Acknowledgements

We are most grateful to Adam Davies, Gwen Jones and Kate Hardcastle at Woodhead/Elsevier for initiating this project and driving us to completion in a timely manner. Further, we commend the excellent work of all at SPi Technologies India Private Limited for their accurate typesetting and picking up fine detail we missed, and especially Sharmila Vadivelan and Debasish Ghosh at Elsevier for coordinating the final corrections to the proofs.

Our sincere thanks go to the many colleagues, friends, and family, who have provided inspiration, suggestions, ideas and support, especially Dr. Elke Graham-Jones and Carolyn Thomas.
