CONTRIBUTORS

Ana M. Abrantes
Assistant Professor (Research)
Alpert Medical School of Brown University
Associate Director of Addictions Research
Butler Hospital
United States of America

Kelly Arbour-Nicitopoulos
Assistant Professor
Faculty of Kinesiology and Physical
Education
University of Toronto
Canada

Lars Arendt-Nielsen
Professor
Laboratory for Musculoskeletal Pain and
Motor Control
Center for Sensory-Motor Interaction (SMI)
Department of Health Science and
Technology
Aalborg University
Denmark

Lisa A. Barella
Assistant Professor
Department of Health, Kinesiology, and
Sport Studies
Coastal Carolina University
United States of America

Deborah Barnes
Associate Professor
Department of Psychiatry
Veterans Affairs Medical Centre
University of California, San Francisco
United States of America

Rebecca Bassett-Gunter
Assistant Professor
School of Kinesiology and Health Science
York University
Canada

Jacqueline L. Beaudry
Graduate Student
School of Kinesiology and Health Science
Muscle Health Research Centre and Physical
Activity and Chronic Disease Unit
York University
Canada

Nicole C. Berchtold
Project Scientist
Institute for Memory Impairments and
Neurological Disorders
University of California, Irvine
United States of America

James A. Blumenthal
Professor of Psychiatry
Department of Psychiatry and Behavioral
Sciences
Division of Behavioral Medicine
Duke University Medical Center
United States of America

Henning Boecker
Professor and Head
Functional Neuroimaging Group
Department of Radiology
University of Bonn
Germany

Richard A. Brown
Professor
Alpert Medical School of Brown University
Director of Addictions Research
Butler Hospital
United States of America

Francis Chaouloff
Researcher
Team Endocannabinoids and
NeuroAdaptation
Neurocentre INSERM U862
University of Bordeaux
France

Michael J. Chen
Assistant Research Professor
Department of Biological Sciences
California State University, Los Angeles
United States of America

Dane B. Cook
Associate Professor
Department of Kinesiology
University of Wisconsin – Madison
United States of America

Carl W. Cotman
Professor
Institute for Memory Impairments and
Neurological Disorders
University of California, Irvine
United States of America

Kerry S. Courneya
Professor, Canada Research Chair in Physical
Activity and Cancer
Faculty of Physical Education and Recreation
University of Alberta
Canada

Lynette L. Craft
Adjunct Assistant Professor
Department of Preventive Medicine
Feinberg School of Medicine
Northwestern University
United States of America

Peter R. E. Crocker
Professor
School of Kinesiology
University of British Columbia
Canada

S. Nicole Culos-Reed
Associate Professor
Faculty of Kinesiology
University of Calgary
Canada

Rod K. Dishman
Professor
Department of Kinesiology
Biomedical Health Sciences Institute,
Neuroscience Division
University of Georgia
United States of America

Anna D'souza
Graduate Student
School of Kinesiology and Health Science
Muscle Health Research Centre and Physical
Activity and Chronic Disease Unit
York University
Canada

Sarah Dubreucq
Graduate Student
Team Endocannabinoids and
NeuroAdaptation
Neurocentre INSERM U862
University of Bordeaux
France

Contributors

Kate M. Edwards
Lecturer
Discipline of Exercise and Sport Science
University of Sydney
Australia

Panteleimon Ekkekakis
Associate Professor
Department of Kinesiology
Iowa State University
United States of America

Steriani Elavsky
Assistant Professor
Department of Kinesiology
Pennsylvania State University
United States of America

Laura D. Ellingson
Post-doctoral Fellow
Department of Kinesiology
University of Wisconsin – Madison
United States of America

Charles F. Emery
Professor
Department of Psychology
Ohio State University
United States of America

Kirk I. Erickson
Assistant Professor
Department of Psychology
Center for the Neural Basis of Cognition
University of Pittsburgh
United States of America

Jennifer L. Etnier
Professor
Department of Kinesiology
University of North Carolina at Greensboro
United States of America

Guy Faulkner
Professor
Faculty of Kinesiology and Physical
Education
University of Toronto
Canada

Monika Fleshner
Professor
Department of Integrative Physiology
Center for Neuroscience
University of Colorado at Boulder
United States of America

