DESCRIBING AND EXPLAINING GRAMMAR AND VOCABULARY IN ELT

Language description plays an important role in language learning/teaching because it often determines what specific language forms, features, and usages are taught and how. A good understanding of language description is vital for language teachers and material writers and should constitute an important part of their knowledge. This book provides a balanced treatment of both theory and practice. It focuses on some of the most important and challenging grammar and vocabulary usage questions. Using these questions as examples, it shows how theory can inform practice and how grammar and vocabulary description and explanation can be made more effective and engaging.

Part I describes and evaluates the key linguistic theories on language description and teaching. Chapters in this section conclude with questions for consideration and discussion. Part II discusses and gives specific examples of how challenging grammar and vocabulary issues can be more effectively described and explained; each chapter focuses on one or more specific grammar and vocabulary issue. These chapters conclude with suggested teaching activities. The book also contains an annotated list of useful free online resources (online corpora and websites) for grammar and vocabulary learning/teaching and a glossary of important terms in language description and teaching.

Dilin Liu is Professor of Applied Linguistics/TESOL, Department of English, The University of Alabama, USA.

PREFACE

This book is based on my many years of reading and research on the learning and teaching of English grammar and vocabulary, arguably the two most important aspects of language. As an ESL learner, teacher, and teacher educator, I have always been interested in not only how the English language works (especially its grammar and vocabulary) but also why it works the way it does. At the same time, I have been equally interested in how to best describe and teach English grammar and vocabulary usages, especially those that are difficult for students to understand and challenging for teachers to explain. In fact, many of the grammar and vocabulary usage questions I have explored were first raised by my students and colleagues. The search for answers to these questions has involved extensive reading and research (including many corpus-based studies). In the process, I have learned not only a lot about the English language but also about the importance and challenges of grammar and vocabulary description and explanation for teachers in general. The latter understanding has been the motivation for writing this book, which is intended to provide language teachers (including pre-service teacher trainees) and material writers with a solid understanding of grammar and vocabulary description and explanation both in theory and practice.

Grammar and vocabulary description refers to the analysis and description of how the lexical and syntactical components of a language work together to convey meanings. It constitutes an essential part of language description (which includes, in addition, the analysis of phonology, a part of language that this book does not cover, except for a brief mention in Chapter 6). Historically, language description has focused exclusively on grammar. Yet, contemporary linguistic theories and research have shown that grammar and vocabulary are not two distinct domains but the two ends of one continuum (an issue that will

be addressed in Chapter 1). This new understanding has led to the inclusion of both grammar and vocabulary in this book. The title of this book also contains the term *explaining* in addition to *describing*. The reason for doing so is that while both terms have essentially the same meaning in this context—presenting how a given language feature/usage works, explanation often covers not only how it works but also why it works the way it does. In teaching a language usage, an explanation is often needed on top of a simple description.

It is also important to note that description and explanation constitute only one part or phase of the complex process of grammar and vocabulary learning/teaching. Besides description and explanation, the process of grammar and vocabulary learning/teaching also involves practice, reinforcement, and actual use. This book covers only description and explanation. Therefore, it is not a comprehensive book on English grammar and vocabulary and their teaching. It does not cover all of the grammatical and vocabulary aspects and issues in English. Instead, the book focuses on some of the most important and challenging grammar and vocabulary usage questions. With these challenging questions as examples, the book attempts to show how theory can inform practice and how grammar and vocabulary description and explanation can be made more effective and engaging.

Content and Organization

This book consists of an introduction (Chapter 1) and two parts. The introduction describes the purview, importance, and principles of language description. Part I (Chapters 2–5) describes and evaluates the key linguistic theories on language description and teaching, with Chapter 2 on prescriptive, structural, and generative linguistics; Chapter 3 on sociolinguistics and systemic functional linguistics; Chapter 4 on Cognitive Linguistics; and Chapter 5 on corpus linguistics. Each chapter in this part begins with an overview of the linguistic theory(ies) in question followed by a discussion of their impact on language description and teaching. Each chapter (including also Chapter 1) ends with questions for consideration and discussion.

Part II (Chapters 6–14) discusses with specific examples how challenging grammar and vocabulary issues can be more effectively described and explained, with each chapter focusing on one or more specific grammar and vocabulary issues, such as English tenses/aspects, articles, and word collocations. Each chapter in this part typically begins with a description of the grammar/vocabulary features/issues being addressed. It is followed by a discussion of the established useful practices in teaching the given grammar/vocabulary feature/issue, a discussion that is based on a survey of seven existing ESL student grammar textbook series and the observations of classroom teaching as well as my own teaching experience. Then the chapter moves on to a section titled “Explaining/teaching challenging issues with new insights,” which provides explanation and

teaching practices that are informed by the most recent theories and research findings. The information in this section is based on published studies including those by the author. The main purpose of the section is to show how to apply new research and theory to enhance language description and explanation. The chapters in Part II end with some suggested teaching activities. These activities are meant only as snapshots of the types of activities teachers can use in explaining/teaching the grammar/vocabulary features in question.

