学校董事长杨国强先生  
Mr. Yang Guoqiang, the General Manager

放眼 21 世纪，世界将是高科技、资讯发达、国际交往便捷、竞争激烈为特征的世界，这无疑对即将成为 21 世纪主力军的下一代提出了更高的要求。要使他们有能力迎接新世纪的挑战，我们作父母的应留些什么给孩子？我想留给孩子知识和本领要比钱财好得多。我们也从一无所有到今天拥有我们自己的事业，这需要天时地利人和，但更需要我们的本事和努力。我国有句古语：“家财万贯不如薄技在身。”钱财总有用完的一天，而独特的本领却可使人创造无穷财富，享用一生。

我国还有句古语：“富不过三代。”古时有许多帝王将相，都因后代平庸无能而失去江山和荣华富贵，现代也有不少的百万、千万、亿万富翁因子女不成器而家道衰落。为什么？一个主要原因就是后代沉湎于富贵，不思进取。作为从艰苦中走过来的我们这代人中的一员，结合自身经验，今天我向成功人士进一言：光有事业成功是不够的！除了事业成功，还得子女出息、礼仪文明，天伦之乐才有真实的内涵。另外，留给下一代强健的身体、高尚的道德和继承父辈事业超群卓越的生存智慧，为父母者才可心安理得、高枕无忧。而这些，都离不开成功的教育。

基于此，我们斥巨资兴办的广东碧桂园学校以“培养未来的成功人士”为办学宗旨，以国内外最先进的教育手段和方法，从幼儿园开始就强化英语教学，让孩子们能讲一口标准流利的英语，培养出既有实在的本领，又有良好品质的新一代。我们要把广东碧桂园学校办成现代经济大潮中的“黄埔军校”，为社会的繁荣和进步作出贡献。

## WORDS FROM THE FOUNDER

Looking to the coming 21st century, we can easily tell our world will become more advanced, more challenging and more risky. As parents, how well we can prepare our children, who will play the main part at that time, is an essential question that awaits to be answered. There is an old Chinese saying: "A slight skill is better than vast wealth", which can help us to answer the question.

There is another old saying in our country, which goes like this: "Wealthy grandparents are doomed to have hunger-stricken grandchildren." Our ancient history can easily prove this, and even now we do not have much difficulty finding examples here and there. The obvious reason is the third generation usually overindulge themselves in riches and wallows in nothing but leisure. As one of the members of the generation which has gone through all the hardships, I would like to give a word of advice just for your reference with the intention (of avoiding) this strange phenomenon happening to our children: We must educate their minds in a better school, build up their wills in a real way and forge their lofty morals with good companions.

For this reason, we have decided to invest some money to found the Guang Dong Country Garden School with the aim of educating successful men and women for the future. We will adopt modern teaching approaches from home and abroad. We plan to start English education from Kindergarten with the hope that all our children will be able to use the language freely. We intend to build our G.D Country Garden School into a modern Huangpu Army School in today's economical world in order to change our children into true men with real knowledge.

# EDUCATIONAL MODE 教育模式

碧桂园学校要培养未来的成功人士，办成一所跨世纪的学校，必须继承我国优良的教育传统，针对我国现代化建设的迫切需要，创造一种全新的教育模式。这一教育模式可用 12 个字来概括，就是“保证基础、发展个性、服务社会”。

“保证基础”，就是保证每一位学生都能做到德、智、体、美、劳全面发展，学好每一门必修课，尤其扎扎实实地学好语文、数学、英语、电脑这四门基础工具课，为升学和就业打下坚实的基础。

“发展个性”，就是努力开发学生智力，通过参加丰富多彩的课外活动，让学生的潜能完全展露出来，使学生的个性得到充分发展，为培养各种尖子奠定基础。

“服务社会”，是指根据社会各行各业的需要，把德育工作放在首位，使学生学会做人，学会生活，学会学习，学会生存，学会发展；把学生培养成为对国家、对社会有用的建设人才。

“保证基础、发展个性、服务社会”这三句话是互相联系，缺一不可的。“发展个性”是核心，是灵魂，是区别于以往办学模式的标志；“保证基础”是前提，没有这个前提，个性就不能发展；“服务社会”是归宿，学生掌握了知识和才能，最终为社会服务，为振兴中华服务。

## BUILDING A FOUNDATION, DEVELOPING THE PERSONALITY AND SERVING SOCIETY

Liao Bingquan

The guiding principles for running the Guangdong Country Garden School "Building a Foundation, developing the Person-

ality and Serving Society" were put forward with the aim to cultivate successful men and women for the 21st century. Attaining this goal means first teaching the students discipline and survival skills, then basic learning tools followed by research methodology, and finally developing the skills of managing enterprises, not just acquiring a diploma. This ideal is consistent with the trend of educational reform throughout the world.

The first important component of this new educational model is to build a foundation which ensures that each and every student develops a well-rounded sense of morality and a strong academic basis in the required subjects. The second is to develop the personality through offering a variety of social activities that stimulate the student's personal growth. Lastly, serving society means the students will ultimately serve the society, work toward socialist modernization, represent the country internationally and, finally fight for the development of mankind. These three principles are related to each other and inseparable. Developing the personality is the core, a symbol of (difference) from the old educational model. Building a foundation is the prerequisite and serving society is the destination with the aim to lay a foundation and pave the way for the ultimate success of the students.
