## 贵阳医学院附属医院概况

贵阳医学院附属医院始建于1941年，是西南地区历史悠久的高等医药院校附属医院之一。经过半个多世纪几代人的努力，已发展为学科设置齐全，师资力量雄厚，科研基础扎实，仪器设备先进，融医疗、教学、科研、预防、保健、康复、急救为一体，能为社会提供连续服务的综合性三级甲等医院。

1996年贵州省肿瘤医院在贵医附院成立。填补了贵州省无省级肿瘤医院的空白。

医院占地面积12.5万平方米，建筑面积8.4万平方米。绿化面积1.2万平方米。编制床位800张，实际开放床位1200张。有医、护、技、教职工1585人，其中具有高级专业技术职称的278人，中级技术职称433人，硕士研究生导师48人。

医院拥有上亿元固定资产，如核磁共振，SPECT、4500TE型CT、西门子医用电子直线加速器、1250MA大型X光机、模拟定位机、钴60治疗机、人工肾透析机、全自动分析仪、三维C超、体外腔内碎石机、氩气手术刀、立体定向放射治疗系统（X-刀）、C臂X线机等大型现代化医疗设备近200台及总价值达5000余万元的中小型设备。医院已建成西南地区医疗卫生系统规模最大的信息网络中心与国际互联网联通。精良的设备为医疗、教学、科研、管理提供了高质量、多方位服务。

医院有6个省级重点学科、36个病区、21个一级临床科室，17个二级学科，40多个医技科室及设备先进的ICU病房，对突发性灾害事故有严密的抢救指挥系统、完备的应急方案和强干的应急队伍。

医院坚持以病人为中心，一手抓基础医疗，一手抓高新技术的应用和开发。各临床学科医疗技术进入国内先进行列，整体水平一直居省内领先地位，科研成果在贵州医药卫生界占有重要位置。近几年，医院建设有了长足发展，医疗水平再上新台阶，平均年门诊量达60余万人次，住院病人达1.2万人次，手术5000多台次，入院、出院诊断符合率，手术前后诊断符合率，治愈率等指标均达较高水平。

在出色完成繁重医疗任务的同时，医院每年承担贵阳医学院本科、专科、成人教育三层次3000余学生18门临床专业课，3万多学时的授课及50余周的临床教学任务，17个硕士生授予点和医院护士学校护理专业近400名学生的教学工作。近十年来，为全省各级医院培养进修生1000余人，承担世界银行卫IV贷款项目的人员培训任务。

近十年来医院获科技成果奖151项。其中部级奖125项，近五年来在省级以上学术杂志上发表论文868篇，其中在代表专业学术最高水平刊物上发表138篇。近三年主编、参编著作16部。医院科技人员24位任全国性专业学术委员会编委，63位任全国学术杂志编委会编委，48位任省医学会各分科学会主任、副主任，39位任医学会各分科学会常委会秘书，37位任地方性学术杂志编委。医院创办了《临床脑电学》、《急诊外科》两种全国性学术刊物。

医院与美国、英国、加拿大、法国、日本、澳大利亚、新加坡、香港等国家和地区有广泛的学术交流和人才交流，一批批学成归国和尚在国外深造的学子，促进了医院的学科建设、技术进步与发展。

1996年获“贵州省文明医院”称号，1994年通过国家级爱婴医院评审；1994、1995年评为贵州省卫生系统优秀基层政研会，1995年获贵州省卫生系统职业道德第一周期先进集体；1994年—1996年连续三年被贵阳市委、市政府授予“文明单位”称号；1996年通过评审成为省城首家三级甲等医院；1997年被列为贯彻落实“以病人为中心，优质服务，树行业新风”十条要求的省级示范医院。1998年获贵州省卫生系统职业道德建设第二周期先进集体。

## A Brief Introduction to the Affiliated Hospital of Guiyang Medical College

Founded in 1941, the Affiliated Hospital of Guiyang Medical College is one of the oldest of its kind in southwest China region. With the efforts made by several generations of its staff in more than half a century, it has developed into a comprehensive hospital with the status of Type A, Grade III. The hospital has all necessary departments, a strong teaching staff, a solid foundation for scientific research and advanced equipment and instruments. As the hospital comprises such functions as medical treatment, teaching, scientific research, prevention, health care, rehabilitation and first aid, it is able to provide continuous service for the society.

