序 言

改革开放以来,在党中央、国务院和省委、省人民政府的关心、支持下,我省高等教育事业有了迅速的发展。到1993年底,全省已有普通高等院校61所;在校本、专科生177,888人,比1978年增长2.2倍;经国务院批准的硕士、博士点150个;拥有一支具有较高水平的教学、科研队伍,有专任教师24930人,其中教授1533人,副教授6591人,专兼职科研人员4117人,还有外籍教师、客座教授18人。

我省高教事业在教学、科研上都取得了显著的成绩。已初步形成学科齐全、专业配套、结构合理的多层次、多形式、多规格的高等教育体系,为社会主义建设培养了大批人才。此外,对外教育及学术、文化交流也日益频繁。

与此同时,各高等院校的基本建设方兴未艾。十年来全省高等院校共完成投资20余亿元,新建校舍300多万平方米,占现有校舍建筑的50%。校园里一幢幢高楼拔地而起:有窗明几净的教学楼、图书馆;有设备先进的实验楼、电教中心、科技中心;有宽敞舒适的学生公寓、教工住宅;有新颖别致的专家楼、外籍学生宿舍;还有装饰考究的大食堂……等,这些新建筑高低错落有致,内部设施比较完善,外观漂亮,为校园增添了新景点。这一切,为我省高等教育事业的开拓、发展奠定了雄厚的物质基础,并逐渐成为城市传统文化教育事业发展的标志。

高等学校基本建设既是高教事业发展的物质基础,校园建筑又是一项历史性、群众性生命力的建设。随着高等教育事业长足发展的同时,高校基建内容也在不断创新和发展。作为高校基建主体的校园、校舍建筑亦已赋有新的内涵。它也成为城市现代化建设的一个重要方面,是城市社会发展中精神文明建设的一个重要组成部分。

为了总结我省高等院校基本建设工作,展示十年来我省高等学校基本建设取得的成就;为了进一步对校园建设进行深入的探索和,以利同行观摩学习,在继承传统,保持自己风格中有所创新和发展;为了在国内外进行交流,展示我省高等学校的风貌,经四川省教委研究决定,由省高等学校基本建设学会组织省内各高等学校有关专家、学者,时经两年,编辑了《四川省高等学校建筑图集(1980—1990)》。现值《图集》行将付印出版之时,特为志序。并望省内高等学校基建战线全体同仁按照“面向现代化、面向世界、面向未来”的要求,在坚持社会主义办学方向,加快改革发展步伐中,同心同德,再接再厉,为社会主义现代化建设、为我省高校基本建设作出更大贡献,为把高校建设得更加美好而努力。

Preface

Since the implementation of the policy of reformation and opening to the outside world, under the concern and support of the Central Committee of the Communist Party of China, the State Council, the C. P. C. Provincial Committee of Sichuan and the People's Government of Sichuan Province, the higher education of Sichuan has undergone a rapid development. By the end of 1993, the total number of institutions of higher education in the Province amounted to 61, with the total enrolment of 177,888 undergraduates and junior college students, which was increased by 2.2 times over that of 1978; there were 150 academic posts approved by the State Council which were entitled to confer master's or doctor's degrees; and had a tremendous teaching and research capacity, among 24,930 full-time teachers, 1533 were professors, 6591 associate professors, 4117 full-time or part-time scientific researchers, as well as 18 foreign professors.

Remarkable attainments have been achieved both on teaching and research work in the higher education of Sichuan Province. A system of various levels and different forms schooling, with complete subjects, necessary specialties and rational structure has come into being at its initial stage, a large number of highly qualified personnel have been trained for the socialist construction. Besides, foreign education, academic and cultural exchanges have been developing rapidly.

