Authors

Bill Aldridge, M.S.

Executive Director
National Science Teachers Association
Arlington, Virginia

Russell Aiuto, Ph.D.

Senior Project Officer
Council of Independent Colleges
Washington, DC

Albert Kaskel, M.Ed.

Biology Teacher, Emeritus
Evanston Township High School
Evanston, Illinois

Jack Ballinger, Ed.D.

Professor of Chemistry
St. Louis Community College at Florissant Valley
St. Louis, Missouri

Craig Kramer, M.A.

Physics Teacher
Bexley High School
Bexley, Ohio

Anne Barefoot, A.G.C.

Physics and Chemistry Teacher, Emeritus
Whiteville High School
Whiteville, North Carolina

Edward Ortleb, A.G.C.

Science Supervisor
St. Louis Board of Education
St. Louis, Missouri

Linda Crow, Ed.D.

Assistant Professor
Baylor College of Medicine
Houston, Texas

Susan Snyder, M.S.

Earth Science Teacher
Jones Middle School
Upper Arlington, Ohio

Ralph M. Feather, Jr., M.Ed.

Science Department Chair
Derry Area School District
Derry, Pennsylvania

Paul W. Zitzewitz, Ph.D.

Professor of Physics
University of Michigan-Dearborn
Dearborn, Michigan

Consultants

Chemistry

Richard J. Merrill

Director,
Project Physical Science
Associate Director, Institute
for Chemical Education
University of California
Berkeley, California

Robert W. Parry, Ph.D.

Dist. Professor of Chemistry
University of Utah
Salt Lake City, Utah

Earth Science

Allan A. Ekdale, Ph.D.

Professor of Geology
University of Utah
Salt Lake City, Utah

Janifer Mayden

Aerospace Education Specialist
NASA
Washington, DC

James B. Phipps, Ph.D.

Professor of Geology
and Oceanography
Gray's Harbor College
Aberdeen, Washington

Life Science

Mary D. Coyne, Ph.D.

Professor of Biological Sciences
Wellesley College
Wellesley, Massachusetts

Joe W. Crim, Ph.D.

Associate Professor of Zoology
University of Georgia
Athens, Georgia

Richard D. Storey, Ph.D.

Associate Professor of Biology
Colorado College
Colorado Springs, Colorado

Physics

David Haase, Ph.D.

Professor of Physics
North Carolina State University
North Carolina

Patrick Hamill, Ph.D.

Professor of Physics
San Jose State University
San Jose, California

Middle School Science

Garland E. Johnson

Science and Education Consultant
Fresno, California

Barbara Sitzman

Chatsworth High School
Tarzana, California

Multicultural

Thomas Custer

Coordinator of Science
Anne Arundel County Schools
Annapolis, Maryland

Francisco Hernandez

Science Department Chair
John B. Hood Middle School
Dallas, Texas

Carol T. Mitchell

Instructor
Elementary Science Methods
College of Teacher Education
University of Omaha at Omaha
Omaha, Nebraska

Karen Muir, Ph.D.

Lead Instructor
Department of Social and
Behavioral Sciences
Columbus State
Community College
Columbus, Ohio

Reading

Elizabeth Gray, Ph.D.

Reading Specialist
Heath City Schools
Heath, Ohio
Adjunct Professor
Otterbein College
Westerville, Ohio

Timothy Heron, Ph.D.

Professor, Department
of Educational
Services & Research
The Ohio State University
Columbus, Ohio

Barbara Pettegrew, Ph.D.

Director of Reading
Study Center
Assistant Professor of Education
Otterbein College
Westerville, Ohio

LEP

Ross M. Arnold

Magnet School Coordinator
Van Nuys Junior High
Van Nuys, California

Linda E. Heckenberg

Director
Eisenhower Program
Van Nuys, California

Harold Frederick Robertson, Jr.

Science Resource Teacher
LAUSD Science Materials Center
Van Nuys, California

Safety

Robert Tatz, Ph.D.