Jennifer I. Gapin
Assistant Professor
Department of Kinesiology and Health
Education
Southern Illinois University –
Edwardsville
United States of America

Katharina Gaudlitz
Research Assistant
Department of Psychiatry and
Psychotherapy
Charité – Universitätsmedizin Berlin
Germany

Paul Gorczynski
Post-doctoral Fellow
Centre for Addiction and Mental Health
Canada

Neha Gothe
Graduate Student
Department of Kinesiology and
Community Health
University of Illinois at Urbana-
Champaign
United States of America

Thomas Graven-Nielsen
Professor
Laboratory for Musculoskeletal Pain and
Motor Control
Center for Sensory-Motor Interaction
(SMI)
Department of Health Science and
Technology
Aalborg University
Denmark

Contributors

Benjamin N. Greenwood
Assistant Research Professor
Department of Integrative Physiology
Center for Neuroscience
University of Colorado Boulder
United States of America

Mark Hamer
Principal Research Associate
Psychobiology Group
Department of Epidemiology and Public
Health
University College London
United Kingdom

Matthew P. Herring
Research Associate
Department of Epidemiology
University of Alabama at Birmingham
United States of America

Kelly Ickmans
PhD Researcher
Department of Human Physiology
Faculty of Physical Education and
Physiotherapy
Vrije Universiteit Brussel
Belgium

Lindsay E. Kipp
Lecturer
Department of Kinesiology and Health
Promotion
University of Kentucky
United States of America

Daphne Kos
Post-doctoral Researcher
Division of Occupational Therapy
Department of Health Care Sciences
Artesis University College Antwerp
Belgium
and
Assistant Professor
Katholieke Universiteit Leuven
Belgium

Risa N. Long
Graduate Student
Department of Psychology
The Ohio State University
United States of America

Wendy J. Lynch
Associate Professor
Departments of Psychiatry and
Neurobehavioral Sciences
University of Virginia
United States of America

Michael Mackenzie
Post-doctoral Researcher
Department of Kinesiology and
Community Health
University of Illinois at Urbana-
Champaign
United States of America

Henrik B. Madsen
PhD Fellow
Laboratory for Musculoskeletal Pain and
Motor Control
Center for Sensory-Motor Interaction
(SMI)
Department of Health Science and
Technology
Aalborg University
and
Pain Center South
University Hospital Odense
Denmark

Emily L. Mailey
Assistant Professor
Department of Kinesiology
Kansas State University
United States of America

Petra Majdak
Graduate Student
Neuroscience Program
University of Illinois
United States of America

Contributors

Giovanni Marsicano
Researcher
Team Endocannabinoids and
NeuroAdaptation
Neurocentre INSERM U862
University of Bordeaux
France

Kathleen A. Martin Ginis
Professor
Department of Kinesiology
McMaster University
Canada

Isabelle Matias
Post-doctoral Researcher
Team Endocannabinoids and
NeuroAdaptation
Neurocentre INSERM U862
University of Bordeaux
France

Stephen Matsko
Graduate Student
University of Rhode Island
Research Associate
Butler Hospital
United States of America

Edward McAuley
Professor
Department of Kinesiology and Community
Health
University of Illinois
United States of America

Carolyn E. McEwen
Graduate Student
School of Kinesiology
University of British Columbia
Canada

Desmond McEwan
Graduate Student
Department of Kinesiology
McMaster University
Canada

Mira Meeus
Post-doctoral Researcher
Department of Human Physiology
Faculty of Physical Education and
Physiotherapy
Vrije Universiteit Brussel
Belgium
and Assistant Professor
Department of Health Care
University College Antwerp
Belgium
and Assistant Professor
Department of Rehabilitation Sciences and
Physiotherapy
Ghent University
Belgium

Jacob D. Meyer
Graduate Student
Department of Kinesiology
University of Wisconsin – Madison
United States of America

Laura E. Middleton
Assistant Professor
Department of Kinesiology
University of Waterloo
Canada

Paul J. Mills
Professor in Residence
Department of Psychiatry
Behavioral Medicine Program
University of California, San Diego
United States of America

Amber D. Mosewich
Graduate Student
School of Kinesiology
University of British Columbia
Canada

Robert W. Motl
Associate Professor
Department of Kinesiology and
Community Health
University of Illinois
United States of America