At the same time, the capital construction in the institutions of higher learning of Sichuan is just unfolding. About two billion Renminbi Yuan has been invested in new buildings, covering a space of more than 3,000,000m², taking the percentage of 50% of the total existing building space. A lot of tall buildings have sprung up, including bright and clean teaching buildings, libraries; lab buildings, centres of audio-visual education program and centres of science and technology equipped with advanced apparatuses and devices, spacious students' dormitories and teachers' residential quarters, new and original buildings for foreign teachers and students; well-decorated dinning halls, etc. These new, well-arranged and equipped and beautifully-decorated buildings make the campus more attractive, laying a solid material base for the development of higher education of Sichuan, and becoming the main symbol of urban development of traditional cultural education.

The capital construction in institutions of higher learning is the material base of expansion, and the campus architecture is a historical, mass vital work. The capital construction in the institutions of higher learning has been making innovations in its content alongside with the growth of higher education. Being the principal part of the capital construction in institutions of higher learning, the campus architecture has been endowed with a new intention. It has also become one important part of the modernization of the city and an important component of the spiritual culture of the urban social development.

In order to summarize the work of capital construction in institutions of higher learning of Sichuan, to display the achievements of capital construction in the institutions; to make a further study and investigation on campus construction, so as to facilitate the people of the same trade or occupation to have a visit and learn from each other, and have a better and faster expansion on the basis of carrying forward the tradition while keeping our own style; to exchange experiences home and abroad, and to reveal the new look of the institutions of higher learning of Sichuan, with the approval of the Education Commission of Sichuan Province, organized by the Institute of Capital Construction of Sichuan Province, experts and scholars concerned in the institutions, after spending two years' effort, have finished editing "The Collection of Pictures of Architecture of the Institutions of Higher Learning of Sichuan (1980 - 1990)". At the time of publication of the Collection, I write the preface in the hope that all colleagues in the field of capital construction of higher education of the Province will make greater contributions, with persistent efforts and one heart & one mind, adhering to the socialist orientation of running schools and speeding up the pace of reform and development, to the socialist modernization of our country and the capital construction of the institutions of higher learning of Sichuan, and work even harder to perfect the institutions according to the demand "Face the Modernizations, the World and the Future".

四川 大 学

四川大学是国家教委直属的全国重点综合性大学。创建于 1896 年,是中国西南地区最早大学,也是国内历史最悠久的大学之一。

1978 年以来,学校根据国家对人才的需要以及现代化科学技术发展的要求,在继续重视基础学科的同时,增建了一批新兴、交叉、应用、技术学科专业,成立了一批研究所和跨学科的研究中心,由原来的文、理综合大学,转变成拥有人文科学、社会科学、管理科学、自然科学、技术科学等多学科的新型综合大学。学校设有 5 个学院,22 个系,47 个本科专业,65 个博士及硕士点,34 个独立研究所(室),21 个教学、科技开发中心。现有在校学生 1 万 2 千余人,其中:博士生 72 人,硕士生 752 人,本科生 4738 人,专科生 1471 人,函授、夜大等成人学生 4319 人,另有外国留学生、进修生等 600 余人。

学校现有教职工 3564 人,其中:专任教师 1208 人。教职工中有高级技术职称的近 800 人,中级技术职称的 1100 人。这支力量雄厚的队伍,自 1978 年以来取得了大量的科研成果,在人文、社会和管理科学方面出版专著 340 余部,发表学术论文 3600 余篇。其中 140 余项获省级以上优秀成果奖;在自然科学、技术科学方面有 150 余项获国家自然科学奖、科技进步奖和发明奖,其中有的为国内首创,达到国际先进水平。

学校地处历史文化名城成都市的锦江河畔,环境幽雅,景色宜人。校园占地面积 1100 余亩,校舍建筑面积 41 万多 m^2 。改革开放以来,国家投资近亿元用于校舍建设,先后建成图书馆、文科楼、经管楼、外文楼、第三教学楼、分析测试中心楼等教学、科研用房。还新建了学生宿舍 4 万多 m^2 。外国留学生宿舍 6 千多 m^2 、教职工宿舍 10 万多 m^2 。香港知名人士邵逸夫先生捐赠修建的文科楼和科学馆为学校的建筑锦上添花,这些现代化建筑与原有的古典式建筑群互相辉映,为校园增添了更加绚丽的色彩。

SICHUAN UNIVERSITY

四川大学

Founded in 1896, Sichuan University, a comprehensive key university directly under the State Education Commission of China, is the oldest institution of higher learning in Southwest China and counts among the long-historical universities throughout the country.

