ONLINE LEARNING TOOLS

Xtra!

Bring HR to life with Xtra!—a robust set of online learning tools that includes interactive quizzing, HR video examples, and more. Xtra! allows students to practice what they've learned through unique exercises that ask the student to apply HR theory to hypothetical scenarios with a real-world focus. An Xtra! access certificate is packaged with each new copy of the text. Xtra! is also available for purchase with used textbooks.

Product Support Web Site

The product support web site for *Managing Human Resources*, 13e, includes Xtra! and Management News; Instructor Resources and Student Resources available for downloading; Interactive Study Center and Interactive Quizzes for students; and information about WebTutor™ and TextChoice for instructors.

Management News

Located on the *Managing Human Resources*, 13e, product support web site, Management News provides summaries of the latest management-related news stories, indexed by topic for your convenience. Each Management News summary contains a headline, subject category, key words, three-to-five-paragraph summary of a news article, article source line, and questions to spur further thought.

WHAT'S CRITICAL IN HUMAN RESOURCES MANAGEMENT TODAY?

Now in its 13th edition, this text has all the advantages of a time-tested product—and the added benefit of an author team committed to bringing you the most current and critical topics in HRM today. The excerpts shown here are only a small sample of the current topics you'll encounter in this edition.

◀ Diversity Management

HR Planning and Strategic Planning

LEARN BY DOING: THE PRACTICE OF HRM

NEW! Experiential Exercise

Each chapter now contains an experiential exercise to explore significant issues in HRM. These skill-building exercises will help you gain practical experience when dealing with employee/management concerns. The exercises provide experience working as an individual or as part of a team.

Case Studies

To become a successful manager of people, you will need practice. In addition to offering practical information ready to put to use, each chapter of the textbook concludes with two case studies. These case studies present current HRM issues in real-life settings that allow for critical analysis.

170

PART 2 Meeting Human Resources Requirements

CUSTOMIZING HR FOR DIFFERENT TYPES OF HUMAN CAPITAL

Part of strategic planning in HR is mapping an organization's human capital. When we look at the strategic value of a person's skills as well as its uniqueness, we soon discover that organizations comprise different kinds of workers who have very different kinds of skills. Some are core knowledge workers; some are more traditional job-based employees; some are contract workers; and some are external partners. In this context, it is unlikely that we would manage all of these employees the same way (as much as we might want to for fairness). There are differences in HR practices for different groups. That's not bad, but it makes the job of HR managers more difficult.

Assignment

Employees. Describe the key characteristics of the for each of them:

CHAPTER 1 The Challenge of Human Resources Management

38

Case Study 1

A Chip off the Rock: Outsourcing HR at Prudential

Insurance and investment company Prudential Financial Inc. is outsourcing a "piece of the rock" to Ealt Inc. The human resources outsourcing will take over Prudential's HR systems and administrative functions in a deal worth \$700 million over ten years. The deal calls for Ealt to handle all U.S. payroll, HR call-center management and information systems and support, employee data, staffing, and records management for Prudential's 47,000 employees. Ealt also will be responsible for the company's accounts payable transactions. Executives at Prudential, which includes Prudential Insurance Co. and other companies, declined to comment on the deal.

Ealt chairman and CEO Jim Madden told investors on a conference call that Prudential, in Newark, New Jersey, decided to outsource its HR functions after noting Ealt's ten-year, \$1.1 billion HR outsourcing contract with Bank of America in 2000 and its ability to support Prudential's PeopleSoft human resources system. Although Prudential didn't say how much money it expects to save over the duration of the contract, Madden says the insurer anticipates being able to operate more efficiently and focus on strategic human resources functions, such as providing employee self-service HR processes.

More companies are turning to self-service applications as a way to improve cost-cutters and employees and cut down on administrative costs. Cigna Corp., a \$20 billion insurance company in Philadelphia, partnered with Yahoo Corp. to provide personalized portals designed to let Cigna's sixteen million customers better track claim status, benefit services, and other aspects of their health and retirement plans.

"It's no surprise that companies are outsourcing functions as a way to save money and focus on core business," says David Rhoads, a principal at management consulting firm Towers Perrin. He says businesses are "tapping expertise and the ability to work very effectively" when they decide to outsource.

