PREFACE

Regarding to city, it reminded us of only tall buildings in our past memories. The city dwellers are tied of the steel and concrete structures systematically moved forward and backward within the city. As the time goes, the city is now becoming more dynamic and diversified. Different styles of plaza, residence and courtyard, and all kinds of leisure and entertainment landscape are the perfect reflections of the colorful city. Especially its green elements make us so moved and touched.

Landscape architecture can not be so simplified as gardening or planting, nor limited by green mountains and fresh waters, but it is more likely to be a symbol, which bears the deep cultural deposits and represents our time's new tendency. It can be traced by the history and walk to us temperately; it combines with the modern design language rather than just be bountied by the history, and conquers the public by its unique design concept and features. We can't help being moved and admired. Compared with architecture, landscape architecture is still young, but it catches the public's attention and arouses their interest and further exploration with its own charm.

Globalization and diversification are the themes of our time, and landscape is no exception. No matter from the choice of sustainable and recycled materials, the changes in size and space, or the protection of the natural resource and its exploration, we can be aware of bio-diversified, sustainable development, ecological environment concept around every corner of our life. Not only the residence, but also the transportation meets our functional demand, at the same time, provides us esthetic feeling and brand new experience.

There is no need to argue about whether time makes hero or hero makes the time. Landscape architecture has actually made great progress in our changeable time. No matter from the angle of traditional Fengshui or modern esthetic, landscape architecture wins a large number of people's favorite and recognition. As a characteristic element, landscape architecture makes great contribution to diversify people's urban life and improves people's living quality.

Our pursuit of landscape meets our need and longing to nature. No matter from the lush plants, blooming flowers, dynamic fountains, or the unique pavement materials; no matter you are in green land, or have a rest in plaza, we can sense the relaxation and quietness of our mind. Landscape architecture is at every place in our life in different forms, making our urban life more diversified and colorful. Landscape architecture is sailing to its promising future with firm steps.

World Landscape Contemporary Selected Projects 10X100 is composed of about 200 award-winning and reputable projects from the international first-class landscape architecture firms. It is classified in 10 categories, including residence and garden, commercial and office space, waterfront and ecology, campus planning, planning design, park and green place, plaza and open space, leisure and entertainment, tourism and resort, traffic and transportation. Numerous drawings truly record the whole design process of the landscape architects, indicate their wonderful design ideas and mature design techniques, and suitable description words deeply analyze their design concept and ideas. It also shortens the distance between landscape professionals, students and the best landscape architects, becoming a precious book to keep up with the development of landscape architectures in recent years, which is an important media to inspire your design life.

序

在人们昔日的记忆中，城市不是高楼，便是大厦。而生活在那里的人们，奔命于形形色色的钢筋混凝土之间，在城市里匆忙游走。然而许多年后的今天，城市却愈发生动可爱起来。风格迥异的广场、住宅、庭院，各式的休闲娱乐景观尽显城市的千姿百态。城市中的那一抹绿，更是让人感慨万千。

