Inherit the past and usher in the future

院长致辞

五十年寒来暑往，五十年岁月沧桑，历史的年轮曾碾过无数次梦想，又轮回一个又一个希望。

在这五十年里，一代又一代二院人，凭着勤劳、善良、勇敢、拼搏的美德，在各自的岗位上挥洒着自己的青春和热血，为二院的建设、发展立下了汗马功劳。把二院从一个只有几十人，几个科室的旧医院建成今天的具有1100余名职工，800余张床位，27个临床科室，12个医技科室，15个教研室，2个博士点，20个硕士点，300台大型仪器设备的社会主义新型临床学院，而且是卫生部三级甲等医院和国家级爱婴医院。抚今追昔，每个二院的创立者、建设者心中都充满了喜悦、自豪和荣耀。值此建院五十年之际，我代表现任的学院领导，向五十年来关心、支持二院发展的各级领导、各兄弟单位以及社会各界朋友表示衷心地感谢！向曾经为二院的创立、建设和发展建功立业的历届院领导、离退休老同志致以崇高的敬意！向辛勤工作在医疗、教学、护理、行政管理、后勤等各条战线、各个岗位上的职工，表示热烈的祝贺和深深的谢意！

五十年来，无论在战火纷飞的抗美援朝前线上，还是在社会主义市场经济条件下，我们二院人都以白求恩精神为指针，发扬老白校艰苦奋斗的光荣传统，团结、勤奋、求实、创新，使二院的医疗、教学、科研等各项工作硕果累累，并为国家培养了大批医学人才。自1980年以来，获得科研成果奖100余项，累计开展新技术、新疗法200余项，为一方百姓，解除了病痛之苦。

斗转星移，日月穿梭。不少前辈已离开了自己曾经日夜操劳的工作岗位，但他们的那种艰苦创业、乐于奉献、勇于创新的精神，却时时鼓舞着我们。随着国家改革开放向纵深发展，医疗卫生行业也面临着前所未有的机遇和更加严峻的挑战，优胜劣汰，适者生存是当今的大趋势。所以，医院要求生存、求发展，就必须顺应改革的潮流，树立竞争意识，主动出击，抓住机遇，闯出一条适合自身发展的新路子，使医院在新形势下立于不败之地。为此，我院针对自己的实际情况，确立了科技兴院的发展战略，制定了相应的促进和保障措施，调整了资金分配方案，实行全收全支的办法，以激励职工的积极性。同时，克服重重困难，自筹资金兴建了2.5万平方米的病房大楼，维修改建了门诊楼，整修、绿化了院庭，使我院的医、教、研环境大有改观，职工的精神面貌也焕然一新了。目前，全院上下正以崭新的姿态、饱满的热情迎接二十一世纪的曙光！

我相信，白求恩医科大学第二临床学院的明天会更好！

慕绍林

1999年10月

THE DEAN'S MESSAGE

As time passes, great changes are brought to us. The wheel of history has ruined many dreams while created a lot of new hopes in the past fifty years.

In these years the people of The Second Clinical College, with their hardworking, kindness, courage and the spirit of hard struggle, have won glory in the battle of building the college on their own posts. Now the college has been turned from the old one which had only scores of people, several clinical offices, to a modern socialistic clinical college which has over 1100 staff and workers, about 800 beds, 27 clinical offices, 12 relevant technical offices, 15 teaching and research offices, 2 bases of Ph.D, 20 bases of MA and 300 pieces of large instrument and equipment. In addition, our college is chosen as a unit of Class A. Grade 3, and national loving-baby hospital. When we recall the past and compare it with the present, every founder and every builder are full of happiness, pride and honour. On the occasion of the 50th anniversary of the founding of our college, I, on behalf of the present leadership, express heartfelt thanks to the leadership at all levels, to every fraternal unit and to the friends of various social circles, who have been concerned with and supported us. And I also show great respect to all the previous leadership and retired old comrades. Finally I send my warmest congratulations and deepest thankfulness to all the staff and workers who have been working hard on the fronts of medical treatment, teaching, scientific research, nursing, administrative management and rear service.

In the past years, we, The Second College people have carried forward the spirit of Bethune and developed the glorious traditions of hard struggle, solidarity, diligentness, realism and creation, either in the front line of the war to Resist US Aggression and Aid Korea or under the condition of socialistic market economy. We have made numerous significant achievements in such fields as medical treatment, teaching and research, training a lot of qualified medical personnel for the nation. Since 1980 we have had about 100 items of achievements in scientific research and developed about 200 items of achievements in new technique and new therapy. We have been carrying out the duty of relieving the local people of their suffering.