Contributors

Jo Nijis
Associate Professor
Department of Human Physiology
Faculty of Physical Education and
Physiotherapy
Vrije Universiteit Brussel
Belgium

KayLoni L. Olson
Graduate Student
Department of Psychology
Ohio State University
United States of America

Michael W. Otto
Professor
Department of Psychology
Boston University
United States of America

Mark B. Powers
Research Assistant Professor
Department of Psychology
Southern Methodist University
United States of America

Timothy W. Puetz
Presidential Management Fellow
Office of the Director
National Institutes of Health
Department of Health and Human Sciences
United States of America

Justy Reed
Professor
Department of Secondary Education,
Professional Studies and Recreation
Chicago State University
United States of America

Justin S. Rhodes
Associate Professor
Department of Psychology
University of Illinois
United States of America

Michael C. Riddell
Associate Professor
School of Kinesiology and Health
Science
Muscle Health Research Centre and
Physical Activity and Chronic Disease
Unit
York University
Canada

Morgan R. Shields
Graduate Student
Department of Kinesiology
University of Wisconsin – Madison
United States of America

Kathleen A. Sluka
Professor
Department of Physical Therapy and
Rehabilitation Science
University of Iowa
United States of America

Mark A. Smith
Professor
Department of Psychology
Davidson College
United States of America

Patrick J. Smith
Assistant Professor of Psychiatry
Department of Psychiatry and Behavioral
Sciences
Division of Behavioral Medicine
Duke University Medical Center
United States of America

Jasper A. J. Smits
Associate Professor
Department of Psychology
Southern Methodist University
United States of America

Aaron J. Stegner
Assistant Scientist
Department of Kinesiology
University of Wisconsin – Madison
United States of America

Contributors

Andrew Steptoe
British Heart Foundation Professor of
Psychology
Psychobiology Group
Department of Epidemiology and Public
Health
University College London
United Kingdom

Shaelyn M. Strachan
Assistant Professor
Faculty of Kinesiology and Recreation
Management
University of Manitoba
Canada

Andreas Ströhle
Professor, Senior Consultant
Department of Psychiatry and Psychotherapy
Charité – Universitätsmedizin Berlin
Germany

Amanda N. Szabo
Energy Balance Laboratory
University of Kansas
United States of America

Adrian H. Taylor
Professor
School of Sport and Health Sciences
University of Exeter
United Kingdom

Robert S. Thompson
Graduate Student
Department of Integrative Physiology
Center for Neuroscience
University of Colorado Boulder
United States of America

Michael Ussher
Reader in Health Psychology
Division of Population Health Sciences and
Education
St. George's, University of London
United Kingdom

Angela C. Utschig
Research Assistant Professor
Center for Anxiety and Related Disorders
Boston University
United States of America

Jeffrey Vallance
Associate Professor
Faculty of Health Disciplines
Athabasca University
Canada

Inge van Eupen
Post-doctoral Researcher
Division of Occupational Therapy
Department of Health Care Sciences
Artesis University College Antwerp
Belgium

Jessica Van Oosterwijck
Post-doctoral Researcher
Department of Human Physiology
Faculty of Physical Education and
Physiotherapy
Vrije Universiteit Brussel
Belgium

Brigitt-Leila von Lindenberger
Research Assistant
Department of Psychiatry and
Psychotherapy
Charité – Universitätsmedizin Berlin
Germany

Michelle W. Voss
Assistant Professor
Department of Psychology
University of Iowa
United States of America

Maureen R. Weiss
Professor
School of Kinesiology
University of Minnesota
United States of America

Contributors

Diane E. Whaley
Associate Professor
Curry School of Education
Director, Lifetime Physical Activity
Program
University of Virginia
United States of America

Jessica Wolfe
Research Assistant
Addictions Research
Butler Hospital
United States of America

Kristine Yaffe
Professor
Departments of Psychiatry, Neurology, and
Epidemiology and Biostatistics
Veterans Affairs Medical Centre
University of California, San Francisco
United States of America

Elisabeth Zschucke
Research Assistant
Department of Psychiatry and Psychotherapy
Charité – Universitätsmedizin Berlin
Germany

CONTENTS

<i>List of figures</i>	<i>xi</i>
<i>List of tables</i>	<i>xiii</i>
<i>List of contributors</i>	<i>xv</i>

