Preface

Once upon a time, on a long, long flight headed back to Los Angeles, I came across a rather childlike painting in the airline brochure. The painting was of a pre-school boy by the name of Ymmit who had a big lopsided head, two protruding eyes, a nose where one nostril was three times bigger than the other, a smile so wide and teeth so crooked that it couldn't have fit better on this face, and only six strands of hair standing straight on his head. It was a painting that could have effortlessly been drawn by a real pre-school boy, but, in fact, was painted by Tim Nyberg, an adult. It was not a masterpiece by Monet, Da Vinci, Van Gogh, Caravaggio, Cezanne, or any artist worth mentioning. It lacked perfection in technique, composition, color use, consistency, and shine. Yet, here it was.

What value did this painting hold? Why was this lacking of everything found in a brochure read by thousands traveling across the Pacific?

The answer is "Youth".

It is our youth that we as a society celebrate. It is youth that parents and teachers invest, foster, and place their hopes in. It is youth that even Pablo Picasso himself spent a lifetime trying to master and perfect. Why? It is not challenging to be an adult; it is a process society drives people through. With each minute, day, and year, we begin to let our brains and logic take the front seat, placing our senses in the back. We conceal more of what we truly feel and think than be genuine because we fear the consequences. It is no one's fault that cultural impressions have successfully made their imprint on over three-quarters of the world. However, it is this innocence, simplicity, and curiosity that is forgotten and lost amongst the adults that make us value youth even more.

Growing up, I was known as the "wild child" who was uncontrollable and never went by the book. At the age of four, I remember wearing my mother's red pumps and climbing into a stack of tires in the backyard, only to soon trip and end up with bloody knees and a bawling face. At

Ode to Youth

上海市世界外国语中学 2016 届学生英语作文集

the age of ten, I climbed onto my roof after watching “Dawson’s Creek” and imagined I was the female lead, attempting to go into my best friend’s room. Then, it took a good tumble for me to wake up and smell the flowers. After all, my home was not Hollywood and I was not Katie Holmes. At the age of 18, my college roommate and I ran out of our dorm and into a thunderstorm to see who could stay in the rain longer. The loser would buy everyone coffee. It turned out that no one got a sip of that coffee because we ended up at the hospital with an IV attached to our arm. These choices and actions always disturbed and concerned my parents who always found it difficult to imagine the kind of adult I would grow up to be. But, in the midst of all this chaos, I turned out normal.

Youth is often linked with immaturity, but that, I believe, is a misunderstanding. It has never been about being childish, reckless, or irresponsible. It is not about being headstrong and doing what you selfishly desire. Nor is it about using puberty as an excuse to play the true rebel of protecting your rights as a child and vehemently defying your parents.

Being young is having the courage to take risks and believe the sky is the limit. It is understanding that adults make mistakes, but mean well. It is letting purity and innocence drive your every choice and help you withstanding the many voices that may discourage you. It is about being able to fall and wipe your dirty palms on your clothes and then stand up again. No one said that growing up was easy, so let your youth be the compass guiding you to your “happily ever after”.

Emily Wang

Magic of Wonderland

桃源芬芳

It's the place where you have your footprints imprinted; where you have your voice echoed; and where you have your fond memories buried.

It's the place where we have the opportunity to look around us and see little mirrors of ourselves.

It's the place you may call "HOME".

— Joyce
