THE
CYCLOPEDIA
OF
MEDICINE

GEORGE MORRIS PIERSOL, B.S., M.D.

EDITOR-IN-CHIEF

AND

EDWARD L. BORTZ, A.B., M.D.

ASSISTANT EDITOR

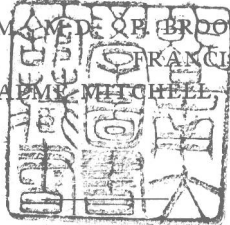

CHIEF ASSOCIATE EDITORS:

W. WAYNE BABCOCK, A.M., M.D. & BROOKE BLAND, M.D.

CONRAD BERENS, M.D.

FRANCIS L. LEDERER, B.S., M.D.

A. GRAHAM MITCHELL, M.D.

ILLUSTRATED WITH NUMEROUS HALF-TONE AND LINE ENGRAVINGS
AND MANY HANDSOME FULL PAGE COLOR PLATES

VOLUME FIVE

1934

ASSOCIATE EDITORS

FRANKLIN C. BING, A.B., Ph.D.

HARRY L. BOCKUS, B.S., M.D.

CLAUDE P. BROWN, M.D.

W. EMORY BURNETT, A.B., M.D.

A. F. COCA, M.D.

D. DE RIVAS, M.S., M.D., Ph.D.

JOHN S. COULTER, M.D.

TEMPLE FAY, B.S., M.D.

ARTHUR FIRST, M.D.

PHILIP A. HALPER, M.D.

F. S. HAMMETT, M.S., A.M., Ph.D.

H. J. JOHN, M.D.

JOHN B. LUDY, A.B., M.D.

JOHN ROYAL MOORE, M.D.

VICTOR C. MYERS, Ph.D., Sc.D.

CLARENCE A. PATTEN, M.D.

P. S. PELOUZE, M.D.

EUGENE P. PENDERGRASS, M.D.

STANLEY P. REIMANN, M.D.

WILLIAM D. STROUD, B.S., M.D.

CONTRIBUTORS TO VOLUME V

EMIL ABDERHALDEN, M.D.,

Professor of Physiology, Vereinigte Friedrichs-Universität, Halle-Wittenberg,
HALLE A. S., GERMANY.

FRED H. ALBEE, M.D.,

Professor of Orthopedic Surgery, New York Postgraduate Medical College and Hospital,
NEW YORK, N. Y.

LEON ASHER, M.D.,

Professor of Physiology, University of Berne,
BERNE, SWITZERLAND.

W. WAYNE BABCOCK, A.M., M.D.,

Professor of Surgery and Clinical Surgery, Temple University School of Medicine,
PHILADELPHIA, PA.

HARRY BAKWIN, M.D.,

Clinical Assistant Professor of Pediatrics, University and Bellevue Hospital Medical College,
NEW YORK, N. Y.

JOHN F. BARNHILL, M.D., LL.D.,

Professor of Surgery of the Head, Indiana University School of Medicine,
INDIANAPOLIS, IND., AND MIAMI BEACH, FLA.

W. L. BENEDICT, M.D.,

Professor of Ophthalmology, University of Minnesota Graduate School of Medicine,
ROCHESTER, MINN.

CONRAD BERENS, M.D.,

NEW YORK, N. Y.

FRANKLIN C. BING, A.B., PH.D.,

Instructor in Biochemistry, School of Medicine, Western Reserve University,
CLEVELAND, OHIO.

P. BROOKE BLAND, M.D.,

Professor of Obstetrics, Jefferson Medical College,
PHILADELPHIA, PA.

RUSSELL S. BOLES, M.D.,

Associate in Medicine, University of Pennsylvania School of Medicine,
PHILADELPHIA, PA.

(v)

CONTRIBUTORS TO VOLUME V.

EDWARD L. BORTZ, A.B., M.D.,

Associate Professor of Medicine, University of Pennsylvania Graduate School of Medicine,
PHILADELPHIA, PA.

LYMAN C. BOYNTON, Ph.D., M.D.,

Formerly Assistant Professor of Biochemistry, University of Washington, Seattle,
CLEVELAND, OHIO.