Since 1978, according to the demand for the qualified personnel and the development of modern science and technology, the University has set up a lot of newly-emerged specialties, inter-disciplinary subjects, special fields of study in applied science and technology. While attaching importance continuously to its original fundamental studies, a number of research institutes and centers of inter-disciplines have been established at the same time. It has gradually changed from an institution of liberal arts and science into a comprehensive university of a new type, with such faculties as humanities, social sciences, management, natural sciences, technology, etc. . At present, it owns five colleges, including 22 departments, 47 undergraduate disciplines, 65 of which confer MA or PhD degrees, 34 independent research institutes, 21 centers of teaching and scientific and technological development. Its enrollment amounts to over 12,000, including 72 doctoral students and 752 master's students, 4,738 undergraduates, 1,471 professional students, 4,319 correspondence and night school students. Besides, there are about 600 foreign students and students for further education.

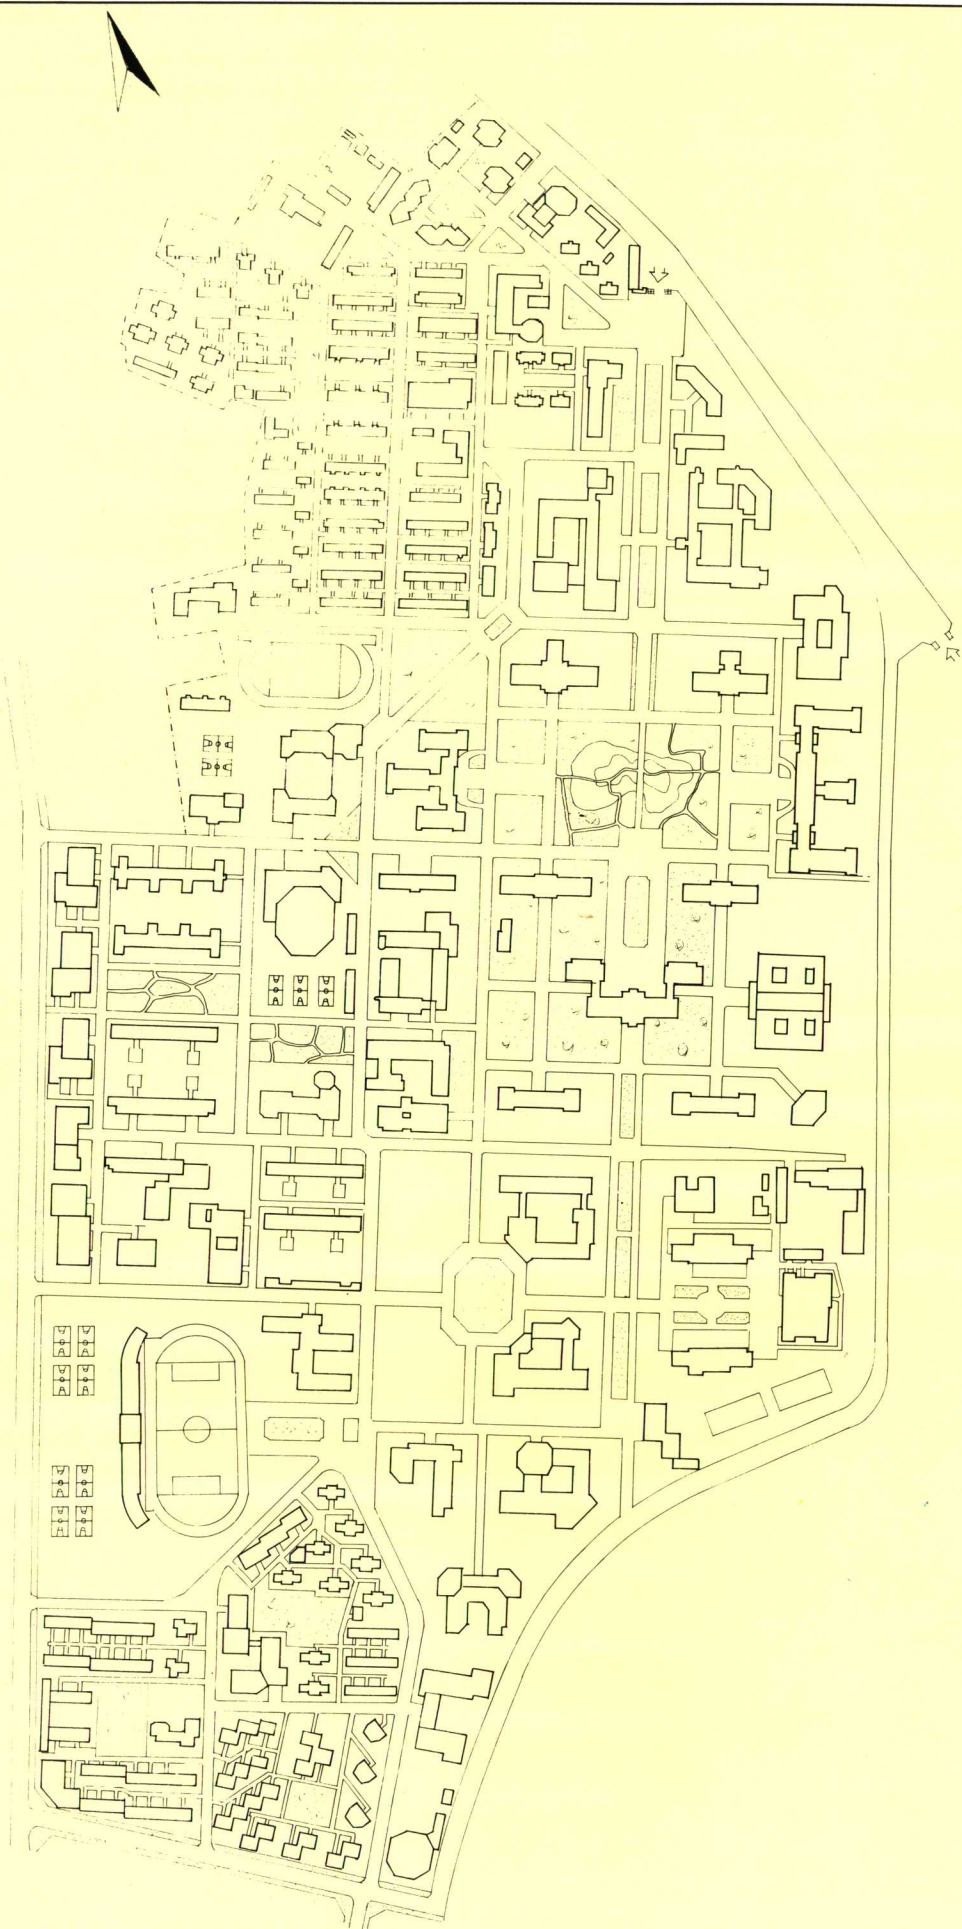

The University has a tremendous teaching and research capacity. Among the teaching staff totalling 3,546, there are 1,208 full-time teachers, of whom over 800 are with senior academic titles and 1,100 with intermediate ones. Since 1978, great attainments have been achieved. Over 340 monographs on humanities, social and management sciences have been turned out, about 3,600 research papers being published, with over 140 having won national, ministerial or provincial prizes. More than 150 research projects in the field of natural and technological science have been awarded national prizes of natural science, scientific and technological progress and innovation. Some of them are pioneers in the country and have reached to the international advanced level.