Instructional Lab Supervisor
Department of Chemistry
The Ohio State University
Columbus, Ohio

Reviewers

Lillian Valeria Jordan Alston

Science Consultant
Institute of Government
University of North Carolina
Chapel Hill, North Carolina

Janet P. Bailey

Science Teacher
East Wake Middle School
Youngsville, North Carolina

Jamye Barnes

Science Teacher
Prescott Middle School
Prescott, Arkansas

Betty Bordelon

Science Teacher
Haynes Middle School
Metairie, Louisiana

James Carbaugh

Science Teacher
Greencastle Middle School
Greencastle, Pennsylvania

Elberta Casey

8th Grade Earth Science Teacher
Crawford Middle School
Lexington, Kentucky

Linda Culpeper

Science Department Chairperson
Piedmont Open Middle School
Charlotte, North Carolina

Nancy Donohue

General Science Teacher
Emerson Junior High School
Yonkers, New York

Susan Duhaime

5th/6th Grade Science Teacher
Assistant Principal
St. Anthony School
Manchester, New Hampshire

Ken Eiseman

Science Supervisor
West Chester Area School District
West Chester, Pennsylvania

Mel Fuller

Professor of Science Education
Department of Teacher Education
University of Arkansas
at Little Rock
Little Rock, Arkansas

Janet Grush

7th Grade Science/Math Teacher
Wirth Middle School
Cahokia, Illinois

Joanne Hardy

7th Grade Science/Social
Studies/Language Arts Teacher
Memorial Middle School
Conyers, Georgia

Nancy J. Hopkins

Gifted/Talented Coordinating
Teacher for Middle School Science
Morrill Elementary
San Antonio, Texas

Amy Jacobs

7th Grade Life Science Teacher
Morton Middle School
Lexington, Kentucky

Rebecca King

Chemistry Teacher
New Hanover High School
Wilmington, North Carolina

Ken Krause

Science Teacher
Harriet Tubman Middle School
Portland, Oregon

Martha Sculley Lai

Science Teacher
Department Chairperson
Highland High School
Medina, Ohio

William Lavinghousez

MAGNET Program Director
Ronald McNair MAGNET School
Cocoa, Florida

Norman Mankins

Science Specialist (Curriculum)
Canton City Schools
Canton, Ohio

John Maxwell

7th Grade Life Science Teacher
Claremont Middle School
Claremont, New Hampshire

Fred J. Mayberry

Earth/Life Science Teacher
Department Chairperson
Vernon Junior High School
Harlingen, Texas

Michael Parry

Science Supervisor
Boyerstown Area School District
Boyerstown, Pennsylvania

Lola Perritt

Science Specialist
Instructional Resource Center
Little Rock, Arkansas

Chuck Porrazzo

Science Department Chairperson
Bronx Career Technical
Assistance Center
Junior High 145
New York, New York

James Stewart

Life Science Teacher
W. E. Greiner Middle School
Dallas, Texas

James Todd

7th/8th Grade Science Teacher
East Hardin Middle School
Glendale, Kentucky

Deborah Tully

8th Grade Earth Science Teacher
Department Chairperson
Winburn Middle School
Lexington, Kentucky

Marianne Wilson

Science-Health-Drug
Coordinator
Pulaski County Special Schools
Sherwood, Arkansas

SCIENCE INTERACTIONS TABLE OF CONTENTS

Course 2

Science: A Tool for Solving Problems 2

Explore! How can science contribute to other fields of study?	3
Find Out! A Look at the "Dark Side"	6
Find Out! How will your garden grow?	8
Investigate! Paper, the Second Time Around	10
Find Out! Paying for the Moon	14

Forces in Action

18

Chapter 1 Forces and Pressure 20

Explore! Why doesn't the penny move? 21

1-1 Force and Motion 22

Investigate! Measuring Inertial Mass	24
Find Out! What factors affect the acceleration of objects?	26
Find Out! Is friction a force?	29

1-2 How Forces Act on Objects 31

Investigate! Acceleration and Mass	32
Explore! How can forces be measured?	36

1-3 Pressure and Buoyancy 39

Explore!

How are weight and pressure related? 39

Find Out!

What is the relationship of fluid depth to pressure? 41

Find Out!

How much water does an object displace? 44

Chapter 2 Forces in Earth 52

Explore! How do forces inside Earth affect rock layers? 53

2-1 What Causes Earthquakes? 54

Find Out!

How do different objects react when they are bent or stretched? 54

Explore!

How do rocks at a strike-slip fault move past each other? 58

2-2 Shake and Quake 60

Explore!

How can a coiled spring be used to demonstrate two types of earthquake waves? 60

Find Out!

Which is faster—a compression wave or a transverse wave? 61

Investigate!

Where's the Epicenter? 64

2-3 Volcanic Eruptions 67

Explore!

How does magma move? 67

Investigate!

