Acknowledgments

I deeply appreciate the help and encouragement I received during the preparation of this work.

My research would not have been possible without access to library facilities and staff. The work was aided by capable cooperation from the Cook County Law Library and its International and Foreign Law Department staff. A special expression of gratitude is due to the Library of the School of Law, Northwestern University, for granting me the privilege to use its superb international collection throughout my work.

Robert M. Gordon and Sally Vllman prepared the tables and index with diligence and skill. Kathleen M. Bacom and Marilyn Sheming devoted countless hours to typing the entire manuscript with unusual dedication. During manuscript preparation, I benefited greatly from the encouragement and advice of several editors at Shepard's/McGraw-Hill.

Lorin S. Weisenfeld's reading of most of the manuscript was helpful and encouraging, and I am grateful.

Above all, I acknowledge with love the understanding, patience and encouragement of my wife, Michele.