QUESTIONS

1. What are the pros and cons of outsourcing the HR function?
2. What do you think Prudential should worry about most?
3. How can Ealt make certain that Prudential is happy with its service?

Source: George Yochum and Elizabeth Goolsby, "Prudential Financial Expands Savings by Outsourcing HR," *International Herald Tribune* 26, 2002, B7, B1.

CASES

HR Proves Its Value at SYSCO Foods

Case 1

For evidence that SYSCO Corporation's innovative Virtual Human Resource Center is making an impact, consider this. It motivated Jim Hope, president of a Kansas City subsidiary of SYSCO, to station himself in the warehouse one morning before dawn so that he could give a presentation on stock options to the company's truck drivers. "We did a workplace climate survey," Hope says, "and one of the things it showed was that employees wanted to see top management in person more."

Undoubtedly, there are companies where regional management might gripe at having to implement initiatives flung down from corporate headquarters. But SYSCO—the largest food-service company in North America, with \$22 billion in annual revenues—isn't one of them. One reason is simple: Regional executives such as Hope are free to accept or reject the programs pitched by the Virtual Resource Center. The three-year-old program uses a "market-driven" approach to HR, in which SYSCO's corporate HR professionals have to persuade regional subsidiaries to "buy" its initiatives—and to pay for them.

"We get to choose what we think will help us," Hope says. All the same, he and other regional managers—as well as SYSCO's top management—are enthusiastic about the results that the Virtual Resource Center's unorthodox approach has produced. Since the center's inception in 1996, for example, SYSCO has experienced a 30 percent reduction in workers' compensation claims—a \$10 million annual savings, the company estimates. It also reports a 20 percent improvement in the retention rate for tough-to-keep night warehouse employees, at an estimated yearly cost savings of about \$15 million. Corporate management is also impressed by HR's contribution to bottom-line performance at SYSCO, which in its most recent quarter posted a 6 percent increase in sales and a 14 percent increase in earnings per share over the previous year, despite a faltering economy. "I really feel like HR has helped our profits," says SYSCO president and chief operating officer Richard Schuchman.

SYSCO isn't the kind of business that would lend itself to a conventional top-down approach to HR. The company's 43,000 employees work to supply food and other products to more than 370,000 establishments, ranging from fancy restaurants and posh hotels to corner delis and hospital cafeterias. In addition to selling food and beverages, the firm supplies items such as machines and kitchen equipment and provides consulting advice about menus and food safety issues. SYSCO is able to serve the diverse needs of its vast clientele by allowing the regional managements of its more than 120 food-serving business units to operate with a high degree of autonomy.

Over the years, the HR department at SYSCO's Houston headquarters has developed an approach that mimics the corporate culture. Corporate HR functions as an entrepreneurial entity, with the regional SYSCO subsidiaries acting as its customers. HR has to sell every initiative it develops to the regional companies, which generally are

727

Extended Cases

Ten extended cases are located at the back of the text. These longer cases include topics found in more than just a single text chapter. The more complicated issues found in these cases enable you to put a variety of concepts into practice.

A SAMPLE FLEXTIME PROPOSAL FROM PRICEWATERHOUSECOOPERS

This proposal is an abbreviated version of PricewaterhouseCoopers' FWA policy. Employees interested in flexible scheduling must complete this form and have it approved by their superiors before they may activate flextime schedules.

The FWA proposal is designed to incorporate many of the issues that must be considered when designing a flexible work arrangement and must be completed by all PWC individuals on an FWA. Please complete the following proposal. Your mentor or others may assist you.

Part 1 Proposal

1. Benefits and barriers for the firm. What are the benefits of this flexible work arrangement for the firm? Identify potential barriers that a flexible work arrangement could raise with clients, partners, staff.
2. Flexibility and availability. Clarify your availability to travel or meet unexpected work needs on days or at times when you are not in the office or formally scheduled to work.
3. Communication. How will you maintain communication with the office? With clients? How will you let others know when you want to change your schedule?
4. Efficiency and coverage. How will you ensure that your new schedule won't be disruptive to work flow? Describe your backup plan when you are unavailable and someone—client, partner, staff—needs something fast.
5. Flexible Work Arrangement (check one):
 - ☐ Reduced Hours
 - ☐ Job Sharing
 - ☐ Seasonal Employment
 - ☐ Compressed Workweek
 - ☐ Flextime
 - ☐ Telecommuting

Part 2 Considerations

6. Reasons/benefits for yourself. What are the perceived benefits for you? Are you meeting your career and personal goals?
7. Describe current and proposed work schedules (include hours per week and per day if different from standard office hours).
8. Summarize your current workload and client responsibilities/relationships and proposed changes—transitioning clients to other staff, relinquishing main contact relationship.

