序 言

自从《中国图书馆和情报机构名录大全》在 1995 年 5 月出版之后,许多图书情报界同仁和有关读者都认为很有用处:通过该书不仅掌握了一万余家图书馆和情报机构的通讯信息,而且从不同角度看到了中国图书情报事业的现状;但是,由于语言隔阂,就其作为国际交流通道而言,还是显得十分窄狭。因此一些有识之士建议,可否将其译成英文,或者摘其具有国际交流与合作前景者,以中英对照的方式出版一部“要览”,趁'96 北京国际图联(IFLA)大会之机,从更多的层面向世界各国各地区同行宣传我国图书情报事业发展情况,以争取更多的国际文献信息交流与合作的机会。

基于之上述,《中国图书馆和情报机构名录大全》出版者东北大学出版社在今年早些时候,再次提出编辑出版《中国图书馆和情报机构要览》选题计划,并希望我出面主持这项工作。盛情难却,义不容辞。经过多方论证,在文化部图书馆司杜克司长、国家科委信息司刘昭东司长、教委条件装备司王富副司长和中国科学院文献情报中心前主任史鉴等领导同志的鼓励支持下,“要览”的编辑工作于今年 5 月正式启动。

这次“要览”编辑工作的重点,一是在“名录大全”的基础上,确定入选的原则和对象;再则,对入选的近 3000 家图书馆和情报机构发函,以征集更新和补充有关数据资料。经过三个多月的艰苦奋斗,一部根据“全面、实用、有代表性”的原则,收录 2500 余家图书馆和情报机构、中英文对照的“要览”在第 62 届国际图联大会召开之际问世。

在编辑出版“名录大全”和“要览”过程中,我们深刻地认识到,随着改革开放的深入发展,由于社会信息需求的多样化和以计算机为代表的高新技术的广泛应用,图书馆和情报机构的信息职能越来越突出,越来越需要加强国际和地区之间的交流与合作。如果我们的工作能在这方面发挥一点作用,无疑是一件令人欣慰的事。

中国是一个正在发展中的大国,同其他学科、专业一样,图书情报工作的许多领域需要向国外同行学习,吸取他人的经验和新技术;同时,中国又是一个历史悠久的文明古国,有着丰厚的文化遗产,对人类历史的进步曾经作出过许多重大杰出贡献,需要通过图书馆这类社会设施向世界各地进行宣传,发扬光大。因此,我们由衷地希望我们编辑的这本专业参考书能够在这方面发挥作用。

由于本“要览”篇幅较长,难度较大,加之时间十分紧迫,所以从事具体编辑和出版工作的同志们夜以继日辛劳的程度可想而知。作为本书的主编,曾经主持过几部大型参考书,但哪一次,都没有这次艰苦(主要是时间紧,难度大),因此趁本书即将出版的机会,谨向有关领导同志和参加实际文字和技术编辑、出版的同志致以衷心的感谢!

对于本书编辑不当或错漏的地方,敬请广大读者、专家批评指正。

Foreword

Since the publication of *A Masterlist of Chinese Libraries and Information Services* in May 1995, it has been considered as a very useful tool by Chinese library and users from other related fields. Through the book one can not only grasp address information of more than 10,000 libraries and information services in China, but also understanding a broad outline of the existing situation of library and information enterprises in China from different point of view. However, the language barrier restricted the influence of the book as an international communication tool. Many colleagues proposed, on the occasion of celebrating the convening of '96 IFLA Conference in Beijing, to publish an English correspondent of the Masterlist or a bilingual edition, to show the achievements of library and information enterprises of China, and to offer more chance for international communication and co-operation among library and information services.

In this situation, in the early time of this year, Northeastern University Press—the publisher of the, proposed to compile and publish the *Directory of Major Chinese Libraries and Information Services*, and asked me to hold the task. Boundless hospitality and being duty-bound, after getting proofs from many related sides, under the hold out and support by Mr. Duke (Director, Library Department, the Ministry of Culture of China), Mr. Liu Zhaodong (Director, Information Department, Science and Technology Committee of China), Mr. Wang Fu (Director, Rear Service and Equipment Department, Educational Committee of China) and Mr. Shi Jian (Director, the Documentation and Information Center of Chinese Academy of Science), We Formally started to compile the Directory in May of this year.

In the courses of compiling and publishing the *Masterlist* and this Directory, we deeply realized that, along with the development of reformation and opening to the outside world, due to the increase of varied demands of social information and the extensive use of computer and high-tech in the information field, the information functions of library and information services are getting more and more sticking out and more and more international and regional communications and cooperations are needed. Undoubtedly, we are gratified for playing some roles to this cause.

China is a large developing country, library and information services in China, similar to many other branches of science, need to learn from foreign colleagues, to absorb the experiences and new technologies from developed countries. Besides, China is a country with long history and an ancient civilization. With its rich cultural heritage, China has made many important contributions to the evolution of mankind history. Library and information services have the functions of disseminating and carrying forward the mankind civilizations to all over the world. Therefore, we sincerely hope this Directory, as a special reference book, can benefit its users in this aspect.

It has been a very hard work to compile a book with so wide coverage and so complex in structure, in a period of just three months. All people engaged in this task have worked day and night to fulfill their assignments. I have taken charges of compiling several large books, no one was as difficult as this book because we had very limited time (only three months). As editor-in-chief of the book, on the time of sending the manuscript to publishing house, I hereby express my thanks to all people who have contributed to the compiling and publishing of this book.

Every effort to provide the most accurate, up-to-date information and any criticism and comments to improve the editing and publishing of this book are greatly welcomed.
