OUR PRESIDENT EXPECTATIONS

●春意昂扬，万物如潮；争奇斗艳，各领风骚；千峰过尽人未老，风景这边恰好，有道是：杏林沐劲风，花开别样娇。

心逐百丈高楼跃起澎湃万千，思昔往风风雨雨五十七载：鄞州人民医院应运出世，迎难而上，逐渐茁壮；鄞医人刻苦艰辛，共济同舟，力争上游。值此新医院迁建工程圆满落成启用之际，当登高眺远，追古抚今，扬励精图治之意气，呈先驱前辈之精神，尊人为本，德技精诚，医道任信，创业维新，以此理念刻骨铭心，付诸建树，更行更远更深！

半个多世纪以来，鄞州人民医院坚持救死扶伤，社会效益为先的社会主义办院方针，从基础做起，建设规模逐步扩大，技术力量不断增强，医疗设备日臻完善，人员素质逐步提高，管理体制逐步走向科学化、规范化和制度化，医疗服务着力体现以人为本，以病人为中心，以质量为核心的理念，成为集医疗、保健、教学、科研为一体的具有一定规模和实力的综合性医院。

万马齐喑，时不我待，社会将赋予我们更加宏大并艰巨的任务，这些，都将成为医院发展历程中一个个新的转折点。我们将牢固树立全心全意为人民服务的思想，用科学发展观指导医院的建设和发展，增强医院发展活力，努力将鄞医建设成具有鲜明的学科特色、先进的服务理念，具备一流的硬件设备、诊疗技术、服务质量、管理水平和较强竞争优势的现代化医院，把服务市场做大，把临床学科做强，把医疗技术做精，让人民群众对我们放心满意。

登高更觉天下阔，眺远方知风光美，回顾过去，备受鼓舞；展望未来，任重道远。迁建工程的圆满 completion 是医院发展一个新的、更高的起点，让我们携起手来，继续发扬实事求是、开拓创新的精神，不畏艰险、奋发图强，勇于争先、长于实干、乐于奉献，为医学科学的不断进步和医疗卫生事业的持久发展，为广大人民群众的健康幸福作出不懈的努力和奋斗！

院长：

潘亚梁

Our President's Expectations

With the advent of spring, every life has awakened, vigorous and spirited like the rising sea tide. Flowers are coming out and falling over one another to show their unique beauty. Amid nature's scenery, there is a landscape of special charm, where apricot trees stand in the warm breeze and the blossoms smile with delicate tenderness.

Filled with great aspiration and emotions, I recollect the fifty-seven years we have passed together, which saw the timely birth and steady growth of Yinzhou People's Hospital. All the staff has been working hard cooperatively to achieve the summit of our lofty cause. On this occasion of the full completion and opening of our new hospital, I hope we could keep our past experience in mind, regard the present and look far ahead. Let's inherit the pioneering spirit of our predecessors and work up all our efforts to make the hospital more prosperous in the future. We are to be equipped with the human-oriented notion, special expertise, professional integrity and creativity, which shall be deeply rooted in all our medical staff to accomplish greater achievements and unprecedented success of our hospital.

For more than half a century, our hospital has conscientiously fulfilled our medical duty, staying in line with the socialist hospital running policy "Social Benefits as the Priority". Starting from a low level, we extended the hospital construction, enhanced our technical force, and updated the medical equipment. Our medical staff is better trained and a scientific management system is formulated and institutionalized. Human-oriented and quality-centered idea are our action guideline. Our service integrates medical treatment, health care, clinical teaching, and scientific research, transforming our hospital into a general one with remarkable scale and strength.

Time and tide wait for no man. The rapid social development compels us to keep pace with the times and will assign us much heavier tasks, making another turning point in the course of our hospital's development. We are to establish the idea of serving the people heart and soul, constructing our hospital through a scientific approach, and vitalize the further development of our hospital. We are also to expand our service market, strengthen our clinical speciality construction and improve our medical technology to excellence for the people's benefit.

Ascending to a higher level gives a wider view, and looking into the distance unveils a beautiful scene. Looking back on the past, we feel proud and encouraged; looking forward, we feel heavy responsibilities. The full completion of our hospital's removal and reconstruction is a new and higher starting point of its development. Let's proceed hand in hand to carry forward the pragmatic, realistic, pioneering and innovative spirit, brave all the hardships, do solid work, carve a leading place, and take great pleasure in our dedication! Let's make all our efforts to struggle for the people's health, the advancement of medical sciences and lasting development of our medical cause!

医院简介

鄞州人民医院地处宁波市商业中心，创建于1949年9月，前身为鄞县县立人民医院；1950年6月，改组为鄞县人民政府卫生院；1956年7月，改名为鄞县人民医院；2002年4月，鄞县撤县设区，鄞县人民医院改名为宁波市鄞州人民医院。57年的奋发历程，几代人的不懈努力，各级领导的关怀备至，使医院成为集医疗、保健、教学、科研、预防、急救、康复等为一体的大型综合性三级乙等医院。医院现有职工762人，高级卫技人员131人，正高职称24余名，博士1名，硕士28名；核定床位800张，年出院近2万人次，年门诊量70万余人次。是宁波市医保定点医院，浙江大学医学院教学医院、杭州师范学院医学院非直属附属医院。

