三、任务型阅读。

Dear editor,

Vitamins are often the source of arguments. In the May 8 article, researchers said that multi-vitamins have not been shown to prevent disease and that people cannot replace a healthy diet with vitamins. But, who can say that we always eat healthily? Even if you try, you are faced with the

problem where you can buy truly fresh food rich in vitamins. Especially if you live in a big city.

Lunches are often quick meals bought from a snack bar or stall. These meals have been cooking for hours and most of the vitamins have been destroyed. People who work indoors often suffer from vitamin D deficiency.

The real problem, is in the fact that few of us eat a healthy well-rounded diet: a diet appropriate to the needs of our environment or the changes that take place in our bodies from time to time. So many of us take vitamins supplements. In fact researchers have shown that those who take vitamin supplements tend to be better educated about the needs of their bodies than the general population.

I, for one, am tired of being told over and over again that all I need is a healthy diet. That I am wasting my time, and money, on vitamins.

I still remember the motto they taught me when I was a child: "Be Prepared."

William Shakespeare wrote about thirty-seven plays and a large number of poems in his life. The play *Hamlet* is considered to be the summit(顶峰) of Shakespeare's works. It was written in

1601-1602 and first published in 1603.

The action of the play is laid in medieval(中世纪的) Denmark. The king suddenly died. Gertrude, Queen of Denmark, within two months married the new king, Claudius, brother of her husband.

The son of the late king, Hamlet, returns from the university, where he has received his education. The heart of the young man is heavy because of his father's death. The country is in a state of unrest. There is said to be war. He thinks his father was murdered but he does not dare to tell others. One night Hamlet dreams of his father. He talks to his father, who tells his son he has been murdered by his brother Claudius. Hamlet hates the murderer very much and he decides to kill Claudius.

The struggle between Hamlet and Claudius is increasing. Claudius pays close attention to Hamlet. Hamlet pretends to have gone mad.

To expose Claudius, Hamlet thinks of a plan: a group of actors are engaged to perform a play that recalls his father's murder. When Claudius appears deeply affected by the performance and leaves the hall before the play is ended, Hamlet knows he is right. To get rid of Hamlet, Claudius sends Hamlet to England with his two men, who used to be Hamlet's friends and now are ordered to spy on him and kill him. While at sea, Hamlet discovers a letter, in which Claudius orders the two men to kill him. Hamlet manages to escape from the ship and returns to his homeland, Denmark.
