Located in the middle of Shandong Peninsula, Qingzhou is a county-level city under the jurisdiction of Weifang, the world famous city of kites. Having as its neighbours Weifang to the east, Zibo to the west and the Yimeng Mountains to the south, facing the Bohai Sea to the north, it has an area of 1,569 square kilometers and a population of 8,800,000. With Jingjiu (Qingdao-Jinan) Railway passing through its urban area, and Yiyuan Railway, Jinan-Qingdao Highway and Wangcun-Weifang Highway converging here, the city is an important communication pivot in the middle of Shandong Peninsula.

As one of the nine administration divisions in ancient China, Qingzhou has a history and culture of some 7,000 years. Having given birth to China's Beixin Culture, Dawenkou Culture and Longshan Culture in the primitive times, it is the center place of origin for the "Dongyi Culture". It had been a famous city and important strong hold in northern China ever since the oldest of times. From the Western Han Dynasty to the Republic of China, it had been the shire seat and the prefecture seat. During the Period of the Sixteen States, it was the capital of South Yan (398—410). Before the Qing Dynasty, it had ever been the political and cultural center of Shandong.

Qingzhou has always been a good place which produces remarkable characters. Here great events have taken place, and outstanding figures have carved their heroic names in history. "Qingzhou Troops" were famous for their extreme bravery during the Three Kingdoms Period. Tang Sai'er's rebellion had shaken the earlier Ming Emperors. Manchurian forces demonstrated great spirit of loyalty to the state during the Second

Opium War in late Qing Dynasty. Historical figures such as Wang Zeng, Yan Su, Xing die, Zhao Bingzhong and Zhong Yuzheng had added honor to Qingzhou their hometown. Respectable prime ministers of the Song Dynasty, namely, Fan Zhongyan and Ouyang Xiu, had carried out good government here. Poetress Li Qingzhao had lived here for more than ten years and written many of her er poems of enduring charm. La Wenzao, a great collector in the Qianlong Reign of the Qing Dynasty, had accumulated a private collection of books amounting to some tens of thousands volumes.

Qingzhou is also a famous city for its splendid history and culture with a concentration of historical sites and beautiful landscape. Mt. Yunmenshan, Mt. Tuoshan, Mt. Linglongshan, Mt. Yangtianshan, Ouyuan Garden, Fan Zhongyan Pavillion and Qingzhou Museum, all these are great tourist attractions for thousands of visitors from home and abroad.

Qingzhou's urban construction has its unique characteristics, combining classic beauty of the traditional and the lively modern architectures harmoniously with natural landscape.

With its time-honored history and culture, beautiful natural environment, mild climate, rich and varied products, and diligent people, Qingzhou is marching forward to the 21st century with old pride and new confidence.

青州自古为文明之邦，是中国古代九州之一，有着7000多年的文明历史。青州市境内有六七千年前的北辛文化，三四千年前的龙口文化和五六千年前的大汶口文化，被历史学家确认为原始社会末期“东夷文化”的发祥中心。

青州名称起自《尚书·禹贡》：“海岱惟青州。”按古代五行学说，青州地处海（东海）岱（泰山）之间，位华夏东方，东方属木，木色为青，故称青州。自西汉时起，青州就是历代王朝的名城重镇，为全国著名的文化名城。

青州市这方钟灵毓秀之地，曾孕育了许多杰出的历史人物：范仲淹、欧阳修等都曾在此为官施政，建立了为后人称道的政绩；著名女词人李清照夫妇曾寓居青州十余年，留下了流传千古的词林绝唱；贾思勰、燕肃、邢珍、杨妙真等科学家、民族英雄和起义领袖也都在青州历史上留下了不朽的足迹。数千年的历史沧桑，孕育发展了古青州的璀璨文化。

青州博物馆是青州历史文化的缩影。博物馆建筑面积10000平方米，规模宏大，是全国建馆最早的县级博物馆之一，收藏着青州地区历代的陶器、铜器、铁器、玉器、字画、碑碣等文物2万余件，数量之大，品种之多，门类之全，为其它县级博物馆望尘莫及。其馆藏文物是研究古代中国的珍贵资料。明万历年间青州状元赵秉忠的殿试卷，青州出土的全国唯一的北齐彩绘佛像和《百骏图》，都是中国历史文物中的稀世珍品。

As one of the nine administration divisions in ancient China, Qingzhou has ever been a highly civilized place since the earliest of times. Its civilization could be traced back to some 7,000 years ago. Exist in the present Qingzhou area are Beixin culture which is 6,000 to 7,000 years old, Dawenkou Culture which is 5,000 to 6,000 years old, and Longshan Culture which is 3,000 to 4,000 years old. Accordingly, Qingzhou is a confirmed center of origin for the “Dongyi Culture” existed in the late times of primitive societies.

