青岛三面环海, 一面依山, 气候温和, 冬无严寒, 夏无酷暑, 的旅游

With the Yellow Sea (Huanghai) off its south, and Jiaozhou Bay off its west coast, Qingdao is a seaside city in the southeast of Shandong Province, one of the 15 economic center cities and also one of the cities opened to the outside world. With its highly light industry and natural deep-water harbor, Qingdao is one of the main foreign trade ports and China's maritime research.

Three sides surrounded by the sea and one side with the mainland, Qingdao is neither too hot in summer nor too cold in winter, hence, a world-known tourist attraction and summer health resort.
