Brief
Introduction

学校概况

学校概况 *Brief Introduction*

广东碧桂园学校位于全国最大的现代化社区顺德碧桂园的中心，西邻全国历史文化名村碧江，东枕桂山，门对105国道和广珠西线高速公路。

学校于1994年9月4日正式开学，是广东省顺德碧桂园物业发展有限公司依法兴办的，实施幼儿园、小学、初中、高中和国际文凭大学预科一条龙教育。学校占地33万多平方米，建筑面积17.5万平方米，绿化面积27万多平方米。在校生3500多人，教教职工近1000人。

学校以“保证基础，发展个性，服务社会”为教育模式，以“明理，创新”为校训，以“育名生，出名师，创名校”为办学宗旨，坚定不移地“培养21世纪成功人士，为中国的教育事业树立光辉典范，把学校办成现代经济大潮中的黄埔军校”。学校实行董事会领导下的校长负责制，校长对学校工作全面负责；实行层级管理，国际部、高中部、初中部、高小部、初小部和幼儿园都设有校（园）长。

占地33万平方米的校园

School Campus with 330,000 square meters of land

With an enrollment of 3500 students that ranges from kindergarten to Year 12 and 1000 faculty members, G.D Country Garden School is the largest private school in all of Guangdong. It was established by Shunde Country Garden Estate Development Company on September 4, 1994. Now it occupies 175000 square meters of floorage and 270000 square meters of green land.

The guiding principles for running the school are "Building a foundation, developing the personality and severing society". They were put forward with the aim to cultivate successful people for the 21st century.

The Superintendent of the school, under the leadership of the school board and supported by section principals, is responsible for routine duties.

创办者的话

杨国强

广东碧桂园学校于1994年建校，到现在已经走过了10年的路。在廖秉权校长的带领下，全校干部老师同心协力，使这所学校发展壮大起来，在社会上享有了良好的声誉。为了我们自己，为了整个社会，为了全体学生的未来，我们今后还要更加努力，因为这所学校里的孩子大部分是成功人士的子女，他们今后要继承父业并发扬光大，他们现在迫切需要的就是接受最好的教育。

要努力培养学生考上清华、北大、哈佛、剑桥等国内外名牌大学，这是学校发展壮大的条件，也是学校成为名校的前提。因此，老师们要切实提高课堂教学水平，努力探索“负担轻、质量高”的教学模式，向课堂要质量。

希望我们的学生考上国内外名牌大学，并不等于说只重应试教育不要素质教育。我提倡在初中阶段开始写“为明天作证”的文章，就是希望我们的学生能树立远大的目标，希望他们懂得人生的意义，为自己的人生目标而努力奋斗。培养他们成为未来成功人士不是一件容易的事，不仅要让他们学习成绩好，还要让他们的基本素质得到充分发展，让他们学会做人、学会做事、学会生存。

学校的投入是很大的。我对学校一直非常支持，即使是在储备金转制最困难的时候，也没有耽误过学校的发展。学校能有现在这么大的规模，与老师们的努力分不开，与公司强大的经济实力作后盾分不开！现在，公司发展不错，学校的经费也步入了良性循环，我为此感到高兴与自豪。

学校有今天，离不开大家的贡献。我本身也是一位学生家长，我要代表全体学生家长感谢老师们付出的努力。我更加希望经过我们的共同努力，把学校办得越来越好，培养出越来越多的未来成功人士。相信这个愿望一定能实现！

Words of the Founder

Yang Guoqiang

Guangdong Country Garden School was founded in 1994. The school is almost now ten years old. Headed by Mr. Liao Bingquan, the former superintendent, with the concerted efforts of the leaders and the whole staff, the school is well developed and is becoming stronger with a good reputation. For ourselves, for the whole society, for the future of the students, we should make more efforts for students. Most of the students in this school whose parents are very successful are in urgent need of well educated children so that they can carry forward and further develop their parents' business.

This is the condition for the school's development and also is the presupposition for a good school to train its students so that they are capable of entering prestigious universities such as Tsinghua, Peking, Harvard and Cambridge. So the teachers should definitely improve their teaching quality and try to explore the teaching pattern of light burden with high quality.

We hope our students can enter into these prestigious universities, which doesn't only mean that we emphasize the testing not the quality. I advocate the students begin to write the essay, Verification for Tomorrow during their period of junior high school, because I hope our students can understand the significance of their life and build up a long-term goal, and then make arduous efforts towards it. It is not easy to train the students to become successful in their future. We should not only allow them to achieve high scores but also develop basic quality. The students should be taught to learn to behave, learn to act and learn to exist.

The investment of the school is enormous. I am always in support of the school and never delay its development, even at its hardest time when the reserve policy was changing. The reason why the school can develop into such a large size, on one hand it is that teachers are working very hard, on the other hand is that it is always supported by the company's powerful economic strength. I am glad and proud that the company is well developed now and the outlay of the school has entered into a good cycle.

The achievement of the school is made by the efforts of all of you. For myself, I am also a student's parent. I would like to express my thankfulness to all the teachers on behalf of all the students' parents. I hope our school is getting better with more and more graduates who will be successful in the future. I believe this dream will definitely come true.

