前言

中国包装技术协会会长 邱纯甫
中国包装总公司总经理

近三年来我国的包装行业在“调整、改革、整顿、提高”方针的指导下，在全国广大包装工作者的共同努力下，获得了较明显的发展。1982年，包装工业产值比1981年增长了12.5%，达到85亿。我国包装工业在工农业总产值中所占比例，也由1980年的0.98%提高到1982年的1.03%。各部门、各地区的领导更加重视了包装工作，并加强了对它的领导。但是包装工业在整个国民经济中仍处于不相适应的地位，仍然是个薄弱环节，包装工业巨大的经济效益和社会效益仍难以发掘出来。

为了根本改变我国包装行业的落后面貌，首先要抓好行业管理工作。中国包装技术协会是经国务院批准最先进行行业管理试点的单位之一。三年来，在国家经委的领导下已经积累了一些可贵的经验。事实证明，只有通过行业管理，才能冲破条条和块块的限制，使整个行业活跃起来，使整个行业按照社会主义的经济规律得到全面、健康的发展。包装行业的行业管理主要通过沟通包装工业与为它提供原材料的其它工业，以及它的服务对象——工农业生产各部门的横向联系，而达到最大限度地促进自身发展和国民经济发展的目的。

为了根本改变我国包装行业的落后面貌，还要健全包装工业经济实体。根据国务院[1981] 117号文件的规定，中国包装总公司要“加强对包装工作的领导”，“对全国包装企业、事业单位有计划管理和一定的行政管理的权力，对分公司和直属企业实行供产销、人财物集中统一管理，要进行统筹规划”。

目前，我们国家正在出现一个各行各业、条条战线都在酝酿改革、着手改革、推动改革的新局面，这就要求我们在行业管理的试点工作上加快步伐，进一步做出新的贡献。

《中国包装年鉴》在推动我国包装工作、积累行业管理经验、团结全国包装工作者等方面，已经起到了积极作用。我希望《中国包装年鉴》能在1981、1982两年编辑出版的基础上，总结经验，提高质量，从而为我国的包装事业作出更大贡献。

PREFACE

Under the guidance of the policy "readjustment, reform, rectification and improvement", and with the joint efforts of a great number of packaging workers, China's packaging industry has evidently developed in the past three years. Its output value in 1982 was 8.5 billion yuan, increasing by 12.5% over the year 1981, and its proportion to gross output value of industry and agriculture has increased from 0.98% in 1980 to 1.03% in 1982. Leaders of various departments and local authorities have paid more attention to and enhance their leadership to packaging work. However, packaging industry is still in an inproportional position in the total national economy. Due to this weakness, the greater economical efficiency and social benefits of packaging industry are still difficult to gain.

In order to totally change the backwardness of our country's packaging industry, first of all, professional management must be grasped well. China Packaging Technology Association is one of the first units approved by the State Council to make a professional management experiment. Under the leadership of the State Economic Commission, valuable experience has been accumulated in the past three years. Facts have proved that only a professional management system can break through the bonds of horizontal and vertical leadership system. In this way, the whole profession can be stimulated, and completely and healthily developed in line with our socialist economic law.

Packaging professional management is carried out mainly by establishing the relationships between packaging industry and its raw material providing industries and various production departments of industry and agriculture, so that packaging industry and national economy can be developed as well as possible.

In order to fundamentally change the backwardness of our packaging industry,

its economic entity should also be amplified. According to the 1981 document No 117 of the State Council, China Packaging Corporation should "enhance its leadership to packaging work". "It has the authority for planning management and a certain degree of administrative management to all packaging enterprises and institutions, and the authority to unify management and carry out the overall plan of supply, production, marketing, personnel and materials of its branches and attached companies.

At present, all walks of life are deliberating on and pursuing the reform plan. This new situation demands us to accelerate our experimental work and to make a new contribution.

CHINA PACKAGING YEARBOOK has been playing an active role in pursuing China's packaging work, accumulating experience of professional management, and uniting packaging workers in the whole country. I hope that CHINA PACKAGING YEARBOOK, on the basis of its two years' editing work, will draw much more experience and improve its quality, in order to make a greater contribution to our packaging industry.