Time flies, great achievements have been made in the course of struggle of fifty years. Many comrades of senior generation have left their working posts where they once worked day and night. Yet, the quality of hardworking, sacrificing and creating which they had will always encourage us. With the great development of our country reform and opening, the profession of medical hygiene is facing stern challenge as well as new opportunities which never existed before. Survival of the fittest is the trend of today world. So in order to survive and expand a hospital must follow the trend of reform, acquiring the awareness of competition, taking the initiative and seizing the opportunity. Only by opening up a new road which is good for its own development would the hospital be successful in the new circumstances. Considering such actual situation we have determined a developing strategy named promote college with scientific technique. We have formulated some relevant encouraging and safeguarding measures and adjusted the bonus assignment policy that each department is in charge of its own revenue and expenditure, by which the staff and workers' enthusiasm would be aroused. Having taken trouble collecting funds for construction, we have built a new ward building of about 25 thousand square meters. Meanwhile our court has been renovated and made green to promote greatly the environment of our college and make us take on a new look. Now, we are ready to meet the dawn of 21 century with greater enthusiasm.

I firmly believe that the future of the Second Clinical College of Bethune Medical University will be much better.

白求恩医科大学第二临床学院简介

白求恩医科大学第二临床学院创建于1948年,前身是中国人民解放军长春医科大学第二附属医院,从1950年起,先后更名为军委长春军医大学第二学院、第三军医大学第二学院、第一军医大学第二临床学院,1958年集体转业后,称为长春医学院第二临床学院,1959年改名为吉林医科大学第二临床学院,1978年8月正式定名为白求恩医科大学第二临床学院。

学院地处长春市中心,占地面积为41 364平方米,建筑面积为69 918平方米。

学院是一所综合性临床学院,设有医学二系、妇幼卫生系及吉林省呼吸病研究所、吉林省眼病防治中心、吉林省围产医学研究中心、东北地区母乳喂养培训中心、吉林省皮肤性病防治研究所、吉林省消化内镜诊疗

中心及肿瘤防治中心和扶贫助困医院两个分部。是卫生部临床药理基地和卫生部国际紧急救援中心网络医院,共有27个临床科室、12个医技科室、15个教研室,拥有床位800张,医院的仪器设备不断更新,有国际领先的核磁共振机、数字减影机、螺旋CT机、眼科准分子激光屈光系列矫正仪,全国领先的NT系列内镜图像显示仪、彩色多普勒、眼科氩/氟激光机和YAG激光机、ICU监测仪、人工呼吸机、2200型肺功能仪、血液透析、7170型全自动生化分析仪、模拟定位机、直线加速器、钴⁶⁰放射治疗机、妇产科腹腔镜等大型仪器设备300余台件。在院职工1168人,其中高级职称人员160名,中级职称人员394名,各级护理人员384名。每年完成约1.4万人次的住院病人和50余万人次的门诊医疗任务。而且还承担本校医学二系、妇幼卫生系、口腔医学系800余名本科生和本校成人教育部、附设卫生学校等学生的临床教学任务。同时,培养了大批研究生和进修生,自1980年以来,学院先后获得国家教委、卫生部、省、市级科研成果奖103项,发表各级学术论文2 152篇,仅1994年以来就开展新技术新疗法159项。

改革开放以后,多次接收日本、美国、加拿大等研究人员来院学习中医、针灸技术,并不断向美国、日本、比利时、前苏联、匈牙利、西班牙等国家派出专业人员研修、考察,同时邀请了一些国外学者来院讲学、访问,并聘请名誉教授、顾问等多人,并与日本中村纪念病院结为友好医院,加强了学术交流和友好往来。

1993年9月学院通过了卫生部检查团的验收检查,成为省内综合医院首家国家级爱婴医院,1994年4月又进入卫生部三级甲等医院行列。1998年又被有关部门确定为长春市交通肇事定点医疗单位。

在改革开放的年代,学院正以饱满的热情迎接社会主义市场经济的挑战,并取得了许多成绩和荣誉,先后被省市等有关部门评为先进单位。

当前,院领导班子正带领全院职工认真实施医院的“九五”计划,除完成日常工作外,重点抓好新医疗大楼的管理和老建筑的拆迁以及由此而来的布局调整工作,并有决心和信心,做到社会效益和经济效益双丰收。同时,认真贯彻全国卫生工作会议精神,巩固发展改革成果,为早日把医院建成具有一流的服务、一流的质量、一流的环境、一流的设备、一流的管理的社会主义现代化临床学院而奋斗。

Introduction

The Second Clinical College of Norman Bethune University of Medical Sciences (NBUMS) was established in 1948. It grew out of the Second Hospital of Changchun Medical University of the People's Liberation Army (PLA). From 1950 to 1958 it successively changed its names to the Second College of Changchun Military Medical University of the Military Commission of the Central Committee of the Communist Party of China, the Second College of the Third Military Medical University, and the Second Clinical College of the First Military Medical University. In 1958 when its entire staff was transferred to civilian work, it was named the Second Clinical School of Changchun Medical College. In 1959 it changed its name to the Second Clinical College of Jilin Medical University. In August 1978 it was formally named the Second Clinical College of NBUMS.