首任校长的话

廖秉权

1993年11月，在杨国强董事长的办学气魄和办学宗旨的感召下，怀着对教育事业的理想追求和满腔热忱，我辞去公职来到碧桂园公司，开始了人生的第二个里程：参与创建广东碧桂园学校。我参与了学校的筹划、选址、奠基、聘师、招生，直至开学等所有前期工作。

万事开头难，创办民办学校更难。所幸的是，我遇到了一位好董事长、一位好校监和一批热爱教育工作的干部和教师，还聘请了十几位有深厚学识和社会影响的顾问。在我的校长生涯里，充满了挑战，充满了创业快乐，也为学校的不断发展壮大而感到自豪。

客观地说，这不是一所普通的学校，从筹办时起就确立了以“培养未来成功人士”为办学宗旨、以“保证基础，发展个性，服务社会”为教育模式的办学理念。办学十年来，全校干部教师以高涨的热情，积极探索高效办学之路。在大家的共同努力下，正确处理了改革、发展和稳定三者之间的关系；抓住了课程改革这一核心问题，建立碧桂园课程体系，探索国家课程校本化；形成了英语环境、体艺教学、教育信息化和教育国际化四大办学特色；开辟了直通国内大学和直通国外大学的两个出海口。十年办学取得的成绩和积累的具有规律性的基本经验，为学校未来发展奠定了坚实的基础，得到学生、家长、媒体、同行、领导、专家的肯定。

广东碧桂园学校的未来是美好的，我相信，她将发展成为中国名校乃至世界名校。

衷心祝愿广东碧桂园学校鹏程万里，祝愿全体干部师生身体健康，万事如意！

Words of the First Superintendent

Liao Bingquan

In November 1993, impelled by Mr. Yang Guoqiang's great courage and advanced philosophy of running a school, I took leave from public employment and began the second career in my life: building Guangdong Country Garden School. I participated in all the preparatory work including designing the school, choosing the address, laying construction foundation, recruiting teachers and students.

Everything's hard in the beginning, and it's harder to run a private school. Fortunately, I came across a brilliant chairman of board, a competent school supervisor and a group of excellent leaders and teachers who devote themselves into education. Challenges and happiness had been accompanying me during my tour of duty and I'm proud of the continuous development of the school.

Objectively speaking, it's not a common school because of its advanced education philosophy. The guiding principles for running the school are Building a Foundation, Developing the Personality and Serving Society. They were put forward with the aim to cultivate successful people for the 21st century. During the past ten years, all the faculties have been enthusiastically exploring the effective ways of running the school. Through great efforts, we manage the relationships between reform, development and stabilization in the correct way. We have set up Country Garden Curriculum System and tried to implement national curriculum with our own school characteristics. We have successfully created four features: English environment, P.E. & Arts education, Informative and internationalized education. The achievements and experiences lay solid foundation for future development.

I believe Guangdong Country Garden School will have a brilliant future and will become a famous school both in China future and the world and may all your heart's wishes be fulfilled!

现任校长的话

程晋升

征程一路风兼雨，创业十年歌与诗。

过去的十年，秉承办学者的创办“现代经济大潮中的‘黄埔军校’”，把碧桂园学子培养成“21世纪‘成功人士’”的办学宗旨，我校创新了教育与经济相互促进的办学机制，取得了令家长满意和社会赞赏的办学效益。

过去的十年，运用廖秉权校长的“保证基础，发展个性，服务社会”的教育模式，我校把东方教育的优势和西方教育的精华结合起来，以人为本，实施素质教育，促进了学生全面发展。

过去的十年，我校开拓创新，坚持“学会做人”的育人思想，构建“碧桂园课程体系”并探索国家课程标准“校本化”，强化英语教育和信息技术两大特色，确立做强国内高考和国际教育接轨的发展策略，使我校在教育体制和办学机制改革的激烈竞争中，立足、生存，且长足发展，更跻身全国先进民办学校行列。

过去的十年，风险与机遇并存，创业和收获双赢。未来的十年，跨越发展是历史的机遇，再攀新高是时代的祈求。

“听唱新翻杨柳枝，更吟别韵桃李词。踏歌不尽心头语，前路再和千首诗。”

我们将在各级政府和学校董事会的领导下，贯彻国家的教育方针，坚定“育名生、出名师、创名校”的办学目标，坚持教育创新，发挥“一贯制”优势，以质量求生存，以特色求发展，以规模求效益，为把广东碧桂园学校创办成花园式、数字化、学习型、国际化学校而努力！

Outlook from the School Superintendent

Mr. Jinsheng Cheng

During the past ten years, we have witnessed the arduous growth of the school as well as enjoyed unforgettable marvelous success.

During the past ten years, we have creatively established a system under which education and economy can help each other go forward. We intend to build our school into a modern "Huangpu Military School" to carry on the developing Generals and Commanders to help China in today's economical world and cultivate our students into successful graduates in the 21st century. We have achieved a lot and made the parents and the Chinese society satisfied.

During the past ten years, we have been striving to optimally integrate all the advantages of traditional educational practices with the most effective modern ones in order to ensure the fulfillment of the school aim which is Building a Foundation, Develop Personality and Serve Society. We have managed to ensure our students develop all round abilities.

During the past ten years, our core model is "Learn to be a good moral citizen" for our education philosophy that has established a new creative curriculum system. By strengthening English and IT education, National College Entrance Examination and International Linkages, the school has become one of the leading private schools in China.

During the past ten years, risks have been associated with opportunities but through painstaking efforts we have achieved great rewards. In the next ten years, we will continue to develop programs to achieve high standard results to continue our historical successes.

With the leadership of government and our school board, we always follow the national education policy and persist on the school strategies and innovation of education. We have to take full advantage of our multiple education system, treat quality as the overall element, develop our strong characteristics and use profit to enlarge the number of students. We will work hard to ensure our school develops a modern international school and take advantage of technology to ensure our students continue to enjoy learning in a healthy education environment.
