ACKNOWLEDGEMENTS

This volume represents the Proceedings of the Symposium on Thin Films and Interfaces, which was held as a part of the Materials Research Society Meeting, November 14-18, 1983 in Boston.

The Symposium owed its success to the enthusiastic support of many people, including the following :

the speakers and authors whose papers are contained in this volume;

the session chairmen: G. Ottaviani, S.S. Lau, W.L. Brown, P.P. Pronko, J. Narayan, S. Mader, R.W. Balluffi, K.N. Tu, T.T. Tsong, L.L. Chang, H.I. Smith and J.M. Poate;

the many reviewers who willingly refereed the manuscripts submitted for this book;

Anne Campbell, who served as Manuscripts Secretary during the meeting; Coral Baglin and J. Böttiger who prepared poster headers and assisted with manuscript editing.

The Symposium could not have taken place without the financial support of the Office of Naval Research (Grant N00014-84-G-0018, L. Cooper), the Army Research Office (Contract DAAG29-83-M-0368, H. Wittmann) and IBM.

To all of these scientists and supporting institutions, the editors wish to express their warmest appreciation.