The Second Clinical College is located at the center of the Changchun City, covering an area of 41,364 square meters and the existing floor space of the buildings is 69,918 square meters.

The Second Clinical College is a general clinical establishment consisting of the Second Medicine Department, the Maternity and Child Health Care Department, Research Institute of Respiratory Diseases of Jilin Province, Eye Disease Research Center of Jilin Province, the Perinatal Research Center of Jilin Province, the Breast Feeding Training Center of the Northeastern China, the Research Institute of Dermatology and Sex Transmitted Diseases of Jilin Province, the Endoscope Center for Digestive Diseases, the Oncology Unit, and the Branch Hospital for Poverty Alleviation. The college is also a clinical pharmacological base of the Ministry of Health of China, and a member hospital of the International Emergency Rescue Network of the Ministry of Health of China. There are altogether 27 clinical departments, 12 medical technique departments, 15 teaching departments and 800 hospital beds. The College has been constantly renewing its equipment. Now there are more than 300 pieces of large equipment at the college including MRI which is up to the international standards, Digital Statistic Angiography (DSA), Turbo CT, Ophthalmological Excimer Laser System, the NT Endoscopy Image Display System, Color Doppler Ultrasound Diagnostic System, Ar Laser System, YAG Laser System, ICU Monitor, Man-Handed Respirator, 2000-Type Pulmonary Function Examiner, Hemodialyzer, 7170-Type Automatic Biochemical Analyzer, Simulator, Electronic Linear Accelerator, Cobalt⁶⁰ Radiotherapeutic System, and Obstetrical and Gynecological Laparoscopy System. There are 1,168 staff members at the college, including 160 professors and associate professors, 394 lecturers, and 384 nursing professionals. The college receives an average of 14,000 inpatients and 500,000 outpatients annually and undertakes to teach more than 800 undergraduate students from the Second Medicine Department, the Maternity and Child Health Care Department, and the Stomatology Department of NBUMS. In addition, the college is responsible for teaching clinical medicine courses to the students in adult education programs, and nursing programs of NBUMS. So far the college has trained a large number of postgraduate students and students pursuing advanced studies. Since 1980 the college, which has published 2,152 academic papers, has successively received 103 awards from the Ministry of Education, the Ministry of Health, the Government of Jilin Province, and the

Municipal Government of Changchun. In the year of 1994 the college developed 159 new techniques and therapies.

Since the initiation of the policy of reform and opening to the outside world, the college has received a lot of scholars and students from Japan, the U.S.A., and Canada, who came to the college to study traditional Chinese medicine and acupuncture. The college has also constantly sent professionals to pursue further studies or make academic visits in such countries as the U.S.A., Japan, Belgium, the former Soviet Union, Hungary and Spain, etc. At the same time, the college has also invited a number of foreign scholars to make academic visits and presentations in Changchun. Quite a few of the foreign visitors have received such titles as honorary professorship or honorary advisor from the college. Now the college has also established a friendly cooperative program with the Nakamura Memorial Hospital in Japan, thus strengthening its academic exchanges with the outside world.

In September 1993, the college was designated as the first Baby Friendly Hospital of Jilin Province by the Ministry of Health. In April 1994, the college was recognized as one of the First-Rate-Grade-Three hospitals in Jilin Province. In 1998, the college was approved by the government to become a Hospital for Injuries from Traffic Accidents.

In the times of reform and opening to the outside world, the college has been vigorously meeting with the challenges from the socialist market economy and has reached remarkable achievements. Therefore, the college has been recognized as an Outstanding Hospital by the Changchun Municipal Government and the Government of Jilin Province successively.

At present, the leaders of the college are guiding all the staff in carrying out the Ninth Five-Year Plan. In addition, the college has been resolutely trying to better manage the newly constructed hospital building and deal efficiently with the problems from taking down the old one. The college is confident in acquiring social benefits and economic returns while consolidating what it has achieved and making itself further developed. In carrying out the guidelines from the National Conference on Health, the college is determined to develop itself into a modern socialist clinical college with first-class medical service, environment and management systems.