There are some minor variations in the format in a few of the chapters, including Chapters 6, 7, 11, and 14. Chapters 6 and 7 differ from the rest of the chapters in this part of the book in that they offer a general coverage of the basic issues involved in vocabulary description (Chapter 6) and sentence structure description (Chapter 7). Chapters 11 and 14 are unique in that they each cover multiple, although related, topics, with Chapter 11 on *object placement*, *subject/object deletion*, and the *passive voice*, and Chapter 14 on *idioms*, *phrasal verbs*, and *formulae/lexical bundles*. In Chapters 11 and 14, no description of “established useful practices” is given due both to lack of space and the fact that some of the topics have not received much coverage in English language teaching so far.

The book includes an annotated list of some useful free online resources (online corpora and websites) for grammar and vocabulary learning and teaching, as well as a list for glossary of special terms.

Finally, this book may be used as a textbook for a pedagogical grammar, vocabulary teaching, or material development course, a self-study text, or a reference book. However it is used, I hope readers will find its information useful in their language teaching.

ACKNOWLEDGMENTS

First, I would like to acknowledge the valuable information and inspiration about grammar/vocabulary and grammar/vocabulary teaching that I have gained in my career from many of my students as well as many colleagues in the field. Their information and inspiration have motivated and contributed greatly to this book. A special acknowledgment should go to my renowned colleagues: Marianne Celce-Murcia, Diane Larsen-Freeman, Paul Nation, and Andrea Tyler, whom I have had the honor of working with on one or more occasions (conference session and/or book projects) and whose work has influenced me and this book tremendously.

Then, I would like to thank Eli Hinkel, editor of the ESL and Applied Linguistics Professional Series (to which this book belongs), for her invaluable advice and suggestions over the course of the development of the book. I would also like to thank Professor Penny Ur of Oranim Academic College of Education, Israel, and an anonymous reviewer for reviewing the proposal for this book and the sample chapters. Their comments and suggestions have significantly enhanced the quality of the book. I also need to express my deep gratitude to Naomi Silverman, publisher at Routledge, for her encouragement and clear directions in the preparation of the manuscript. Finally, I would like to thank my graduate assistant Josh Weathersby for proofreading the manuscript. Of course, I alone am responsible for whatever errors and shortcomings remain.

<i>Preface</i>	<i>xvii</i>
<i>Acknowledgments</i>	<i>xxi</i>

1 Language Description	1
1.1 Introduction	1
1.2 The purview of language description	2
1.3 The importance of language description	6
1.4 Principles for language description	8
Questions for consideration and/or discussion	11

PART I

Foundations: Key Theories and Approaches to Language Description **13**

2 Prescriptive, Structural, and Generative Linguistics	15
2.1 Prescriptivism	15
2.1.1 Overview	15
2.1.2 Influence of prescriptivism on language teaching	17
2.2 Structuralism	19
2.2.1 Overview	19
2.2.2 Influence of structuralism on language teaching	21
2.3 Generativism	23
2.3.1 Overview	23
2.3.2 Influence of generativism on language teaching	26
Questions for consideration and/or discussion	30
3 Sociolinguistics and Systemic Functional Linguistics	33
3.1 Sociolinguistics: an overview of communicative competence and speech act theory	33

3.1.1	Communicative competence	34
3.1.2	Speech act theory	34
3.1.3	Pragmatics across languages	36
3.2	Systemic functional linguistics: an overview	38
3.2.1	Language as a system of choice	38
3.2.2	Semantic functions of language	39
3.2.3	Register	40
3.3	The impacts of sociolinguistics and SFL on language teaching	41
3.3.1	From form-focused to meaning/communication-oriented instruction	41
3.3.2	Teaching pragmatics	44
3.3.3	Discourse analysis and discourse grammar	46
3.3.4	Register and semantic function analysis	47
	Questions for consideration and/or discussion	48
4	Cognitive Linguistics	51
4.1	Theoretical underpinnings and important basic concepts	51
4.1.1	Language is symbolic and conceptual in nature	51
4.1.2	Meaning is fundamental to language	53
4.1.3	Language is composed of symbolic units/constructions	55
4.1.4	Language knowledge is usage-based	59
4.2	Cognitive Linguistics-inspired language description	61
4.2.1	Cognitive grammar and construction Grammar	61
4.2.2	Focusing on construal and conceptual motivation	63
4.2.3	Focusing on embodied experience and conceptualization: use of visuals	63
4.2.4	Description of constraints on the generalizability of constructions	65
	Questions for consideration and/or discussion	67
5	Corpus Linguistics	69
5.1	Overview	69
5.1.1	What is corpus linguistics?	69
5.1.2	Types of information corpus queries may generate and the procedures used	70
5.2	Significant contributions of corpus linguistics to the study of language	74
5.3	Impact of corpus linguistics on language teaching	77
5.3.1	Corpus use in the classroom	78
5.3.2	Using corpora for curriculum design and material development	81
	Questions for consideration and/or discussion	82