Using the completed proposal as a guide, discuss the proposed arrangement with your visitor, coach, and local HR representative. The agreed-upon arrangement should be evaluated, and discussed quarterly to ensure it is successful for the individual, the clients, and staff.

TEST YOUR KNOWLEDGE OF EQUAL EMPLOYMENT OPPORTUNITY LAW

The following questions have been used as "icebreakers" by employers and consultants when training supervisors and managers in EEO legislation. What is your knowledge of EEO laws? Answers are found at the end of this chapter.

1. Two male employees tell a sexually dirty joke. The joke is overheard by a female employee who complains to her supervisor that this is sexual harassment. Is her complaint legitimate?
 - Yes ☐ No ☐
2. To be covered by Title VII of the Civil Rights Act, an employer must be engaged in interstate commerce and employ twenty-five or more employees.
 - True ☐ False ☐
3. People addicted to illegal drugs are classified as disabled under the Americans with Disabilities Act of 1990.
 - Yes ☐ No ☐
4. The Equal Pay Act of 1963 allows employers to pay different wages to men and women who are performing substantially similar work. What are the three defenses for paying a different wage?
 - 1. _____
 - 2. _____
 - 3. _____
5. A person applies with you for a job as a janitor. During the interview the person mentions that since birth he has sometimes suffered from short periods of memory loss. Must you consider this individual as a disabled person under the Americans with Disabilities Act of 1990?
 - Yes ☐ No ☐
6. On Friday afternoon you tell Nancy Penley, a computer analyst, that she must work overtime the next day. She refuses, saying that Saturday is her regular religious holiday and she can't work. Do you have the legal right to order her to work on Saturday?
 - Yes ☐ No ☐
7. You have just told an applicant that she will not receive the job she applied for. She claims that you denied her employment because of her age (she's 50). You claim she is not protected under the age discrimination law. Is your reasoning correct?
 - Yes ☐ No ☐
8. As an employer, you can select those applicants who are the most qualified in terms of education and experience.
 - Yes ☐ No ☐
9. As a manager, you have the legal right to mandate dates for pregnancy leaves.
 - True ☐ False ☐
10. State fair employment practice laws cover smaller employers not covered by federal legislation.
 - True ☐ False ☐

A specific example of HR transformation at Merck can be seen in the evolution of education and training. Rather than relying solely on traditional approaches to training, Merck is developing a "blended" approach to learning. In combination with traditional classroom experiences, Merck is creating web-based e-learning opportunities as well. For example, in association with Forum Corporation, Merck piloted the use of an online 360-degree diagnostic tool called *Performance Compass* for its Leadership Development Program. The tool helps managers assess their developmental skills and then connects them to a wide array of external training and educational resources. Similarly, Merck worked with Developmental Dimensions International (DDI) to implement an On-line Performance and Learning (OPL) system that provides coaching tips and learning tools and resources for employees and managers. Systems such as these transform the learning process by enabling individuals to search through a virtual sea of information and customize their own learning. This dramatically reduces employee research time, not to mention the cost savings associated with

80

PART 1 Human Resources Management in Perspective

AFFIRMATIVE ACTION

Affirmative action: Policy that goes beyond equal employment opportunity by requiring organizations to comply with the law and correct past discriminatory practices by increasing the numbers of minorities and women in specific positions.

Equal employment opportunity legislation requires managers to provide the same opportunities to all job applicants and employees regardless of race, color, religion, sex, national origin, or age. While EEO law is largely a policy of nondiscrimination, affirmative action requires employers to analyze their workforce and develop a plan of action to correct areas of past discrimination. Affirmative action is achieved by having organizations follow specific guidelines and goals to ensure that they have a balanced and representative workforce. To achieve these goals, employers must make a concerted effort to recruit, select, train, and promote members of protected classes. Employees must locate not only minority candidates who are qualified, but also those who, with a reasonable amount of training or physical accommodations, can be made to qualify for job openings.

