■ 概 况

广州师范学院创建于1958年,1964年停办,1978年复办,是广州市培养中等学校师资的重点大学。校园座落在广州市解放北路桂花岗,东依飞鹅岭,南傍越秀山,西临广州火车站,北望白云机场,环境优雅,交通方便。

学院一贯坚持为广州基础教育服务和为社会经济发展培养人才的办学宗旨,突出师范性、地方性的特点,实行多层次、多规格、多渠道的办学模式,已形成较为合理的办学规模。学制在以全日制本科为主、专科为辅的同时,拓展研究生教育,注重发展成人学历教育和各类专业证书班教育。国家任务的师范毕业生基本分配到广州地区中学和高校任教,非师范生基本分配到社会各个领域。自建校以来,为广州地区教育事业、社会经济发展培养了大量专业人才,共培养硕士研究生、本科生、专科生及各类成人教育毕业生25000名。

学院现有中文、政治经济管理、历史、外语、艺术、新闻传播、数学、物理、地理、生物、计算机科学、化学等12个学系,教育科学、社会心理学、儿童文学、语言学、比较文化、工艺美术、现代管理、数量经济学、系统工程、教育软件、环境应用化学等15个研究所,岭南历史文化、土地开发与城镇建设、天体物理等三个研究中心和电化教育、德育、体育等6个公共教研部。学院的教学科研设备日趋完善,现设有供教学、科研使用的实验室共56个,图书馆藏书70万册,中外报刊2000多种。学院面貌也日新月异,先后建起了一批教学楼、实验楼、学生宿舍、运动场及后勤设施。

近年来,学院注重引进人才,省内外一批专家教授纷至沓来,已形成一支结构合理、治学严谨、学术空气浓厚、充满活力的师资队伍。全院现有教职工880人,其中专任教师430人,包括中科院院士、计算机专家张景中研究员,中科院院士、物理学家蒲富恪研究员,国务院学位委员会第三届学科评议组成员、知名教育专家张人杰教授,博士生导师杨路研究员、单尊教授、裴定一教授等著名专家。教师中具有高级职称者220人、中级职称者160人,另有外籍专家、教师8人,还有一批国内外兼职教授、客座教授及名誉教授。各学科均有一批教学经验丰富、科研成果显著、在学术界享有声誉的骨干教师。

在广大教师的共同努力下,科学研究取得丰硕的成果,教学水平也日益提高。近年来,我院教师共承担国家“863”项目2项,国家攀登计划项目2项,国家自然科学基金项目8项,社会科学国家级项目3项,获其它科研立项75项;获省、市级奖40多项。在省级刊物发表论文近1000篇,国家级刊物45篇,国外权威刊物18篇,国际四大检索系统引用论文40篇,国家级出版社出版论著近40余部。全院有省重点课程9门、市重点课程11门、学院重点课程17门。还分别承担2项省面向二十一世纪教学改革研究项目和省高校“九五规划”教材编写项目。《广州师院学报》被评为广东省高校优秀学报。广师附中被列为省一级学校。学院还积极进行科技开发,收到一定的社会效益,为地方经济作出了应有贡献。

学院积极开展对外学术交流活动,近年来,与美国、澳大利亚、俄罗斯、日本、台湾、香港等国家和地区10多所大学和文化学术团体建立友好合作交流关系,有力地促进了教学、科研工作的发展和学术水平的提高。从1997年起,学院成为市属高校唯一获准招收留学生的学校。

■ An Introduction

Guangzhou Normal University was set up in 1958, closed in 1964 and reopened in 1978. It is now a key university in Guangzhou for training teachers for secondary schools. Located in Guihuagang, Jiefang Road N., the campus is quiet and beautiful, with Fei'e Hill to the east, Yuexiu Park to the south, the Guangzhou Railway Station to the west and Baiyun Airport to the north. It is easily accessible by all means of transportation.

