第一部分 作文应试策略

5 种模式框架让 35 分钟的写作更有效!

利用一切可能的途径去学习写作!

第一单元 分析历年真题,透视写作新大纲

• 透视新大纲

2004 年《高校英语专业四级考试大纲》(以下简称《考试大纲》)对写作的要求如下:

1. 测试要求

作文:能根据所给的作文题目、提纲或图表、数据等,写一篇 200 个单词左右的作文。能做到内容切题、完整,条理清楚,结构严谨,语法正确,语言通顺,表达得体。考试时间 35 分钟,分值为 15 分。

2. 测试形式

本部分为主观命题作文,文章体裁主要属于说明文、议论文或记叙文的范围。

3. 测试目的

按照《考试大纲》的要求测试学生书面表达的能力。

新的《考试大纲》对写作部分作了一些调整,具体变化如下:

1. 题量

Section A 作文长度由 150 个词增加为 200 个词,考试时间不变。

2. 难度

由考试时间和题量可知,写作部分的难度加大。

从《考试大纲》的变化可以看出,对考生的写作能力更加重视,要求更高。

• 解密 TEM-4 写作题型

本书在总结历年真题的基础上,科学地划分了作文类型,并将四级考试写作的题型大致分为五类:自由发挥型、问题解决型、立场选择型、给定观点型、比较对比型。各种题型分析如下:

年份	考 题	自由发挥型	问题解决型	立场选择型	给定观点型	比较对比型
2007	Is It Wise to Make Friends Online?			✓		
2006	Saving Money or Using Tomorrow's Money			✓		
2005	My Idea of a University Art Festival	✓				
2004	Will Phones Kill Letter Writing?			✓		
2003	The Importance of Keeping a Good Mood				✓	
2002	The Best Way to Stay Healthy		✓			
2001	Travel Broadens the Mind				✓	
2000	The Importance of Extracurricular Activities				✓	
1999	A Major Advantage/Disadvantage of Advertising on Television			✓		
1998	One Way to Solve the Problem		✓			
1997	More Pressure from Academic Studies Does (or Does no) Good to Us?			✓		
1996	The Main Difference between My College Life and My Middle School Life					✓
1995	The Advantages and Disadvantages of Part-time Job				✓	
1994	TV: a Good Thing or a Bad Thing?			✓		
1993	My Idea of Becoming a Teacher in the Future	✓				
1992	My View on Reading Extensively	✓				
总计题数	16	3	2	6	4	1
占百分比	100%	20%	13%	38%	27%	7%

本书将主要根据这五种题型,通过真题点兵、考点点拨、妙方指点、习作健身等步骤,详细讲解每种题型的特点、作文模式,并辅以实例和练习,帮助读者熟练掌握。专业四级作文考试以命题作文为主。命题作文的结构相对来说是固定的,学生完全可以套用一些固定的模式来组织材料,阐述论证,依葫芦画瓢,以获取高分。

第二单元 打造立场选择型模式框架

文章的谋篇布局就如同房子的结构框架一样重要。条理清楚,结构严谨是专四写作项目考查的重点之一。因此,打造不同命题的框架极为重要!这类题目可称为“*For-Against*”,在提出话题后,通常从相对的角度提出两种观点和立场,要求考生从中选出一个作为自己的立场,即二选一,然后论证其正确性。如历年相关的考题:

2007 Is It Wise to Make Friends Online 要求考生对网络交友的明智与否进行讨论,选择立场,并加以论证。

2004 Will Phones Kill Letter Writing 让考生对电话是否减少了书信往来选择立场,发表看法。

1997 More Pressure from Academic Studies Does (or Does no) Good to Us 要求考生就过多的学业压力是否对他们有利发表意见。

1994 TV: a Good Thing or a Bad Thing 电视是有益还是有害的?对此表明自己的立场,并加以论证。

Is It Wise to Make Friends Online?

With the rapid development of technology, the Internet has been applied to all walks of our society. The Internet has become part of our daily life, and millions of young people have made friends online. Some believe that it is a convenient way of communication, while others hold that it is a curse to the society, and I'm supportive of the latter point.

The main reason for my propensity is that the Internet is unreal and the online friends are impractical. Internet, created by human beings, is an independent space different from our real world. Many people use false identities online which are not worth our trust. To make things worse, there are often cheats behind the

screen that lead us to a dead end. Unfortunately, some people have suffered not only mental hurt but also property losses, even losing lives to the worst point. Another reason is that friends online can't understand us exactly and can't offer help to each other instantly. They don't know what kind of person we're and what kind of situation we're faced with. When we meet some difficulties, they can't come to us at the first time. But friends in the real life can share our feelings and help us to get out of trouble. They are reliable, as we can see everything from their eyes.

