## FERTILITY DATA OF CHINA

## 前 言

这本书是中国人口信息研究中心“数据用户服务(DUS)”项目人口数据系列出版物中的一本。DUS出版物的主要特点是将不同来源的数据按人口学主题(如生育、死亡、迁移、年龄结构、婚姻等)加以分类,然后经过加工整理再集中到一起。这种出版物与以某一次普查或抽样调查为基础的数据出版物起到了相互补充的作用,为读者查找资料提供了方便。

这本书的主题是生育。它汇集了80年代以来我国两次人口普查与一些大型生育率抽样调查中的有关主要资料。这些资料已经广泛应用于人口与计划生育的实际工作以及人口与计划生育研究。

由于篇幅所限,在一本数据集中不可能将所有的与生育有关的数据全部收集进来,如果用户发现这本书里没有所需要的资料,请与我们联系,我们将竭诚为您服务。欢迎读者对本书的内容提出改进意见,以便我们不断提高DUS出版物的质量。

DUS的人口系列出版物得到了联合国人口基金(UNFPA)的资助,在此我们向联合国人口基金表示衷心的感谢。

## PREFACE

*Fertility Data of China* is one of the serial publications prepared by the staff of the Data User Service (DUS), a project set up in the China Population Information and Research Centre (CPIRC). The DUS publications are mainly data books classified according to different demographic subjects (e.g. fertility, mortality, migration, age-sex composition and marital status, etc.). All the data in the publications are from different sources and have been reprocessed. The publications can be considered complements to those based on population censuses and surveys in China, and may facilitate readers to look for data on a specific subject.

This publication focuses on fertility. It includes relevant data from the 1982 and 1990 population censuses and large-scale sampling surveys on fertility in China. All these data have been widely used by family planning workers, population and family planning researchers.

Due to the limited pages, it is impossible to put together, in one book, all figures derived from relevant demographic surveys. Readers who need the fertility figures not included in *Fertility Data of China* may contact us to make request. Readers are also welcome to make comments on *Fertility Data of China* so that the quality of DUS publications can be improved.

Finally we wish to extend our heartfelt thanks to the United Nations Population Fund (UNFPA) for the financial assistance to DUS.

Li Bohua  
Chief of DUS
