髮型，是美容學上一項非常重要的組成部分。濃艷的化粧或淡雅的裝扮，配以適當的髮型，不僅可收紅花綠葉之效，而且可以增加魅力，突出性格。

近年來，髮型不僅用以表現女性美、性格、丰采和儀態，在襯托男士們英俊瀟灑、風度翩翩方面，也發揮得淋漓盡致。

在社交頻繁的都市生活中，人們越來越講究髮型的配合，因此，國內的髮型屋如雨後春筍，同業中每年均有髮型設計大賽，在國際賽中，也有出色的表現。

髮型，是時代的產物，深受潮流影響，貴在多變化，推陳出新；另一方面，梳理的方法是基本的，人的面型配合與否是關鍵。

人不相同，各如其面，髮型創造，訣竅就在其中。本書選出男女基本面譜，配上近300種時尚髮型，男女各佔一半，除繪畫出其形狀外，並以中英文作扼要說明，對其中具有代表性的，則在書後用圖解作較詳細的技術介紹。

本書適合專業美容師用以研究創造髮型時參考，對有志於此業的後進也是一本非常珍貴的參考書。重視自己髮型設計的人士，可以從中選出「中意」髮型，提供髮師為你梳理。

當然，髮型屋也應備有一冊，以供顧客選用。

Introduction

Hairstyling is a very important component of cosmetology. A rich and gaudy or simple and elegant makeup accompanied by a proper hairstyle can not only have the effect of complementing each other, but also increase the charm and highlight the disposition.

In the past few years, hairstyling is not only used to show women's beauty, disposition, bearing and deportment, but also gives full play to the setoff of men's handsome appearance and elegant demeanour.

In the urban life with very frequent social intercourses, people become more and more particular about the coordination of the hairstyles. As a result, hairstyling houses or saloons have been springing up like bamboo shoots after a spring rain in TAIWAN. A hairstyling competition is held among persons of the same trade every year and TAIWAN hairstylists have done remarkable jobs in international competitions.

Hairstyling is the product of the times and is therefore greatly influenced by trends. It is valued for its changeability and the old hairstyles are always weeded to bring forth the new. On the other hand, the combing method is the basic thing and the coordination with the face is the key.

Persons are different in their faces, which is where the secret of the hairstyle creation lies. This book selects the basic facial types of both men and women and makes them up with 300 kinds of fashion hairstyles, half for men and half for women. In addition that the styles are shown, they are briefly explained in Chinese and English. As for the typical ones, they are technically introduced in more detail with illustrations at the back of the book.

This book is suitable for references by professional cosmeticians in their creation of hairstyles and it is also a very valuable reference book for the latecomers who have the ambition to engage themselves in this trade. Those who take their own hairstyling very seriously can choose the hairstyles to their own liking and ask the hairdressers to dress their hair as per the samples.

Of course, a hairstyling saloon should have one copy available for its customers' choices.
