前言 Preface

为庆祝贵阳医学院附属医院六十周年华诞，我们编辑了这本画册，旨在缅怀过去，展示今天。由于受版面容量及编辑者能力所限，恐难全面反映医院六十年的变迁。为此，我们深感不安！

在资料的收集整理过程中，得到了省内外前辈的大力支持。其中王季午、刘震华教授的夫人梁树今、张念安教授的夫人庞尔惠、陈学诗、张舒麟、杨荣勋、孙世镛、于世英、张美祥、刘子江等教授对附属医院的一往深情，激励着我们努力做好“画册”的编辑工作。

此外，梁诗标、王敬三、夏季兰、左淑君、丁平生、彭芳、许道源、伍家英同志及已故院长杨洁泉教授的子女和一些科室，也为“画册”提供了十分珍贵的资料与照片，一并表示我们深深的谢意！

Guangdong and Guangxi in Yangming Street)

国立贵阳医学院于1938年创立，为给学生提供临床实习的场所，经李宗恩院长，杨济时教授等多方设法，1940年9月，在阳明路开设临时门诊部。以此为基础，1941年10月25日，以杨济时教授的主持下，正式成立国立贵阳医学院附属医院（下称附院），仅为内、外两科，设床位10张。但云集了内科李宗恩、杨济时、王季午、贾魁、张孝骞、吴执中、单传烈等；外科杨静波、周裕德，刘震华，沈克非，许殿乙、朱懋根等；妇产科杨崇瑞、李瑞林、宋乃忠、刘维德等；儿科高永恩、宋杰；眼、耳、鼻喉科郭秉宽、邹子度；口腔科张舒麟、神经科张俊卿、放射科杨济、石斯同等国内外知名专家。加上各项规章制度均参照北平协和医院制定，使附院成立之初即形成了学风严谨、诊疗认真的优良风范，被誉为“小协和”。

1940年，临时门诊部

The temporary clinic, in 1940.

With great efforts made by Li Zongen, president of the Hospital and Prof. Yang Jishi, a temporary clinic was set up in Yangming Street in order to offer clinical practice to students studying in National Medical College Of Guiyang which was founded in 1938. Based on its achievements, the Affiliated Hospital of Guiyang Medical College, headed by professor Yang Jishi, was established on Oct 25, 1941. Consisting of only two departments-- internal medicine and surgery, and only 10 beds in service, the Hospital owned a great number of well-known specialists at home and abroad- in the Department of Internal Medicine (Li Zong'en, Yang Jishi, Wang Jiwu, Jiaokui, Zhang Xiaoqian, Wu Zhizhong, Shan Chuanlie) ; in the Department of Surgery (Yang Jingbo, Zhou Yude, Liu Zhenhua, Shen Kefei, Zhu Maogen); the Department of Gynemetrics (Yang Congrui, Li Ruilin, Song Naizhong, Liu Weide); the Department of Paediatrics (Gao Yongen, Song Jie) ; the Department of the Five Organs (Guo Bingkuan, Zou Zidu); the Stomatological Department (Zhang Shuling); the Neurosurgery Department (Zhang Junqing); and the Department of Radiopraxis (Yang Ji, Shi Sitong). In addition, the Hospital made its rules and regulations in accordance with those of Peking Concord Hospital. Since then the Affiliated Hospital had formed her prudent style of study and research and her splendid attitude in diagnosis and treating, which made her the fame of the "Little Concord".
