DOVER PUBLICATIONS, INC.
New York

At Dover Publications we're committed to producing books in an earth-friendly manner and to helping our customers make greener choices.

Manufacturing books in the United States ensures compliance with strict environmental laws and eliminates the need for international freight shipping, a major contributor to global air pollution. And printing on recycled paper helps minimize our consumption of trees, water and fossil fuels.

The text of this book was printed on paper made with 50% post-consumer waste and the cover was printed on paper made with 10% post-consumer waste. At Dover, we use Environmental Paper Network's Paper Calculator to measure the benefits of these choices, including: the number of trees saved, gallons of water conserved, as well as air emissions and solid waste eliminated.

Courier Corporation, the manufacturer of this book, owns the Green Edition Trademark.

Please visit the product page for *Paisleys and Other Textile Designs from India* at www.doverpublications.com to see a detailed account of the environmental savings we've achieved over the life of this book.

PAISLEYS
AND OTHER
TEXTILE DESIGNS
FROM INDIA

Publisher's Note

From ancient traditions of Indian art and handicraft, K. Prakash has created this unique collection of textile designs. *Paisleys and Other Textile Designs from India* contains 144 pages of ornamental design patterns collected from India's different regions, such as Banaras, center of fine arts and exquisitely designed fabrics, as well as Kashmir, Punjab and other parts of North and South India. In addition to the rich floral patterns, this collection features unique paisleys, a pattern with roots in Mughal art and one that is as popular today as when it was introduced to the West in the early eighteenth century.

Each design is clearly printed, featuring a wealth of intricate details that will make this book an invaluable resource for fashion designers, fabric painters, embroiderers and other textile artists.
