Alice's Adventures in Wonderland & Through the Looking-Glass

LEWIS CARROLL

*With an Introduction and Notes by Michael Irwin,
Professor of English Literature, University of Kent at Canterbury*

This selection of Carroll's works includes *Alice's Adventures in Wonderland* and its sequel, *Through the Looking-Glass*, both containing the famous illustrations by Sir John Tenniel. No greater books for children have ever been written. The simple language, dreamlike atmosphere, and fantastical characters are as appealing to young readers today as they ever were.

Meanwhile, however, these apparently simple stories have become recognised as adult masterpieces, and extraordinary experiments, years ahead of their time, in Modernism and Surrealism. Through wordplay, parody and logical and philosophical puzzles, Carroll engenders a variety of sub-texts, teasing, ominous or melancholy. For all the surface playfulness there is meaning everywhere. The author reveals himself in glimpses.

Author's Note

Enquiries have been so often addressed to me, as to whether any answer to the Hatter's Riddle (see p. 71) can be imagined, that I may as well put on record here what seems to me to be a fairly appropriate answer, viz. 'Because it can produce a few notes, though they are *very* flat; and it is never put with the wrong end in front!' This, however, is merely an afterthought: the Riddle, as originally invented, had no answer at all.

Christmas 1896