医院秉承“以改革谋生存，以科技促发展”的治院理念，确立“人为本、诚犹信、技求精、业臻新”的医院精神，鼓励和支持医务人员积极创新，不断探索，形成了一批在市内乃至省内有一定影响的特色专科；运行机制改革的深化与完善，推动了医院快速发展，医院管理效能不断提高，学科建设开花结果，人才队伍建设成效显著，信息化建设快速发展，服务质量持续提升，教学科研更具实力，多项技术填补省、市空白，多个课题获得省、市、区科技成果奖。住院床位从六十年代的100张到目前的800张；门诊人次从1959年的4.8万到2005年70余万；设备从只有简陋的心电图、超声波到拥有目前最先进的16排螺旋CT、核磁共振、DSA、ECT、全自动生化仪等；固定资产从1991年的727.6万元增加到2005年的4亿元……医院建设势如破竹向前迈进，综合实力不断提高。

随着鄞州人民医院迁建工程的全面竣工落成，医院的前景将更加广阔而美好。全院职工将继续努力，以过硬的技术、完善的服务、舒适的环境为广大患者提供优质的医疗服务。

BRIEF INTRODUCTION
OF OUR HOSPITAL

鄞州人民医院
YINZHOU PEOPLE'S HOSPITAL

医院简介

Brief Introduction
Of Our Hospital

BRIEF INTRODUCTION OF OUR HOSPITAL

Yinzhou People's Hospital, situated in the city's business center of Ningbo, was founded in September 1949 as Yinzhou County-owned People's Hospital. In June 1950, it was reconstructed into the Health Center of the People's Government of Yinzhou County, and in July 1956 renamed as People's Hospital of Yizhou County. In April 2002, Yinzhou was promoted to a district of Ningbo city from its county status, and the hospital was accordingly named Yinzhou People's Hospital of Ningbo Municipality.

The hospital now has a medical staff of 762 members, among whom 131 are senior health technicians, 24 with senior academic title, 1 having a doctoral degree and 28 master's degree. It is one of the health-insurance appointed hospitals of Ningbo, one of the teaching hospitals of the Medical School of Zhejiang University, and an indirectly affiliated hospital to the Medical School of Hangzhou Normal College.

With the notion of "survival by reform and progress through science and technology", the hospital pursues the human-oriented spirit, professional honesty, skill improvement, and practicing creativity. The medical staff is encouraged to innovate and explore, and a number of characteristic specialties are already formed, eminent not only in Ningbo but even in Zhejiang Province as well. Deepened and comprehensive reform of the operational mechanism has accelerated the progress of the hospital: the management efficiency and service quality are steadily enhanced, key speciality construction fruitfully carried, talent team built effectively, and information technology speedily developed. The teaching and scientific research have been greatly strengthened, with many techniques filling the technological blanks on the municipal or provincial level and quite a few research subjects receiving the Awards for Scientific and Technological Achievement on the district, municipal and provincial level. The number of beds available in the hospital has increased from 100 in 1960's to 800 at present, and the number of outpatients from 480,000 in 1959 to over 700,000 in 2005. Simple electrocardiographs and sonographs have been updated to the 16-row spiral CT, NMR unit, DSA, ECT and the fully-automatic biochemistry instrument. The fixed assets of the hospital have increased from 7,276,000 in 1991 to 400 million RMB yuan in 2005. The hospital is now striding on its way, carrying everything before it, whose overall strength is continuously on the rise. With the full completion of the removal and reconstruction of Yinzhou People's Hospital, we are able to view a more brilliant future. All its staff will forge on, working hard to provide easeful environment, quality service as well as outstanding expertise.

春秋

Hospital History 医院历史篇

沐浴新中国盛世黎明曙光，
洋溢先驱者炽灼热血满腔，
破旧狭小斗室中金戈铁马，
贫乏简陋设备下救死扶伤；
含辛茹苦，搏击存亡，
沧桑半世，医道流芳；
翻天覆地，慨当以慷，
壁立千仞，剑矗百丈；
重整旧日神圣理想，
灌注今朝新生力量；
仰望苍穹，碧空艳阳，
重语铭心，胸襟涤荡——

奉献，应似秋叶之静默，
奋进，当如春花之辉煌！

HOSPITAL ENVIRONMENT

从六十年代的100张到八十年代的200张住院床位，从九十年代的440张再到目前的800余张住院床位；从解放初期的低矮平房到1986年大河路门诊大楼建成，从1992年中山路住院楼落成到2005年百丈东路22层现代化住院医技大楼的投入使用，医院的医疗环境随着时代的变迁日新月异。随着2006年门急诊大楼改建工程的竣工落成，郑州人民医院实现了整体“东迁”，一座功能齐全、设施先进、布局合理的现代化医院已初具规模，呈现在我们面前。

HOSPITAL ENVIRONMENT

The hospital had only 100 inpatient beds in 1960's, 200 in 1980's, and 440 in 1990's, but now has more than 800. The hospital was only a row of low bungalows during its early years after 1949. In 1986, however, its Outpatient Department Building was finished on Dahe Road and then its Inpatient Department Building also rose on Zhongshan East Road in 1992. The year 2005 witnessed a 22-storey modernized Inpatient Department Building of Medical Technology stand up in use. All this has greatly improved the hospital's environment of medical service. In 2006, with the completion of Emergency Department Building construction, Yinzhou People's Hospital is wholly moved to the east of Ningbo city, and a modernized hospital with reasonable layout, advanced facilities and comprehensive functions has come into existence therein.