Visions of Volcanoes 72

Chapter 3 Circulation 82

Explore! How many ways can you get from one place to another in a city? 83

3-1 Circulatory Systems 84

Explore!
How can you make a model of circulation in a one-celled organism? 84

Find Out!
What are the parts of the heart? 86

Find Out!
What makes heart sounds? 88

3-2 A System Under Pressure 91

Explore!
How can you feel and measure heart rate? 91

Investigate!
Pulse! Pulse! Who's Got a Pulse? 92

Find Out!
What happens to a liquid under pressure? 94

Investigate!
Blood Pressure 96

3-3 Disorders in Circulation 102

Find Out!
What happens to liquid flow in a clogged tube? 103

ENERGY AT WORK

114

Chapter 4 Work and Energy 116

Explore! What is work? 117

4-1 Work 118

Explore!
Is it work? 118

4-2 Forms of Energy 121

Explore!
Does a softball have energy? 123

Investigate!
Potential and Kinetic Energy 126

Explore!
How is work stored? 129

Find Out!
Where does the energy go? 132

4-3 Conservation of Energy 134

Find Out!
How far will it go? 134

Investigate!
The Motion of a Pendulum 136

Chapter 5 Machines 148

Explore! How can a machine make it easier to move an object? 149

5-1 Simple Machines	150	5-2 Mechanical Advantage	158
Explore!		Find Out!	
How does a lever work?	151	Can the length of a lever affect the amount of force needed to do work?	158
Find Out!		Investigate!	
Can a pulley reduce the force you have to exert to get a job done?	153	Measuring Mass with Levers	162
Find Out!		5-3 Using Machines	166
Are screwdrivers and screws simple machines?	155	Explore!	
		What kind of machine is a can opener?	166
		Find Out!	
		Can you measure the power of a toy car?	169
		Investigate!	
		Calculating Power	170

Chapter 6 Thermal Energy 180

Explore! How do we feel "heat"? 181

6-1 Thermal Energy	182
Explore!	
Is your sense of touch accurate for judging temperature?	182
Investigate!	
How Cold Is It?	184
Find Out!	
How do you make a temperature scale?	187
6-2 Heat and Temperature	190
Explore!	
How does thermal energy transfer from one object to another?	190
Investigate!	
Watching Ice Melt	194
6-3 Making Heat Work	200
Explore!	
Why is a heat engine inefficient?	200
Explore!	
How can doing work cool something?	202

Chapter 7 Moving the Body 210

Explore! How big is your muscle? 211

7-1 Living Bones 212

Explore!

How does your skeletal system support your body? 212

Find Out!

What makes bones hard? 214

Investigate!

Strong Bones 216

7-2 Your Body in Motion 221

Explore!

Do you need joints? 221

7-3 Muscles 225

Find Out!

What are the levers in your body? 225

Investigate!

Muscles and Bones 228

Find Out!

How do muscles work together? 230

Chapter 8 Controlling the Body Machine 238

Explore! Why does your dog bark? 239

8-1 The Nervous System: Master Control 240

Explore!

How do you keep your balance? 240

Find Out!

How does information move through your nervous system? 242

8-2 The Parts of Your Nervous System 244

Explore!

What does a central information computer do for you? 244

Investigate!

Reaction Time 248

Investigate!

Testing for Skin Sensitivity 252

Find Out!

How are your eyes protected from light? 254

8-3 Your Endocrine System 256

Chapter 9 Discovering Elements 268

Explore! What elements are in you and in your environment? 269

9-1 Discovering Metals 270

Explore!
What element is it? 271

Explore!
How can you identify a metal? 271

Investigate!
Identifying Metals 274

9-2 Discovering Nonmetals 282

Explore!
How can you identify nonmetals? 282

Explore!
What are some properties of hydrogen? 283

Investigate!
Preparing and Observing Oxygen 286

9-3 Understanding Metalloids 290

Explore!
What elements are in your mineral
supplements? 292

Chapter 10 Minerals and Their Uses 300

Explore! What makes jewels valuable? 301

10-1 Minerals and Their Value 302

Find Out!
How do minerals look up close? 303

10-2 Identifying Minerals 307

Find Out!
What is a streak test? 308

Find Out!
How does a scratch test help
identify minerals? 310

Investigate!
Becoming a Mineral Detective 312

Explore!
How do clear minerals compare? 314

10-3 Mineral Formation 315

Investigate!
Growing Crystals 316

Chapter 11 The Rock Cycle 328

Explore! How are rocks different? 329

11-1 Igneous Rocks 330

Explore!

What makes a rock unique? 330

Find Out!

What happens as a mineral cools? 331

Investigate!

