stolen technology, stolen wealth, stolen manpower, stolen lands and stolen time. The current ER covert enslavement and domination of the other races around the world are means to entrench the ER struggle for survival. The ER was a terminal and marginal race that was nearly extinct and unknown to the paradise world prior to 1492.

The ER only consisted of 10% of the world population then and lived on 15% of the earth land surface in 1492. This race is innately deadly because its people had to genocide massive number of native inhabitants around the world to steal three large continents and countless islands. All the ill gotten and bloodstained loots from the AAA World underwrote the ER from rags to prosperity. Today, the same ER consists of 25% of the world population and occupies a total of 60% of the earth land. This percentage is derived from the combination of the ER native lands with the stolen lands and islands around the world. The ER created and is controlling the entire world economic, legal, military and social systems and institutions directly or covertly.

The present world order is the end product of the five centuries of the ER brutal world terrorism and massacres of defenseless people in the lost Paradise World, the stolen and the liberated lands. The AAA World and the stolen continents now occupied by the ER would have been drastically different today, had the ER barbarian been confined to their evil peninsular until today. If only the ER reign of terror and carnage for the past 500 years never took place. If only the ER barbarian remained in their 15% of land area on planet earth and its population remained at 10% of the world total population, we would have a totally different world today. Had the Ottoman Turks occupied the eastern part of the evil peninsular and the Muslim Moors occupied the western part for another 500 years, the ER barbaric cults, infectious and deadly diseases and the terminal evil race would have been extinct by now. The rest of the world would have been spared from the ravages by their stolen guns and diseases. However, history cannot be reversed, although the human mind-set can be reconditioned to view the truth from another perspective. The future can be safer for the AAA World societies, if the AAA World people could first come to terms with their miserable past and their current dilemma.

The ER criminal junta's carnage on the AAA World for over five centuries is not an easy trauma to erase overnight from all the AAA World people mind-set. Firstly, the internationalization of the ER languages wherever they had invaded and occupied has trapped the liberated people in the vicious circle of thinking and talking in the languages of the ER regime. This vicious trap is burying the people in the AAA World under the covert and ubiquitous

influence, the propaganda and psychological warfare of the ER junta. This “soft” warfare is raging silently but insidiously via the ER mass media, telecommunication channels, television, movies and even advertisement. Hence, it is imperative for the survival of the AAA World people to liberate their mind from the five centuries of twisted and evil influence of the ER, by avoiding the use of the ER languages. In whatever ER languages the AAA World people are using to conduct their speech or thinking, the ghost of the ER junta will continue to live inside them and influence their vibes and hypes. Only when the AAA World people start to talk and think in their own mother tongue, can they see the world differently. It is through this natural and native language perspective of the AAA World societies that the people will be able to fathom the bottom line of this unprecedented human tragedy wrecked by the 500-Year Curse of the ER.

So what magic can the AAA World people use in order to re-tune their perspective to get the right focus on the past five centuries of human tragedy under the ER reign of terror? The abolition of the use of any ER language for any purpose is one of the magic. There is no other better way or any proven scientific or magic formula to liberate our mind-set from the ghost of the ER influence.

Perspective can be defined as an angle or direction of viewing or interpreting all visual, mental, psychological, emotional, sensual, intellectual and spiritual images of the world order that is unfolding in front of us. Perspective is also formed by whatever that had unfolded and been buried in our mind through the passage of time. Of course the victors and the victims would view the same human tragedy differently. The victors would glorify themselves for their last five hundreds years of carnage against all the other races as their survival victory over all the other races. The victims of the same 500 years carnage would view the same tragedy as the greatest curse on humanity in the history of mankind. Also, how our mind chooses to interpret and believe in these images depends on the type and quality of the mind. The human mind is subject to the influence of the developed, cultivated, educated and nurtured vibes or hypes that affect and control our mind since our birth. It is not easy to replace one's mind-set with new vibes and hypes under normal condition. However when the status quo is drastically altered and shattered by tragedy like a “people power” type of revolution in the country or by the 500 years carnage, the human mind-set will thus be shaken to re-orientate itself to interpret the changed status quo or world order differently. The 500-Year carnage had radically changed the mind-set of the idyllic paradise people in the AAA World. It turned many of them into culturally rootless zombies, who will dance obediently to the ER self-destructive rock and roll music and command.

But in these unfolding pages we do not need to advocate any violent revolution to achieve the necessary change in the perspective of the AAA World people mind-set. We advocate courage, survival instinct and determination, cohesiveness and solidarity among the AAA World people. We also advocate complete control over our assets, lands and destiny through social discipline, clean, accountable and transparent government, universal education of our people through research, development and defense of our natural and human resources.