Taking into account of these two factors, we may reach the conclusion that true friends are more helpful than online friends. So we should get on well with friends in the real life and cherish them.

Is It Wise to Make Friends Online?

With the development of computer applications, the Internet plays a more and more important role in our life. And, subsequently, making friends online becomes very popular with teenagers. So whether it is wise to make friends online becomes a hot topic. I think it's advisable to develop friendship through the Internet.

Firstly, we can get more emotional help from our online friends. In our daily life, we always find it's difficult to tell our emotional problems to the people by our side. So, it's a good idea to choose a faraway online friend to listen to our trouble and help us settle it. Secondly, we can learn more from our friends online. As we all know, everybody has his own advantages, and so do the friends online. So through talking with them, we'll know what has happened in their life and get the knowledge about the field they specialize in. By this way we could broaden our eyesight and improve our study.

Therefore, through making friends online, we'll get their emotional support and enrich our knowledge. Although some people say this special way of making friends is dangerous because we don't know them, I still think there are great advantages in this behavior, and it's wise to do so.

Saving Money or Using Tomorrow's Money?

As our society develops rapidly, the debate on saving money or using tomorrow's money becomes more and more heated. Many people think we should use tomorrow's money to live a more comfortable life. However, in my opinion, the old Chinese saying "To practice thrift is a virtue" is still not outdated now and we should save money for a brighter tomorrow.

The reasons why I hold such an opinion are various. For one thing, as a student, most of us are still "spenders" and can't be independent economically. Therefore, it would be very considerate of us to save money in order to lighten the burden of our parents. For another, we can develop our sense of economy during the period of saving money. With such a sense, we can use our money more sensibly. Furthermore, saving money is a good measure to prepare for emergencies. More money under control can deal with the risk in our lives.

With so many advantages, it's no doubt that saving money is a sensible idea.

Using Tomorrow's Money

When faced with the decision of saving money or using tomorrow's money, quite a few would deem that saving money is a better choice. But others, in contrast, prefer using tomorrow's money at present and that is also my point of view.

The first reason for my inclination of using tomorrow's money is that it is good for the development of economy. To illustrate this point clearly, we can see that our government always tries to stimulate domestic demand, which could help to reduce inflation. For example, the government has reduced interest rates several times these years to encourage people to spend money. So using tomorrow's money is the good way to support our government. What's more, using tomorrow's money may help us to improve our ability of managing our own money. For instance, when we start to invest in education, we often have to use tomorrow's money, which is significant for our future development. As a result, we will work harder and use money more sensibly.

In sum, using tomorrow's money shows an enterprising spirit of our youths and has a lot of merits. Although I agree that there are a couple of advantages of saving money, I feel that the advantages of using tomorrow's money are more obvious.

真题点兵 3 2004 TEM - 4

Nowadays young people tend to phone more often than write to each other. So, some say that phones will kill letter writing. What is your opinion?

Write on ANSWER SHEET ONE a composition of about 150 words on the following topic:

Will Phones Kill Letter Writing?

You are to write in three parts.

In the first part, state specifically what your view is.

In the second part, support your view with one or two reasons.

In the last part, bring what you have written to a natural conclusion or a summary.

Marks will be awarded for content, organization, grammar and appropriateness. Failure to follow the instructions may result in a loss of marks.

参考范文

Letter Writing Will Not Be Killed

Nowadays, young people choose to phone each other rather than to write letters. But even if so, I still maintain that phones will never kill letter writing, though we have stepped into the Information Age.

First, letters can express your subtle feelings. With the spreading up of the living pace of modern society, we find that there is a lack of communication now. Sometimes when you are speaking to someone that you care and love on the phone, you are so shy that it's too hard to express any of your feelings towards him/her. Your throat seems to be blocked! At this time, letters will help. Without any embarrassment, you can just write down your deep concern and love on a piece of paper. When you drop the letter into the pillar-box, you will feel what he/she will receive is not only a letter, but also your deepest love. Secondly, letters can be kept as a record of memory, while phones cannot. Just imagine, when you open an old box of letters and read them years later, a lot of beautiful and indelible memories will be brought back to you. What an irreplaceable feeling it is! And I believe, this feeling is something that you can definitely never experience through several phone calls.

All in all, letter writing will absolutely survive and even thrive in the Information Age. Phones can never kill it, neither will anything else.

