

中国环境管理干部学院

**ENVIRONMENTAL MANAGEMENT
COLLEGE OF CHINA**

学院概况

中国环境管理干部学院是我国目前唯一的专门培养环境保护专业人才的高等学校。学院座落在著名的海滨城市秦皇岛市区，北倚燕山，南临渤海，占地 64000 平方米。校园布局错落有致，环境优美。

中国环境管理干部学院的前身是1981创办的秦皇岛环境保护干部学校；1985年改建为秦皇岛环境管理干部学院；1989年更名为中国环境管理干部学院，隶属国家环境保护总局。2000年3月划归河北省管理。20年来，全国 3692 名地（市）县级环保局长在学院接受了岗位培训，2 万多名环保在职干部在学院接受了以知识更新为目的的继续教育培训，为社会培养环境类大专生 3000 多名。

学院现主要从事环境类成人大专教育和高等职业教育，共设有 6 个专业，即：环境管理、环境监理、环境信息管理、生态环境保护、海洋环境保护、环境艺术设计，在校学生 1500 多名。学院还与南开大学联合开办环境规划与管理专业专升本函授教育。学院在坚持为环保教育培养合格人才的同时，还面向社会积极开展科研咨询工作，完成了国家环保总局、地方政府大量的课题研究。近十年来共取得科研成果 80 多项，其中 20 多项获省部级科技奖。学院结合多年的教学经验，组织编写了适合我国成人环境教育特点的各类专业教材 30 余种，均已公开出版发行，被全国环保系统及部分高校采用；有 10 余种专业教材获省部级优秀教材奖。

学院积极开展国际间的学术交流与合作，先后与美国、日本、荷兰、朝鲜、香港、台湾等国家或地区的大学或环保机构建立友好关系，互派访问学者，进行学术交流和研究。从 1999 年开始，与荷兰范豪学院建立了联合办学关系，已先后选送了两批留学生，同时由荷兰政府援建的“中国污水处理示范中心”正在建设中。

经过 20 年的建设与发展，学院已具备了一定的办学规模，形成了多专业、多规格、多形式的办学体系，为我国培养了大批的环境保护专业和管理干部。展望未来，学院将充分利用现有办学资源，把握机遇，加速发展，为把学院建设成为中国环境教育中心而不懈努力。

学院党委书记 李荣海

学院副院长 孙俊逸教授

A Brief Introduction to Environmental Management College of China

Environmental Management College of China (EMCC) is the unique in China offering various environmental courses for professionals. EMCC is situated in Qinhuangdao, a famous seaside city, leaning on Yanshan Mountain in the north, facing Bohai Sea in the south, and the total area is more than 64,000 m². The tranquil campus is forming a scenic landscape, and the atmosphere is truly peaceful with plenty of vigour.

The history of EMCC goes back to 1981, when it was named Qinhuangdao Environmental Training School. In 1985 it was renamed Qinhuangdao Environmental Management College, and in 1989 the new college was formed, known as the Environmental Management College of China. EMCC worked directly under State Environmental Protection Administration before 2000, and, since March 2000, it has been working under responsibility of Hebei Province. During the past two decades, there were more than 3692 Directors of local environmental protection bureaus coming from all over the country receiving on-job training, and more than 20,000 environmental professionals have participated various short courses in EMCC. Insofar, there are more than 3,000 graduates who have received the DAZHUAN diploma in EMCC.

EMCC is focusing on environmental professional education in DAZHUAN level. There are 6 thematic departments in EMCC. They are environmental management, environmental supervision; environmental information management; ecological environmental protection; ocean environmental protection; and environmental arts and design. Total number of registered students is 1,500. EMCC has also cooperated with Nankai University offering a joint BSc. course on environmental planning and management for those who have already received Dazhuan diploma. Both of formal environmental educational program and academic research and consultation are the core tasks of EMCC. EMCC has implemented a considerable number of academic research and consultation projects, funded by State Environmental Protection Administration and local government. In the past decade, EMCC has finished more than 80 academic research and consultation projects. Among them, more than 20 projects have been awarded Sci & Tec prizes by provincial governments and ministries. Based upon its great deal of teaching experiences in environmental field, EMCC has organized and compiled 30 different kinds of professional textbooks within the context of Chinese environmental professional education and training. These books have been published, and adopted by environmental protection department and other universities and colleges in China. More than 10 of these books have been awarded the Excellent Textbook Prize by provincial governments and ministries.

EMCC is actively involved in international academic exchange and cooperation. EMCC has established friendship relations with universities and environmental protection institutes in the countries of United States, Japan, the Netherlands, Korea, and in Chinese Hong Kong and Chinese Taiwan. The co-operations are focusing on exchanges of visiting scholars, academic exchanges and joint researches and consultations. Since 1999, EMCC has been working together with the Van Hall Institute in the Netherlands offering environmental educational program. As a result, EMCC has sent two groups of EMCC graduates to the Van Hall Institute for pursuing their BSc. degree. Meanwhile, One of the Netherlands Asia Facility Project that is aimed at establishing the Sino-Dutch Demonstration Training Center of Wastewater Treatment of China in the campus of EMCC is being implemented jointly by the Van Hall Institute, EMCC, as well as the water companies in China and in the Netherlands.

By the efforts of the past two decades, EMCC has achieved a considerable scale and ability, and formed an educational system characterized by multi-disciplines, multi-standards and multi-course forms, and has contributed significantly to Chinese professional environmental education. Prospectively EMCC will make full use of all its education resources, take the opportunities as much as possible, speed up its development, and make every effort to achieve its objective of being Chinese professional environmental education centre.