Establishing Affirmative Action Programs

Employers establish affirmative action programs for several reasons. As noted in Figure 2.3, affirmative action programs are required by the OFCCP for employers with federal contracts greater than \$50,000.¹⁶ The OFCCP provides regulations and suggestions for establishing affirmative action plans. Specifically, employers must (1) provide an organizational profile that graphically illustrates their workforce demographics, (2) establish goals and timetables for employment of underutilized protected classes, (3) develop actions and plans to reduce underutilization, including initiating proactive recruitment and selection methods, and (4) monitor progress of the entire affirmative action program.

Affirmative action programs may also be required by court order where an employer has been found guilty of past discrimination. Court-ordered programs will require the setting of hiring and promotion quotas along with stated timetables for compliance. Finally, many employers voluntarily develop their own affirmative action programs to ensure that protected-class members receive fair treatment in all aspects of employment. General Electric, the City of Portland, and Hilton Hotels use these programs as a useful way of monitoring the progress of employees while demonstrating good-faith employment effort. The EEOC recommends that organizations developing affirmative action programs follow specific steps, as shown in Highlights in HRM 7.

In pursuing affirmative action, employers may be accused of reverse discrimination, or giving preference to members of protected classes to the extent that unprotected individuals believe they are suffering discrimination. When these charges occur, organizations are caught between attempting to correct past discriminatory practices and handling present complaints from unprotected members alleging the HR policies are unfair. It is exactly this "catch-22" that has made affirmative action one of the most controversial issues of the past fifty years. Two highly publicized cases illustrate the controversy.

In *University of California Regents v. Bakke* (1978), the Supreme Court settled one of the most famous reverse discrimination cases.¹⁷ Allan Bakke, a white male, charged that the University of California at Davis was guilty of reverse discrimination by admitting minority-group members he believed were less qualified than he. The central issue before the Court was equal treatment under the law as guaranteed in the

Reverse discrimination: Act of giving preference to members of protected classes to the extent that unprotected individuals believe they are suffering discrimination.

Career Development

Explain how a career development program integrates individual and organizational needs.

Describe the conditions that help make a career development program successful.

Discuss how job opportunities can be inventoried and employer potential assessed.

Compare the methods used for identifying and developing managerial talent.

5

Cite the ways in which employer can facilitate the career development of women.

288

PART 2 Developing Effectiveness in Human Behavior

have noted at several different points in this text—and in several different ways—that the ground rules for managing people are changing dramatically in today's working world. To be competitive in the long run, organizations will have to adopt new ways of working that are more flexible and more adaptable. Jobs are becoming more flexible to cope with change and organizations are embracing alternative ways of designing work that take into account the diverse energies and backgrounds of potential employees. This new vision and technological change is forcing organizations to change the way they work. The new organization structures mean that there are new positions for promotion, so individuals must look for advancement opportunities outside the firm. At the same time, increased competition for talent means that individuals must be able to move from one firm to another. It means that some individuals will have to leave the firm to go to work for the competition. It means that individuals must learn to leave—to leave men to their own ruin, employment security can be assured only when individuals take control of their own careers. Options and opportunities are perhaps more likely to be found across firms rather than within only one firm. The new working world is likely to be a more fluid one, with individuals more likely to spend their entire careers with only one firm.

Whose? All of these changes are going on at once, so it's small wonder that the topic of career management is one of the most important to new employees and old employees as well as to those of you who are just now thinking about entering the workforce. The desire to make the most of their knowledge and skills is something that students and organizations have in common. On one hand, the task has perhaps never been more challenging. On the other hand, organizations and employees are both perhaps more focused on it than ever before. In this chapter we not only cover career development as an HRM function, we also provide some suggestions that you can use with confidence in your own career development.

ELEMENTS OF CAREER DEVELOPMENT

Organizations have traditionally responded. As we noted in Chapter 4, for example, employers through work force staffing and development have

A common approach is to integrate it with the existing HR function, career development with its various aspects of HR assistance are added to some of the essential aspects of planning careers, emphasis is on strategy planning, forecasting, etc.

100

SUMMARY

1 A career development process that should employ needs within. It is the response to identify his or her own KSA's within and to seek out information. The organization should provide criticism, policies, and plans and the use of training and development.