HELEN BOYNTON, Ph.D.,

CLEVELAND, OHIO.

M. J. BREITMANN, M.D.,

Lecturer on Endocrinology, Medical Postgraduate Institute,
LENINGRAD, U. S. SOVIET REPUBLIC.

LOUIS H. CLERF, M.D.,

Professor of Bronchoscopy and Esophagoscopy, Jefferson Medical College,
PHILADELPHIA, PA.

JOHN S. COULTER, M.D.,

Assistant Professor and In Charge of Physical Therapy Department,
Northwestern University Medical School,
CHICAGO, ILL.

HENRY DASPIT, M.D.,

Professor of Neurology and Psychiatry, Tulane University of Louisiana School of Medicine;
Dean and Professor of Psychiatry, Tulane University Graduate School of Medicine,
NEW ORLEANS, LA.

EDWARD A. DOISY, Ph.D.,

Professor of Biological Chemistry, St. Louis University School of Medicine,
ST. LOUIS, MO.

MARTIN H. FISCHER, M.D.,

Eichberg Professor of Physiology, University of Cincinnati College of Medicine,
CINCINNATI, OHIO.

JULIUS FRIEDENWALD, A.M., M.D.,

Professor of Gastroenterology, University of Maryland School of Medicine and
College of Physicians and Surgeons,
BALTIMORE, MD.

LEOPOLD GOLDSTEIN, M.D.,

Demonstrator of Obstetrics, Jefferson Medical College,
PHILADELPHIA, PA.

MURRAY B. GORDON, M.D.,

Professor of Clinical Pediatrics, Long Island College of Medicine; Chief of Endocrine
Clinic, Long Island College Hospital,
BROOKLYN, N. Y.

PHILIP A. HALPER, M.D.,

Instructor in Laryngology, Rhinology and Otolaryngology, University of Illinois College of Medicine,
CHICAGO, ILL.

K. G. HANSSON, A.B., M.D.,

Instructor in Orthopedics, Cornell Medical College; Director of Physical Therapy Department,
Hospital for Ruptured and Crippled, New York Hospital, Reconstruction Hospital,
Doctors' Hospital, and French Hospital,
NEW YORK, N. Y.

GEORGE C. HENNY, B.S., M.S., M.D.,

Department of Neurosurgery, Temple University School of Medicine,
PHILADELPHIA, PA.

R. G. HOSKINS, Ph.D., M.D.,

Director of Research, Memorial Foundation for Neuro-endocrine Research,
Harvard Medical School,
BOSTON, MASS.

J. WARREN HUNDLEY, A.B., M.D.,

Dispensary Assistant Physician, Presbyterian Hospital and Graduate Hospital of
the University of Pennsylvania,
PHILADELPHIA, PA.

CHEVALIER JACKSON, M.D., Sc.D., LL.D.,

Professor of Bronchoscopy and Esophagoscopy, Temple University School of Medicine,
PHILADELPHIA, PA.

CHEVALIER LAWRENCE JACKSON, A.B., M.D.

Clinical Professor of Bronchoscopy and Esophagoscopy, Temple University School of Medicine,
PHILADELPHIA, PA.

THOMAS HOLLAND JOHNSON, M.D.,

Clinical Professor of Ophthalmology, University and Bellevue Hospital Medical College,
NEW YORK, N. Y.

ARTHUR CARHART JONES, M.D.,

Instructor in Surgery, University of Oregon Medical School,
PORTLAND, OREGON.

ARTHUR KNUDSON, Ph.D.,

Professor of Biological Chemistry, Albany Medical College,
ALBANY, N. Y.

FRANK HAMMOND KRUSEN, M.D.,

Associate in Medicine and Director of Department of Physical Therapy,
Temple University School of Medicine,
PHILADELPHIA, PA.

CONTRIBUTORS TO VOLUME V.

DONALD A. LAIRD, PH.D., Sc.D.,

Director Colgate University Psychological Laboratory,
HAMILTON, N. Y.

FREDERIC H. LEAVITT, M.D.,

Associate in Neurology, University of Pennsylvania Graduate School of Medicine,
PHILADELPHIA, PA.

