# 前 言

自 1997 年先后做过“远洋船员如何适应现代的英语要求”、“航海院校英语教学如何适应 STCW”、“对我国远洋船员英语语言能力评估”等课题之后，我们发现在评估过程中大多数船员有一个共同愿望是，航海院校的英语教师或专业教师能不能在最短的时间内搞出一套适应船员特点的实用性很强的教材和参考书系列，以满足船员对英语提高的需要。于是自 1998 年起我们先后撰写了《船舶驾驶员实用英语口语》、《船员应对船东面试指南》、《实用航运业务英语函电》等书籍，以满足广大船员的需要。

此后有不少船员同志来信或来电希望我们进一步扩展领域，形成一套能为船员所用的系列性的、有参考价值的船员英语方面的丛书，以更好地满足航海人员在日益激烈的船员劳务市场上立足的需要。为此，我们与许多业内专家合作，准备在今后的一两年内陆续出版《船员实用英语系列丛书》，以给读者一个满意的答卷。

该丛书以英语语言为载体来传递最新的航海科技、技能、信息，强调“实用性、专业性、知识性”，主要涉及到目前航海英语教学和专业教学相重合的知识点，而且该知识点又是近年来的热点，如 PSC、ISM 等等。该丛书力求以英语语言为支点、以专业知识为杠杆、以船员和现实需要为契机，使之成为学习专业英语的有较高实用价值的丛书。

该丛书希望打破传统的英语学习和教学模式，“学为所用、学有所用”。期望船员在短期内在专业和英语两方面都有很大的提高，以适应国外船东面试和外派的需要。

## 编者的话

本书适用于下列人员阅读：想顺利通过国外船舶所有人面试者，想学习和提高实用轮机英语口语者，轮机英语培训班学员及教师。

本书与其他同类书的不同之处有：会话用语简短上口，适于学习；会话涉及的场景广泛详尽，以便各种场合下特别是在与外籍船员同船时应用；常用语句部分突出体现了船上的实际工作，且许多场合给出了同一语意的多种英文表达方式；FAQ 均为 PSC 检查和国外船舶所有人面试时的常问问题；专业内容紧随形势的发展与技术的进步，不仅包括船舶电气（以适应取消电机员的需要）和 UMS 的内容，还包括 PSC、SMS 等。本书每单元的第 I、II 部分配有光盘，更便于学习。

本书尚有不足之处，如：许多会话中省掉了寒暄用语，变成了纯专业对话，显得有些生硬，似乎没“头”没“尾”；编目不尽合理，PSC 检查中应包括防污染，但因为防污染比较重要，所以专列一单元，而未包括在 PSC 中；因篇幅所限，内容虽全面但不够深入。

在此书即将付梓之际，衷心感谢外籍英语专家 Anne Bosch 及安家歧轮机长审阅了全书并提出了许多宝贵意见；外籍专家为本书每单元的第 I、II 部分录音。此外，在此书的编写和出版过程中，得到了殷佩海教授、党兆荣船长、张朝芳轮机长、王忠忱轮机长、大连海事大学出版社的有关老师及其他许多人士的大力支持与帮助，在此一并致谢。

因作者水平所限，错误及不当之处，恳请读者指正。

# Introduction

This is an extremely useful handbook for any mariners involved with ships' engineering management. It is the author's fourth book and consists of 18 units or chapters, beginning with "Taking Over a Ship" and continuing with such other topics as dock repairs, state port control, emergencies, etc. It is chock-full of expressions that anyone dealing with such matters on the high seas should have at the tip of his tongue. For those just acquiring knowledge of how to handle these things it should prove invaluable. And as for those old hands who have managed in such situations for years, it will provide a useful tip or two and serve as a good general review.

Each unit consists of three parts: "Conversations, Useful Expressions and Frequently Asked Questions(FAQ)". In the unit on "Before Repairs" under the rubric of "Discussion with Shipyard Personnel", for example, there is a dialogue between the shipyard engineer and the ship's Chief Engineer. They discuss an air compressor and an auxiliary engine. Another dialogue, between the Chief Engineer and the shipyard representative, concerns dockyard workers' shifts and habits and advice on how to have these repairmen handle their tasks on board the ship in a smooth fashion and to the chief engineer's entire satisfaction.

Teachers of English will find this a handy classroom volume. It can readily be used to increase fluency in spoken English. Most of the dialogues are short—usually from six to two dozen exchanges—and can easily be committed to memory. Real life situations between two speakers—and occasionally three and even four—can liven up schoolroom atmospheres and supply students with general dialogue, including greetings and leave-takings. As well as standard modes of

address between officers or strangers, the student acquires appropriate ways of responding to orders and of objecting to unfair invoice prices, missing items, failed delivery and so on. Furthermore, courteous apologies and assurances of proper quality of products (which may in some situations appear to lack correct ingredients) are supplied in abundance.

Accompanying the book are CDs of all the “Dialogues and Useful Expressions” read by two native English speakers. These were produced for students yet unused to hearing much spoken English, and will also be beneficial for review or refinement of pronunciation and intonation among those who already speak some English.
