When you are in England, you must be very careful in the streets because the traffic drives on the left. Before you cross the street, you must look to the right side and the left. In the morning and in the evening when people go to or come from work, the streets are very busy, traffic is most dangerous then. When you go by bus in England, you have to be careful, too. You must remember the traffic moves on the left. So you must have a look first or you'll go the wrong way.