WILLIAM G. LENNOX, M.D.,

Instructor in Neuropathology, Harvard University Medical School,
BOSTON, MASS.

JOHN B. LUDY, A.B., M.D.,

Dermatologist to Episcopal, Pennsylvania, Lankenau, Methodist, and
Philadelphia General Hospitals,
PHILADELPHIA, PA.

WALTER STUART McCLELLAN, M.D.,

Medical Director, Saratoga Springs Commission,
SARATOGA SPRINGS, N. Y.

CHARLES MAZER, M.D.,

Assistant Professor of Gynecology, University of Pennsylvania
Graduate School of Medicine,
PHILADELPHIA, PA.

SAMUEL MORRISON, A.B., M.D.,

BALTIMORE, MD.

VICTOR C. MYERS, PH.D., Sc.D.,

Department of Biochemistry, Western Reserve University,
CLEVELAND, OHIO.

F. W. O'CONNOR, M.D.,

Associate Professor of Medicine, College of Physicians and Surgeons
School of Medicine, Columbia University,
NEW YORK, N. Y.

CLARENCE A. PATTEN, M.D.,

Associate Professor of Neurology, University of Pennsylvania Graduate School of Medicine,
PHILADELPHIA, PA.

NATHAN H. POLMER, B.S., M.D.,

Assistant Professor of Medicine (Physical Therapy), Tulane University Graduate School of
Medicine; Director of Department of Physical Therapy, Touro Infirmary,
NEW ORLEANS, LA.

J. P. PRATT, M.D.,

Chief, Obstetrical and Gynecological Department, Henry Ford Hospital,
DETROIT, MICH.

ALGERNON B. REESE, B.S., M.D.,

Instructor in Clinical Surgery, Department of Ophthalmology,
Cornell University Medical School,
NEW YORK, N. Y.

ALLAN WINTER ROWE, Ph.D.,

Director of Research, Evans Memorial,
BOSTON, MASS.

CHARLES E. DE M. SAJOUS, M.D., Sc.D., LL.D.,

Formerly Professor of Endocrinology, University of Pennsylvania Graduate School of Medicine;
Professor Emeritus of Therapeutics and Pharmacology,
Temple University School of Medicine,
PHILADELPHIA, PA.

LOUIS T. DE M. SAJOUS, B.S., M.D.,

Formerly Associate Professor of Pharmacology, Temple University School of Medicine;
Assistant Professor of Applied Endocrinology, University of Pennsylvania
Graduate School of Medicine,
PHILADELPHIA, PA.

WILLIAM O'NEILL SHERMAN, M.D.,

PITTSBURGH, PA.

JAMES W. SHERRILL, M.D.,

Scripps Metabolic Clinic,
LA JOLLA, SAN DIEGO, CALIF.

WILLIAM T. SHOEMAKER, M.D.,

Professor of Ophthalmology, University of Pennsylvania Graduate School of Medicine; Clinical
Professor of Ophthalmology, Woman's Medical College of Pennsylvania,
PHILADELPHIA, PA.

KARL W. STENSTROM, Ph.D.,

Associate Professor of Biophysics, University of Minnesota Medical School,
MINNEAPOLIS, MINN.

WINIFRED BAYARD STEWART, A.B., M.D.,

Instructor in Neurology, University of Pennsylvania Graduate School of Medicine,
PHILADELPHIA, PA.

ADRIAN S. TAYLOR, M.D.,

Professor of Surgery, University of Alabama School of Medicine,
BIRMINGHAM, ALA.

LAWSON THORNTON, M.D.,

ATLANTA, GA.

CONTRIBUTORS TO VOLUME V.

FREDERICK F. TISDALL, M.D.,

University of Toronto,
TORONTO, ONT.

NORMAN EDWIN TITUS, M.D.,

Associate in Surgery, College of Physicians and Surgeons, Columbia University,
NEW YORK, N. Y.

ROBERT G. TORREY, M.D.,

Professor of the Principles and Practice of Medicine and Clinical Medicine,
Woman's Medical College of Pennsylvania,
PHILADELPHIA, PA.