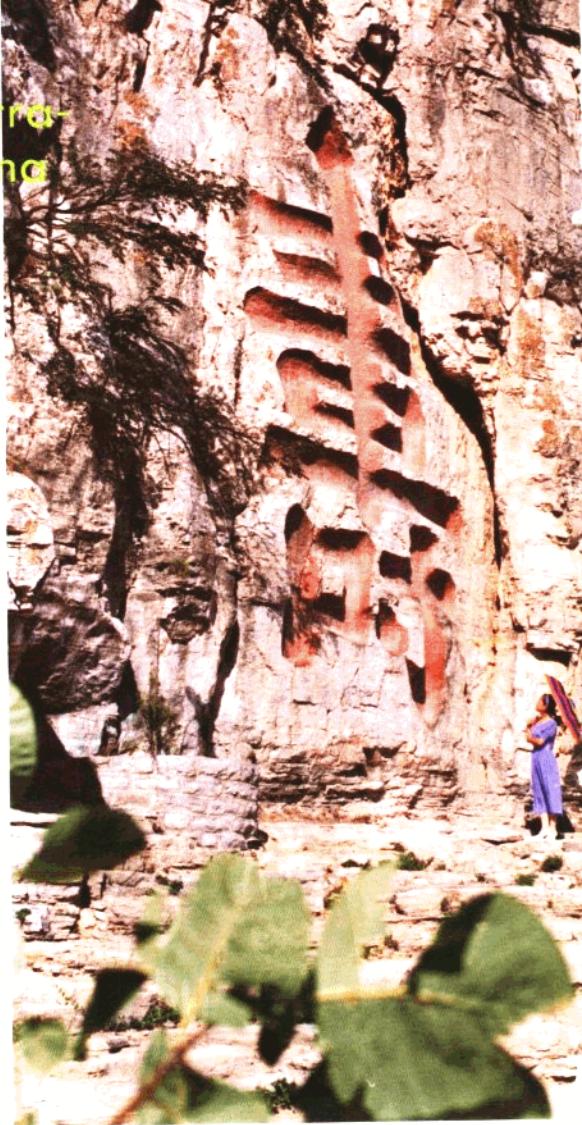

The name of Qingzhou is found in the ancient book titled *Discussion on the Tribute of Yu*, which says, “Qingzhou is the best place between the Sea and Mt. Taishan.” According to the theory of the five elements, Qingzhou lies in the east of China. The east belongs to the phase of Mu (wood), which is green in color. Therefore the place is called Qingzhou (qing means green). It had been a famous city and important strong hold ever since the Eastern Han Dynasty, and it is now one of the important

Chinese cities of historical and cultural interests.

This specially blessed place has produced numerous outstanding historical figures. Fan Zhongyan and Ouyang Xiu had been in office here and carried out remarkable deeds; Li Qingzhao and her husband lived here for some ten years and left et poems with enduring charms; important scientists, national heroes and rebellion leaders such as Jia Sixie, Yan Su, Xing Jie and Yang Maozhen had left traces here.

Qingzhou Museum is the miniature of Qingzhou's history and culture. With a floor space of 10,000 square meters, the Museum is one of the earliest county level museums in China. Its collection includes earthenware, bronzeware, ironware, pale articles, paintings and calligraphy, stelos and stone carvings of different times within the realm of Qingzhou jurisdiction. It is unparalleled by other museums of the same level in the number kinds and categories of collection. This wealth of collection is a priceless body of material for the study of ancient China. Zhao Bingzhong's answer sheet at the Imperial examination, Wanli Reign of the Ming Dynasty, the painted buddhist figures of the Northern Qi Period which is the only one of its kind in China, and the painting *One Hundred Horses*, these are all very rare treasures among China's historical and cultural relics.