The 500 year Curse cannot be viewed in any generalized stereotypes, or worst of all, in the context of the ER self glorified conquest of all other races, or their skewed perception and deception, system, values, norms or standards. By using the ER twisted perception and prescription, the AAA World people will never be able to free their thinking from the ER poison and quagmire. They will only sink deeper into the ER vicious quick sand trap. That quick sandpit was created over the last five centuries by the ER cultural domination to exterminate all the other cultures and civilization in the world, as a prelude to their eventual extermination. The ER did precisely that to the Incas, the Aztec, or the Mayas and the north American Indians such as the Cherokee, Apache, Mohigan, Mohawk and Sioux civilizations and the indigenous Ambonese people of the Mutu descent in the South Pacific continent and islands.

That is why every person in the AAA World must undergo a serious soul searching exercise to liberate his or her mind-set from the ER sinister smoke screen and influence. The older generation in the AAA World may have come out of their tragic romanticism with the ER through their mellowing sobriety and wisdom. They realized now the real tragedy which the 500 year Curse had wrought death, destruction and misery upon their people. It is the younger and mid thirties generation in the AAA World society who are endlessly being bombarded by the ER propaganda, mass media, movies, soap opera and internet cyberspace subversion, who seriously needed to be re-orientated. The baby boomers have witnessed the collapse of the ER reign of terror like dominoes throughout the AAA World in the last 50 years. This group of people in the AAA World will provide the best brain to synthesize the trail of tragedy wrecked by the 500-Year Curse on humanity. Their mind-set straddles over two eras: the era of occupation, enslavement, and economic exploitation by the ER and the liberated era. Whatever your frame of perception and experience with the ER carnage, savage cult and atrocity, we need a candid, transparently fearless and direct treatment of the past 500 years of the ER global carnage and reign of terrorism. This honest therapy will awake and expose the AAA World people to the reality of their struggle for survival. Perhaps the AAA World people must seriously ask themselves how they can: -

1. Save their race from future annihilation by the ER's neutron bombs and genetic viruses in the ER arsenal, which are not opened to universal inspection nor really destroyed as claimed by the ER propaganda;
2. Save their race from a repeat of the last 500 years carnage, ravages, exploitation, genocide, mass destruction, and deliberate spreading of deadly diseases like the mad cow disease, Aids and Ebola virus by the ER global terrorist;
3. Get a share of at least 50% of the inheritance of the ill gotten wealth and stolen lands which were criminally passed down by the ER pirates and bandits to the current generation of their descendants;
4. Neutralize the ER obsession with racial hatred, white race supremacy, world domination and conquest, obsession with murder, genocide and crime against the other races,
5. Reverse the ER curse to channel it back onto the ER and contain it within the ER peninsular where it rightfully belonged before 1492,
6. protect and defend all AAA World people against another outbreak of the ER curse, against a war of genetically engineered viruses, cyber space high - tech mass destruction and whatever deadly design of the ER against all the other races.

These six and may be more basic tasks, if we can and must earnestly succeed, will lead the people of the AAA World through to the end of the dark funnel or imploding black hole created by the ER to trap the AAA World in perpetual darkness. So long as the AAA World people mind-set is clouded and haunted by the ER ruthlessly propagated, unstable evil cult and influence, sinister and hypocritical policy of "engagement", the AAA World is still buried under the ER curse. If the AAA World people's mind-set is prepared to absorb the insights from those who were ravaged by the ER and still survive to these days, the AAA World people can begin to see the light at the end of their dark tunnel. Then the AAA World people will realize the simplicity by which the ER are still insidiously and covertly exploiting and dominating the entire world today via its international "white" slavery (IWS).

Whilst the AAA World is liberated physically and politically from the ER armed occupation, the mind-set of the AAA World people is somehow still haunted, nauseated by but nostalgic towards the ER. This paradox is a time bomb or Trojan horse within the AAA World. The ER can rely on and exploit such AAA