FRÄNZ J. TOREK, M.D.,

NEW YORK, N. Y.

BORDEN S. VEEDER, M.D.,

Professor of Clinical Pediatrics, Washington University School of Medicine,
ST. LOUIS, MO.

HOMER WHEELON, M.S., M.D.,

SEATTLE, WASH.

FRANCIS L. ZABOROWSKI, M.D.,

Clinical Assistant in Surgery, Temple University School of Medicine,
PHILADELPHIA, PA.

CONTENTS OF FIFTH VOLUME

	PAGE		PAGE
Edema	1	Electrotherapeutics, Constant and Inter-	
I. Edema in General	1	rupted Currents, I. Constant or Gal-	
II. Edema in Special	4	vanic Current, Indications (<i>continued</i>).	
1. Edema in Heart Disease	5	Pain and Swelling after	
2. Edema in Kidney Disease	6	Trauma	40
3. "Nephritis" as Edema of		Rheumatoid or Hypertrophic	
Kidney	7	Arthritis	40
4. Edema of Brain (Coma, Ure-		Sciatic Neuritis	40
mia, Diabetes)	9	Endocervicitis	40
5. Edema of Eye (Glaucoma) ..	11	Chronic Suppurative Otitis	
III. Treatment of Edema (Theoretical)	12	Media	40
IV. Treatment of Edema (Practical) ..	13	Nasal Disorders	41
1. Local Measures	14	Hypertrichosis (Epilation) ..	41
2. Constitutional Measures	17	Telangiectasis	42
V. Concluding Remarks	20	Vascular Nevi	42
Elaterium and Elaterin	25	Nevus Araneus	42
Preparations and Dose	25	II. Interrupted Currents of Low Fre-	
Physiological Action	25	quency	42
Poisoning by Elaterium	26	Interrupted Galvanic Currents ..	42
Treatment	26	Faradic Current	43
Therapeutics	26	Sinusoidal Currents	43
Electrocardiogram. See Cardiovascular		Surging Galvanic Currents	44
System.		Superimposed Sine Wave	44
Electrotherapeutics	26	Static Electricity	46
Sources of Heat	26	History	46
Hot Applicators	27	Static Machines	47
Baths	27	Holtz Static Machine	47
Radiation	28	Methods Employed	48
Electric Current	29	"Morton Wave Current"	48
Cautery	30	"Static Sparks"	48
High Frequency Current	30	"Static Brush Discharge"	49
Electric Currents	30	Glass Vacuum Electrodes	49
Currents through Tissues	30	Static Bath	49
Production of High Frequency		"Crown Breeze"	49
Current	31	Static Effluve	51
Undamped Oscillations	32	Contraindications	51
Complete Circuit during Treat-		Medical High Frequency Currents	51
ments	32	Technics	51
Surgical Application	32	Medical Diathermy	52
1. Electrodesiccation (or Ful-		Methods of Applying Electrodes ..	53
guration)	32	Electrode Material	53
2. Electrocoagulation	33	Dosage	54
3. Electric Cutting Current ..	33	Treatment Technic	54
Medical Application	34	Time and Frequency of Treatment	55
Diathermy	34	Therapeutics	55
Path of Current through Body	34	Heat Effect	55
Heat Production	34	Antispasmodic Action	55
Temperature Distribution	35	Local Relief of Pain	55
Increase of Body Temperature	35	Bactericidal Action	56
Short Wave Radio Generator	36	Neuromuscular System	56
Autocondensation	36	Osseous System	56
Vacuum Electrodes	36	Genitourinary System	57
Constant and Interrupted Currents of		Gynecology	57
Low Frequency	36	Contraindications	58
I. Constant or Galvanic Current ..	36	Gastrointestinal Tract	58
Technic	38	Respiratory System	59
Dosage	39	Cardiovascular and Circulatory Dis-	
Electrical Skin Resistance	39	orders	59
Indications	40	Ear	60