GNU has always been aiming at serving the elementary education and the development of social economy of Guangzhou by training qualified personnel. It stresses its characteristics as a university for teacher education and as a local university. With a variety of programs, GNU has established an acceptable scale of education. While the full-time undergraduate system remains predominant and the junior professional training program subsidiary, GNU has also expanded the postgraduate program and attached great importance to adult education and various certificate courses. Graduates enrolled according to the state plan are usually assigned as teachers to secondary schools or colleges in Guangzhou Area, while non-teacher program graduates are assigned to various fields. Since its establishment, GNU has trained a large number of professionals for the educational cause and the development of social economy of Guangzhou Area, amounting to 25,000 graduates, including postgraduates with master's degree, regular graduates, two- or three-year program graduates and adult graduates of various kinds.

GNU has 12 departments, which are Chinese, Political and Economical Management, History, Foreign Languages, Arts, Mass Communications, Mathematics, Physics, Geography, Biology, Computer Science, and Chemistry; 15 research institutes, including the Institute of Educational Science, of Social Psychology, of Children's Literature, of Linguistics, of Comparative Culture, of Arts and Crafts, of Modern Management, of Quantitative Economics, of Systems Engineering, of Educational Softwares, and of Environmental Applied Chemistry; 3 research centers, which are the Research Center for History and Culture South of the Five Ridges, for Land Development and Urban Construction, and for Astrophysics; 6 teaching and research departments for common learnings, including Audio-visual Education, Moral Education, and Physical Education. Equipment and installations for teaching and scientific research have been getting better and better. There are now 56 laboratories, 700,000 books and over 2,000 kinds of newspapers and periodicals in the libraries. With some new classroom buildings, laboratory buildings, student dormitory buildings, sportsgrounds and rear service facilities completed, the campus has taken on a new look.

In recent years, GNU has paid great attention to the engagement of qualified personnel. Capable people have been coming one after another. There has been formed a well-composited teaching staff which is full of vigor, meticulous in work and strongly interested in academic research. The whole staff of GNU is of 880 persons, of whom 430 are full-time teachers, including famous experts such as Research Fellow Zhang Jingzhong, who is a computer expert and academican of the Chinese Academy of Sciences; Research Fellow Pu Fuke, a physicist and academican of the Chinese Academy of Sciences; Professor Zhang Renjie, a well-known educational expert and member of the Discipline Appraisal Group of the Academic Degree Committee of the State Council; Research Fellow Yang Lu, a doctor advisor; and Professor Shan Zun and Professor Pei Dingyi. There are 220 professors and associate professors, 160 lecturers, 8 foreign experts and teachers, as well as quite a few part-time professors, guest professors and honorary professors. GNU boasts prestigious teachers who have rich experience in teaching and remarkable achievements in scientific research in their respective disciplines.

With the teachers' efforts, GNU has scored great successes in scientific research and raised level in teaching. In recent years, the teachers have undertaken 2 national "863" projects, 2 national "Scaling Plan" projects, 8 national natural science fund projects, 3 social science projects of the national level and 75 other projects. More than 40 research projects have been awarded prizes at the provincial or municipal level; about 1,000 papers have been published in periodicals of the provincial level and 45 in those of the national level, as well as 18 in authoritative periodicals abroad. Forty papers have been listed in the four prestigious indexes. About 40 books have been published by publishing houses of the national level. In teaching, GNU has 9 provincial key courses, 11 municipal key courses and 17 university key courses. Furthermore, GNU is engaged in 2 research projects of provincial level on teaching reform for the 21st century and on textbook compiling for provincial higher education institutions in the period of the "Ninth Five-Year Plan". The *Journal of Guangzhou Normal University* has been awarded as Excellent Journal in Higher Education Institutions in Guangdong Province. The Middle School Attached to GNU has been listed among the First Class Schools at the provincial level. Considerable attention has been paid to the practical application of science and technology, which has produced social benefits and contributed to the local economy.

GNU places much emphasis on academic exchanges with the outside world. In recent years, it has established friendly cooperative relations with more than 10 universities and cultural or learned societies in countries and areas such as the U. S., Australia, Russia, Japan, Taiwan and Hong Kong, which has greatly raised its academic level in teaching and scientific research. Since 1997, GNU has been the only municipal university in Guangzhou that has obtained permission to enroll foreign students.
