## About the Authors

Jack R. Fraenkel is currently Professor of Interdisciplinary Studies in Education and Director of the Research and Development Center, College of Education, San Francisco State University. He received his Ph.D. from Stanford University and has taught courses in research

methodology for more than 20 years. In 1997, he received the James A. Michener prize in writing for his writings about the social studies and the social sciences. His current work centers around advising and assisting faculty and students in generating and developing research endeavors.

**Norman E. Wallen** is Professor Emeritus of Interdisciplinary Studies in Education at San Francisco State University, where he taught from 1966 to 1992. An experienced researcher, he received his Ph.D. from Syracuse University and taught courses in statistics and research design to

master's and doctoral students for many years. He is a recent member of the City Council of Flagstaff, Arizona, and the Executive Committee, Grand Canyon Chapter of the Sierra Club.

To Marge and Lina for all their support

## List of Features

#### Research Reports

Effects of Cooperative Learning Among Hispanic Students in Elementary Social Studies 290

Effects of Choice Making on the Serious Problem Behaviors of Students with Severe Handicaps 321

The Relationship Between Time to Completion and Achievement on Multiple-Choice Items 354

Personal, Social, and Family Characteristics of Angry Students 378

Jobs, Careers, and Callings: People's Relations to Their Work 412

Why Students of Color Are Not Entering Teaching: Reflections from Minority Teachers 465

Student Teachers and Classroom Discipline 495

Dumping Ground or Effective Alternative? Dropout-Prevention Programs in Urban Schools 526

Lydia Ann Stow: Self-actualization in a Period of Transition 557

What Do You Mean "Think Before I Act"?: Conflict Resolution with Choices 587

#### Research Tips

Key Terms to Define in a Research Study 32 What a Good Summary of a Journal Article Should Contain 79 Some Tips About Developing Your Own Instrument 125

Sample Size 241

How Not to Interview 462

Things to Consider When Doing In-School Research 585

Questions to Ask When Evaluating a Research Report 608

#### More About Research

Chaos Theory 8

The Importance of a Rationale 34

Some Important Relationships That Have Been Clarified by Educational Research 43

Patients Given Fake Blood Without Their Knowledge 61

An Example of Unethical Research 63

Department of Health and Human Services Revised Regulations for Research with Human Subjects 65

The Difficulty in Generalizing from a Sample 111

Checking Reliability and Validity—An Example 171

Threats to Internal Validity in Everyday Life 188

Some Thoughts About Meta-Analysis 190

Correlation in Everyday Life 219

Interpreting Statistics 262

Significant Findings in Experimental Research 288

Important Findings in Single-Subject Research 317

Examples of Studies Conducted Using Single-Subject Designs 319

Important Findings in Correlational Research 339

Significant Findings in Causal-Comparative Research 377

Important Findings in Survey Research 401

Important Findings in Content Analysis Research 484

Important Findings in Ethnographic Research 513

Important Findings in Historical Research 555

An Important Example of Action Research 580

## Controversies in Research

Clinical Trials—Desirable or Not? 58

Ethical or Not? 64

Which Statistical Index Is Valid? 148

High-Stakes Testing 163

Is Consequential Validity a Useful Concept? 172

Can Statistical Power Analysis Be Misleading? 246

Statistical Inference Tests—Good or Bad? 257

Do Placebos Work? 278

How Should Research Methodologies Be Classified? 370

Is Low Response Rate Necessarily a Bad Thing? 410

Clarity and Postmodernism 435

Portraiture: Art, Science, or Both? 437

Should Historians Influence Policy? 554

How Much Should Participants Be Involved in Research? 576

## List of Tables and Figures

#### Tables

- **Table 5.1** Some of the Major Indexing and Abstracting Services Used in Educational Research 74
- **Table 5.2** Major Directories on the World Wide Web 85
- Table 5.3 Leading Search Engines 85
- **Table 6.1** Part of a Table of Random Numbers 99
- **Table 6.2** A Hypothetical Population of 99 Students 107
- **Table 6.3** Sample I, Selected from the Population in Table 6.2 108
- **Table 6.4** Statistics of Sample I, Compared to Population Parameters from Table 6.2 108
- **Table 6.5** Sample 2. Selected from the Population in Table 6.2 108
- **Table 6.6** Statistics of Samples 1 and 2 Compared to Population Parameters from Table 6.2 108
- **Table 6.7** Combined Sample Statistics Compared to Population Parameters from Table 6.2 108
- **Table 6.8** Samples 3 and 4, Selected from the Population in Table 6.2 109
- **Table 6.9** Combined Statistics for All Four Samples Compared to Population Parameters 109
- **Table 7.1** Hypothetical Example of Raw Scores and Accompanying Percentile Ranks 144