	PAGE		PAGE
Electrotherapeutics, Medical High Frequency Currents, Therapeutics (<i>continued</i>).		Emphysema, Pulmonary, Pulmonary Vesicular Emphysema (<i>continued</i>).	
Hyperpyrexia	60	Clinical Course and Sequelæ	100
Hyperthermia Experiments	62	Large-lunged Type	100
Electrosurgery	64	Acute Emphysema	101
1. Electrocautery	65	Treatment	101
2. Surgical Ionization	65	Acute Emphysema	101
Technic for Epilation	66	Mediastinal Emphysema	102
3. Surgical Diathermy	66	Chronic Large-lunged Emphysema	103
Definition	68	Emphysema, Subcutaneous	105
Apparatus	68	Definition	105
Surgical Application of High Frequency Current	69	Symptomatology	105
Monoterminal Surgical Diathermy	69	Treatment	105
Indirect	69	Empyema. See Pleura, Diseases of.	
Biterminal or "Electrocoagulation"	69	Encephalitis, Epidemic	105
Electrical Cutting Current	70	Synonyms	105
Technic	71	Definition	106
Disadvantages	73	History and Epidemiology	106
Advantages	74	Etiology	107
Indications	75	Pathology	108
Elephantiasis	77	Symptomatology	109
Definition	77	Acute Stage	110
Etiology	77	Intermediate Stage	111
Pathology	77	Chronic Stage	113
Symptoms	78	1. Parkinsonism	113
Diagnosis	79	2. Behavior Change	115
Prognosis	79	3. Psychoses	115
Treatment	79	4. Organic Nervous and Endocrine Disturbances	116
Emetine	81	Differential Diagnosis	116
Preparations and Dose	82	Treatment	118
Physiological Action	82	Encephalitis Periaxialis Diffusa	121
Therapeutics	82	Synonym	121
Emphysema, Pulmonary	84	Definition	121
Definition	84	Symptoms	121
Pulmonary Vesicular Emphysema	86	Varieties	122
Definition	86	Pathology	122
Pathogenesis	86	Differential Diagnosis	123
Varieties or Types	88	Treatment	123
I. Large-lunged or Diffuse Chronic Vesicular Emphysema (Hypertrophic Emphysema)	88	Encephalogram, Interpretation of	124
II. Senile Emphysema; Diffuse Pulmonary Atrophy; Small-lunged Emphysema	89	Technic of Encephalography	124
III. Primary Pulmonary Hypoplasia	89	A. Surgical Technic	124
IV. Local or Compensatory Emphysema	89	B. X-ray Technic	125
V. Acute Vesicular Emphysema	90	Origin, Course, Distribution, and Absorption of Cerebrospinal Fluid	126
Pathology	90	Encephalogram in the Normal	130
Large-lunged Type	90	Encephalogram in the Abnormal	131
Acute Pulmonary Emphysema with Influenzal Pneumonia	91	I. Blocking of Fluid Pathways	131
Signs and Symptoms	91	1. Tumors or Mass Lesions	131
Large-lunged Type	91	2. Plastic Arachnoiditis	134
Acute Emphysema	95	3. Hemorrhage in Subarachnoid Spaces	134
Diagnosis	98	4. Block at Base of Brain	136
Physical Signs in Large-lunged Type	98	5. Errors in Technic	136
Small-lunged Type or Senile Atrophy	99	II. Dilatation of Fluid Spaces	136
Acute Emphysema	99	A. Atrophy	136
Local and Compensatory Emphysema	100	1. External Hydrocephalus	136
		2. Internal Hydrocephalus	138
		3. Combined External and Internal Hydrocephalus	139
		4. Epilepsy and Mental Deficiency	139
		5. Following Thrombosis	140
		6. Post-traumatic (including Birth Trauma)	140