PART II

Putting Theory to Practice: Striving for Enhanced Language Description and Explanation	85
6 Vocabulary Description	87
6.1 What information should be covered in teaching a word?	87
6.2 Describing/teaching spelling, pronunciation, and morphological rules	88
6.3 Defining/teaching parts of speech	89
6.3.1 The concept of parts of speech and categories involved	90
6.3.2 Meaning- and form-based definition methods	91
6.3.3 Structure (sentence position)-based definition method	91
6.3.4 Conceptualization/construal-based definition method	92
6.3.5 Using an eclectic method suited to learners' proficiency level and needs	93
6.4 Collocation/semantics/register: other key issues to be addressed	94
6.5 Explaining/teaching challenging issues with new insights	95
6.5.1 Adverb or noun: the case of home in go home and more	95
6.5.2 Count vs. non-count nouns	96
Suggested teaching activities	99
7 Sentence Structure Description	103
7.1 Sentence structural analysis: tasks and processes	103
7.1.1 Sentence structure types: a quick overview	103
7.1.2 Tasks and processes involved in sentence structural analysis	104
7.2 Established practices for describing/analyzing sentence structures	107
7.2.1 How pedagogical structural analysis is generally done	108
7.2.2 The use of technical terms	109
7.2.3 The use of diagrams and other visual markings	111
7.3 Explaining/teaching challenging issues with new insights	111
7.3.1 Describing and explaining different verb structures	111
7.3.2 Participles/participle phrases and clause structure: form/function	113
7.3.3 Describing/explaining the dummy it and related sentence structures	114
Suggested teaching activities	115
8 Tense and Aspect	119
8.1 English tense and aspect system: an overview	119
8.2 Established useful practices for describing/teaching tenses/aspects	122

8.3	Explaining/teaching challenging issues with new insights	125
8.3.1	Differentiating closely related tenses/aspects: simple past vs. present perfect and present perfect vs. present perfect progressive	125
8.3.2	Tense/aspects in conditional clauses: unusual tense/aspect use 1	127
8.3.3	Progressive for temporariness/other effects: unusual tense/aspect use 2	129
8.3.4	Present or past tense? Difficult tense/aspect issues in academic writing	130
	Suggested teaching activities	132
9	Articles	135
9.1	The English article system: an overview	135
9.1.1	English articles and their semantic functions	135
9.1.2	Type of noun and the use of article	137
9.1.3	Specific or non-specific: the crucial complex question in article use	138
9.1.4	The four major non-generic uses of <u>the</u>	139
9.2	Established useful practices in describing/teaching English articles	140
9.3	Explaining/teaching challenging issues with new insights	141
9.3.1	Tailoring the explanation of the generic use of articles to learner needs	141
9.3.2	Teaching the non-generic uses of the with the right sequence/strategies	142
9.3.3	Explaining the motivations of cultural and unusual uses of articles	143
9.3.4	Corpus and discourse-based approach to a/an vs. the	144
9.3.5	Treating the English articles as a binary system	145
	Suggested teaching activities	145
10	Prepositions, Prepositional Adjectives/Adverbs, and Particles	147
10.1	Overview: basic information, importance, and difficulties	147
10.2	Established useful practices for describing and teaching prepositions	149
10.3	Explaining/teaching challenging issues with new insights	150
10.3.1	At/on/in: Their usage/motivations as spatial/temporal location terms	150
10.3.2	Closely related and contrasting pairs of prepositions: pattern finding	153
10.3.3	Using embodied experience/construal to explain difficult usage issues	155
	Suggested teaching activities	157

11	Structural Alternation	161
11.1	Explaining/teaching object placement with new insights	161
11.1.1	Placement of the direct and indirect objects	161
11.1.2	Placement of the object in separable phrasal verbs	163
11.2	Explaining/teaching subject/object deletion with new insights	164
11.2.1	Patterns of permissible subject/object omissions in English	164
11.2.2	Teaching subject-deletion to Spanish ESL/EFL learners	167
11.2.3	Teaching object-deletion to Chinese ESL/EFL learners	167
11.3	Explaining/teaching the passive voice with new insights	170
	Suggested teaching activities	172
12	Word Meaning and Usage	175
12.1	Polysemy	175
12.1.1	Core meaning and extended meanings in polysemy	176
12.1.2	Figurative meanings in polysemy: the role of metaphorical process	176
12.2	Synonymy	177
12.2.1	Differentiating synonyms	178
12.2.2	Conventional usage and construal: key factors in synonym use	180
12.3	Established useful practices for teaching polysemes and synonyms	181
12.3.1	Practices for teaching polysemes	181
12.3.2	Practices for teaching synonyms	183
12.4	Explaining/teaching challenging issues with new insights: polysemy, synonymy, culturally-loaded words, and register	184
12.4.1	Cognitive analysis of metaphorical bases in polysemy learning	184
12.4.2	Corpus-based analysis and other practices in synonym learning	185
12.4.3	Culturally-loaded words	185
12.4.4	Register-appropriate use of words	187
	Suggested teaching activities	187
13	Word Collocations	191
13.1	Overview of collocations	191
13.1.1	What constitutes a collocation?	191
13.1.2	Collocations are generally motivated: a new finding	192
13.2	Established useful practices in collocation teaching	194
13.2.1	Noticing and memorizing	194
13.2.2	Pattern finding	195