Physical activity as a mental health intervention in the era of managed care: A rationale <i>Panteleimon Ekkekakis</i>	1
---	---

PART 1

The physical activity “feel-good” effect <i>Edited by Panteleimon Ekkekakis</i>	33
---	-----------

1 Pleasure from the exercising body: Two centuries of changing outlooks in psychological thought <i>Panteleimon Ekkekakis</i>	35
2 Physical activity and reward: The role of endogenous opioids <i>Henning Boecker and Rod K. Dishman</i>	57
3 Physical activity feel-good effect: The role of endocannabinoids <i>Francis Chaouloff, Sarah Dubreucq, Isabelle Matias, and Giovanni Marsicano</i>	71
4 Physical activity and reward: The role of dopamine <i>Justin S. Rhodes and Petra Majdak</i>	88

PART 2	
Anxiety disorders	103
<i>Edited by Jasper A.J. Smits</i>	
5 The relationship between physical activity and anxiety and its disorders <i>Angela C. Utschig, Michael W. Otto, Mark B. Powers, and Jasper A.J. Smits</i>	105
6 Mechanisms underlying the relationship between physical activity and anxiety: Human data <i>Katharina Gaudlitz, Brigitt-Leila von Lindenberger, Elisabeth Zschucke, and Andreas Ströhle</i>	117
7 Mechanisms underlying the relationship between physical activity and anxiety: Animal data <i>Benjamin N. Greenwood and Monika Fleshner</i>	130
PART 3	
Depression and mood disorders	143
<i>Edited by Lynette L. Craft</i>	
8 Exercise and physical activity in the prevention and treatment of depression <i>Patrick J. Smith and James A. Blumenthal</i>	145
9 Potential psychological mechanisms underlying the exercise and depression relationship <i>Lynette L. Craft</i>	161
10 The neurobiology of depression and physical exercise <i>Michael J. Chen</i>	169
PART 4	
Self-perceptions and self-evaluations	185
<i>Edited by Kathleen A. Martin Ginis</i>	
11 Physical activity and self-perceptions among children and adolescents <i>Lindsay E. Kipp and Maureen R. Weiss</i>	187
12 Physical activity and self-perceptions among adults <i>Peter R. E. Crocker, Carolyn E. McEwen, and Amber D. Mosewich</i>	200
13 Identities, schemas, and definitions: How aspects of the self influence exercise behavior <i>Shaelyn M. Strachan and Diane E. Whaley</i>	212

14	Physical activity and personal agency: Self-efficacy as a determinant, consequence, and mediator	224
	<i>Edward McAuley, Emily L. Mailey, Amanda N. Szabo, and Neha Gothe</i>	
15	Physical activity and body image	236
	<i>Kathleen A. Martin Ginis, Desmond McEwan, and Rebecca L. Bassett-Gunter</i>	
PART 5		
	Cognitive function across the lifespan	247
	<i>Edited by Jennifer L. Etnier</i>	
16	Physical activity: Relations with children's cognitive and academic performance	249
	<i>Jennifer I. Gapin, Lisa A. Barella, and Jennifer L. Etnier</i>	
17	Exercise effects on brain and cognition in older adults	262
	<i>Michelle W. Voss and Kirk I. Erickson</i>	
18	Physical activity, cognitive impairment, and dementia	275
	<i>Laura E. Middleton, Kristine Yaffe, and Deborah Barnes</i>	
19	Exercise and cognitive function: Neurobiological mechanisms	287
	<i>Nicole C. Berchtold and Carl W. Cotman</i>	
PART 6		
	Psychosocial stress	301
	<i>Edited by Mark Hamer</i>	
20	Physical activity, stress reactivity, and stress-mediated pathophysiology	303
	<i>Mark Hamer and Andrew Steptoe</i>	
21	Impact of physical activity on diurnal rhythms: A potential mechanism for exercise-induced stress resistance and stress resilience	316
	<i>Monika Fleshner, Robert S. Thompson, and Benjamin N. Greenwood</i>	
22	Physical activity and stress: Peripheral physiological adaptations	329
	<i>Jacqueline L. Beaudry, Anna D'souza, and Michael C. Riddell</i>	
23	Physical activity, stress, and immune function	342
	<i>Kate M. Edwards and Paul J. Mills</i>	