- **Table 7.2** Characteristics of the Four Types of Measurement Scales 147
- **Table 7.3** Hypothetical Results of Study Involving a Comparison of Two Counseling Methods 149
- Table 8.1 Example of an Expectancy Table 164
- **Table 8.2** Methods of Checking Validity and Reliability 168
- **Table 9.1** General Techniques for Controlling Threats to Internal Validity 191
- **Table 10.1** Example of a Frequency Distribution 201
- **Table 10.2** Example of a Grouped Frequency Distribution 202
- **Table 10.3** Example of a Calculation of the Mode, Median, and Mean in a Distribution 205
- **Table 10.4** Yearly Salaries of Workers in a Small Business 206
- **Table 10.5** Calculation of the Standard Deviation of a Distribution 208
- **Table 10.6** Comparisons of Raw Scores and z Scores on Two Tests 210
- **Table 10.7** Data Used to Construct Scatterplot in Figure 10.16 214
- **Table 10.8** Frequency and Percentage of Total of Responses to Questionnaire 218
- **Table 10.9** Grade Level and Gender of Teachers (Hypothetical Data) 220

**Table 10.11** Position, Gender, and Ethnicity of School Leaders (Hypothetical Data) 220

**Table 10.12** Position and Ethnicity of School Leaders with Expected Frequencies (Derived from Table 10.11) 221

**Table 10.13** Position and Gender of School Leaders with Expected Frequencies (Derived from Table 10.11) 221

**Table 10.14** Gender and Ethnicity of School Leaders with Expected Frequencies (Derived from Table 10.11) 221

**Table 10.15** Total of Discrepancies Between Expected and Observed Frequencies in Tables 10.12 Through 10.14 221

**Table 10.16** Crossbreak Table Showing Relationship Between Self-Esteem and Gender (Hypothetical Data) 222

**Table 11.1** Contingency Coefficient Values for Different-Sized Crossbreak Tables 244

Table 11.2 Commonly Used Inferential Techniques 244

**Table 12.1** Interpretation of Correlation Coefficients when Testing Research Hypotheses 259

**Table 12.2(a)** Gender and Political Preference (Percentages) 259

**Table 12.2(b)** Gender and Political Preference (Numbers) 259

**Table 12.3** Teacher Gender and Grade Level Taught: Case 1 259

**Table 12.4** Teacher Gender and Grade Level Taught: Case 2 260

**Table 12.5** Summary of Commonly Used Statistical Techniques 261

**Table 13.1** Effectiveness of Experimental Designs in Controlling Threats to Internal Validity 284

**Table 15.1** Three Sets of Data Showing Different Directions and Degrees of Correlation 338

**Table 15.2** Teacher Expectation of Failure and Amount of Disruptive Behavior Scores for a Sample of 12 Classes 340

**Table 15.3** Correlation Matrix for Variables in Student Alienation Study 344

**Table 15.4** Example of Data Obtained in a Correlational Design 346

**Table 16.1** Grade Level and Gender of Teachers (Hypothetical Data) 377

**Table 17.1** Advantages and Disadvantages of Survey Data-Collection Methods 399

**Table 17.2** Advantages and Disadvantages of Closed-Ended Versus Open-Ended Questions 403

**Table 18.1** Quantitative Versus Qualitative Research 43I

**Table 18.2** Major Characteristics of Qualitative Research 433

**Table 18.3** Differing Philosophical Assumptions of Quantitative and Qualitative Researchers 434

**Table 19.1** Interviewing Strategies Used in Educational Research 457

**Table 19.2** Qualitative Research Questions, Strategies, and Data Collection Techniques 464

Preface xvii

#### Introduction to Research 1 PART

CHAPTER 1 The Nature of Educational Research 2

Interactive and Applied Learning 3

Some Examples of Educational Concerns 4

Why Research Is of Value 4

Ways of Knowing 4

Types of Research 10

General Research Types 14

Critical Analysis of Research 16

A Brief Overview of the Research Process 19

Main Points 21

Key Terms 22

For Discussion 23

Notes 23

Research Exercise One 24

Problem Sheet 1 24

#### The Basics of Educational Research 25 2 PART

#### CHAPTER 2 The Research Problem 26

Interactive and Applied Learning 27

What Is a Research Problem? 28

Research Questions 28

Characteristics of Good Research Questions 29

Research Questions Often Investigate

Relationships 34

Main Points 35

Key Terms 36

For Discussion 36

Research Exercise Two 37

Problem Sheet 2 37

