# 前 言

为了充分反映和广泛宣传建国以来，特别是改革开放 20 年财政发展的巨大成就，使社会各界人士更加关心和了解财政，并为有志于研究中国财政发展问题的人士提供翔实的统计数据，我们编辑了《新中国 50 年财政统计》一书。

本书力求以丰富的统计资料，全面、系统地展示建国以来国家财政的发展历程，充分反映财政在改革开放过程中的发展情况，以及对经济和社会发展的支持。全书共分八个部分：第一部分至第三部分主要反映全国和各地区财政收支规模及其增长变化情况，国家财政平衡状况，财政收支项目，以及财政收支结构变化；第四部分反映全国和各地区预算外资金收支规模及其增长变化情况；第五部分反映国有企业销售收入、利润、税金、所有者权益等变化情况；第六部分反映全国国有资产总量，以及各行业、各地区国有企业资产负债情况；第七部分是国民经济主要指标；第八部分是香港特别行政区、澳门特别行政区和台湾省主要财政经济指标。此外，为了更直观地反映我国财政发展情况，便于有关人员进行国际比较研究，本书还收集整理国外主要财政经济统计资料，制作了财政经济主要指标统计图，作为附录。

在本书编辑过程中，得到了有关部门和财政部有关司的大力支持和帮助，在此谨表感谢。

由于编者水平所限，书中不足之处在所难免，敬请读者指正。

# FORWARD

*New China Fifty Years' Government Finance Statistics* aims to fully reflect the achievements of government finance since the founding of the People's Republic of China, particularly in the past 20 years of reform. The book is edited to draw more attention on and win better understanding of government finance operations. We have tried, to the best of our capacity, to provide a statistics summary with the widest coverage and the best accuracy for further studies on the development of government finance in China.

In the language of statistical data, the book tries to systematically exhibit the development path of government finance since the founding of new China, particularly the contribution of government finance to the economic and social development in China during the reform era. The book is composed of eight parts. The first three parts mainly cover the scope and growth of national and sub-national budget revenue and expenditure, the balance of national budget, main items of budget, and changes in the structure of national budget. The fourth part covers the scope and growth of national and sub-national off-budget revenue and expenditure. The fifth part covers the sales income, profit, tax paid, and equity of state-owned enterprises. The sixth part covers the nationwide gross of state-owned equities, the assets and liabilities of state-owned enterprises grouped by lines of trade and by geographic districts. The seventh part includes main indicators of the national economy. The eighth part contains main financial and economic indicators of Hong Kong Special Administration Region, Macao Special Administration Region, and Taiwan province. Readers may also find the graphical presentations of key financial and economic indicators in the appendix useful for international comparative studies.

Special thanks are given to the departments in the Ministry of Finance and other government offices who generously offered much-needed support to us.

Comments and suggestions are welcome to make the book a better one.
