Welcome Message

Welcome Message

The '96 Beijing International Conference on Dyeing, Preing & Finishing Technology and Development, Organized by China National Textile Council will be commenced as scheduled at Fragrant Hill Hotel from November 5th till 7th, 1996.

The '96 BIDFC which is a high-level and high-standard convention aims at offering an opportunity for both Chinese and foreign companies to exchange experiences and technology, explore possibilities of cooperation with a view to further promoting the development of China's dyeing printing, and finishing technology during the 9th-five year plan period and even further all the staff in the Organizing committee of the 96' BIDFC extend our warm welcome to all the attendant for your cordial presence.

There are 20 academic these collected for the conference, and domestic and overseas representatives from different countries and regions gather here for the significant event to discuss the global development trend of Dyeing, Printing and finishing, and to exchange viewpoints on new technology, new equipments as well as the new dye-stuff and auxiliaries.

The 1996 is the first year of the 9th-five-plan period, and it is of far-reaching significance for the 96' BIDFC to

be convened coincidentally. (China's textile finishing sector made a big progress with a tendency of more printed & Dyed products being diversified, in small quantity and high quality value-added, and fast delivery, thanks to reform and Opening policy.

With the development of national economy and the improvement of people's living standards as well as the expanded applications of textile goods, the Dyeing and Finishing industry in China will be greatly developed on a substantial basis in the 9th-five-year-plan period, and till the year of 2010, These foreseeable potentials, we hope, will provide you with a historic opportunity to expand your business operations in various forms of technical and economic cooperation to be pursued on mutually-beneficial terms in an effort to live up to the increasing demands both in China and in the world as well.

We sincerely wish the '96 BIDFC a complete success.

For a most pleasant stay in Beijing and good health to you all.

The Organizing Committee of the '96 Beijing International conference on Dyeing, Printing, Finishing
November, 1996