Situated on the Jingjiang River of Chengdu, the historically renowned cultural city, Sichuan University enjoys a beautiful and tastefully quiet campus, covering an area of 182 acres, with a constructed area of 410,000 m². Since our country implemented the policy of reform and opening to the outside world, over ten million yuan has been invested in campus construction. New Library, Arts Building, Economic Management Building, Foreign Languages Building, the Third Teaching Building, Analysing & Testing Center, etc., have sprung up. Besides, students' dormitory of 40,000 m², foreign students' dormitory of 6,000 m² and teachers' dormitory of 100,000 m² have been set up. Arts Building and Science Studio donated by the well-known figure Mr. Shao Yifu add flowers to the brocade for the campus buildings. These modern buildings mingled with original traditional buildings make the campus more colourful and beautiful.

YUZHOU UNIVERSITY

渝州大学属重庆市领导, 创建于 1978 年。原为短期职业大学, 1985 年改为综合性大学。现设有文科、理科、工科、财经、师范五个系科, 二十余个专业。在校学生 3000 余人, 其中: 本科生 1863 人, 专科生 1103 人, 夜大生 185 人, 干部专修科学生 29 人。建校以来已培养出十二届毕业生 6601 人, 他(她)们为重庆市的建设作出了积极的贡献。

教职工 781 人, 在教师 375 人中, 有副教授 66 人, 讲师 215 人, 还有非教师职称的副高级职称 9 人, 中级职称 58 人, 是一支年青而很有潜力的教学、科研队伍。

学校位于重庆市沙坪坝区, 占地 600 余亩, 建筑面积近 10 万 m^2 , 校园面积宽绰, 为学校的发展提供了良好的条件。

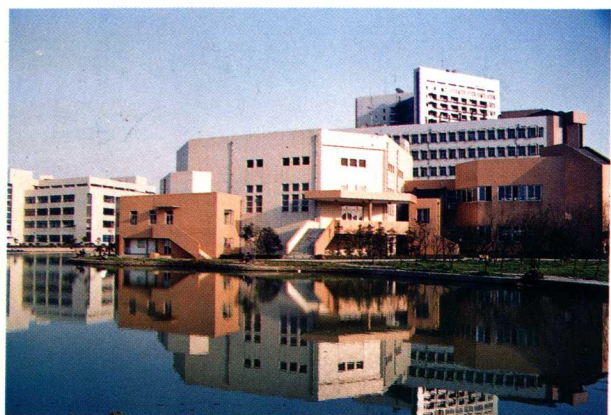

Yuzhou University, an institution of higher learning under the leadership of Chongqing city, was founded in 1978. It turned from a short-cycle vocational college into a comprehensive university in 1985. Now it has 5 faculties which are Humanities, Natural Sciences, Engineering, Finance and Economy, and Teachers' Training. These faculties consist of 20 disciplines. The enrollment is 3,000, including 1,863 undergraduates, 1,103 professional training students, 185 evening school students and 29 professional trainees of cadres. TRAFFIC UNIVERSITY

西南交通大学是直属铁道部的一所以工科为主,工、理、管、文相结合的全国重点大学。学校创办于 1886 年,随着历史的变迁,曾先后命名为北洋铁路官学堂、交通大学唐山工学院、唐山铁道学院等。悠久的历史,形成了“严谨治学、刻苦钻研、艰苦朴素、实事求是”的良好校风。