2 In order to be successful, a reward program must reflect the goals and organization, and managers must be trained in the fundamental performance appraisal, career planning, and compensation. Employees should have an awareness of the organization's philosophy and its goals, and know how these goals match those of the HRM policies, especially those regarding transfers and promotions, and the goals. The objectives and application of the development program should

3 job opportunities studying jobs and the edge and skills needed that is accomplished job progression. These programs basis for developing career path developed and employers are leaders, it is possible to invest mine where individuals, with

4 Identifying and developing it is a responsibility in addition to innovation. It should be others' job. You can nominate and sponsor it. Many organizations use a steering

Beginning with the learning objectives that open each chapter, the text is organized as an integrated learning system. To keep the central ideas before you, the learning objectives are noted again in key places: at the beginning of the section where the objective is fulfilled and within the chapter summary and discussion questions where the key points of each objective are recapped.

exists in order that each individual may reach her or his full potential. Monitoring has been found to be valuable for providing guidance and support to potential managers.

5 The first step in facilitating the career development of women is to eliminate barriers to advancement. Formation of women's networks, providing special training for women, accepting women as valued members of the organization, providing mentors for women, and sponsoring activities have been found to be effective ways to facilitate a woman's career development.

6 While a diversified workforce is composed of many different groups, an important segment is minority groups. In addition to creating constraints that are favorable to recognizing and improving performance, many organizations have special programs such as internships that provide hands-on experience as well as special training opportunities. Another group that requires the attention of management is composed of dual-career couples who often need

DISCUSSION QUESTIONS

1. Give some reasons for the trend toward continued emphasis on career development programs.
2. If a company maintains a special unit of officers at its world headquarters in San Francisco for its retired executives, how do the bank's former chief executives see their company?
3. Of what value is this arrangement to the corporation? To the individuals?
4. How might retired executives be an asset to an organization now in the career development of current employees?
5. What are the factors that cause a company to be perceived as an organization that is forced to discontinue its operations?
6. More than 16 percent of all employees in the U.S. are over 50 years of age. How do these employees view their company? How do they see their own career growth? For the individuals, it represents a new life to the employees. For some of the employees, it represents a new life to the company.

5. What are some of the barriers to advancement opportunities for women in many organizations?
6. How are the career challenges of minorities both similar to and different from those of women?
7. List the advantages and disadvantages of being an entrepreneur.
8. In your opinion, what personal characteristics are employers looking for in individuals whom they are considering for long-term employment and probable advancement in the organization? To what extent can you develop these characteristics?
9. One reviewer has said, "What to talent, the second most important factor in career success is taking the time and effort to develop visibility." What are some ways of developing visibility?

To help you organize your study, we have structured the *Study Guide* around these same learning objectives. First we recap each key section in the chapter, grouped by learning objectives. Next come multiple-choice, application, and true/false review questions—all organized according to the learning objectives they test. A matching section reviews important terms in the chapter. A “how-to” application activity is also included.

10-2

Managing Human Resources

- 1** Differentiate between profit-sharing plans and explain advantages and disadvantages of these programs.
- 2** Describe the main types of employee stock ownership plans and discuss the advantages of employee stock ownership plans to employers and employees.

CHAPTER SUMMARY RELATING TO LEARNING OBJECTIVES

1 The success of an incentive pay plan depends on the organizational climate in which it must operate, employee confidence in it, and its suitability to employee and organizational needs. Importantly, employees must view their incentive pay as being equitable and related to their performance. Performance measures should be quantifiable, easily understood, and bear a demonstrated relationship to organizational performance.

10-8

Managing Human Resources

- 1** _____ 24. An incentive plan that gives employees the opportunity to increase their earnings by contributing to the growth of their organization's profits is known as a
- straight commission plan.
 - straight salary plan.
 - combined salary and commission plan.
 - profit-sharing plan.
- 2** _____ 25. The type of incentive that may take the form of a stock bonus plan or a leveraged plan is the
- employee stock ownership plan.
 - Rucker Plan.
 - Scanlon Plan.
 - combined salary and commission plan.

True/False

Identify the following statements as True or False.

- 1** _____ 1. Incentive plans always satisfy employee needs as well as the organization's needs.
- 1** _____ 2. The primary purpose of an incentive compensation plan is to pay off under all circumstances, however the level of motivation is not relevant.
- 2** _____ 3. One of the newest incentive plans is based on piecework.