Interesting Igneous Rocks 336

11-2 Metamorphic Rocks 339

Find Out!

What can happen to a rock when it is exposed to pressure? 339

Explore!

From what do metamorphic rocks form? 341

11-3 Sedimentary Rocks 343

Find Out!

How can sediments become cemented together? 344

Find Out!

What can happen to dissolved minerals? 346

Investigate!

Very Sedimentary 348

Chapter 12 The Ocean Floor and Shore Zones 360

Explore! From rock to sand—How can it happen? 361

12-1 Shore Zones 362

Explore!

How do waves affect the shoreline? 363

Investigate!

Beach Sand 368

12-2 Humans Affect Shore Zones 370

Find Out!

How do you clean up an oil spill? 373

12-3 The Ocean Floor 376

Find Out!

How can you determine the shape of something you can't see? 377

Investigate!

Ocean Floor Profile 380

Chapter 13 Energy Resources 390

Explore! How important is electricity to you? 391

13-1 The Electricity You Use 392

Find Out!

How can thermal energy be converted to kinetic energy? 393

13-2 Fossil Fuels 396

Explore!

What does a piece of coal look like? 396

Investigate!

Retrieving Oil 398

Explore!

How are water and oil found in natural settings? 400

13-3 Resources and Pollution 402

13-4 Alternative Energy Resources 407

Explore!

How many different methods can you use to make your pinwheel spin? 407

Investigate!

Warming Race 410

UNIT 4 Air: Molecules in Motion 422

Chapter 14 Gases, Atoms and Molecules 424

Explore! Does air exert pressure? 425

14-1 How Do Gases Behave? 426

Explore!

Do gases move? 426

Investigate!

Pressure and Volume 430

Find Out!

How does the volume of a gas depend on its temperature? 434

14-2 What Are Gases Made Of? 436

Explore!

Can you see air? 436

Explore!

How do gas particles move? 437

14-3 What Is the Atomic Theory of Matter? 440

Find Out!

How do hydrogen and oxygen make up water? 440

Investigate!

An Atomic Model 442

Chapter 15 The Air Around You 454

Explore! Does air have mass? 455

15-1 So This Is the Atmosphere 456

Find Out!

What solids are in the air around you? 457

Investigate!

How Much Oxygen Is in the Air? 458

15-2 Structure of the Atmosphere 462

Explore!

Is atmospheric pressure the same in all layers of the atmosphere? 464

Investigate!

The Ups and Downs of Weather 466

15-3 The Air and the Sun 468

Find Out!

How does a greenhouse trap heat? 470

Explore!

Why does hot air move? 472

Chapter 16 Breathing 482

Explore! What happens when you breathe? 483

16-1 How Do You Breathe? 484

Explore!

What can you learn by watching a goldfish? 485

Explore!

What is your trachea like? 488

Investigate!

Take a Deep Breath 490

Explore!

How does your chest size change when you breathe? 492

16-2 The Air You Breathe 494

Find Out!

What other gas do you exhale? 495

Investigate!

Inhale! Now, Exhale! 498

16-3 Disorders of the Respiratory System 501

Explore!

What is percussing? 502

Chapter 17 Basic Units of Life 514

Explore! What are living things made of? 515

17-1 The World of Cells

Find Out!

What is everything made of?

516

Find Out!

Do all cells look the same?

518

Find Out!

Does the size of a living organism tell you anything about the size of its cells?

519

Find Out!

What is the relationship between the size of an object and the distance to its center?

520

Investigate!

Exploring Cell Size

522

17-2 The Inside Story of Cells

525

Explore!

What holds a cell together?

525

Find Out!

What's inside cells?

529

Find Out!

Where is the cell's command center located?

530

Explore!

How do plant and animal cells differ?

532

17-3 When One Cell Becomes Two

534

Find Out!

When are chromosomes visible?

536

Investigate!

48-Hour Cell Reproduction

540

Chapter 18 Chemical Reactions 550

Explore! What kinds of things rust? 551

18-1 How Does Matter Change Chemically? 552

Find Out!

Are all chemical changes alike? 552

Find Out!

Is oxygen changed inside your body? 554

18-2 Word Equations 557

Explore!

Can we describe any chemical reaction? 557

Investigate!

Describing Reactions 560

18-3 Chemical Reactions and Energy 563

Explore!

Does a rubber band have energy? 563

Investigate!

Energy Changes 568

18-4 Speeding Up and Slowing Down Reactions 571

Find Out!

Can a chemical reaction be made to go faster without adding energy? 571
