## 胡锦涛同志关于 走中国特色城镇化道路的论述\*

走中国特色城镇化道路，按照统筹城乡、布局合理、节约土地、功能完善、以大带小的原则，促进大中小城市和小城镇协调发展。以增强综合承载能力为重点，以特大城市为依托，形成辐射作用大的城市群，培育新的经济增长极。

The extracts used as a preface \*

## **On the taking a path of urbanization with Chinese characteristics by Hu Jintao**

Taking a path of urbanization with Chinese characteristics, we will promote balanced development of large, medium-sized and small cities and towns on the principle of balancing urban and rural development , ensuring rational distribution, saving land, providing a full range of functions and getting larger cities to help smaller ones. Focusing on increasing the overall carrying capacity of cities, we will form city clusters with megacities as the core so that they can boost development in other areas and become new poles of economic growth.
