序 言

章丘市市长 李家政

一方党政,要正确地进行决策,必须熟知地情。十几年来,我们弘扬中华民族编修地方志的优良传统,把史志工作列为一项重要政务,常抓不懈,史志类成果频出。

现在,继新编《章丘县志》、《章丘概览》、《章丘三年鉴》出版发行后,我市又一部综合反映地情的大型志类著述《章丘市情》,伴随着东方明珠香港回归祖国与中共十五大胜利召开的喜庆出版问世了!这是我市加强社会主义精神文明建设的又一项重大成果,是我市方志百花园中开放的又一朵奇葩。它的刊行,标志着我市的修志事业迎来了又一个春天。

章丘位于山东中部,为“龙山文化”发祥地。“七五”、“八五”期间,改革开放的大潮涌起。勤劳智慧的章丘人民,以宏伟的胆略和气魄,敢为人先,开拓奋进,取得了国民经济和社会的长足发展,各行各业达到境内有史以来的最高水平。1995年,全市国内生产总值65.83亿元,其中第一产业16.14亿元,第二产业31.24亿元,第三产业18.46亿元,分别比1985年增长10.4倍、4.68倍、15.72倍和16.38倍。10年间,章丘两次被评为全国综合经济实力百强市(县)。因此,突出地记载这一时期的发展状况,无论对启迪人们奋发图强,还是总结经验再创辉煌,都是很有必要,而且大有可书的。基于这个思路,市委、市政府责成史志部门,制定方案,编纂《章丘市情》。从1996年开始运作,历时年余,辛勤笔耕,三易其稿,磨砺成书。

《章丘市情》这一容量近70万字的志类工具书,以相当的广度深度,反映了我市10年来深化改革、扩大开放的巨大成就,歌颂了共产党的领导和有中国特色社会主义的优越性,弘扬了一代新人“团结拼搏建强市,真抓实干创一流”的章丘精神。对鉴往启后,资治教化,进一步扩大对章丘的宣传力度,促进全市改革开放和“两个”文明建设,将起到重要作用。

《章丘市情》的编纂出版,是近几年来上级领导关注支持,我市各界同力协作,编志人员辛劳笔耕的结晶;也是新县志出版后,为资政、存史,服务现实拓展史志工作的又一次实践,是令人感奋的。值此,谨对史志战线的同志们和所有为编纂出版市情做出贡献的部门、单位、人士,表示诚挚的谢意。

江泽民同志指出,“以史为鉴可知兴替”、“一个民族如果忘记了自己的历史,就不可能深刻地了解现在和正确地走向未来”。因此,编史修志是一项长期的政治任务。望史志部门和广大修志工作者,再接再厉,不懈进取,使我市的修志事业更加繁荣兴旺,为现实服务的路子更加宽广。

Preface

Li Jiazheng, Mayor of Zhangqiu Municipality

To make policy correctly, Party and government in the locality must know the condition very well. To this end, in the past years, we have expanded the fine Chinese tradition of compiling local chronicles, listing the work of history annals an important government affair, and always paying special attention to it. Achievements in history annals come out frequently. Now, after the publication of new *Annals of Zhangqiu County*, *Survey of Zhangqiu*, *Almanac of Zhangqiu in three years*, another large book *Introduction to Zhangqiu Municipality* has come out, accompanying the happy event of the Pearl in the East—Hongkong's return and the convening of the 15th National Congress of the Communist Party of China. It is another important achievement which we enhance cultural and ideological progress of socialism. It is another exotic flower coming into bloom in the garden of local chronicles. Its printing and publication marks another spring which our annals compilation has met.

Zhangqiu, the birthplace of "Longshan Culture", locates in the middle of Shandong Province. During the "Seventh Five—year Plan" and "Eighth Five—year Plan", spring tide of reform and opening to the world has been surging. The diligent and intelligent Zhangqiu people have pioneered and forged ahead courageously with grand courage, resourcefulness and daring. Our national economy and society have made considerable progress. All trades and professions have reached their climaxes throughout history of Zhangqiu. In 1995, our whole GNP was 6583 billion, including 1614 billion of primary industry, 3124 billion of secondary industry and 1846 billion of tertiary industry, increased by 10.4 times, 4.68 times and 16.38 times respectively than those of 1985. During the past ten years, Zhangqiu was twice appraised one of the "Hundred Powerful Municipalities (Counties) with Comprehensive Economy in China". So it is necessary to stress and record the development of this period, which will enlighten the people to go all out to make the country strong and sum up experiences to make splendors again. For this train of thought, our municipal Party committee and municipal government instructed history annals department to work out a scheme to compile *Introduction to Zhangqiu Municipality*. From 1996, lasting more than one year, written industriously, revised many times, the book has been completed.

With a capacity of 700,000 Chinese characters and considerable range and depth, *Introduction to Zhangqiu Municipality* reflects the tremendous achievements of deepening reform and extending opening to the world in the past ten years, eulogizes the leadership of CCP and superiority of socialism with Chinese characteristics, expands Zhangqiu spirit "Unite and Go All Out to Construct Powerful Municipality, Pay Special Attention and Do Solid Work to Strive for First Rate", which will draw lessons from the past and enlighten the future, give further public-

ity to Zhangqiu, advance our reforms and opening to the world, cultural and ideological progress and material cultivation.

The compilation and publication of《Introduction to Zhangqiu Municipality》is the fruit of higher leaders who have concerned and supported for several years, the fruit of all circles who have made a concerted effort, the fruit of compilers who have industriously written, which is another practice in drawing lessons for politics, preserving history, serving reality and extending history annals work. It is exciting. Here I'd like to give heartfelt thanks to the compilers and those departments, units, people that have contributed to the compilation and publication of the book.

Comrade Jiang Zemin has pointed out "Rise and Replacement can be known by drawing lessons from history", "Forgetting the past, a nation can not know the present or go into the future correctly". Therefore, history and annals' compilation is a long political task. I wish that history annals department and annals compilers make persistent efforts, make progress untiringly, make our annals compilation more prosperous and make the ways of serving reality more extensive.
