## 建设小学简介

Wenzhou Construction Primary School

温州市建设小学建于1928年，原为永嘉县和立水木石小学，1953年更改为“打铁巷小学”，60年代后期更为现名。1978年被教委定为市重点小学，现为建设学区中心校，是一所办学历史悠久，师资力量雄厚，教育质量优良的学校。

1992年，学校明确提出优质教育概念，优质教育即指教育服务的优质，又指包括教育过程、教育环境、教育内容、教育方法、手段以及教育人员素质的优质，重在达到教育“产品”——人的发展优质。学校以提质——减负——提质为理论模式，以教育科学研究为依托，以课堂教学改革为核心，深入开展整体性教育科学研究，取得了较好的效果，形成了“玩中学、学中玩”的开放性教学模式。

“现代教育技术”应用的结果是追求教育的最优化。学校已逐步形成了信息育人系统，即建队——建网——建库——建模——建文化场。校内所有计算机连接因特网，建起了“三网合一”（即由计算机数据网、多媒体教学网和网上电视台组成）的校园网。打开了网上教育世界大门，通向行政办公室，教师教研组，学生微机室，多功能电教室、电子阅览室、数字化教室，形成学校数字化绿色通道，让学生用鼠标点击全球。

园美土沃勤耕耘，花香硕果满园香。学校先后被评为全国红旗大队，省文明单位、省军民共建活动先进集体，省青少年科技活动先进集体，省首批现代教育技术实验学校，省体育达标先进集体，市文明单位，市文明学校、市教学研究先进单位和市教科研先进单位、市行风建设文明窗口、市小学生行为规范达标学校等。学校毕业生基础学力水平和个性特长水平均属于全区的上游。1999年—2000年参加全国、省、市各类竞赛，学生获区级以上奖励共640个，其中国际级13个，国家级71个，省级2个，本市级105个，可谓硕果累累。中学老师评价建设小学学生“学习能力强，潜力大，合作精神好。”

Wenzhou Construction Primary School, formerly known as Yongjia County Shumushi (Water-Wood-Stone) Primary School and Wenzhou Datie (Blacksmith's) Alley Primary School, was founded in 1928. The school, which was appointed as the key primary school by the Educational Commission in 1978 and now is designated as the central primary school of the Construction School District, is a school with a long history, strong teaching force and high educational quality.

In 1992, the school put forward a definite concept of high-quality education, which refers to high quality in educational services or in educational processes, environment, content, methods and means as well as educators' character, with the aim of making the high-quality development of the educational "products"——men. Taking "quality improvement—burden lightening—quality improvement" as the theoretical mode, relying on the exploration of open-type education and placing the reform of classroom teaching at the core, the school has carried on the integral scientific research of education in a deepgoing way, achieving good results and forming the open-type teaching mode of "learning in play and play in learning".

The result of pursuing high-quality education is the application of modern educational technologies. The school has gradually set up the system of "training men with information" i.e., building team-network-depository-mode-cultural square. All the computers in the school are linked to the Internet, setting up the campus network with the three-in-one combination of computer data network, multi-media teaching network and on-line TV station. The gate of the on-line world's education is open to the administrative office, the teacher's teaching and research section, the students' computer room, the multi-purpose electrified education room, the electronic reading room and the digitalized education room, building a digitalized green channel in the school for the students to click word wide with Genius mouse. Thanks to the great efforts made by all the staff and workers, the school has achieved remarkable results. It has been successively reputed as the "National Red Scarf Bridge Unit", the "Provincial Civilized Unit", the "Provincial Advanced Unit of the Army-Civilian Jointly Building Spiritual Civilization Activities", the "Provincial Advanced Collective of Juvenile Scientific and Technological Activities", the "Provincial First-batch Modern Educational Technology Experimental School", the "Provincial Advanced Collective of Meeting the Physical Training Standards", the "Municipal civilized Unit", the "Municipal Civilized School", the "Municipal Advanced Unit of Teaching Researches", and the "Municipal Advanced Unit of Teaching and Scientific Researches", the "Municipal Civilized Window of Professional Discipline Construction" and the "Municipal School of Meeting the Pupils' conduct Codes". The elementary academic attainments and the individual special skills of the graduates are all at the top level in the school district. During the period of 1999 to 2000, the students who joined in various competitions at the national, provincial and municipal levels won a total of 640 prizes at the district level or higher, including 13 international, 71 national, 2 provincial and 105 municipal prizes. The teachers from the middle schools praised the students of Construction Primary School for their strong learning ability, great potentials and good cooperating spirit.
