## Description

This is the showflat of a high-rise apartment located at Shenzhen, China. The architectural space is different from normal typical apartment. It is a triplex unit with front and back balcony just like villa. The concept of the design is inspired by a modern architectural touch, expressing the beauty of the up-and-down interlinking spacious effect. The use of simple lines, and artistic feeling furniture give off an interesting and tasteful touch of space. Pastel, tone to tone colour scheme is used to emphasize its calm and peacefulness. Lots of tailor-made artworks harmonize with the environments. There are 4 bedrooms and 1 study room within the premises.