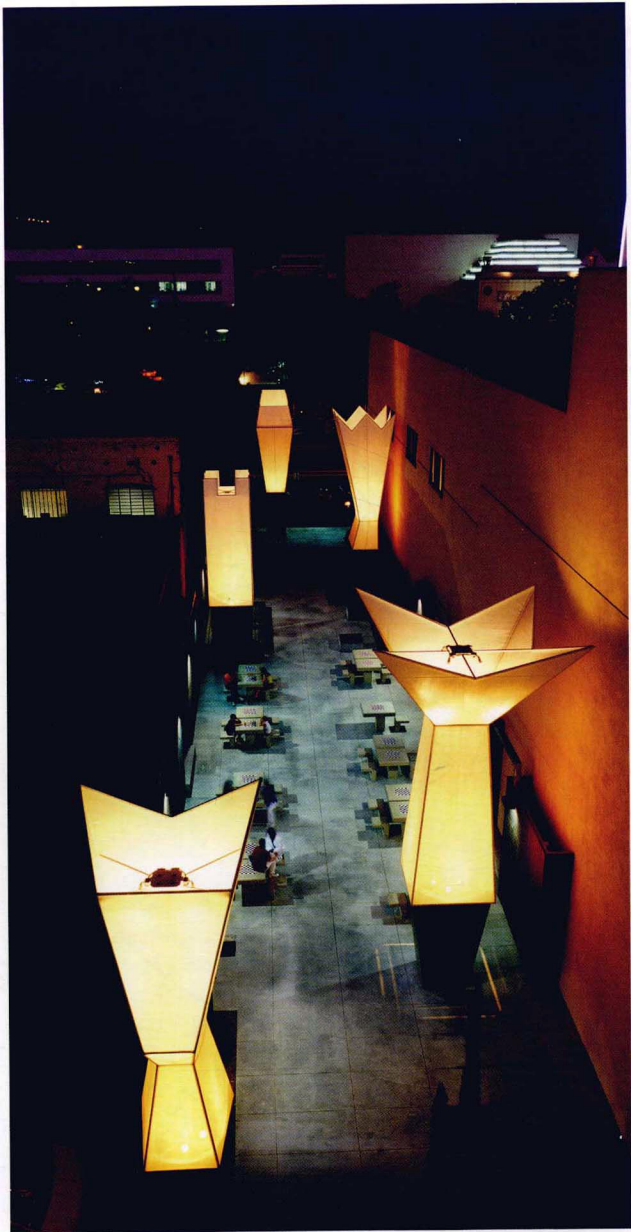

景观绝不等同于绿化，绝不仅限于青山、绿水，它更像是一种符号，承载着历史的厚重感，也奏出了时代的最强音符。它沿着历史的脚步向人们缓缓走来，但绝不拘泥于历史，而是结合当代的设计语言，用它那独具匠心的设计手法，设计理念一次次征服了人们。我们不禁为它感叹，被它折服。景观并没有悠久的历史背景，却以独特的魅力，吸引了大众的注意力，引发人们对景观不断的探索 and 关注。

多元化、国际化是我们时代的主题，景观设计也紧扣时代的发展。无论是环保、可回收材料的使用，尺度空间的变化，还是自然资源的保护和合理开发利用，我们都能切身地体会到生物多样性、可持续发展和环境生态理念一直伴随其左右。无论是住宅也好，交通也罢，都在合理满足功能布局的同时，给人们带来美的享受和全新的生活体验。

我们无需争论是时代造就了英雄，还是英雄成就了时代。景观的确在这个风云变化的时代，获得了迅猛的发展。无论是从传统的风水，还是从现代的审美角度，景观正以它独特的魅力受到人们的认可和喜爱。作为城市中的别样风采，它为丰富都市文化生活，提升人们生活品质做出了不可磨灭的贡献。

我们对景观的追求满足了内心对自然的渴望与向往。不论是葱葱郁郁的树木、娇艳欲滴的花朵、灵动的喷泉，还是别具一格的地面铺装材料；不论是身在公园绿地，还是广场小憩，我们都能体会到景观带给心灵的那份闲适与放松。景观正以不同的形式在生活中呈现，使我们的生活更加丰富多彩，同时正迈着坚定的步伐驶向未来。

《全球顶尖10x100景观》一书汇集了近200个近年国际一流景观设计事务所的获奖作品和在业界赢得广泛赞誉的案例。该书按10个类别进行划分，包括住宅庭院、商业办公、滨水生态、校园规划、规划设计、公园绿地、广场开放、休闲娱乐、旅游度假和交通运输。众多的细部图和手绘图翔实地记录了设计师的设计过程，传达出他们的精彩创意和娴熟的设计手法，贴切的解说文字深刻地剖析了设计思路和构想。《全球顶尖10x100景观》拉近了景观专业人士、学生及景观爱好者与一流设计师的距离，是一本不可多得的了解近几年景观行业发展的珍贵材料，更是开启您设计灵感的重要窗口。
