## Preface

Xixia is the famous "Homeland of Dinosaurs".

Xixia is located in the southwest of Henan Province. As the second largest county and a big county rich in resources in Henan Province, Xixia is called "The Green Kingdom" and "Natural Medical Herb Storage House".

Xixia enjoys beautiful natural scenery and is the famous scenic spot for ecological tourists.

Xixia also enjoys good investment environment with special characters of regional economy. Four main industrial sectors—forest & fruits, Chinese medical herbs, edible fungi and ecological tourism—have been established. There are also four industrial systems: medicine, metallurgy building materials, machinery and electronics as well as agricultural products processing. Its comprehensive economic force ranks at the head of Nanyang City. Many of its economic indexes are listed at the head of the province. It is honored as "The Advanced County in Science and Technology in the State", "the Advanced County in Afforestation of the State", "Model County in Creating Civilized Towns of the State" and one of the 100 strongest counties with law administration of the state.

Now Xixia County is taking the opportunity to build itself into a strong county in economy, a model county in ecology and a famous county for tourism.

You are heartedly welcome by 420,000 hospitable Xixia people to Xixia for sightseeing or investment.