学校设有:铁道及道路工程系、桥梁及地下工程系、建筑工程系、建筑系、工程地质系、测量工程系、机械工程系、机械工程系二系、材料工程系、电气工程系、计算机科学与工程系、运输工程系、应用物理系、工程力学系、外语系、社会科学系、管理工程系等 15 个系,31 个本科专业,18 个专科专业。学校还设有研究生部和成人教育学院。现有 27 个学科专业可授予硕士学位,6 个学科专业可授予博士学位。有在校学生近 8000 人,其中:博士生 91 人,硕士生 384 人,本科生 4689 人,专科生 1926 人,函授生 594 人,夜大生 191 人。

学校设有:结构工程、岩土工程、机车车辆、电

磁场与微波技术、铁道电气化与自动化、计算机应用及信息工程、交通运输系统工程、航测及工程地质、材料工程、机械工程、环境保护工程、软科学、应用数学、高等教育、应用力学等 15 个研究所,75 个实验室和 8 个实验中心,其中牵引动力实验室为国家级重点实验室。此外,还设有勘测设计研究院、科技开发公司、出版社及图书馆。近几年有 100 多项科研成果获得国家、部、省级奖励。

目前,学校共有教职工 3469 人,其中:教师 1358 人,内有教授 143 人,副教授 287 人,讲师 647 人。另有其他高级职称的 102 人,中级职称的 514 人,是一支具有雄厚教学、科研力量的队伍。

学校校址原在四川峨嵋山下,1986 年开始在成都九里堤新建总校,规划校园占地 1060 亩。现已建成校舍面积 30 万 m^2 ,正在继续配套完善。这一新校园规划合理,设计新颖,环境良好,将为教学、科研和师生生活创造良好的条件。

Southwest Traffic University is a key university directly under Ministry of Railway, which gives first priority to engineering and involves engineering, science, management, and liberal arts in it. The University was founded in 1886. During the long course of historical change, it has been successively named as Beiyang Railway Officer School, Tangshan Engineering Faculty of Traffic University, and Tangshan Railway College. And the long history has endowed it with the good practice of "Being Rigorous in Scholarship, Studying Assiduously, Working Hard and Living Plainly, Seeking Truth From Facts".

There are 15 departments, i. e., Railway and Road Engineering, Bridge and Underground Engineering, Construction Engineering, Architecture, Mechanical Engineering I, Mechanical Engineering II, Materials Engineering, Electrical Engineering, Computer Science and Engineering, Transportation Engineering, Applied Physics, Engineering Mechanics, Foreign Languages, Social Science, Management Engineering. Those departments offer 31 undergraduate disciplines, 18 professional training specialties. The University has also a Graduate School and an Adult Education School. At present 27 specialties confer doctor degrees and 6 confer master degrees. The enrollment is over 8,000, including 91 doctoral students and 384 master's students, 4,689 undergraduates, 1,926 professional students, 594 correspondence students, and 191 evening school students.

The University embraces 15 research institutes, which are Fallow Engineering, Rock Engineering, Locomotive and Railway Cars, Electromagnetic Field and Microwave Technology, Railway Electrification and Automation, Application of Computer and Information Engineering, Transportation System Engineering, Aerial Survey and Engineering Geology, Material Engineering, Mechanical Engineering, Environmental Protection Engineering, Soft Science, Applied Mathematics, Higher Education, Applied Mechanics. In addition, there are 75 laboratories and 8 experimental centers, among which, the Traction Force Laboratory is a key one of state level. Besides, there is a Survey and Designing Research Institute, a science and technology development corporation, a publishing house, and a library. In recent years, more than 100 research projects have won national, ministerial or provincial prizes.

The University has a strong teaching and research contingent. Its teaching staff totals 3,469, of whom 1,358 are teachers, including 143 professors, 287 associate professors, 647 lecturers; 102 have other senior academic titles and 514 possess intermediate ones.

The University was originally located at the foot of E-meí Mountain. The present campus has been built in Jiulidi of Chengdu city since 1986. It is designed to cover an area of 176 acres. Now the completed building space is 300,000 m^2 . The new campus is well arranged and designed, enjoying a good environment, providing favourable conditions for teaching, researching and living.