World people sentiment to get away with their current scam and crime against all the other races. For instance, the ER created all types of decrees, which they called the “laws”, to prevent all the other races from settling in the massive ER occupied stolen lands or from demanding compensation for the five centuries of plunders by the ER invasion regime. Also, the ER got away free from their five centuries of crime against humanity. But the ER criminals would sue one another for damages and loss even in petty libel case. An O. J. Simpson’s acquittal from the criminal charges did not spared him from being sued for civil damages, which sky rocket to millions of super dollars for the “ER beneficiary” and not the victims under the ER racist jury system. (If a person is acquitted of a crime, how could he be liable for civil damages from the same crime he did not commit? Under the twisted racist judiciary system of the ER this madness is possible, inevitable and unavoidable). Yet the AAA World people up till now never sue the ER for the damages and losses wrecked by the ER five centuries of carnage against their ancestor and lands. Instead, the AAA World people still welcome the ER aggressors into their lands to further exploit the economic resources of their lands and people under the modern IWS camouflaged as “foreign investments” and military cooperation or alliance or the ER policy of “engagement”. Otherwise, the other races are paying exorbitant prices for the ER exports or huge royalties to the ER for copy rights, patent rights, franchise rights and whatnot fee for nothing that is tangible. The other races are again being made suckers by, to and for the ER in the modern days under the IWS.

The ER created the existing world order to serve only their survival interest and not to serve any other races’ survival interest or rights on earth. The ER have two purposes for all the other races on earth. One is for the other races to serve and slave covertly but “voluntarily” and “democratically” for the ER (via the super dollar scam). This will continue whilst the ER tribal need for more land and resources can still be sustained and maintained by the three stolen continents and many islands now being occupied by the ER. The other more sinister purpose of the ER is to turn the other races into guinea pig or testing specie for the ER genetically engineered viruses, new military weapons, smart bombs on the Iraqis or nuclear bombs on the Japanese. Such deadly tests are the Ebola outbreak in Zaire, Aids and HIV viruses, new medicine, military hardware, chemical or bacteria weapons and the atomic bombing of Nagasaki and Hiroshima. The ER will not test these new weapons on their own blood brothers, not even the Nazi. The atomic bombing of Hiroshima and Nagasaki was a classical experimental carnage of the other race by the racist ER. The Nazi cold-bloodedly genocided eleven millions Jews in the greatest holocaust in human history between 1939-1945, even under the blessing of the powerhouse of the ER human icon god. “...the role of the RCC during the holocaust – a period in which the then P.P. XII was accused of turning a blind eye to the Nazi murder of six millions Jews.....”

Reuters, Straits Times March 16, 1998. Yet the ER did not see it fit to atomic bomb their genetic cousin from the same ER for their crime. The Japanese liberated Asia from the ER invasion, occupation and economic exploitation. The ER regime must punished the Japanese for having liberated their Asian brothers from the ER curse, which thereby humiliated the ER regime. So the ER must test dropped their first atomic bombs on the Japanese. The innocent Japanese were still in their sleep when the first biggest explosion on earth was triggered off in August 1945 by the cowardly ER murderers in their killing machines which were flying 50,000 feet above their victims.

## **The Truth Hurts**

The ER believe that they have created a perfect world for themselves and have effective control over all the other human societies in the world. This world control is being exercised insidiously and silently through their international organizations, institutions, mass media, international decrees, system, pressure groups, lobbyists, human rights or environmental crusaders, criminal instigation and assassination agents and secret agencies. These outfits are all created and controlled by the ER. One such gimmick called the united nations was created as a tool of the ER foreign policy, as declared by its president of the day. All the other races are sucked into this outfit and proudly finance its operation against their own interest. Ironically that ER have not paid its 1.5 billions super dollars maintenance arrears to this foreign policy tool kit as at December 31, 1997, because this puppet outfit sometimes failed to dance to its rock and roll tunes. Strangely, one ER eccentric billionaire from a mass media had just donated in 1997 one billion super dollars to fund this ER puppet operational cost, because this outfit has created countless media opportunities for his network. The ER international net work of organizations is aimed at entrenching and defending the evil race's continued prosperity. It is protecting the ER ill gotten wealth and stolen lands. This ER established world order serve to further embolden the ER to cynically label and brand the world likes branding cattle and sheep. The ER specie branded their world as the developed world, and the AAA World as under-developed or developing world, or the third world. It is clear that the ER specie never have the gut to admit that all their ill gotten and bloodstained wealth came from the plunder and exploitation of the AAA World for the past five centuries. Instead the ER claimed that the criminal inheritance of all the bloodstained wealth were theirs naturally acquired wealth by virtue of their 'white skin' or mythical 'racial superiority' and blessed by their human icon god.

The world today is so polluted and distorted by the ER defensive propaganda machinery. The propaganda network is aimed at protecting the ER global interest, domination, and the ER stolen lands. It is promoting the evil race "supremacy" and eventual world conquest. It is a world so concocted and
