不能错过的 DISNEP 经典电影故事

On the day Riley was born, Joy appeared. Joy was an Emotion. She worked inside Headquarters, the main control center in Riley's mind. There, on the giant screen, Joy could see the world through Riley's eyes. She watched with wonder as Riley's parents looked at their daughter for the first time.

乐乐希望莱莉的生活充满欢乐。她的目标就是用快乐的黄色记忆球填满莱莉的大脑总部。乐乐是莱利唯一的情绪小人,她觉得这份工作会一直顺利地进行下去!

Joy wanted Riley's life to burst with happiness. Her

goal was to keep cheerful yellow memory **spheres** rolling through Headquarters. And since she was the only Emotion, Joy figured her job was going to be pretty easy!

可是莱莉才出生了三十三秒,另外一个情绪小人就出现了。她的名字叫忧 说。这个小个子的蓝色情绪小人刚一开始操控大脑总部,莱莉就哭了起来。乐乐赶 紧把忧忧往旁边推。

But just thirty-three seconds after Riley was born, another Emotion appeared. It was **Sadness**. As the small blue Emotion took the controls in Headquarters, Riley began to cry. Joy quickly pushed Sadness **aside**.

紧接着又有新的情绪小人陆续来报到,大脑总部里越来越拥挤了。

每个情绪小人都会轮流操作控制台,引导莱莉完成每一天的任务、与别人的交流以及新的挑战。在乐乐看来,每一个情绪小人都很重要。

Headquarters soon became more crowded as **new Emotions** reported for duty.

Each one took his or her turn at the **control panel**, and guided Riley through everyday **tasks**, talking to other people, and **challenges**. It seemed to Joy that most of the Emotions had an important purpose.

15 15 负责莱莉的安全。如果莱莉要迈过一条危险的电线,他就会操作控制台引导她安全地迈过去。

Fear kept Riley safe. If there was a dangerous power **cord** to cross, he was the Emotion to safely guide her to the other side.

所有看上去可能让人讨厌的东西都归**是是**负责。她帮助莱莉决定是该吃了它,还是该吐掉它!

Anything that was **potentially gross** was handled by **Disgust**. She helped Riley decide whether to accept it . . . or **spit** it out!

默默比其他情绪小人更加懂得该怎么处理生活中遇到的不公平。每当莱莉受了委屈,他都会帮助莱莉维护自己,争取公平。

And no one knew how to handle life's injustices better than **Anger**. He helped Riley stand up for herself and demand **fairness**.

可是,说到忧忧……为什么莱莉需要忧忧呢?她好像只会让莱莉不开心,这与乐乐想要给莱利带来欢乐刚好相反。所以,乐乐总是尽可能地让忧忧远离控制台。

But Sadness . . . why did Riley need her? She always seemed to make Riley sad, which was the **opposite** of what Joy wanted. So Joy tried to keep Sadness off the **console** in Headquarters as

personality 个性 goofball 傻瓜 connected 连接 (connect 的过去分词形式)

在莱莉的大脑里,总部外面是五个**个性小岛**:家庭岛、诚实岛、冰球岛、友谊岛和淘气岛。

Outside Headquarters in Riley's Mind World were Riley's five **Islands of Personality**: Family, Honesty, Hockey, Friendship, and **Goofball**.

这些个性小岛通过光束桥与大脑总部连接。莱莉经历过的重大时刻都会给她留下深刻的记忆,这些重要的记忆形成了莱莉的核心记忆。它们通过光束桥不断地传送能量,以保证个性小岛的正常运转。

The islands were **connected** to Headquarters by lightlines. Riley's core memories, the superimportant memories that came from the biggest moments in her life, sent power through the lightlines to keep the islands running.