Straight piecework employees receive a varying rate of pay for each unit produced.

One of the most significant weaknesses of piecework, as well as other incentive plans based on individual effort, is that it may not always be an effective motivator.

Piecework is appropriate where quality is more important than quantity.

Bonuses may be determined on the basis of cost reduction, quality improvement, or performance criteria established by the organization.

Employees in some organizations are opposed to merit raises because they do not really trust management.

employees a given rate for each unit satisfactorily. Incent these plans when output is easily measured is fairly standardized. Bonuses are incentive of on either an individual or team basis. A bonus is to exert greater effort. Standard hour plans establish a An incentive is paid for finishing the job in less than is are popular for jobs with a fixed time for completion.

to motivate employees when they are seen as when these raises are given yearly without regard to e. Merit raises are not motivational when they are prism or when merit budgets are inadequate to orance. To be motivational, merit raises must be relationship between pay and performance and the ough to exceed inflation and higher income taxes.

penated by a straight salary, a combination of salary sion only. Paying employees a straight salary er than sales, such as service and customer goodwill s employees to emphasize sales goals. A sion provides the advantages of both straight salary of payments.

Chapter 13 Employee Rights and Discipline

13-13

- 2** _____ 5. In an attempt to resolve employee conflict in the workplace, companies such as Rockwell, Johnson and Johnson, and Volvo have utilized a(n)
- ombudsman.
 - hearing officer.
 - arbitration panel.
 - consulting firm.

How to Develop and Use Ethical Codes in the Business World

Ethical codes are extremely relevant especially when working in an organization that is customer driven. For example, at IBM, their mission is to be customer-driven to create consumer satisfaction at all costs. In joining an organization, the student must have orientation and training on ethical codes, policies, and procedures.

Ethics can be defined as a set of standards of acceptable conduct and moral judgment. Ethics provides cultural guidelines, organizational or societal, that help decide between proper or improper conduct. Ethics in human resources management extends beyond the legal requirements of managing employees. Managers engage in ethical behavior when employees are treated in an objective and fair way and when an employee's personal and work-related rights are respected and valued.

Organizations have ethics committees to provide training to employees. The ultimate goal of ethics training is to avoid ethical behavior and adverse publicity; to gain a strategic advantage, but most of all, to treat employees in a fair and equitable manner, recognizing them as productive members of the organization.

The tightly integrated learning system is designed to help you study efficiently. After reading the chapter, review the summary. Next prepare verbal or written answers to the discussion questions to help you move from the concepts to applications. Then work through the review questions in the *Study Guide*. If you find from these review activities that you need further study on a particular objective, you can easily locate all of the applicable material by looking for the appropriate learning objective icon in the text and *Study Guide*.

The 13th edition of *Managing Human Resources* will place your students at the forefront in understanding how organizations can gain sustainable competitive advantage through people. The role of HR managers is no longer limited to service functions such as recruiting and selecting employees. Today, HR managers assume an active role in the strategic planning and decision making at their organizations. Meeting challenges head-on and using human resources effectively are critical to the success of any work organization.

In the first chapter, we begin by explaining the key challenges to HRM in developing the flexible and skilled workforce needed to compete effectively. Side by side with the competitive challenges, HRM must also address important employee concerns such as managing a diverse workforce, recognizing employee rights, and adjusting to new work attitudes. The chapter also discusses the important partnership with line managers and the competencies required of HR management. Then the textbook continues with the introduction, explanation, and discussion of the individual practices and policies that make up HRM. We recognize the manager's changing role, and emphasize current issues and real-world problems and the policies and practices of HRM used to meet them.

Although we focus on the HR role of managers, we do not exclude the impact and importance of the HR department's strategic role in developing, coordinating, and enforcing policies and procedures relating to HR functions. Whether the reader becomes a manager, a supervisor, or an HR specialist, or is employed in other areas of the organization, *Managing Human Resources* provides a functional and practical understanding of HR programs to enable readers to see how HR affects all employees, the organization, the community, and the larger society.

Organizations in today's competitive world are discovering that it is how the individual HR topics are combined that makes all the difference. Managers typically don't focus on HR issues such as staffing, training, and compensation in isolation from one another. Each of these HR practices is combined into an overall system to enhance employee involvement and productivity. *Managing Human Resources* ends with a final chapter that focuses on development of high-performance work systems. We outline the various components of the system including work-flow design, HR practices, management processes, and supporting technologies. We also discuss the strategic processes used to implement high-performance work systems and the outcomes that benefit both the employee and the organization as a whole.

