序 言

南京奥林匹克体育中心是 2005 年第十届全国运动会的主赛场，是江苏省建国以来规模最大的社会公用事业项目，也是我省“十五”期间政府大型投资建设项目之一。

2001 年 6 月，在我省取得第十届全国运动会举办权后，省委、省政府迅速作出了建设南京奥林匹克体育中心的决策，并适时将建设地址南移至现址。2002 年 7 月完成方案招标等全部前期工作，2002 年 8 月 18 日工程正式开工建设，2005 年 7 月 12 日正式建成并交付运行，其间历时 35 个月。

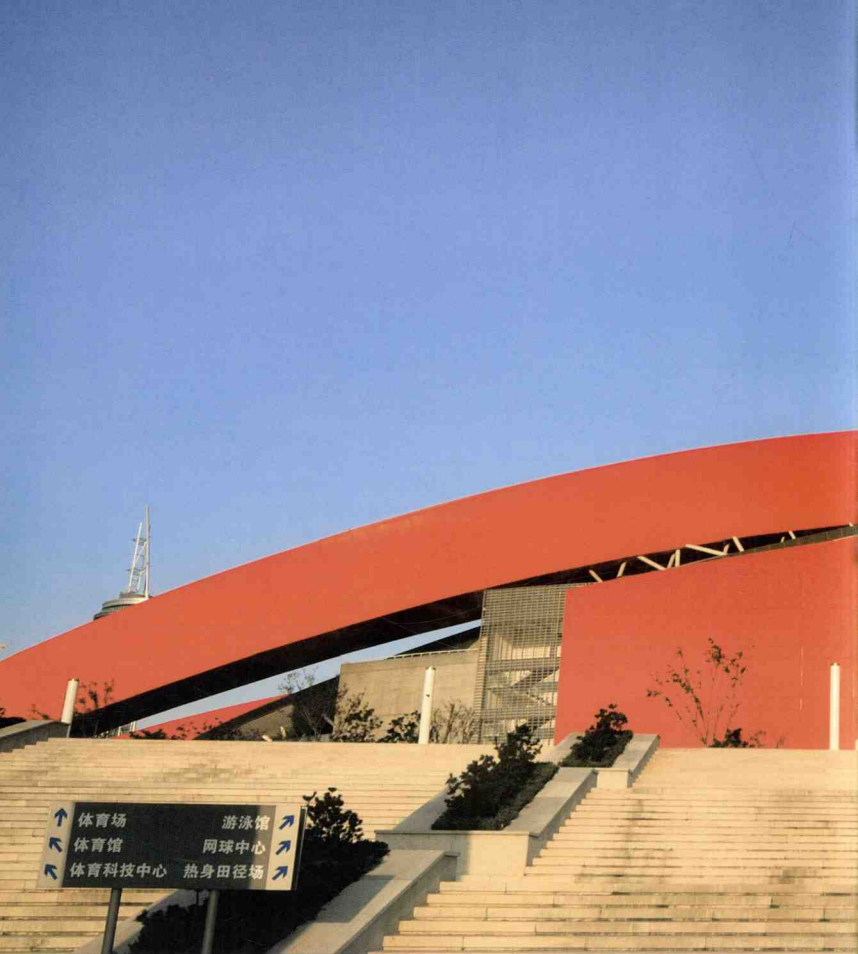

南京奥林匹克体育中心位于南京市河西新城区中心区域，总占地面积 1344 亩（约合 89.6 公顷），总建筑面积约 40.1 万平方米，主要建筑包括“二场二馆二中心”，即体育场、热身田径足球场、体育馆、游泳馆、网球中心和体育科技中心。建成后的南京奥林匹克体育中心是我国目前规模较大、功能较全的体育建筑组群之一。

Preface

The Nanjing Olympic Sports Center is the Main Stadium for the Tenth National Games of year 2005 and the largest social public utility project in Jiangsu Province since the foundation of the People's Republic of China, as well as one of the large construction projects invested by Jiangsu Provincial Government during the "Tenth Five-year Plan".

In June 2001, after winning the right to host the Tenth National Games, The Provincial Party Committee and Provincial Government of Jiangsu Province immediately made the decision to construct the Nanjing Olympic Sports Center, and removed the construction site south to the current site at right time. In July 2002 all prophase work such as tendering had been accomplished. And on August 18, 2002, the Project was officially started to construct. On July 12, 2005, the Project was finished and put into operation. It took 35 months to construct the Project.

The Nanjing Olympic Sports Center is located in the central area of Hexi New City in Nanjing with a total flooring area of 1,344 mu (about 89.6 hectares); the total building area is about 401 thousand square meters. The main buildings include "two Sports Stadiums, two Arenas and two Centers", namely the Sports Stadium, Warm-up track and field football court, Arena, Natatorium, Tennis center and Sports science and technology center. The finished Nanjing Olympic Sports Center is one of the largest sports architecture groups with most functions in China.

体育场
Stadium

体育场

体育场犹如一个飘动的皇冠，悬挂在奥体中心宽大的底部建筑物之上。

南京奥林匹克体育中心体育场建筑面积13.6万平方米，能够容纳8万名观众，第三层和第五层共设有176个贵宾包厢。体育场两条360米长、倾斜45度跨越整个屋顶的大拱举世无双，像两条彩虹高挂在体育场的上空，具有自由飘逸的动感；双拱大红的建筑色彩演绎着体育场磅礴的气势。多功能、灵活通用是体育场的重要特征，通过双曲面顶部构造，超越所有看台，确保了观众席良好的视觉效果。

热身田径足球场按国内目前最高标准建设，看台带有3,000个观众席，有8道的400米跑道，并有地下通道与主赛场连接。

Stadium

The Stadium is like a waving crown, hanging on the broad architecture at the bottom of the Olympic Sports Center.

With a building area of 136 thousand square meters, the Stadium of the Nanjing Olympic Sports Center can accommodate 80 thousand audiences; there are total 176 VIP balconies in the third and fifth floor. Two unique large arches of 360 meters long and 45 degrees of inclination striding over the whole roof are like two rainbows hanging on the top of the Stadium, showing flying innervations. The architecture color of the bright red of two arches deduces the majestic vigor of the Stadium. The multifunction and multi-purpose are the important features of the Stadium. The hyperbolic surface top structure surpasses all spectator terraces, which ensures excellent visual effect for the audience.

The Warm-up track and field football court was constructed in accordance with the highest standard in China, its spectator terrace has an auditorium of 3,000 seats. It has eight racetracks of 400 meters and underground tunnels connecting the main playground.
