Water is the most important thing for life, even greater than food. It is necessary that people understand this and do proper things.

Now China has a water problem more serious than any other country in the world. The problem is caused by widespread drought, pollution, rapid economic growth and waste.

It is important to use water wisely. By following these simple suggestions, you will save money on your water bill while conserving the supply we all depend on.

☆ Vegetables and fruit should be washed in a bowl but not under a running tap and the leftover water can be used for watering plants. Never put water down the drain when there may be another use for it, such as watering a plant or cleaning.

☆ Take shorter showers.

☆ Do not let water run while shaving, brushing your teeth or washing your hair or face.

By thinking carefully about your water use in the home and changing some water-wasting habits, it is easy to save water.

Part 3 Reading and Writing (38%)

I. Choose the best answer (根据短文内容,选择最恰当的答案): (5%)

Do you know why different animals or pests have their special colours? Colours in them seem to be used mainly to protect themselves.

Why some birds can't easily catch grasshoppers? Because grasshoppers change their colours together with the change of the colours of crops. When crops are green, grasshoppers look green. But as the harvest time comes, grasshoppers change to the same brown colour as crops have. Some other pests with different colours from plants are easily found and eaten by others. So they have to hide themselves for lives and appear only at night.

If you study the animal life, you'll find the main use of colouring is to protect themselves. Bears, lions and other animals move quietly through forests. They cannot
