## The Editor's Notes

Pudong Yearbook 1998 · English Version is the second yearbook in English edited and published by the Editorial Office of Pudong Yearbook under the leadership of the Pudong New Area Administrative Committee. The yearbook completely and systematically records the new achievements and experiences in politics, economy, culture and social activities obtained by Pudong in the year of 1997, including the new problems and conditions. We hope sincerely that the publication of the yearbook will open a window to the outside world by providing them with valuable materials, information and historical facts Pudong witnessed during the year of 1997.

Pudong Yearbook 1998 is simply compiled in categories, including writings, statistical data and pictures. In about 100 thousand words the yearbook outlines nearly all the happenings and valuable information in this area in 18 categories, such as the chronicle of events, basic facts, development zones, construction environment, finance, foreign economic relations and trade, industry, commerce and tourism, agricultural economy, economic management, politics, law, labor and personnel, science, education, public health and social life etc.

Based on the first English Version, Pudong Yearbook 1998 puts great emphasis on the recording and narrating of the categories about the development zones and the economic construction, and at the same time makes some necessary adjustments in the numbers, categories, columns and contents. For example, the category of "finance and tax" in the first version is put into the category of "economic management" in this version in accordance with the functions it performs, while the category of "Finance" is newly added to this version.

# Duan & Duan law firm

Duan & Duan is an international law firm set up by professional lawyers who studied abroad and obtained the right to permanent residence in foreign countries, with special approval issued jointly by the PRC Ministry of Justice and Shanghai Bureau of Justice. Also, it is the first offshore branch office (in United States of America) opened by a Shanghai law firm. The key founder of this firm is

Q.H.Charles Duan who graduated with LL.M from the Law School of Washington University, and the main partners of this firm are Q.Z.Janet Duan, X.H.Steven Gong and James Xu who are also returned students from abroad.

Our guiding principles are: to build a relationship of complete trust between the firm and our clients, to try our best to protect the lawful benefits and to ensure the promptness of our legal service.

This firm provides a package of services including Chinese Law, International Law and business consulting service for multinational corporations and other companies with medium or small scale.

Duan & Duan is the few Chinese law firms licensed to practice securities law with the permission of PRC Ministry of Justice and the China Securities Regulatory Commission.

Our main business scope includes Negotiations of Joint Venture project, Real Estate, Futures, Financial, International Trading and Investment, Intellectual Property, Corporate law, Tax, Insurance, Aviation, Maritime Law, Litigation and Arbitration