#### CHAPTER 3 Variables and Hypotheses 38

Interactive and Applied Learning 39

The Importance of Studying

Relationships 40

Variables 41

Hypotheses 45

Main Points 50

Key Terms 50

For Discussion 51

Research Exercise Three 52

Problem Sheet 3 52

#### **CHAPTER 4** Ethics and Research 54

Interactive and Applied Learning 55

Some Examples of Unethical Practice 56

A Statement of Ethical Principles 56

Protecting Participants from Harm 57

Ensuring Confidentiality of Research Data 58

Should Subjects Be Deceived? 59

Three Examples Involving Ethical Concerns 60

Research with Children 63

Regulation of Research 63

Main Points 65

Key Terms 66

For Discussion 66

Notes 66

Research Exercise Four 67

Problem Sheet 4 67

#### CHAPTER 5 Review of the Literature 68

Interactive and Applied Learning 69

The Value of a Literature Review 70

Types of Sources 70

Doing a Manual Search 71

Doing a Computer Search 78

Writing the Literature Review Report 88

Main Points 89

Key Terms 90

For Discussion 90

Notes 91

Research Exercise Five 92

Problem Sheet 5 92

#### CHAPTER 6 Sampling 94

Interactive and Applied Learning

What Is a Sample? 96

Random Sampling Methods 99

Nonrandom Sampling Methods 102

A Review of Sampling Methods 105

Sample Size 106

External Validity: Generalizing

from a Sample 109

Main Points 113

Key Terms 114

For Discussion 114

Research Exercise Six 115

Problem Sheet 6 115

#### **CHAPTER 7** Instrumentation 116

Interactive and Applied Learning 117

What Are Data? 118

Means of Classifying Data-Collection

Instruments 119

Examples of Data-Collection Instruments 123

Types of Scores 142

Norm-Referenced Versus Criterion-Referenced

Instruments 144

Measurement Scales 145

Preparing Data for Analysis 148

Main Points 150

Key Terms 151

For Discussion 152

Notes 153

Research Exercise Seven 153

Problem Sheet 7 154

#### CHAPTER 8 Validity and Reliability 156

Interactive and Applied Learning 157

The Importance of Valid Instruments 158

Validity 158

Reliability 165

Main Points 172

Key Terms 173

For Discussion 173

Notes 174

Research Exercise Eight 175

#### CHAPTER 9 Internal Validity 176

Interactive and Applied Learning 177

What Is Internal Validity? 178

Threats to Internal Validity 179

How Can a Researcher Minimize These Threats

to Internal Validity? 190

Main Points 192 Key Terms 193 For Discussion 193 Notes 194 Research Exercise Nine 195 Problem Sheet 9 195

#### PART 3 Data Analysis 197

#### **CHAPTER 10** Descriptive Statistics 198

Interactive and Applied Learning 199

Statistics Versus Parameters 200

Two Fundamental Types of Numerical Data 200

Techniques for Summarizing Quantitative Data 201

Techniques for Summarizing Categorical Data 217

Main Points 222

Key Terms 223

For Discussion 224

Research Exercise Ten 225

Problem Sheet 10 225

#### CHAPTER 11 Inferential Statistics 226

Interactive and Applied Learning 227

What Are Inferential Statistics? 228

The Logic of Inferential Statistics 228

Hypothesis Testing 235

Practical Versus Statistical Significance 237

Inference Techniques 240

Main Points 247

Key Terms 248

For Discussion 249

Research Exercise Eleven 250

Problem Sheet 11 250

#### CHAPTER 12 Statistics in

#### Perspective 252

Interactive and Applied Learning 253

Approaches to Research 254

Comparing Groups: Quantitative Data 254

Relating Variables Within a Group:

Quantitative Data 257

Comparing Groups: Categorical Data 259

Relating Variables Within a Group:

Categorical Data 260

A Recap of Recommendations 260

Main Points 262

Key Terms 263

For Discussion 263

Research Exercise Twelve 264

Problem Sheet 12 264

#### PART 4 Quantitative Research Methodologies 265

## **CHAPTER 13** Experimental Research 266

Interactive and Applied Learning 267

The Uniqueness of Experimental

Research 268

Essential Characteristics of Experimental

Research 269

Control of Extraneous Variables 270

Group Designs in Experimental Research 271

Control of Threats to Internal Validity: A Summary 282

Evaluating the Likelihood of a Threat to Internal Validity in Experimental Studies 285

Control of Experimental Treatments 287

An Example of Experimental Research 288

Research Report 290

Analysis of the Study 297

Main Points 300