• 考点点拨

这是一篇立场选择型的命题式作文。要求考生从两者中选出一种作为作文的论点,论证其正确性。作者根据给定的话题,先引出话题——现在越来越多的人愿意通过电话进行交流。并指出正反两方的立场——有人说电话将取代书信,有人说不会。作者从电话能否取代书信的正反两种观点一方作为自己的立场——书信是不会被电话所取代,然后通过两个分论点来证明。

作者从两个方面论证了自己的立场:一是信件可以表达出细微的情感,二是信件可以记录人的记忆,而电话不能。

真题点兵 4 1999 TEM - 4

We see advertisements on television every day. Some people think that TV advertising brings us benefits, but others don't think so. What is your opinion? Write on ANSWER SHEET ONE a composition of about 150 words on the following topic:

A Major Advantage/Disadvantage of Advertising on Television

You are to write in three paragraphs.

In the first paragraph, state just ONE major advantage or disadvantage of TV advertising.

In the second paragraph, give one or two reasons to support your point of view.

In the last paragraph, bring what you have written to a natural conclusion.

Marks will be awarded for content, organization, grammar and appropriacy. Failure to follow the

instructions may result in a loss of marks.

A Major Advantage of Advertising on Television

Nowadays we can see advertisements on Television every day. Some people believe that advertising on television can bring us benefits, but others don't think so. In my opinion, I am in favor of the advertising on television and a major advantage is that it helps the consumers to get what they want.

There are two reasons, I think, for the growing number of advertisement on TV. First, in a competitive economy, the consumer usually has the choice of several different brands of the same product. Thus, manufacturers are confronted with a problem — how to keep sales high enough to stay in business. They solve this problem by advertising. Through advertising, each manufacturing company tries to convince consumers that its product is special. Second, most consumers are interested in advertisement. They wish to get from TV advertisement the first-hand information about new products, which enables them to choose the one they like best. As a result, there is a sharp increase in advertisement on the TV screen.

In conclusion, TV advertising plays a very important role in our economic behavior. With abundant information available on TV, we can make sensible choices as consumers.

• 考点点拨

根据要求以及给出的题目,可以看出这也是一篇立场选择型的题目。本题提出了一种社会现象——电视广告,人们对其褒贬不一。

范文采取了正反表态法开头,给出了人们对电视广告两种态度,随后提出自己的立场,支持电视广告。

真题点兵 5 1997 TEM - 4

Some of your classmates think that more pressure from academic studies is not beneficial to students. You either agree or disagree with them. Write a composition of about 150 words on the following topic:

More Pressure from Academic Studies Does (Or Does No) Good to Us

You are to write in three paragraphs.

In the first paragraph state clearly what your view is.

In the second paragraph, support your view with details.

In the last paragraph, bring what you have written to a natural conclusion with a summary or suggestion.

Marks will be awarded for content, organization, grammar and appropriacy. Failure to follow the instructions may result in a loss of marks.

More Pressure from Academic Studies Does No Good to Us

Nowadays, we may often hear people around us complain that they are under great pressure in their daily life. It is true that no pressure, no motivation. But, how about much more pressure? Different people have different views of point. As for me, I firmly think too much pressure in essence prevents people from achieving academic accomplishment rather than does good to us.

The causes are twofold. Firstly, in our opening society, people have to acquaint themselves with a vast

number of new things so as to obtain better lives, which request them transferring more time from academic studies to other fields, lessening their academic pressure. Secondly, more pressure from academic studies will make people produce mental problems such as stress and qualm, in the long run, which will make academic studies become impossible.

Therefore, in my opinion, those who want to achieve academic accomplishment must not be given more pressure. It is a moderate academic air that does good to us.

• 考点点拨

考试中常出的错误是忽视了这类题目的要求和写法,这类题目要求二选一,着重论述一方也就是作者自己选定的立场论点,不需面面俱到地论述正反两方的立场。

真题点兵 6 1994 TEM - 4

Write a composition of about 150 words on the following topic:

TV: A Good Thing or A Bad Thing?

You are to write three paragraphs:

In the first paragraph, state clearly your viewpoint.

In the second paragraph, support your viewpoint with details or examples.

In the last paragraph, bring what you have written to a natural conclusion with a summary or a suggestion.

Marks will be awarded for content, organization and appropriate use of language.

TV: A Good Thing or A Bad Thing?

Nowadays, TV has become a part of our life. However, more and more people begin to wonder about its advantages and disadvantages. Some believe it is a blessing, others hold that it is a curse to the society. As for me, I think TV is good.

To begin with, TV, as a mass media, can bring people new information on economy, culture, arts, and many other fields. People can enjoy their favorite programs at home. In some countries, some TV stations provide such programs as looking for dangerous criminals and lost children, helping to find an ideal lover, and others, which are quite beneficial to society. Some TV stations provide various useful seminars for people of various ages and social status. What's more, TV can let people relax after the whole days work. TV provides people a lot of interesting programs to enjoy.

In my opinion, the attitude toward TV all depends. People should choose those programs, which are useful, and can bring them the sense of beauty. I think the benefits of TV are greater than its defects.