Historical and cultural relics

悠久的历史,为青州留下了众多风格各异,闻名中外的古建筑、碑碣、题记、石窟造像等名胜古迹。

最为著名的云门山,海拔408米,山上有洞如门,高阔数丈,横穿峭壁,南北贯通,远望宛如

一轮皓月当空;夏秋之季,云雾萦绕,穿洞而过,如滚浪波涛,蔚为壮观,谓之“云门”或“云门仙境”。云门洞阳坡西侧,有一天然石罅,口如井状,深不可测,名曰“云窟”。山东侧有圆风亭,希夷石室,望寿阁景观,有隋唐时期造像窟,有欧阳修、富弼、邢玠等历史名人的题刻。山阴间全国独一无二的崖岸雕刻大“寿”字,通高7.5米,宽3.7米,仅寿下“寸”字,高达2.30米,故当地有“人无寸高”之说。这一海内外罕见的石刻大“寿”字,被誉为“中华之最”,是中国书法石刻艺术的瑰宝。许多中外游客都到云门山参拜大“寿”,祈盼“寿比南山”。

因山形似骆驼而得名的驼山,拥有中国东部最大的石窟造像群,这些造像天者高逾7米,小的不过1拳,共有造像638尊,是研究中国古代雕刻、绘画艺术和佛教发展史极为珍贵的实物资料,被称之为中华石窟之冠。因山势峻峭而著名的玲珑山,山上布满形态各异的怪石和曲折构造的洞穴;耸拔突兀的险峰如一块巨大的盆景石,搁置在天地之间,实为一方之冠。此山最为著名的是北魏郑道昭的绝笔题刻,它以在中国文字史上承前启后的地位而备受中外专家学者们瞩目。

玲珑山、云门山与驼山均被列为国家重点文物保护单位。

龙兴寺遗址是中国目前唯一一处平面布局清楚、保存较好的唐代以前的大型寺院遗址,1996年10月在这里发掘出土的1000多年前的窖藏佛教造像,包括了北魏、东魏、北齐、隋、唐、北宋等500多年的作品,造型优美,雕刻精良,栩栩如生,充分显示了当时雕刻技艺的高超。其数量之大,品种之多,雕工之精,延续时间之长,色彩保存之好,在中国佛教考古史上实属罕见,具有重要的学术研究价值。

被誉为“仰天胜绝,甲于天下”的仰天山,“康熙风格”的园林建筑偶园假山,闻名遐迩的范公亭,中国三大真教寺之一的元代真教寺,规模宏伟的万牛桥,刻工精细,造型壮观的明代衡王府牌坊,幽雅肃静的松林书院,宋明清建筑风格的十里古街等,无不透射出独特的魅力,是人们寻古访胜的好去处。

Its time honored history has left Qingzhou with world famous historical and cultural relics, including architecture of various styles and other stone carvings, inscriptions and grotto figures.

The best known historical and cultural relics are found at Mt. Yunmenshan with an altitude of 408 meters. With a height and width scores of meters each, the gate-like cave penetrates the bluff from the north to the south. In summer and autumn, clouds roll out of the caves, therefore it is called Yunmen, the gate of clouds or Yunmen Fairyland. By the west side of the cave's south opening, there is a natural vertical cave like a well, with a depth unfathomable. This cave is called Yunku, the cave of clouds. On the east side of Mt. Yunmenshan, there are the Longfeng Pavilion, Xiyi Stone Chamber, Wangshou Pavillion, Buddhist Figures made in the Sui and Tang Dynasties, and inscriptions by such historical figures as Ouyang Xiu, Fu Bi and Xingjie. At the back of the mountain there is a cliff carving that is unique throughout China. The carving is of a character “寿” (longevity), height 7.5 meters, width 3.7 meters. The part “寸” (Chinese near equivalent of inch) itself is 2.20 meters high. Therefore folks say that a man is not as high as one inch. This carving is a calligraphy treasure as well as a stone-carving treasure.