What's New in the 13th Edition

Many new features and much new information are provided in this revision. We introduce overall text improvements that more accurately reflect HRM in today's business world and help the reader understand HRM issues more effectively.

- ▶ **HRM Experience:** Each chapter contains a new experiential exercise to explore significant issues in HRM. These skill-building exercises will help students gain practical experience when dealing with employee/management concerns such as pay-for-performance; effective training; employee benefits; reducing employee stress; balancing competitive challenges and employee concerns; customizing

HR for different types of human capital; designing selection criteria and methods; and assessing the strategic fit of HPWS. Students can work through these new exercises on either an individual or a team basis.

- ▶ **Human Resources Information Systems:** Throughout the text, we have specifically highlighted the use of HRIS to facilitate the managing of employees and the efficient performance of HR functions. For example, the impact of information technology on HR and the role of HRIS in such areas as compensation, recruitment and selection, training, job analysis, and safety are discussed.
- ▶ **Diversity:** Because we believe that diversity issues are an integral part of every HRM activity, updated and expanded coverage is included throughout the text.
- ▶ **HRM Strategy:** The increasingly important role HRM plays in strategic planning is covered in discussion of the role of human capital and Six Sigma in Chapter 1; HR benchmarking in Chapter 4; balanced scorecard and performance diagnosis in Chapter 8; global HR strategy in Chapter 15; as well as Chapter 16's coverage of strategic alignment and implementing high-performance work systems.
- ▶ A complete update of all laws, administrative rulings and guidelines, and court decisions governing HRM includes such recent developments as OSHA standards covering ergonomics; added emphasis on arbitration to resolve employee discipline and discharge; genetic testing; e-mail and voice-mail privacy; negligent hiring; and other employee rights issues. In Chapter 13, we have added a new section on resolving employee complaints through employment mediation.
- ▶ The latest versions of the posters of all major federal regulations governing HRM are included.
- ▶ We have readdressed the important role of compensation in HRM by heightening our discussion of pay-for-performance, healthcare cost savings, strategic pension planning, and effective employee awards.
- ▶ Expanded discussions cover major issues, including:

| | |
|--|--|
| <ul style="list-style-type: none"> balanced scorecard child and elder care competency assessment for training conflict resolution techniques cumulative trauma disorders domestic partner benefits employee leasing 401(k) savings plans | <ul style="list-style-type: none"> OSHA reporting requirements performance diagnosis person-organization fit role of human capital strategic compensation planning violence and terrorism in the workplace |
|--|--|
- ▶ Many new Highlights in HRM boxes present the reader with up-to-date real-world examples from a variety of large and small organizations.
- ▶ **Internet:** The ever-growing role of the Internet in HR activities is evident throughout the text. A few examples include online recruiting in Chapter 4; online staffing in Chapter 5; web-based training and e-learning in Chapter 6; and online 360-degree performance appraisal in Chapter 8.
- ▶ Each chapter has at least one new end-of-chapter case study highlighting chapter content.
- ▶ Six new extended cases are included at the end of the book. These cases have been carefully selected to reflect current issues in managing human resources. Cases explore the important topics of virtual HR, diversity, workforce mobility, employment downsizing, wrongful discharge, and the arbitration of employee complaints.
- ▶ **New Ancillaries:** There are new online ancillaries for instructors and students. A completely revised test bank plays a strategic role in the Integrated Learning

System. An entirely new set of PowerPoint presentation slides and acetates makes teaching and preparation easier and more convenient.