	PAGE		PAGE
Encephalogram, Interpretation of, Abnormal, II. Dilatation of Fluid Spaces, A. Atrophy (<i>continued</i>).		Endocrine Glands, Juvenile Endocrinopathies, Pubertas Precox (<i>continued</i>).	
7. Paresis, Chronic Alcoholism, Senile and Arteriosclerotic Conditions	141	Definition	193
8. Post-meningitis	143	Etiology	193
B. Aplasia	143	Ovarian Type	193
C. Porencephaly	143	Testicular Type	193
Encephalomalacia	144	Pineal Type	193
Definition	144	Adrenal Cortex Type	194
Etiology	144	Treatment	194
Pathology	145	Thymus	194
Differential Diagnosis	145	Status Thymus	195
Prognosis	146	Status Thymolymphaticus	195
Treatment	146	Treatment	195
Encephalomyelitis Disseminata	147	Pituitary Gland	196
Definition	147	Hyperpituitarism	196
Etiology	147	Hypopituitarism	196
Pathology	147	Dystrophy Adiposogenitalis	196
Symptomatology	147	Definition	196
Diagnosis	150	Synonyms	197
Treatment	151	Etiology and Pathology	197
Endemic Boil. See Leishmaniasis.		Symptoms	198
Endocarditis. See Cardiovascular System.		Treatment	202
Endocrine Glands	152	Adrenal Glands	203
Correlation of Endocrine Glands	152	Acute Adrenal Insufficiency	203
Primary and Secondary Diseases of	155	(A) In Adrenal Hemorrhage in Newborn	203
Conclusions	161	(B) In Acute Infections	203
Innervation of Glands of Internal Secretion	162	Chronic Adrenal Insufficiency in Childhood	204
Neuro-endocrinology	169	Hypersuprarenalism	204
Thyroid	169	Rôle of Endocrines in Gynecology and Obstetrics	206
Parathyroids	170	Menstruation, Normal and Abnormal	206
Pituitary	171	Modern Theory of Menstruation ..	206
Adrenals	172	Pseudomenstruation in Human Female	206
Pancreas	174	Amenorrhea	207
Ovaries	174	Pituitary Amenorrhea	207
Testes	174	Laboratory Findings in Pituitary Hypofunction	208
Conclusion	175	Primary Ovarian Amenorrhea ..	208
Juvenile Endocrinopathies	176	Due to Thyroid Deficiency ...	209
Thyroid Gland	176	Oligomenorrhea and Hypomenorrhea	209
Congenital Goiter	176	Menorrhagia and Metrorrhagia of Endocrine Origin	209
Symptoms	176	Puberty Bleeding	210
Treatment	177	Dysmenorrhea	210
Endemic Cretinism	177	Functional Sterility	210
Childhood Myxedema	178	Treatment of Functional Sterility and Associated Menstrual Disorders	212
Synonyms	178	Prophylaxis during Adolescence ..	212
Definition	178	Dietary Measures	212
Etiology	178	Female Sex Hormone	212
Forms	178	Therapeutic Action	212
Symptoms	179	Peroral versus Subcutaneous Administration	212
Hypothyroidism	181	Corpus Luteum, Nidatory Principle of (Lutin)	213
Differential Diagnosis	182	Anterior Pituitary Therapy	213
Treatment	183	Thyroid Therapy	213
Infantilism	187	Radiotherapy of Menstrual Disorders and Functional Sterility ..	213
Definition	187	Endocrines in Pregnancy	214
Etiology	187	Hormone Tests for Early Pregnancy	214
Symptomatology	188		
Brissaud's Infantilism (Myxinfantilism)	188		
Levi-Lorain Type	188		
Other Endocrine Forms	189		
Diagnosis	190		
Treatment	191		
Eunuchoidism	191		
Definition	191		
Pubertas Precox	193

Endometriosis and Pregnancy	326
Endometriosis and Malignancy	327
Diagnosis and Symptoms	328
Treatment	328
Endometritis	332
Introduction	332
Acute Endometritis	333
Classification	333
1. Acute Catarrhal Endometritis	333
2. Endometritis Purulenta	333
3. Endometritis Diphtherica	334
4. Tuberculous Endometritis	334
5. Syphilitic Endometritis	334
6. Traumatic Endometritis	334
7. Syncytial Endometritis	334
Gonorrheal Endometritis	334
Pathologic Changes	335
Symptoms	335
Diagnosis	335
Prognosis	335
Treatment	335
Puerperal Endometritis	336
1. Syncytial Endometritis	336
Symptoms	336
Treatment	336
2. Acute Decidual Endometritis	336
Diagnosis	336
3. Sappremia	337
Pathological Changes	337
Symptoms	337
General Symptoms	337
Local Symptoms	338
Diagnosis	338
Prognosis	338
Treatment	338
4. Septicemia. (Septic Endometritis)	338
Pathological Changes	339
Symptoms	339
Constitutional Symptoms	339