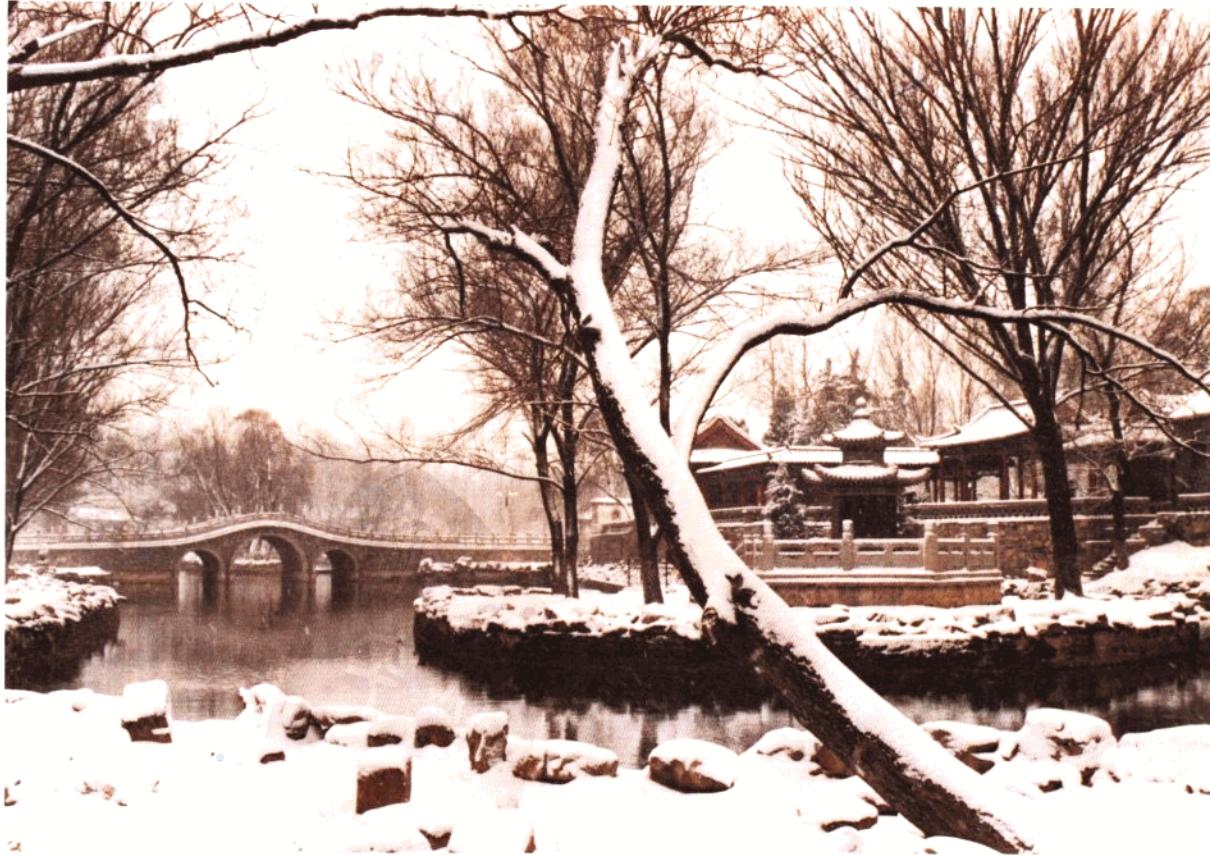

Mt. Tuoshan (the camel mountain) is so named because it looks like a camel. It has the largest group of grotto Buddhist figures in eastern China. There are altogether 638 figures, the biggest some 7 meters high, the smallest as big as a human fist. They are very precious for the study of ancient Chinese sculpture, painting, and the development of Buddhism in China. Mt. Linglongshan is known for its steepness of cliffs. There are crags and boulders of every shape imaginable, caves that wind and jum like great mazes. The most famous sight is the inscription by Zheng Zhaoqiao of the Northern Wei Period, which was his last work of the kind in his life. The writing is highly regarded as one important linking part in the history of Chinese calligraphy.

Mt. Linglongshan, Mt. Tuoshan and Mt. Yunmenshan are all key national units of cultural relics under protection.

The ruins of Longxing Temple is the only one large-sized temple before the Tang Dynasty whose two-dimensional plan is clearly seen to the present, therefore it has both historical and academic values. In October 1996, more than 1000 year old Buddhist figures were unearthed here from a cellar. The works were created from the Northern Wei, Eastern Wei, Northern Qi, the Sui, Tang and Northern Song Periods, covering a