Guizhou Oncology Hospital, based in the Affiliated Hospital, was created in December 1996, hence filling the gap of the medical history of Guizhou when no provincial oncology hospital existed in the province.

The hospital covers an area of 125,000 square meters, with a floor space of 84,000 square meters and the greenery of 12,000 square meters. There are 800 stipulated beds, but the actual number of beds available reaches 1,200. The staff number totals 1,585, including doctors, nurses, technicians and workers, of which, 278 being professors, chief doctors, associate professors and vice-chief doctors, 433 being those with middle-rank job titles, and 48 being master supervisors.

The fix asset of the hospital is over a hundred million yuan RMB, including nearly 200 sets of large-scale modern equipment for medical diagnosis and treatment, such as an MRI, a set of SPECT equipment, a 4500 model CT scanner, an X-knife, a Siemens-made linear accelerator, a 1250 MA large-scale X-ray apparatus, a simulation locator, a Cobalt-60 therapy machine, artificial kidney dialysis machines, a set of fully-automatic biochemical analysis apparatus, 3D ultrasonic Type-C scanners, an endocavernous lithotripter, a set of argon apparatus for surgery, a C-arm X-ray machine, and other smaller equipment that is worth 50 million yuan RMB. The largest health computer network in southwest China has been built in the hospital and it is connected with Internet. The sophisticated facilities and equipment have been providing high-quality and multi-dimensional service for medical treatment, teaching, scientific research and management.

The hospital has 6 provincial key disciplines, 36 wards, 21 class-one clinical departments, 17 grade-two disciplines, more than 40 function examination sections, over 10 laboratory departments and an advanced Intensive Care Unit. A complete set of emergency response programs and a strong first-aid force under the leadership of a well-organized rescue commanding system are available in the hospital to tackle sudden disasters and accidents.

The hospital always abides by the principle of providing patient-centered medical service by putting priority to basic medical treatment on the one hand and attaching importance to the development and application of high-tech and new techniques, on the other. As a result, the hospital has been taking the leading position in terms of its comprehensive level and its scientific achievements have been occupying the most important position in the health field of Guizhou. In recent years, the hospital has rapidly developed and its health service has been raised to another new level. Annually, the average outpatient visit has been 600,000 person/times, the number of hospitalized patients has reached 12,000 persons/times, and surgical operations have been 5,000. The indicators, such as correct diagnostic rate at admission and discharge, and before and after operation, and the healing rate, have shown that the hospital is comparatively good.