Features of the Book

Use of the Integrated Learning System (which is carefully described on the front end-sheet) continues for the new edition. This integrated structure creates a comprehensive teaching and testing system. Designed to facilitate understanding and retention of the material presented, each chapter contains the following pedagogical features:

- ▶ **Learning objectives** listed at the beginning of each chapter provide the basis for the Integrated Learning System. Icons that identify the learning objectives appear throughout the text and end-of-chapter material, and all print ancillaries.
- ▶ **Highlights in HRM.** This popular boxed feature provides real-world examples of how organizations perform HR functions. The Highlights are introduced in the text discussion and include topics such as small businesses and international issues.
- ▶ **Using the Internet.** All chapters include new government, research, and business Internet references and addresses.
- ▶ **Key terms** appear in boldface and are defined in margin notes next to the text discussion. The key terms are also listed at the end of the chapter and appear in the glossary at the end of the text.
- ▶ **Figures.** An abundance of graphic materials and flowcharts provides a visual, dynamic presentation of concepts and HR activities. All figures are systematically referenced in the text discussion.
- ▶ **Summary.** A paragraph or two for each learning objective provides a brief and focused review of the chapter.
- ▶ **Discussion questions** following the chapter summary offer an opportunity to focus on each of the learning objectives in the chapter and to stimulate critical thinking. Many of these questions allow for group analysis and class discussion.
- ▶ **HRM Experience.** A new experiential activity (described earlier) is included in each chapter.
- ▶ **Two or more case studies** per chapter present current HRM issues in real-life settings that allow for student consideration and critical analysis.
- ▶ **Extended cases.** Ten extended cases are provided at the end of the main text. These cases use material covered in more than one text chapter and provide capstone opportunities.

Ancillary Teaching and Learning Materials

New for this edition are three exceptional online tools: Xtra!, Management News on the product support site, and InfoTrac® College Edition. Details about these web-based resources are provided on pages iv and v of the Special Features Tour at the very front of the book.

For Students

Study Guide to Accompany Managing Human Resources (ISBN: 0-324-18406-9). Thomas Lloyd of Westmoreland County Community College again revised the *Study Guide*. His many years of teaching experience allow him to bring a special insight to

this popular student supplement. It includes review questions that can be used to check understanding and prepare for examinations on each chapter in this textbook. Using the Integrated Learning System, *Study Guide* questions are arranged by chapter learning objective so the student can quickly refer back to the textbook if further review is needed. A sample chapter of the *Study Guide* as well as online purchase are available at <http://bohlander.swlearning.com>.

For Instructors

The following instructor support materials are available to adopters from your South-Western Publisher's Representative, the Academic Resource Center at 800-423-0563, or through <http://www.swlearning.com>. All printed ancillary materials were prepared by or under the direction of the text authors to guarantee full integration with the text. Multimedia supplements were prepared by experts in those fields.

- ▶ **Instructor's Resource Guide** (ISBN: 0-324-18407-7). For each chapter in the textbook, the *Instructor's Resource Guide* contains a chapter synopsis and learning objectives, a very detailed lecture outline, answers to the end-of-chapter discussion questions and case studies, and solutions to the extended cases in the textbook.
- ▶ **Test Bank** (ISBN: 0-324-18408-5). The new test bank was prepared by James Carey, formerly of Arizona State University, who has used *Managing Human Resources* for years. Each test bank chapter provides over 100 questions and includes a matrix table that classifies each question according to type and learning objective. There are true/false, multiple-choice, and essay items for each chapter, arranged by learning objective. Page references from the text are included. Each objective question is coded to indicate whether it covers knowledge of key terms, understanding of concepts and principles, or application of principles.
- ▶ **Computerized Test Bank** (ISBN: 0-324-18428-X). *ExamView™* testing software contains all the questions from the printed test bank and allows the instructor to edit, add, delete, or randomly mix questions for customized tests.
- ▶ **PowerPoint™ Presentation Slides** (ISBN: 0-324-18410-7). Created specifically for the new edition by Charlie T. Cook of the University of West Alabama, these presentation slides will add color and interest to lectures. The transparencies are also included within the presentation slide package.
- ▶ **Instructor's Resource CD** (ISBN: 0-324-18410-7). The *Instructor's Resource Guide*, test bank, *ExamView*, and PowerPoint slides are provided on a single CD-ROM.
- ▶ **CNN Today: Managing Human Resources** (ISBN: 0-324-18412-3). Video segments taken from real companies as well as business features shown on CNN—the cable business news network—were chosen to accompany the text chapters. Use them to introduce a topic, highlight lecture material, or stimulate discussion.
- ▶ **Transparency Acetates** (ISBN: 0-324-18409-3). A set of transparencies is also available with this edition.
- ▶ **WebTutor™**. WebTutor is used by an entire class under the direction of the instructor and is particularly convenient for distance learning courses. It provides web-based learning resources to students as well as powerful communication and other course management tools including course calendar, chat,