	PAGE		PAGE
Endometritis, Acute, Puerperal, 4. Septicemia, Symptoms (<i>continued</i>)	339	Enemata (<i>continued</i>)	372
Local Symptoms	339	Technic	372
Diagnosis	340	Nutrient Enemata	373
Prognosis	340	Technic	373
Treatment	340	Enuresis in Children	373
Chronic Endometritis	341	Definition	373
Pathological Changes	342	Frequency	373
Symptoms	342	Etiology and Symptomatology	374
Local Symptoms	342	Pollakiuria	374
Diagnosis	343	Enuresis as a Behavior Disorder	375
Prognosis	343	Differential Diagnosis	376
Treatment	343	Management and Treatment	377
Endoscopy	345	Enzymes. See Ferments.	378
Laryngoscopy	345	Ephedrine	378
Indirect	345	Dose and Modes of Administration	378
Direct	345	Physiologic Action	378
Diagnosis in Children	345	Toxicology	379
Laryngeal Diphtheria	346	Therapeutics	379
Introduction of Intratracheal Insufflation Tubes	346	Phenylaminoethanol Sulphate	380
Technic of Direct Laryngoscopy	347	Epilepsy	381
Bronchoscopy	348	Definition	381
Technic	349	Historical	381
Introduction of Bronchoscope	349	Types	381
Acquiring Skill	350	Description of Seizures	383
Contraindications	350	Aura	383
Bronchoscopy for Foreign Body	352	<i>Grand Mal</i>	383
Prognosis	352	<i>Petit Mal</i>	384
Overlooked Foreign Bodies in Bronchi	353	Psychological and Mental Aspects	385
Symptomatology	353	Mental Aspects	385
Initial Symptoms	353	Neurological Mechanisms	385
Laryngeal Foreign Body	353	Prevalence	386
Tracheal Foreign Body	354	Age at Onset	387
Bronchial Foreign Body	355	Etiology	387
Arachidic Bronchitis; Vegetal Bronchitis; Peanut Bronchitis	355	Hereditv	388
Diagnosis	356	Pathology	389
Physical Signs	357	Brain	389
X-ray	358	Outside the Nervous System	391
Mechanical Problems of Removal	358	Gastrointestinal Tract	392
Bronchoscopy for Disease	359	Respiration	392
Obstruction of Trachea or Bronchus	359	Circulation	392
Nonmalignant Tracheal or Bronchial Obstruction	359	Endocrine Glands	392
Malignant Tracheal or Bronchial Obstruction	362	Body Fluids	393
Diagnosis and Treatment of Non-obstructive Cases	362	Physico-chemical Processes Modifying Seizures	393
Hemoptysis	362	Differential Diagnosis	395
Asthma	362	Description of Attack	396
Abscess of Lung	363	Examination	397
Bronchiectasis	364	Prognosis	398
Bronchoscopic Pneumonography	364	Prophylaxis	398
Pneumonia	366	Genetics	398
Tuberculosis	367	Prevention of Contributing Causes	400
Specimen of Secretion	368	Preconvulsive Phenomena	400
Vaccine Therapy	368	Treatment	400
Bronchoscopic Medication	368	General Hygiene	401
Esophagoscopy and Gastroscopy	368	Treatment during Attack	403
Technic	369	Mental Hygiene	404
Introduction of Esophagoscope	369	Medication	405
Peroral Gastroscopy	371	Epistaxis	406
Peroral Pyloroscopy	371	Definition	406
Enemata	371	Blood Supply of Nose	407
		Etiology	407
		A. Trauma	407
		B. Disease	408
		C. Violent Exertion	408
		D. Menstrual Suppression and Vicious Menstruation	408
		E. High Altitudes	408
		Pathology	409