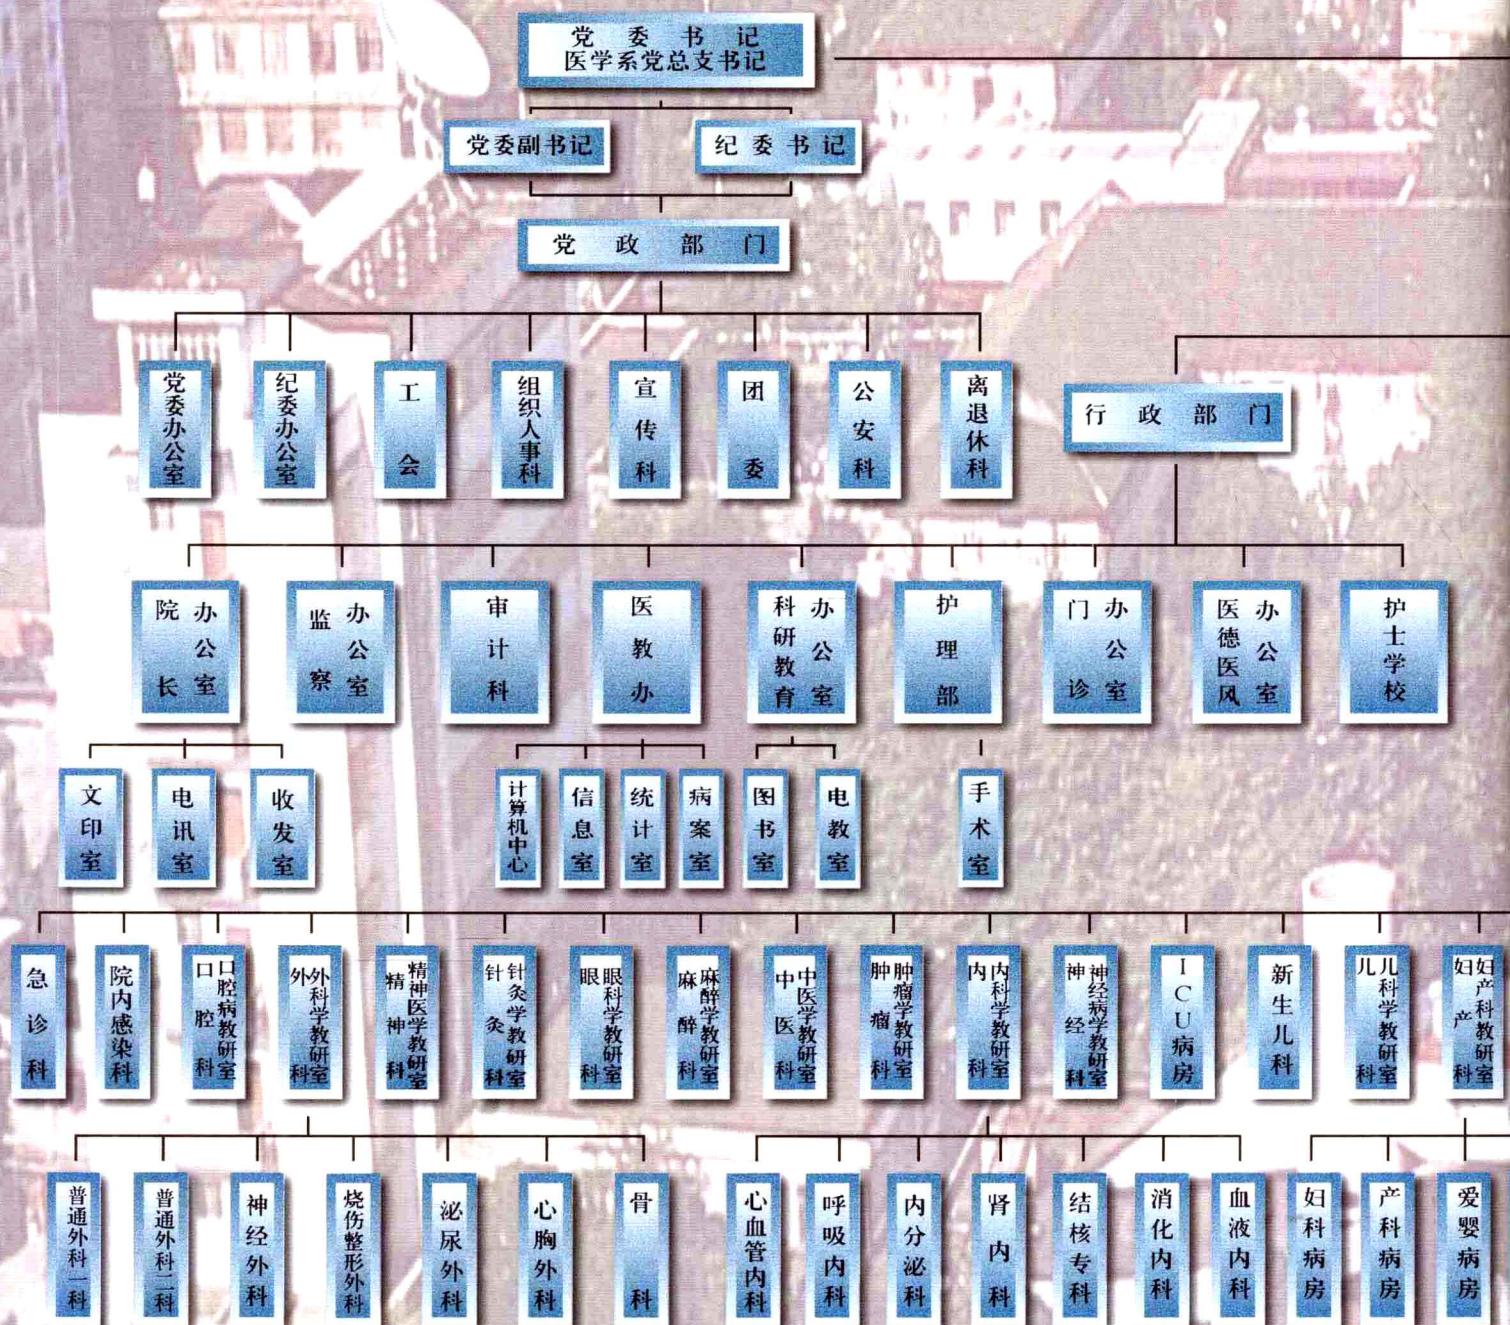

In addition to the heavy task in health service provision, the hospital staff takes the load of teaching in 18 clinical disciplines. Annually, the total number of undergraduates taught is more than 3,000, including those taking 5-year, 3-year and adult education programs, apart from 400 students who take the 17 master-degree programs and who take nursing program in the Nurse School. The total number of hours taught annually is over 30,000. In recent 10 years, over 1,000 doctors from various levels of hospitals have received in-service training in the hospital and it has also been training personnel for a Health Project IV loaned by the World Bank.

In the past 10 years, the hospital has won 151 prizes in science and technology achievements, of which, 125 being awarded by Ministry of Health and Ministry of Science and Technology. In the past five years, 868 pieces of papers written by the hospital staff have been published in the academic journals of provincial and ministerial level and 138 pieces have been published in the journals of the highest level in China. The recent 3 years have seen the publication of 16 monographs chiefly and partly written by the hospital staff. Twenty-four staff members of the hospital serve in the editing boards of some national professional academic commissions, 63 being members of the editing boards for national academic journals, 48 being presidents and vice-presidents of provincial associations of medical science, 39 being secretaries-general of the local associations and 37 being serving in the editing boards for local academic journals. The hospital has created 2 national academic journals, including *Computer Clinical Application* and *Emergent Surgery*.

Extensive academic and personnel exchanges have been made between the hospital and The United States, the United Kingdom, Canada, France, Japan, Australia, Singapore and Hong Kong. The staff members who have returned from abroad and who are still undertaking their overseas study have been promoting the scientific and technological construction, advancement and development of the hospital.

In 1986, the hospital won the title of "Civilized Hospital in Guizhou"; in 1994, it passed the appraisal for the national-level Baby Friendly Hospital; in 1994 and 1995 it was named successively the Best Grass-roots Level Political and Ideological Work Study Association; in 1995 it was selected as the Advanced Collective in the first term of professional construction in health circle of Guizhou Province; from 1994 to 1996, it was praised by the Municipal Government of Guiyang City as Civilized Unit; in 1996 it was assigned the status of Hospital Type A, Grade III; in 1997 it was chosen as a Provincial Demonstration Hospital that should reach the 10 requirements, with the objective of "providing patient-centered high-quality service and setting a new professional style," and in 1998 it was renamed the Advanced Collective in the second term of professional construction in health circle of Guizhou Province.
