EDITOR' S NOTES

The *Statistical Yearbook of the Chinese Academy of Sciences, 1998* is an informational almanac which gives an overall description of every major aspect related to CAS's scientific and technological(S&T) activities and its development. It contains statistical data of institutions and organizations of the CAS in 1997 as well as its important statistical information in the past years.

The Yearbook consists of the following 11 parts: academic divisions, organizations, personnel, funds and capital construction, S&T activities, business activities of CAS enterprises, S&T papers, patents and award-winning achievements, international cooperation, talent training, documentation and information, and publication. Details may not add to the total in some statistical tables due to rounding. No manual adjustment is made.

The definition "By field" in some statistical tables refers to the classification of research fields which the institutes mainly deal with.

The Yearbook is completed by the Bureau of Planning and Finance of the CAS in cooperation with the relevant departments of the Head Office of the CAS. The Editorial Committee extends its gratitude to all those who have rendered their valuable support and assistance during the preparation of this Yearbook.
