三河北依燕山，地處北京、天津、唐山、秦皇島四大城市之中腹，位扼東北入京之要衝，縣城距北京市中心僅 58 公里。獨特的地理優勢，使這裡物華天寶，人杰地靈。

追溯歷史，早在新石器時代，我們的祖先就在此生存繁衍。唐武德二年(627 年)置臨洺縣，唐開元四年(716 年)建三河縣。現轄總面積 643 平方公里，總人口近 40 萬人。

喜看今朝，三河猶如一顆璀璨的明珠，鑲嵌在京東大地。勤勞智慧的人民，在黨的改革開放政策指引下，勵精圖治，銳意進取，奮力爭先，依托京津，面向全國，放眼海外，使三河政通人和，經濟繁榮，百業俱興，到處充滿生機和活力。91 年工農業總產

值 17.2 億元，財政收入 5600 萬元，農民人均純收入近千元。經濟發展進入河北省十強縣行列。

前進中的三河，正以發展高科技、外向型經濟為主導，以超常的思想，超常的膽略，超常的政策，超常的措施，超常的輿論，發揮地理、交通、資源和人才優勢，靠改革開放，靠聯合引進，靠科技進步，靠實干巧干，實現全縣經濟的超常規、跳躍式發展。

三河的大門敞開著，熱誠歡迎八方賢士、四海賓朋蒞臨三河，旅遊觀光，洽談業務，投資辦廠，開發資源，合作經營，交流技術，共同耕耘這塊經濟沃土。

## PREFACE

Sanhe is located on the south of Yanshan Mountains and occupies a heart place surrounded by the following large cities: Beijing, Tianjin, Tangshan and Qinhuangdao. It lies in the throat highway from the Northeast China to Beijing which is only 58 kilometres from Sanhe. These unique geographical advantages have endowed this place with bounteous, natural resources and a galaxy of talent.

The history of Sanhe traces back to the Neolithic Age when our ancestors started to make their living here. In 716 Sanhe County was established. Sanhe covers an area of 643 square kilometres and has a population of 400 thousand.

At present, the situation of Sanhe is especially gratifying. Having Beijing and Tianjin as its firm support, Sanhe aims at opening to the whole country and the world. All the sound measures of our government have ensured a united people and a flourishing economy. In 1991, the gross value of industry and agricul-

ture amounted to 1.72 billion yuan and the revenue was 56 million yuan. The net income of each peasant rose up to about 1,000 yuan per year. The economy has ranked among the ten most developed counties in Hebei Province.

The advancing Sanhe develops the advanced science and technology and international economy as the leading factor. We shall make full use of the advantages of geography, communication, natural resources and talent. In this way we will realize the aim of an overall development of the county's economy in an unconventional, leaping step.

Sanhe will continue keeping its door wide open. We whole-heartedly welcome the people from all the fields to discuss the business and to make a tour. All the businessmen and investors from every region and country are welcome to Sanhe to make investment, set up factories, exploit natural resources and exchange technological skills. Let us cooperate in our joint ventures to cultivate this economic land.

燕郊全貌

View of Yanjiao Town

# 燕郊開發區

## YANJIAO DEVELOPING ZONE

燕郊鎮位於三河縣境西部，與北京一河之隔，因歷史上屬燕國城郊而得名。84年被河北省確定為對外開放鎮後，燕郊進入了新的發展時期。如今，京秦電氣化鐵路、京哈公路橫跨鎮中，鎮區面積發展到30平方公里。鎮區風景秀麗，環境優雅，市場、公園、賓館、影劇院、通訊設施一流，電話可直接撥國內外；供電、給排水已成系統；有大專院校4所，中小學校43所；31個中省直單位在此安家落戶。已向香港祥好發展有限公司出讓土地10.73公頃，用於房地產開發。

為充分發揮燕郊開發區的龍頭和窗口作用，加快1500公頃沙荒地的開發，三河制定了一系列優惠政策，擴大土地的出租、轉讓，廣泛吸引和利用外資，興辦“三來一補”和“兩頭在外”企業，把燕郊發展成為以高新技術產品為主體的新型工業區。

Yanjiao town is situated in the west of Sanhe and is a close neighbour of Beijing separated only by a river. During 475-221 B. C., Yanjiao used to be the outskirts of the capital of Yan State, so got its name. In 1984, Yanjiao town was defined by the provincial government as a developing zone. Since then, it entered a new period of its development. Jing-Qin Railway and Jing-Ha Highway run across the centre of the town.

The whole town covers an area of only 30 square kilometres, but its beautiful scenery and environment is refined and excellent. Markets, parks, hotels, theatres, cinemas and communication equipments are first rate. Telephones connect automatically both home and abroad. Power, water supply and drainage have their own systems. There are four colleges and forty-three middle and primary schools as well as thirty-one units of which are those directed by the Party Central Committee and those under the provincial administration. Yanjiao has sold 10.73 hectares of land to Hong Kong Xianghao Developing Corporation Ltd. and 1,500 hectares of sandy land will be exploited recently. In order to make full use of Yanjiao Developing Zone as the dragon head and window of the county's economy, Sanhe government has drawn up a series of most favourable policies, the aim of which is to enlarge the territory to be leased and transferred, to attract and make use of foreign capital.

Enterprises will be set up based on the following policies: importing raw materials, parts and samples to make products by means of the trade compensation to make Yanjiao as a new industrial zone.