Qiu Chunfu

Chairman of China Packaging Technology Association,
General Manager of China Packaging Corporation

出 版 说 明

一、编辑出版《中国包装年鉴》是为了收集我国包装工业的年度活动情况，逐年积累资料，以便进行分析和综合的研究工作，并为包装工业的规划和发展提供必要的情况和数据。所以我们将尽可能全面地向读者介绍我国包装工业发展的方针、政策以及我国包装工业的结构和生产情况。

二、《中国包装年鉴》不仅要沟通包装工业内部各专业的情况，而且要沟通包装工业与农工商贸交通储运诸方面的情况，因此，《中国包装年鉴》是包装工作者的实用参考资料，也可供各级经济工作者和计划人员参考。

三、《中国包装年鉴》（1982）收入了1981年中国包装技术协会第一届年会以来至1983年1月中国包装技术协会第二届年会期间我国包装工作的主要活动情况。编排时除前言外，共分七大部分：“中国包装工业概况”部分收入了几篇概要介绍我国包装工业面貌的综述；“中国包装技术协会”部分汇集了中国包协1982年内的重要文件，以及1982年底前成立的各专业委员会和地方包协的简况；“包装公司”部分对中国包装总公司，各部、各省市有关包装的公司都作了简要介绍；“中国包装企业名录”部分将介绍从事包装材料、容器、包装机械、包装印刷生产的企业的概况，同时收入了部分从事包装科研的科研单位和学校。“包装展览会”部分介绍了1982年全国和各地举办的部分包装展览及外商在华举办的包装展览概况；“包装图书及期刊”部分简要介绍了1982年出版的有关包装技术的图书和国内有一定影响

的几种包装刊物。“对外技术交流”部分收录了部分出国考察报告和外商来华技术交流活动情况。

四、为了国外读者阅读方便,《中国包装年鉴》1982年版增加了英文目录、题名及重要文章的摘要。

五、《中国包装年鉴》的出版,得到了各省市包协、各包装公司、企业以及热心于包装工作的同志大力协助,仅表衷心的感谢。由于编辑水平所限,时间过于仓促,错误之处敬请读者批评指正。

Publisher's Notes

1. In compiling CHINA PACKAGING YEARBOOK, we set out to collect annual activities of China's packaging industry and accumulate materials year by year with a view to carrying out research work by way of analysis and synthesis. At the same time, necessary information and statistics have been presented for the planning and development of packaging industry. We have made every effort to offer you as much information as possible about the general politics of the development of China's packaging industry, its structure and production.

2. This book serves not only to channel information of different professions inside packaging industry, but is tied up with agriculture, industry, commerce and transportation as well. In this way it has turned out to be the practical reference materials for packaging workers. Economists and plan makers at all levels would find it useful too.

3. CHINA PACKAGING YEARBOOK (1982) deals with the main activities of China's packaging work in the course of the 1st annual meeting (1981) and the 2nd annual meeting (Jan. 1983) of China Packaging Technology Association. The present book is divided into seven parts: 1. A Brief Introduction to China's Packaging Industry including summaries of our country's packaging industry; 2. Important documents of China Packaging Technology Association in 1982 and brief activities of professional commissions and local packaging associations founded by the end of 1982; 3. A brief introduction made by Packaging Companies to China Packaging Corporation and packaging companies attached to ministries, provinces and municipalities; 4. Catalogue of China's Packaging Enterprises dealing with China's enterprises producing packaging materials, containers, packaging machinery and also package printing enterprises. Some research institutes and schools engaged in packaging work; 5. Packaging Exhibitions

providing summaries of exhibitions at provincial and municipal levels and foreign packaging exhibitions in China; 6. Packaging Books and Periodicals offering a brief introduction to books about packaging technology and some well-known packaging magazines published in 1982; 7. Technical Exchange with Other Countries including some investigation reports on other countries, as well as activities of foreign businessmen at home.

4. For the convenience of foreign readers, the contents, titles and abstracts of some important articles in English are available in the 1982 edition of CHINA PACKAGING YEARBOOK.

5. We wish to express our hearty thanks to provincial and municipal packaging associations, packaging companies, enterprises and individuals for their invaluable assistance. Owing to lack of experience and being pressed for time, we should be very glad to hear from readers who find mistakes or who have criticisms and suggestions of any kind.