PART 7	
Pain	357
<i>Edited by Dane B. Cook</i>	
24 The interaction of musculoskeletal pain and physical activity: Human studies	359
<i>Thomas Graven-Nielsen, Henrik B. Madsen, and Lars Arendt-Nielsen</i>	
25 Effects of physical activity on laboratory pain: Studies on animals	372
<i>Kathleen A. Sluka</i>	
26 Effects of acute and chronic physical activity on chronic pain conditions	387
<i>Aaron J. Stegner, Morgan R. Shields, Jacob D. Meyer, and Dane B. Cook</i>	
27 Physical activity and pain: Neurobiological mechanisms	400
<i>Laura D. Ellingson and Dane B. Cook</i>	
PART 8	
Energy and fatigue	411
<i>Edited by Justy Reed</i>	
28 Effect of acute and regular aerobic physical activity on positive activated affect	413
<i>Justy Reed</i>	
29 Physical activity and feelings of fatigue	422
<i>Timothy W. Puetz and Matthew P. Herring</i>	
30 Tired of being sedentary: Physical activity as a treatment goal in patients with chronic fatigue syndrome	440
<i>Jo Nijs, Mira Meeus, Jessica Van Oosterwijck, Kelly Ickmans, Inge van Eupen, and Daphne Kos</i>	
PART 9	
Addictions	449
<i>Edited by Michael Ussher</i>	
31 Physical activity as an aid in smoking cessation	451
<i>Adrian H. Taylor and Michael Ussher</i>	
32 Physical activity and alcohol and drug use disorders	465
<i>Ana M. Abrantes, Stephen Matsko, Jessica Wolfe, and Richard A. Brown</i>	

33	The neurobiology of exercise and drug-seeking behavior <i>Mark A. Smith and Wendy J. Lynch</i>	478
PART 10		
	Quality of life in special populations <i>Edited by S. Nicole Culos-Reed</i>	491
34	Role of physical activity in older adults' quality of life <i>Steriani Elavsky and Edward McAuley</i>	493
35	Physical activity and quality of life in cardiovascular and pulmonary diseases <i>Charles F. Emery, Risa N. Long, and KayLoni L. Olson</i>	505
36	Physical activity and psychosocial health among cancer survivors <i>Jeffrey Vallance, S. Nicole Culos-Reed, Michael Mackenzie, and Kerry S. Courneya</i>	518
37	Physical activity and quality of life in multiple sclerosis <i>Robert W. Motl</i>	530
38	Exercise as an adjunct treatment for schizophrenia <i>Guy Faulkner, Paul Gorczynski, and Kelly Arbour-Nicitopoulos</i>	541
	Postscript <i>Panteleimon Ekkekakis</i>	556
	Index	559

FIGURES

1.1	The domains of exercise intensity and associated affective responses	47
1.2	Affective responses to exercise stimuli, plotted in circumplex space	49
1.3	Illustration of the affective opponent process described by Solomon, as it applies to exercise	50
3.1	The endocannabinoid system	74
3.2	Endocannabinoids and wheel running	76
3.3	CB1 receptors and behavioral consequences of wheel running	82
4.1	Brain activation in dopaminergic regions reflects intrinsic motivation to run	92
4.2	The natural reward circuit	93
4.3	Dopamine D1-like receptor signaling implicated in high voluntary wheel running behavior	97
6.1	The hypothalamic–pituitary–adrenal (HPA) system and its inhibition by atrial natriuretic peptide (ANP)	123
7.1	Potential mechanisms underlying the anxiolytic effects of exercise in animal models of learned anxiety	133
7.2	Effects of exercise on open field behavior	136
15.1	Basic model to guide research examining the effects of exercise interventions on body image	242
17.1	Aerobic fitness and hippocampal volume	265
17.2	Aerobic exercise benefits brain networks	269
18.1	Relative risk of dementia comparing most to least physically active	277
18.2	Relative risk of Alzheimer’s disease comparing most to least physically active	278
20.1	The association between physical activity and daily positive mood and depressive mood	307
20.2	The association between physical fitness and the inflammatory response to mental stress	310
20.3	The association between mood disturbance following 2 weeks’ exercise withdrawal and IL-6 responses to mental stress	311
21.1	Stress alters core body temperature rhythm	320
21.2	Core body temperature has greater peak amplitude after 6 weeks of wheel running	322
